Other State Programs

Internships and other work-based learning opportunities are available in Oregon schools, but implementation is left up to the local school district. The Oregon Department of Education does provide some resources based on work conducted through CTE Revitalization Grant projects. Tennessee and Kentucky provide work-based learning programs coordinated at the state level. Information on those programs can be found at the links below.

Tennessee - https://www.tn.gov/education/topic/work-based-learning

Kentucky - http://education.ky.gov/CTE/cter/Pages/WBL.aspx

Recipient	Biennium	Internships
Sunset High School - Beaverton SD	2015-2017	5 students each year will participate in an internship.
Roseburg High School – Douglas SD	2015-2017	12 students to complete internships.
Elgin High School – Elgin SD	2015-2017	4 students to complete internships.
Gaston High School – Gaston SD	2015-2017	20% of students will have job shadow or internship.
Century High School - Hillsboro SD	2015-2017	15 paid internships and 40 unpaid internships.
Henley High School – Klamath County SD	2015-2017	Summer internships planned.
Waldport High School – Lincoln County SD	2015-2017	5 students to complete internships.
McMinnville High School – McMinnville SD	2015-2017	Cultivate new internship.
Sabin Schellenberg Technical Center – North Clackamas SD	2015-2017	Internships available.
Pendleton High School – Pendleton SD	2015-2017	Increase internships and job shadows by 25%.
Redmond High School – Redmond SD	2015-2017	75% of students will earn internships or work experience.
South Coast ESD	2015-2017	40 hour required internship.
Southern Oregon ESD	2015-2017	Increase internship by 10%.
Tigard High School – Tigard-Tualatin SD	2015-2017	Develop 25 plus internships.
Yamhill-Carlton High School – Yamhill-Carlton SD	2015-2017	Establish 10 internships.

Recipient	Biennium	Internships
Centennial High School – Centennial SD	2013-2015	3 students entered into manufacturing related internships and 5 entered into entry level positions in the manufacturing industry.
Enterprise High School – Enterprise SD	2013-2015	Increased internships.
Grant ESD	2013-2015	Increased internships.
Grant Union High School – Grant School District	2013-2015	Increased internships.
Hermiston High School – Hermiston SD	2013-2015	Increased internships.
Hood River Valley High School – Hood River SD	2013-2015	40 internships available.
Joseph Charter School – Joseph SD	2013-2015	6 internships available.
Lane ESD Construction	2013-2015	Increased internships.
Lane ESD Health Care	2013-2015	42 student internships.
McMinnville High School – McMinnville SD	2013-2015	Increased internships.
Newberg High School – Newberg SD	2013-2015	13 internships available.
Portland Public Schools	2013-2015	25 internships available.
Rainier High School – Rainier SD	2013-2015	Increased internships.
Redmond High School – Redmond SD	2013-2015	9 internships available.
Sisters High School – Sisters SD	2013-2015	Increased internships.
Salem-Keizer SD	2013-2015	Increased internships.
Sutherlin High School – Sutherlin SD	2013-2015	15 internships available.
Vernonia High School – Vernonia SD	2013-2015	Increased internships.
Wallowa High School – Wallowa SD	2013-2015	23 internships available.
Astoria SD	2015-2017	50% of students will have an internship.
Baker Technical Institute - Baker SD	2015-2017	Increase student internships.

Grant Recipient	Notes
Intermountain ESD - Pendleton	Intermountain ESD will provide Student Tech Internships. Students will work with ESD IT staff during the summer and school year.
Portland Public Schools	Portland Public Schools will work with Worksystems Inc. to provide some high school student internships.

CTE Revitalization Grant Recipients

The CTE Revitalization Grant has been awarded to 65 recipients since it was first funded during the 2011-2013 biennium. The table below includes the name of the recipient, the year funded, and whether internships were a part of the project or are planned for current projects.

Recipient	Biennium	Internships
Canby High School – Canby SD	2011-2013	Canby High School focused their project on expanding internships. They also produced resources that are now available to all schools through the ODE website.
Churchill HS – Eugene SD	2011-2013	55 partners offered to provide internships for students.
Wallowa ESD	2011-2013	3 students participated in summer internships.
Health and Science School – Beaverton SD	2013-2015	283 internship opportunities were available.
Willamette High School – Bethel SD	2013-2015	Increased internships.
Clackamas Academy of Industrial Sciences – Oregon City SD	2013-2015	Increased internships.
Center for Advanced Learning – Gresham-Barlow SD	2013-2015	Increased internships.

Program/Provider	Description
Impact Northwest – Pathways to Manufacturing	Working with schools and industry partners, the Pathways to Manufacturing Program creates clear pathways to careers in the manufacturing industry among Portland area youth and their families. A 2012 study completed by the Columbia-Willamette Workforce Collaborative found that 47% of manufacturing companies identified the lack of new workers entering the industry as a top concern, with 68% stating that they anticipated having the most difficulty filling highly-paid skilled production positions over the next three years. At the request of regional manufacturers, the Manufacturing 21 Coalition and in response to the needs expressed by area high schools, Impact NW created Pathways to Manufacturing in partnership with Daimler Trucks North America and Vigor Industrial. The Pathways to Manufacturing Program is currently available at Franklin, Centennial, Rosemary Anderson and David Douglas High Schools, as well as Reynolds Learning Academy.

CTE Summer Program Grant Recipients

The following schools, districts, and Education Service Districts have received funding to conduct summer CTE programs and have included some form of internship in their program. These opportunities begin during the summer of 2016.

Grant Recipient	Notes
Center for Advanced Learning – Gresham-Barlow School District	This Summer CTE Program Grant will offer 35 internships lasting 160 to 180 hours during two summers. The program is working with Impact Northwest to set up those opportunities.
Hillsboro School District	Hillsboro School District will hire 10 high school students as paid interns to serve as peer mentors during the summer.

Program/Provider	Description
McMinnville Economic Development Partnerships - WORKS	This award-winning program is a 9-week project-based, paid summer internship designed to connect the emerging workforce with the career opportunities in our community. The program includes weekly Professional Development Workshops along with tours of each company to give interns a perspective of the diverse industries that are located in McMinnville. There are 16 host sites, 21 summer interns, 9 professional development sessions, and then several full time employment positions offered post-internship.
Hillsboro Chamber of Commerce – School to Career	The School to Career program facilitates career-related learning experiences (CRLEs) for high school students and supports high school staff in college and career centers to guide their students to appropriate opportunities. Since 1995, Hillsboro Chamber's School to Career Program has been supporting local students by facilitating career days, career spotlight events, guest speakers, mock interviews, informational interviews, job shadows and internships.
Portland Workforce Alliance	The Portland Workforce Alliance builds enduring partnerships between local businesses and Portland-area high schools. By providing students with real-life work experiences and career-learning opportunities, we enrich their academic knowledge, inspire them to graduate and help them make informed choices after high school and college. PWA partners with ACE Mentor Program, Pacific NW Carpenters Institute for Summer Construction Camp, PACE Mentorship through Associated General Contractors, Kaiser Permanente and health care internships, and OHSU.

Program/Provider	Description
Chehalem Valley Chamber of Commerce – Steps Up Chehalem Valley	The Steps Up Chehalem Valley Internship program is a 9-week paid summer internship from **June 20th – August 18th, 2016** serving High School and College age students, 16–24 years old. The Internship includes four hours of paid Professional Development Training every week on Wednesday that will help prepare students for a bright future regardless of their career path. The program is modeled after the award-winning Climax internship program. Professional development curriculum provides a workshop covering customer service, principles of lean manufacturing, project management, public speaking, resume preparation, interviewing skills, social media for networking and job searching, personal finance, first aid and CPR certification, and social consciousness.
Climax Manufacturing Summer Internship Programs	The Climax Manufacturing Summer Internship Programs provide opportunities for young people through comprehensive summer internship programs. The internships allow promising students an opportunity to sample a career, learn marketable skills and apply their classroom learning—all while developing their future workforce. Students have job-specific work experiences plus attend a series of workshops to further develop employee skills, including Lean Manufacturing, business and personal finance, interview and job search skills, first aid, understanding insurance and benefits, and more. Students earn both high school and Portland Community College credit for their participation.

Learning that works for Oregon CTE

CTE Internship opportunities for high school students have been increasing often as a result of various grant programs such as the CTE Revitalization Grant and the CTE Summer Programs Grant. In addition, there are a number of community organizations that offer internship opportunities for youth. In most cases, these opportunities are not considered employment by cooperating businesses. They do fall under the category of paid internships and must follow rules established by the Bureau of Labor and Industries (BOLI).

Community Organizations

The following table includes examples of work-based learning opportunities offered to students. Some of the organizations listed coordinate internships for students enrolled in high school and some focus on students who have left high school. This is not an exhaustive list since there is no obligation to report the opportunities to the Oregon Department of Education.

Program/Provider	Description
SummerWorks - Worksystems Inc.	Through SummerWorks, young people ages 16 to 24 receive work-readiness training prior to placement, screening and matching youth based on the skills and preferences you specify in the position description, ongoing job coaching to support the youth and the intern supervisor throughout the experience, advising and networking opportunities to integrate the summer experience into each youth's education and career goals, and employer of record service to include payroll processing, taxes, and insurance.
