(b) Except as provided in paragraph (c) of this subsection, processed reclaimed fish that a food bank uses or distributes for food bank purposes without charge to the recipient, including but not limited to reclaimed fish that is repackaged or relabeled by the food bank prior to use or distribution, is exempt from labeling requirements under ORS 616.205 to 616.385. The exemption granted under this paragraph is conditioned upon the reclaimed fish not being adulterated as described in ORS 616.205 to 616.385 at the time the food bank uses or distributes the reclaimed fish.

(c) Processed reclaimed fish described in paragraphs (a) and (b) of this subsection is

not exempt from any labeling requirement under ORS 616.205 to 616.385 regarding:

(A) The name and address of the food establishment;

(B) The common or usual name of the product;

(C) Ingredients;

(D) Manufacturing date or lot number; or

(E) Instructions for preservation, storage or other food safety measures. [2012 c.5 §2]

Note: 616.223 was added to and made a part of 616.205 to 616.385 by legislative action but was not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

616.225 Disposal of adulterated, misbranded, unsound or unsafe food or consumer commodity. (1) Whenever a duly authorized representative of the State Department of Agriculture finds, or has probable cause to believe, that any food or consumer commodity is adulterated, or so misbranded as to be dangerous or fraudulent, within the meaning of ORS 616.205 to 616.295, the representative shall affix to such article a tag or other appropriate marking, giving notice that such article is, or is suspected of being adulterated or misbranded and has been detained, embargoed or seized, and warning all persons not to remove or dispose of such article by sale or otherwise until permission for removal or disposal is given by an authorized representative of the department. No person shall remove or dispose of such detained, embargoed or seized article by sale or otherwise without permission of the department.

(2) Whenever the department or any of its authorized representatives finds in any room, building, vehicle of transportation, or other structure, any meat, fluid milk, dairy product, seafood, poultry, vegetable, fruit or other perishable articles which are unsound, or contain any filthy, decomposed or putrid substance, or that may be poisonous or deleterious to health or otherwise unsafe, the same hereby being declared a nuisance, the department or its authorized representative forthwith shall condemn or destroy the same, or in any other manner render it unsalable as human food.

(3) The department shall carry out the provisions of this section as provided in ORS 561.605 to 561.630. [Amended by 1973 c.227 §4]

616.230 Definitions and standards; conformity to federal regulations; rules. (1) The State Department of Agriculture, by rule, shall establish definitions and standards of identity, quality and fill of container for the State of Oregon. In carrying out the provisions of this subsection, the department shall take into consideration definitions and

standards established in other states and definitions and standards established pursuant to the federal Act.

(2) Whenever in the judgment of the department such action will promote honesty and fair dealing in the interest of consumers, the department shall promulgate rules establishing definitions and standards of identity, quality and fill of container for foods for which no such definitions or standards have been established under the federal Act. In addition, the department may promulgate rules supplementing or amending any rule under the federal Act which sets definitions and standards of identity, quality and fill of container for foods.

(3) Temporary permits for interstate shipment of experimental packs of food varying from the requirements of definitions and standards of identity under the federal Act are effective in this state under the conditions stated in such permits. In addition, the department may issue additional permits when such permits are determined by the department to be necessary to the completion or conclusiveness of an otherwise adequate investigation and when the interests of consumers are safeguarded. Such permits shall be subject to any terms and conditions the department may prescribe. [Amended by 1973 c.227 §5; 1975 c.304 §5]

616.235 When food deemed adulterated; rules. A food shall be deemed to be adulterated:

(1)(a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health. However, if the substance is not an added substance such food shall not be considered adulterated under this paragraph if the quantity of such substance in such food does not ordinarily render it injurious to health.

(b) If it bears or contains any added poisonous or added deleterious substance, other than a pesticide chemical in or on a raw agricultural commodity and other than a food additive or color additive, which is unsafe within the meaning of ORS 616.245, or it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of ORS 616.341 or if it is, bears or contains any food additive which is declared unsafe by the State Department of Agriculture under ORS 616.350. However, when a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under ORS 616.341, and such raw agricultural commodity has been subjected to processing, such as canning, cooking, freezing, dehydrating or milling, the residue of such pesticide chemical remaining in or on such processed food,

notwithstanding ORS 616.341 and this section are not unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of such residue in the processed food when ready-to-eat, is not greater than the tolerance prescribed for the raw agricultural commodity.

(c) If it consists in whole or in part of a diseased, contaminated, filthy, putrid or decomposed substance, or if it is otherwise unfit for food.

(d) If it has been produced, prepared, packed or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered diseased, unwholesome or injurious to health.

(e) If it is, in whole or in part, the product of a diseased animal or an animal which has died otherwise than by slaughter, or that has been fed upon the uncooked offal from a slaughterhouse.

(f) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(2)(a) If any valuable constituent has been in whole or in part omitted or abstracted therefrom;

(b) If any substance has been substituted wholly or in part therefor;

(c) If damage or inferiority has been concealed in any manner; or

(d) If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength or make it appear better or of greater value than it is.

(3)(a) If it is confectionery and has partially or completely imbedded therein any nonnutritive object. This paragraph does not apply in the case of any nonnutritive object if, in the judgment of the department, such object is of some practical functional value to the confectionery product and would not render the product injurious or hazardous to health.

(b) If it bears or contains any alcohol except alcohol not in excess of one-half of one percent by weight used solely as a flavoring.

(c) If it bears or contains any nonnutritive substance. This paragraph does not apply to a nonnutritive substance which is in or on confectionery if, in the judgment of the department, its use is of some practical functional value in the manufacture, packaging or storing of such confectionery and if the use of such substance does not

promote deception of the consumer or otherwise result in adulteration or misbranding in violation of any provision of ORS 616.205 to 616.215, 616.225 to 616.256, 616.286, 616.295, 616.310, 616.315, 616.325, 616.330, 616.341, 616.350 to 616.366, 616.790 and 616.992. The department, for the purpose of avoiding uncertainty in the application of this subsection, may promulgate rules allowing or prohibiting the use of particular nonnutritive objects or substances.

(d) If it bears or contains any color additive which is determined unsafe pursuant to ORS 616.350. [Amended by 1959 c.301 §1; 1961 c.637 §2; 1973 c.227 §6; 1983 c.304 §1]

616.240 [Repealed by 1965 c.501 §10]

616.245 Adding poisonous or deleterious substance; rules. Any poisonous or deleterious substance, other than a pesticide, added to any food except when the substance is required in the production thereof or cannot be avoided by good manufacturing practice shall be deemed to be unsafe for purposes of the application of ORS 616.235 (1)(b). When the substance is so required or cannot be so avoided, the State Department of Agriculture shall adopt rules limiting the quantity of the substance to the extent the department finds necessary for the protection of public health, and any quantity exceeding the limits so fixed shall also be deemed to be unsafe for purposes of the application of ORS 616.235 (1)(b). While such a rule is in effect limiting the quantity of any such substance in the case of any food, the food is not, by reason of bearing or containing any added amount of such substance, considered to be adulterated within the meaning of ORS 616.235 (1)(a). In determining the quantity of the added substance to be tolerated in or on different articles of food, the department shall take into account the extent to which the use of the substance is required or cannot be avoided in the production of each article and the other ways in which the consumer may be affected by the same or other poisonous or deleterious substances. [Amended by 1973 c.227 §7; 2005 c.22 §412]

616.250 When food deemed misbranded; rules. A food shall be deemed to be misbranded:

(1) If its labeling is false or misleading in any particular, or fails to conform to ORS 616.325.

(2) If it is offered for sale under the name of another food.

(3) If it is an imitation of another food, unless its label bears in type of uniform size and prominence the word "imitation" and, immediately thereafter, the name of the food imitated.

(4) If its container is so made, formed or filled as to be misleading.

(5) If in package form:

(a) Unless it bears a label containing:

(A) The name and place of business of the manufacturer, packer or distributor; and

(B) An accurate statement of the net quantity of the contents in terms of weight, measure, volume or numerical count. The statement shall be separately and accurately stated upon the principal display panel of the label.

(b) The same reasonable variations allowed in ORS chapter 618 shall be permitted.

(c) Exemptions as to small packages shall be established by rules promulgated by the State Department of Agriculture.

(6) If any word, statement or other information required by or under authority of ORS 616.205 to 616.295 to appear on the label or labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs or devices, in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(7) If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by rule as provided by ORS 616.230, unless it conforms to such definition and standard and its label bears the name of the food specified in the definition and standard, and, in so far as may be required by such rule, the common names of optional ingredients, other than spices, flavoring and coloring present in such food.

(8) If it purports to be or is represented as a food for which a standard of quality has been prescribed by rule as provided by ORS 616.230 and its quality falls below the standards such rule specifies, a statement that it falls below such standard.

(9) If it is a food for which a standard or standards of fill of container have been prescribed by rule as provided by ORS 616.230, and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such rule specifies, a statement that it falls below such standard.

(10) If it is not subject to the provisions of subsection (7) of this section, unless its label bears:

(a) The common or usual name of the food, if any there be; and

(b) In case it is fabricated from two or more ingredients, the common or usual name of each such ingredient.

However, spices, flavorings and colorings, other than those sold as such, may be designated as spices, flavorings and colorings, without naming them. To the extent that compliance with the requirements of paragraph (b) of this subsection is impractical or results in deception or unfair competition, exemptions shall be established by rule promulgated by the department.

(11) If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral and other dietary properties as the department determines to be, and by rule prescribed as, necessary in order to fully inform purchasers as to its value for such uses.

(12) If it bears or contains any artificial flavoring, artificial coloring or chemical preservative, unless it bears labeling stating that fact. To the extent that compliance with the requirements of this subsection is impracticable, exemptions shall be established by rule promulgated by the department. This subsection and subsections (7) and (10) of this section with respect to artificial coloring do not prohibit the use of harmless coloring matter in butter, cheese or ice cream. The provisions of this subsection with respect to chemical preservatives do not apply to a pesticide chemical when used in or on a raw agricultural commodity which is the product of the soil.

(13) If it is a raw agricultural commodity which is the product of the soil, bearing or containing a pesticide chemical applied after harvest, unless the shipping container of such commodity bears labeling which declares the presence of such chemical in or on such commodity and the common or usual name and the function of such chemical. However, no such declaration is required while such commodity, having been removed from the shipping container, is being held or displayed for sale at retail out of such container in accordance with the custom of the trade.

(14) If following the labeled directions or instructions on the product in using it as a food ingredient will result in the final food being adulterated or misbranded.

(15) If it is a color additive, unless its packaging and labeling are in conformity with the packaging and labeling requirements applicable to such color additive prescribed under the provisions of the federal Act.

(16) If it has been salvaged, unless it bears labeling or notification stating that fact. For the purposes of this subsection, "salvaged" means the reconditioning, repackaging, relabeling, cleaning or culling of foods that have been damaged or adulterated as a result of fire, storm, flood, water, smoke,

chemicals, radiation or commercial transit accident. [Amended by 1953 c.267 §2; 1973 c.227 §8; 1973 c.563 §1; 1983 c.740 §232; 1989 c.1025 §9; 2001 c.320 §4]

616.255 [Repealed by 1973 c.227 §9 (616.256 enacted in lieu of 616.255)]

616.256 Labeling exemption for foods to be repackaged; rules. The State Department of Agriculture may by rule exempt from any of the labeling requirements of ORS 616.205 to 616.385, food which is, in accordance with the practice of the trade, to be processed, labeled or repacked in substantial quantities at establishments other than those where originally processed or packed. Such exemptions shall be conditioned upon the fact that such food is not adulterated or misbranded under the provisions of ORS 616.205 to 616.385, upon the removal from such processing, labeling or repacking establishment. [1973 c.227 §10 (enacted in lieu of 616.255); 2001 c.320 §5]

616.260 [Repealed by 1973 c.227 §26]

616.265 When advertisement deemed false. An advertisement of a food shall be deemed to be false if it is false or misleading in any particular.

616.270 Determining when label or advertisement misleading. If any article is alleged to be misbranded because the labeling is misleading, or if any advertisement is alleged to be false because it is misleading, then in determining whether the labeling or advertisement is misleading, there shall be taken into account, among other things, not only representations made or suggested by statement, word, design, device, sound or in any combination thereof, but also the extent to which the labeling or advertisement fails to reveal facts material in the light of such representations or material with respect to consequences which may result from the use of the article to which the labeling or advertisement relates under the conditions of use prescribed in the labeling or advertisement thereof or under such conditions of use as are customary or usual.

616.275 Liability for dissemination of false advertisement. No publisher, radio broadcast licensee or agency or medium for the dissemination of an advertisement, except the manufacturer, packer, distributor or seller of the article to which a false advertisement relates, is liable under this section by reason of the dissemination by the publisher, licensee or agency or medium of such false advertisement, unless the publisher, licensee or agency or medium has refused, on the request of the State Department of Agriculture, or its authorized representative, to furnish the department the name and post-office address of the manufacturer, packer, distributor, seller or advertising agency who

caused the publisher, licensee or agency or medium to disseminate the advertisement.

616.280 [Repealed by 1961 c.637 §17]

616.285 [Repealed by 1973 c.227 §11 (616.286 enacted in lieu of 616.285)]

616.286 Inspection and investigation powers of department. (1) For purposes of enforcement of ORS 616.205 to 616.385, the State Department of Agriculture or any of its authorized representatives are authorized upon presentation of appropriate credentials to the owner, operator or agent in charge:

(a) To enter at reasonable times any food establishment or warehouse in which food is being held for introduction into commerce or vehicle being used to transport, hold or introduce such food in commerce.

(b) To inspect at reasonable times and within reasonable limits such food establishment, warehouse or vehicle and all pertinent equipment, finished and unfinished materials, containers and labeling therein, and to obtain samples necessary to the enforcement of ORS 616.205 to 616.385.

(c) To have access to and to copy all records of carriers in commerce showing the movement in commerce of any food or the holding thereof during or after such movement, and the quantity, shipper and consignee thereof. Evidence obtained under the authority of this paragraph may not be used in a criminal prosecution of the person from whom obtained and carriers are not subject to other provisions of ORS 616.205 to 616.385 by reason of their receipt, carriage, holding or delivery of food in the usual course of business as carriers.

(d) To enter at reasonable times any retail food establishment holding a valid liquor license to insure that the retail establishment properly posts the sign required by ORS 471.551.

(2) Upon completion of any inspection of a food establishment, warehouse or vehicle, and prior to leaving the premises, the authorized representative of the department making the inspection shall furnish to the owner, operator or agent in charge a written report setting forth any conditions or practices observed by such representatives which in the judgment of the representative indicate that any food in such establishment, warehouse or vehicle:

(a) Consists in whole or in part of any filthy, putrid or decomposed substance; or

(b) Has been prepared, packed or held, in whole or in part, under insanitary conditions whereby it may have become contaminated with filth or whereby it may have been rendered injurious to health.

(3) If the authorized representative of the department making any inspection of a food establishment, warehouse or vehicle has obtained samples in the course of such inspection, upon completion of the inspection and prior to leaving the premises, the representative shall furnish to the owner, operator or agent in charge a receipt describing the samples obtained, and shall tender or offer payment therefor.

(4) If samples are obtained as provided in subsection (3) of this section, and analyses are made of such samples for the purpose of ascertaining whether such food consists in whole or in part of any filthy, putrid or decomposed substance or is otherwise unfit for food, a copy of the results of such analyses shall be furnished by the department to the owner, operator or agent in charge. [1973 c.227 §12 (enacted in lieu of 616.285); 1991 c.324 §7; 2001 c.320 §6]

616.290 [Repealed by 1973 c.227 §26]

616.295 Reports and information issuable by department. (1) The State Department of Agriculture may cause to be published from time to time reports summarizing all judgments and court orders which have been rendered under ORS 616.205 to 616.295, 616.305 to 616.315, and 616.992, including the nature of the charge and the disposition thereof.

(2) The department also may cause to be disseminated such information regarding food as the department deems necessary in the interest of public health and the protection of the consumer against fraud.

(3) Nothing in this section shall be construed to prohibit the department from collecting, reporting and illustrating the results of its investigations. [Amended by 1973 c.227 §13; 2003 c.576 §525]

616.300 [Repealed by 1953 c.686 §37]

616.305 District attorney to prosecute violations. The district attorney of each county to whom the State Department of Agriculture or its authorized representative reports any violation of ORS 616.205 to 616.295 or 616.305 to 616.315 shall cause appropriate proceedings to be instituted in the proper courts without delay and to be prosecuted in the manner required by law.

616.310 Notice or warning of minor violations. Nothing in ORS 616.205 to 616.295, 616.305 to 616.315 and 616.992 shall be construed as requiring the State Department of Agriculture to report for the institution of proceedings under those sections minor violations of those sections whenever the department believes that the public interest will be served adequately in the circumstances by a suitable written notice or warning. [Amended by 1973 c.227 §14]

616.315 Jurisdiction of courts. Justice courts have concurrent jurisdiction with the circuit courts for the enforcing of the provisions of ORS 616.205 to 616.295, 616.305 to 616.315 and 616.992. [Amended by 1973 c.227 §15]

616.320 Short title. ORS 616.205 to 616.385 may be cited as the Oregon Food Law. [Amended by 2001 c.320 §7]

616.325 Consumer commodity labeling requirements; restrictions on consumer commodity distribution; rulemaking; conformance to federal standards. (1) All labels of consumer commodities shall conform to such requirements for the declaration of net quantity of contents as the State Department of Agriculture by rule may prescribe. In carrying out the provisions of this subsection, the department shall consider the requirements and exemptions provided in the federal Fair Packaging and Labeling Act, 15 U.S.C. 1451, et seq., as amended, and the rules promulgated pursuant thereto.

(2) The label of any package of a consumer commodity which bears a representation as to the number of servings of such commodity contained in such package shall bear a statement of the net quantity, in terms of weight, measure or numerical count, of each such serving.

(3) No person shall distribute or cause to be distributed in commerce any packaged consumer commodity if any qualifying words or phrases appear in conjunction with the separate statement of the net quantity of contents required by subsection (1) of this section, but nothing in this subsection prohibits supplemental statements, at other places on the package, describing in nondeceptive terms the net quantity of contents. Such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure or count that tends to exaggerate the amount of the commodity contained in the package.

(4) Whenever the department determines that rules containing prohibitions or requirements other than those prescribed by subsection (1) of this section are necessary to prevent the deception of consumers or to facilitate value comparisons as to any consumer commodity, the department shall promulgate rules with respect to that commodity which:

(a) Establish and define standards for the characterization of the size of a package enclosing any consumer commodity, which may be used to supplement the label statement of net quantity of contents of packages containing such commodity. This paragraph shall not be construed as authorizing any limitation on the size, shape, weight, dimen-

sions or number of packages which may be used to enclose any commodity;

(b) Regulate the placement upon any package containing any consumer commodity or upon any label affixed to such commodity, of any printed matter stating or representing by implication that such commodity is offered for retail sale at a price lower than the ordinary and customary retail sale or that a retail sale price advantage is accorded to purchasers thereof by reason of the size of that package or the quantity of its contents;

(c) Require that the label on each package of a consumer commodity bear the common or usual name of such consumer commodity, if any, and in case such consumer commodity consists of two or more ingredients, the common or usual name of each such ingredient listed in order of decreasing predominance. However, nothing in this paragraph requires that any trade secret be divulged; or

(d) Prevent the nonfunctional slack-fill of packages containing consumer commodities.

(5) For the purposes of subsection (4)(d) of this section, a package is nonfunctionally slack-filled if it is filled to substantially less than its capacity for reasons other than protection of the contents of such package or the requirements of machines used for enclosing the contents in such package. The department may adopt any rules promulgated by the federal government pursuant to the federal Fair Packaging and Labeling Act, 15 U.S.C. 1451, et seq. [1973 c.227 §24; 1975 c.304 §15]

616.330 Alcoholic beverage exemption. ORS 616.205 to 616.215, 616.225 to 616.256, 616.286, 616.295, 616.310, 616.315, 616.325, 616.341, 616.350 to 616.366, 616.790, 616.992, rules adopted by the Oregon Health Authority under ORS 616.077 (1) and this section do not apply to alcoholic beverages. [1973 c.227 §25a; 1985 c.519 §4; 2009 c.595 §995]

Note: 616.330 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 616 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

616.333 Diethylstilbestrol use in food; label. (1) A retail or wholesale food distributor shall place a warning label on food containing diethylstilbestrol.

(2) The label shall state:

WARNING: This product contains diethylstilbestrol (DES), a synthetic hormone. Studies associate consumption of DES with vaginal cancer and male genital abnormalities.

(3) As used in this section, "food" means

fruits, vegetables, meats, poultry, eggs, dairy products and other natural and processed products offered for sale for human or animal consumption. [1979 c.268 §4]

PESTICIDE CHEMICALS AND FOOD ADDITIVES

616.335 Definition for ORS 616.205 and 616.335 to 616.385. As used in ORS 616.205 and 616.335 to 616.385, “experts qualified by scientific training and experience to evaluate the safety of food additives” or similar phrases mean individuals with sufficient training and experience in biology, medicine, pharmacology, physiology, toxicology, veterinary medicine or other appropriate sciences to recognize and properly evaluate the behavior and effects of chemical substances upon the body of humans or animals when such substances are taken into the body as food additives. [1961 c.637 §14]

616.340 [1961 c.637 §4; repealed by 1973 c.227 §16 (616.341 enacted in lieu of 616.340)]

616.341 Use of poisons, pesticides or food additives restricted. Any added poisonous or deleterious substance, any food additive, any pesticide chemical in or on a raw agricultural commodity or any color additive, with respect to any particular use or intended use, shall be considered unsafe for the purpose of application of ORS 616.235 unless there is in effect a rule promulgated pursuant to ORS 616.366 limiting the quantity of such substance, and the use or intended use of such substance conforms to the terms prescribed by such rule. While such rule relating to such substance is in effect, a food shall not, by reason of bearing or containing such substance in accordance with the rule, be considered adulterated within the meaning of ORS 616.235. [1973 c.227 §17 (enacted in lieu of 616.340)]

616.345 Rules governing use of pesticide chemicals. (1) The State Department of Agriculture shall promulgate rules establishing tolerances for pesticide chemicals or exempting them from the necessity of a tolerance as provided by ORS 616.341 with respect to the presence in or on raw agricultural commodities of poisonous or deleterious pesticide chemicals and of pesticide chemicals that are not generally recognized, among experts qualified by scientific training and experience to evaluate the safety of pesticide chemicals, as safe for use, to the extent necessary to protect the public health. In promulgating such rules, or rules authorized by ORS 616.355, the department shall give appropriate consideration to but not be limited by:

(a) The necessity for the production of an adequate wholesome and economic food supply.

(b) The other ways in which the consumer may be affected by the same pesticide chemical or by other related substances that are poisonous or deleterious.

(c) The laws and regulations of the United States and other states.

(d) The opinions of recognized experts and governmental agencies in the field of pesticide chemicals.

(2) The department shall promulgate rules exempting any pesticide chemical from the necessity of a tolerance with respect to use in or on all raw agricultural commodities when such tolerance is not necessary to protect the public health.

(3) Any person who has registered, or who has submitted an application for the registration of, an economic poison or pesticide with the department as required by law, may file with the department a petition as authorized by ORS chapter 183, proposing the promulgation of a rule establishing a tolerance for a pesticide chemical that constitutes, or is an ingredient of, such economic poison or pesticide, or exempting the pesticide chemical from the requirement of a tolerance. The petition shall contain data showing:

(a) The name, chemical identity and composition of the pesticide chemical;

(b) The amount, frequency and time of application of the pesticide chemical;

(c) Full reports of investigations made with respect to the safety of the pesticide chemical;

(d) The results of tests on the amount of residue remaining, including a description of the analytical method used;

(e) Practicable methods of removing residue that exceeds any proposed tolerance;

(f) Proposed tolerances for the pesticide chemical if tolerances are proposed; and

(g) Reasonable grounds in support of the petition. Samples of the pesticide chemical shall be furnished to the department upon request. [1961 c.637 §5; 1975 c.304 §16; 2007 c.71 §183]

616.350 Control of food additives; rules. The State Department of Agriculture, for the protection of the health and life of animals or the people of this state, may take measures to control, limit or prohibit the use or intended use, or the presence of food additives. It may promulgate rules relating thereto. Such rules may prescribe for any reason as set forth in this section, that any food additive is unsafe within the meaning of ORS 616.235 (1)(b). In promulgating rules under the provisions of this section the authority of the department includes:

(1) Providing for an exemption from the operation of ORS 616.335 to 616.385 of the use or intended use of a specific food additive.

(2) Prescribing, with respect to one or more proposed uses of the food additive involved, the conditions under which such additive may be safely used including but not limited to, specifications as to the particular food or classes of food in or in which such additive may be used, the maximum quantity which may be used or permitted to remain in or on such food, the manner in which such additive may be added to or used in or on such food, and any directions or other labeling or packaging requirements for such additive deemed necessary to assure the safety of such use.

(4) Prescribing for the exemption from the requirements of this section any food additive, and any food bearing or containing such additive, intended solely for investigational use by qualified experts when in the opinion of the department, such exemption is consistent with the public health. [1961 c.637 §8; 1973 c.227 §18]

The chain restaurant shall provide a copy of the list to a customer who is present in the restaurant and requests nutritional information regarding any menu item.

(a) To the extent the authority considers practicable, follow any relevant United States Food and Drug Administration practices, standards and rules for nutritional labeling; and

(b) Seek input from representatives of chain restaurants.

(2) The authority shall adopt rules establishing conditions under which a menu board serving the drive-through area of a chain restaurant may qualify for a full or partial exception from ORS 616.565 and 616.570. The rules shall make an exception available only if compliance with ORS 616.565 or 616.570 would require the violation of local land use laws or sign ordinances, or is impracticable due to site-specific conditions. As used in this subsection, “drive-through area” means an area where customers place orders for and receive menu items while occupying motor vehicles.

(3)(a) Notwithstanding subsection (1) of this section, the following are the typical values for alcoholic beverages:

(b) A chain restaurant shall use the typical values described in paragraph (a) of this subsection when calculating the total calories for a menu item that includes one or more alcoholic beverages.

(c) The authority:

(A) May adopt rules to require total calorie disclosures for an alcoholic beverage or a menu item that contains an alcoholic beverage, only if the alcoholic beverage or menu item is offered by a chain restaurant for 90 or more days during a calendar year; and

(B) May adopt rules that exempt containers or dispensers of alcoholic beverages from the use of food tags to state standard calorie values. [2009 c.314 §4; 2011 c.720 §211]

The person operating the chain restaurant shall, upon request of the authority, permit access to all parts of the restaurant and any records in the possession of the restaurant regarding nutritional values or menu items and provide menu item samples for nutritional value testing by the authority.

(2) If a chain restaurant violates a provision of ORS 616.560, 616.565 or 616.570 or a rule adopted under ORS 616.575, the authority shall provide the restaurant with written notice informing the restaurant of the violation and stating that the restaurant may avoid a civil penalty for the violation by curing the violation within 60 days. If the chain restaurant fails to cure the violation within 60 days, the authority may impose a civil penalty of not less than \$250 and not more than \$1,000 for the violation. For a continuing violation, each 30-day period that the violation continues after the preceding imposition of a civil penalty is a separate offense subject to a separate civil penalty. The authority is not required to provide the chain restaurant with an opportunity to cure the continuing violation before imposing a civil penalty for the continuing violation. [2009 c.314 §5; 2011 c.720 §212]

Note: See note under 616.555.

616.585 Local disclosure requirements prohibited. A local government may not adopt or enforce a local requirement for the determination or disclosure of nutritional information by a restaurant. [2009 c.314 §6]

Note: See note under 616.555.

616.590 Lack of cause of action or claim. ORS 616.555 to 616.585 do not create a cause of action and may not be asserted as the basis for a per se negligence claim. [2009 c.314 §7]

Note: See note under 616.555.

SANITARY REGULATIONS FOR FOOD AND FOOD ESTABLISHMENTS

616.695 Definitions for ORS 616.695 to 616.755. As used in ORS 616.695 to 616.755, unless the context requires otherwise:

(1) "Department" means the State Department of Agriculture.

(2) "Food establishment" means:

(a) Any room, building, structure or place, used or intended for use, or operated for storing, preparing, compounding, manufacturing, processing, freezing, packaging, distributing, handling, salvaging or displaying food.

(b) The ground upon which such place or business is operated or used and so much ground adjacent thereto as is also used in carrying on the business of the establishment. The department may prescribe such additional area or places which, although they may not be contiguous or adjacent to the above area or establishment, may be included therein.

(c) Vehicles, machinery, equipment, utensils, tools, fixtures, implements, and all other articles or items, used in operating or carrying on the business of a food establishment.

(3) "Food" means any article used, or intended to be used, for food, ice, drink, confection or condiment, whether simple or compound, or any part or ingredient thereof or in the preparation thereof, and for human consumption.

(4) "Salvaging" means the business of reconditioning, repacking, relabeling, cleaning or culling of foods that have been damaged or adulterated as a result of fire, storm, flood, water, smoke, chemicals or commercial transit accident. [1965 c.501 §1; 1975 c.389 §1; 1983 c.160 §3]

616.700 Department to enforce sanitation requirements for food and food establishments; rules. The State Department of Agriculture shall enforce the provisions of ORS 616.695 to 616.755 and adopt rules necessary therefor in accordance with the applicable provisions of ORS chapter 183, to insure and verify that:

(1) Food establishments are constructed and maintained in a clean, healthful and sanitary condition. This shall include floors, walls, ceilings, doors, windows, lighting and

ventilation, toilet and lavatory facilities, water supply, separation or partitioning of rooms, health and cleanliness of personnel, cleanliness and sanitation of surrounding premises, disposal of all waste and sewage material, insect and rodent control, construction and sanitation of equipment and utensils, and prohibition of pets therein. However, ORS 616.695 to 616.755 shall not be applied to prevent licensing and operation of a food establishment solely because such establishment is in an area which is part of and not separate from a domestic kitchen if the establishment is upon investigation by the department found to be constructed and maintained in a clean, healthful and sanitary condition.

(2) Food establishments maintain time and temperature controls, indicating and recording thermometers and indicating pressure gauges for pressure cookers and retorts, minimum temperature and time period standards for cooking foods, and other facilities necessary to carry out the intent and purpose of ORS 616.695 to 616.755.

(3) Food dispensed, transported, sold, held for sale, stored, salvaged or displayed, is not filthy, decomposed, putrid, unsafe, contaminated, deleterious to health, unfit, unwholesome, unclean, insanitary or diseased. [1965 c.501 §2; 1971 c.131 §1; 1975 c.389 §2; 1983 c.740 §233]

616.705 [Repealed by 1965 c.501 §10]

616.706 Licenses; sanctions; changes; posting; cancellation; fees; rules. (1) Except as otherwise provided in ORS 616.695 to 616.755, a person may not operate a food establishment without first obtaining and thereafter maintaining a license under this section. A person shall make an application for a license to the State Department of Agriculture on forms prescribed by the department. Each license shall expire on June 30 next following the date of issuance or on such date as may be specified by department rule.

(2) The department may, subject to the applicable provisions of ORS chapter 183, suspend, revoke or refuse to issue a license if the licensee has violated any of the provisions of ORS 616.695 to 616.755 or rules adopted under ORS 616.695 to 616.755.

(3) A license is personal to the applicant and may not be transferred. A new license is necessary if the business entity of the licensee is changed, or if the membership of a partnership is changed, irrespective of whether or not the business name is changed.

(4) The license shall cover all operations of the person licensed, under one entity or ownership. With prior approval of the department, the location of a licensed food es-

tablishment, or any part of a licensed food establishment, may be moved without the requirement of a new license if there is no change in the ownership or business entity.

(5) The license shall be posted in a conspicuous place in the main office of the food establishment. Duplicate copies of the license shall be conspicuously posted in branch offices, warehouses and other places owned or operated by the licensee at locations other than the main office. A license is automatically canceled if the food establishment ceases or discontinues operations or business.

(6) The department may adopt rules establishing license fee schedules for a food establishment:

(a) That is part of a domestic kitchen;

(b) That is a retail food store;

(c) That is a warehouse; or

(d) That is other than part of a domestic kitchen, retail food store or warehouse.

(7) The department may determine the license fee for a food establishment described in subsection (6)(b) to (d) of this section based upon the gross sales by the applicant. In establishing the amount of a license fee based upon gross sales by an applicant, the department shall use the annual gross dollar volume of sales of covered operations by that applicant within Oregon during the prior calendar year or, if the applicant maintains sales records on a fiscal basis, the prior fiscal year. If the applicant applying for an original license or for a renewal license cannot provide the annual gross dollar volume of sales of covered operations for a full calendar year, the department shall base the fee on estimated annual gross sales of covered operations by the applicant. If an applicant whose previous year's fee was determined using an estimated gross sales of covered operations figure applies for renewal of that license, the fee for the previous license year shall be adjusted to reflect the actual gross dollar volume of sales of covered operations by the applicant.

(8) Except as provided in this subsection, the department may not adopt a rule under this section to establish a license fee that is more than three percent higher than the license fee charged during the preceding year for a food establishment of the same type and having the same volume of gross sales. When adopting a rule establishing a license fee, notwithstanding the three percent limit, the department may round the fee amount to the next higher whole dollar amount. License fee schedules adopted under this section may not change the amount of the same license fee more frequently than once each year. [1965

c.501 §3; 1975 c.389 §3; 1979 c.183 §2; 1982 s.s.1 c.4 §4; 1991 c.632 §2; 2005 c.735 §§3,4; 2007 c.768 §§22,23; 2012 c.64 §3]

Note: The amendments to 616.706 by section 37, chapter 64, Oregon Laws 2012, become operative July 1, 2019. See section 45, chapter 64, Oregon Laws 2012. The text that is operative on and after July 1, 2019, is set forth for the user's convenience.

616.706. (1) Except as otherwise provided in ORS 616.695 to 616.755, a person may not operate a food establishment without first obtaining and thereafter maintaining a license under this section. A person shall make an application for a license to the State Department of Agriculture on forms prescribed by the department. Each license shall expire on June 30 next following the date of issuance or on such date as may be specified by department rule.

(2) The department may, subject to the applicable provisions of ORS chapter 183, suspend, revoke or refuse to issue a license if the licensee has violated any of the provisions of ORS 616.695 to 616.755 or rules adopted under ORS 616.695 to 616.755.

(3) A license is personal to the applicant and may not be transferred. A new license is necessary if the business entity of the licensee is changed, or if the membership of a partnership is changed, irrespective of whether or not the business name is changed.

(4) The license shall cover all operations of the person licensed, under one entity or ownership. With prior approval of the department, the location of a licensed food establishment, or any part of a licensed food establishment, may be moved without the requirement of a new license if there is no change in the ownership or business entity.

(5) The license shall be posted in a conspicuous place in the main office of the food establishment. Duplicate copies of the license shall be conspicuously posted in branch offices, warehouses and other places owned or operated by the licensee at locations other than the main office. A license is automatically canceled if the food establishment ceases or discontinues operations or business.

(6) The department may adopt rules establishing license fee schedules for a food establishment:

- (a) That is part of a domestic kitchen;
- (b) That is a retail food store;
- (c) That is a warehouse; or

(d) That is other than part of a domestic kitchen, retail food store or warehouse.

(7) The department may determine the license fee for a food establishment described in subsection (6)(b) to (d) of this section based upon the gross sales by the applicant. In establishing the amount of a license fee based upon gross sales by an applicant, the department shall use the annual gross dollar volume of sales of covered operations by that applicant within Oregon during the prior calendar year or, if the applicant maintains sales records on a fiscal basis, the prior fiscal year. If the applicant applying for an original license or for a renewal license cannot provide the annual gross dollar volume of sales of covered operations for a full calendar year, the department shall base the fee on estimated annual gross sales of covered operations by the applicant. If an applicant whose previous year's fee was determined using an estimated gross sales of covered operations figure applies for renewal of that license, the fee for the previous license year shall be adjusted to reflect the actual gross dollar volume of sales of covered operations by the applicant.

(8) The department may not adopt or enforce a rule under this section establishing a license fee that is higher than the license fee charged for the license year that began July 1, 2018, for an establishment of the same type and having the same volume of gross sales. License fee schedules adopted under this section may

not change the amount of the same license fee more frequently than once each year.

616.708 Additional users of establishment; fees; rules. (1) The State Department of Agriculture may issue licenses under ORS 616.695 to 616.755 to one or more additional users of a food establishment that is licensed primarily for operation by another person. A license issued to an additional user of the food establishment shall cover all operations at that establishment by the person licensed. Regardless of the number of persons licensed to use a food establishment, the department may not recognize more than one person as the primary operator of the establishment.

(2) The department may assess a license fee to an additional user of a food establishment, calculated as provided in rules adopted under ORS 616.706. In calculating license fees as provided under ORS 616.706, the gross sales for an additional user of the food establishment are independent of the gross sales by any other user or the primary operator of the food establishment.

(3) Notwithstanding ORS 616.706, the department may adopt rules to establish the license expiration, renewal and application dates for additional users of a food establishment.

(4) The department may adopt rules to determine the responsibilities of a food establishment's primary operator and additional users of the food establishment under ORS 616.700, 616.735 and 616.740.

(5) A recognized primary operator of a food establishment shall notify the department upon the expiration or termination of the rental or lease of the food establishment by an additional user of the establishment. The renting or leasing of a food establishment to a person licensed by the department as an additional user of the establishment or the expiration or termination of use by a person licensed as an additional user of the establishment does not, by itself, constitute the ceasing or discontinuance of operations or business at the food establishment by the primary operator or another additional user for purposes of ORS 616.706.

(6) Subsections (1) to (5) of this section do not apply to a food establishment located in an area that is part of a domestic kitchen. [2007 c.645 §5; 2012 c.64 §21]

616.710 [Repealed by 1965 c.501 §10]

616.711 Where licenses not required; when ORS 616.695 to 616.755 not applicable. (2) All provisions of ORS 616.695 to 616.755 other than licensing apply to food establishments set forth in subsection (1) of this section.

(3) The provisions of ORS 616.695 to 616.755 do not apply to:

(a) Restaurants, bed and breakfast facilities, intermittent temporary restaurants, seasonal temporary restaurants, single-event temporary restaurants, commissaries, vending machines and mobile food and beverage units licensed under ORS 624.010 to 624.121, 624.310 to 624.430 or those that are exempted under ORS 624.330.

616.715 [Repealed by 1965 c.501 §10]

616.716 When inspection authorized; ORS 616.695 to 616.755 in addition to other laws. (1) The State Department of Agriculture may inspect the applicant's food establishment and shall not issue a license until or unless such establishment is in compliance with the provisions of ORS 616.695 to 616.755 and regulations promulgated thereunder.

(2) The provisions of ORS 616.695 to 616.755 are in addition to and not in lieu of all other laws relating to food and to food establishments. [1965 c.501 §5; 1975 c.389 §5; 2001 c.104 §242]

616.718 Waiver of routine inspection; rules. (1) Notwithstanding ORS 616.700, the State Department of Agriculture may adopt rules waiving routine inspection for one or more types of food establishment if:

(a) The food establishment operations licensed under ORS 616.706 consist solely of selling prepackaged foods and beverages produced by a commercial food manufacturer or processor;

(b) The selling of food or beverages is not a major business activity of the food establishment as defined by the department; and

(c) In the opinion of the department, waiving the routine inspection does not present a significant risk to the public.

(2) A food establishment for which the department waives routine inspection as provided under subsection (1) of this section remains subject to inspection at the discretion of the department. [2011 c.127 §2]

616.720 [Repealed by 1965 c.501 §10]

(2) To be exempt from the provisions of ORS 616.695 to 616.755 as set forth in subsection (1) of this section, a person shall file an application for such exemption on forms prescribed by the State Department of Agriculture.

(3) An applicant for renewal of a license, or any person operating under an exemption approved by the department, shall file an application for exemption with the department prior to December 15 of each year, covering the subsequent year of operation.

(4) An applicant to operate a new food establishment shall file an application and receive approval thereof, if any, prior to starting such business.

(5) Unless exempt from licensing as provided in ORS 616.711, food establishments exempt from certain provisions of ORS 616.695 to 616.755 as authorized in this section, shall be subject to the provisions of ORS 616.706 and shall be required to obtain and maintain licenses thereunder. (1) The provisions of ORS 616.695 to 616.755 do not prohibit any city from enacting and enforcing any ordinance establishing a system, program, inspection services and licensing thereunder, within the corporate limits or boundaries thereof, which carries out the purposes and intent of ORS 616.695 to 616.755, if the same is at least equal to the provisions of ORS 616.695 to 616.755 and regulations promulgated thereunder. A copy of each such ordinance, including any amendment thereof, shall be forwarded by the city to the State Department of Agriculture.

(2) Not less than once each two years the department shall investigate the ordinance and determine if it meets the requirements and standards of subsection (1) of this section and if such system, program and inspections thereunder are being properly carried out and enforced. If the department finds such program, system and inspections do not

meet these requirements and standards, it shall give written notice of such finding to the chief administrative officer of the city.

(3) If the department thereafter finds, not less than 30 days after the date of giving notice, that such system, program and inspections continue to fail to be enforced properly or are not carrying out the intent and purposes of ORS 616.695 to 616.755, the department shall make a finding to that effect and thereupon the provisions of ORS 616.695 to 616.755 shall become applicable to all persons and food establishments within the corporate limits of such city. [1965 c.501 §7; 1975 c.389 §7]

establishment shall not be used for such purposes until it is put in a sanitary condition by making the changes ordered by the department in the notice; and

(b) Post a notice upon the food establishment found in an unclean, unhealthful or insanitary condition, to the effect that it is condemned for further use on account of the unclean, unhealthful or insanitary condition.

(2) The notice shall not be removed from any such food establishment until the same has been put in a sanitary condition. A continued use of such food establishment without making the changes ordered, or unauthorized removal of the notice is a violation of this section. [Amended by 1975 c.389 §10]

616.750 Procedure where food handler suspected of disease. If the State Department of Agriculture for reasonable cause believes that any person working in any food establishment is affected with any infectious or contagious disease, the department may require the person to be examined by a competent physician and that the physician furnish the department with a certificate stating whether upon examination the physician has found the person to be affected with any infectious or contagious disease. If within five days after so required the person has not furnished the department with such a certificate by a competent physician, the person is guilty of a violation of ORS 616.745 and the department may apply to the circuit court to enjoin the person from continuing to work in the food establishment until the certificate is furnished. The circuit court hereby is authorized to issue the injunction. [Amended by 1975 c.389 §12]
