321.010 [Repealed by 1953 c.375 s.38]

321.011 Policy. The prevention and suppression of forest fires on forestlands for the preservation of forest resources and the continuous growth of timber on lands suitable therefor are declared to be the public policy of the State of Oregon. The Legislative Assembly recognizes that the forested areas situated within eastern Oregon predominate in Ponderosa pine trees and associated species, and that the forested areas situated within western Oregon predominate in Douglas fir and associated species; that because of this difference in species, different forest fire protection problems exist in eastern and western Oregon, and different logging conditions and circumstances in each necessitate varied forest practices in the disposal of forest slashings and debris; and that, therefore, in order to give recognition to such differences and their effect on the accomplishment of the public policy stated in this section, certain classifications of forestlands within the State of Oregon are established by ORS 321.005 to 321.185 and 321.560 to 321.600. [1957 c.309 s.2]

321.012 Public to share cost of suppressing fires caused by public. The Legislative Assembly finds that it is in the interest of the State of Oregon that the public as a whole share responsibility for protecting the forests of this state, by making funds available from time to time for suppression of fires caused by the public. [1967 c.429 s.60]

321.015 Levy of privilege tax upon harvest of timber for forest research, fire suppression, administering Oregon Forest Practices Act and assistance to nonindustrial private forest landowners. (1) For the calendar years beginning January 1, 2000, and January 1, 2001, there is levied a privilege tax of 67 cents per thousand feet, board measure, upon taxpayers for the privilege of harvesting of all merchantable forest products harvested on forestlands. Subject to ORS 321.145, the proceeds of the tax shall be transferred as provided in ORS 321.152 (2) to the Forest Research and Experiment Account for use for the forest resource research, experimentation and studies described in ORS 526.215 and for the Forest Research Laboratory established under ORS 526.225.

(2) Except as provided in ORS 477.760, in addition to the tax levied by subsection (1) of this section, there hereby is levied a forest products harvest tax upon taxpayers of 50 cents per thousand feet, board measure, for the privilege of harvesting all merchantable forest products harvested on forestlands for the payment of benefits related to fire suppression as provided in ORS 321.005 to 321.185, 321.560 to 321.600 and 477.440 to 477.460.

(3) For the calendar years beginning January 1, 2000, and January 1, 2001, in addition to the taxes levied under subsections (1) and (2) of this section, there hereby is levied a privilege tax upon taxpayers for the privilege of harvesting all merchantable forest products harvested on forestlands in the amount of \$1.08 per thousand feet, board measure, for the purpose of administering the Oregon Forest Practices Act in an amount not to exceed 40 percent of

the total expenditures approved by the Legislative Assembly for this purpose, including salary adjustments approved by the Legislative Assembly for fiscal years 2000 and 2001.

(4) For the calendar years beginning January 1, 2000, and January 1, 2001, in addition to the taxes levied under subsections (1) to (3) of this section, there hereby is levied a privilege tax upon taxpayers for the privilege of harvesting all merchantable forest products harvested on forestlands in the amount of 15 cents per thousand feet, board measure, for the purpose of providing assistance to nonindustrial private landowners described in ORS 526.425 and 526.450 to 526.475. All revenues received under this subsection and any interest earned on the cash balance shall be credited to the State Forestry Department Account and may be expended only for assistance to the nonindustrial private forest landowners.

(5) Subject to subsection (6) of this section, the taxes shall be measured by and be applicable to each per thousand feet, board measure, on the total quantity of forest products harvested in this state measured by use of any log scale which is or may be in general use in the logging industry and which is designed to measure total volume of merchantable forest products in board feet. However, if the Department of Revenue finds that the scale used by any taxpayer in computing the taxes due under ORS 321.005 to 321.185 and 321.560 to 321.600 does not accurately reflect the total quantity of merchantable forest products harvested by the taxpayer, it may require the taxpayer to adopt another log scale in general use in the industry which in the department's opinion will accurately reflect merchantable harvest in board feet.

(6) The first 25,000 feet, board measure, of forest products harvested annually by any taxpayer during each calendar year shall be excluded from the total quantity of harvested forest products which constitutes the measure of the taxes under ORS 321.005 to 321.185 and 321.560 to 321.600. Note: The amendments to 321.015 by section 1a, chapter 968, Oregon Laws 1999, apply to forest products harvested in calendar years beginning on or after January 1, 2002. See section 2b, chapter 968, Oregon Laws 1999. The text that is applicable on and after January 1, 2002, is set forth for the user's convenience.

321.015. (1) For the calendar years beginning January 1, 2000, and January 1, 2001, there is levied a privilege tax of 67 cents per thousand feet, board measure, upon taxpayers for the privilege of harvesting of all merchantable forest products harvested on forestlands. Subject to ORS 321.145, the proceeds of the tax shall be transferred as provided in ORS 321.152 (2) to the Forest Research and Experiment Account for use for the forest resource research, experimentation and studies described in ORS 526.215 and for the Forest Research Laboratory established under ORS 526.225.

(2) Except as provided in ORS 477.760, in addition to the tax levied by subsection (1) of this section, there hereby is levied a forest products harvest tax upon taxpayers of 50 cents per thousand feet, board measure, for the privilege of harvesting all merchantable forest products harvested on forestlands for the payment of benefits related to fire suppression as provided in ORS 321.005 to 321.185, 321.560 to 321.600 and 477.440 to 477.460.

(4) For the calendar years beginning January 1, 2000, and January 1, 2001, in addition to the taxes levied under subsections (1) to (3) of this section, there hereby is levied a privilege tax upon taxpayers for the privilege of harvesting all merchantable forest products harvested on forestlands in the amount of 15 cents per thousand feet, board measure, for the purpose of providing assistance to nonindustrial private landowners described in ORS 526.425 and 526.450 to 526.475. All revenues received under this subsection and any interest earned on the cash balance shall be credited to the State Forestry Department Account and may be expended only for assistance to the nonindustrial private forest landowners.

(5) The taxes shall be measured by and be applicable to each per thousand feet, board measure, on the total quantity of forest products harvested in this state measured by use of any log scale which is or may be in general use in the logging industry and which is designed to measure total volume of merchantable forest products in board feet. However, if the Department of Revenue finds that the scale used by any taxpayer in computing the taxes due under ORS 321.005 to 321.185 and 321.560 to 321.600 does not accurately reflect the total quantity of merchantable forest

products harvested by the taxpayer, it may require the taxpayer to adopt another log scale in general use in the industry which in the department's opinion will accurately reflect merchantable harvest in board feet.

(a) The unexpended balance as of February 16 of the amount budgeted to be expended from the account for the fiscal year in which the determination is made; and

(b) The amount budgeted to be expended from the account for the following fiscal year.

(2) The insurance principle is recognized in providing funds for emergency forest fire control. [1953 c.375 s.4; 1961 c.297 s.4; 1963 c.88 s.1; 1967 c.429 s.7; 1985 c.759 s.8]

321.045 Payment of tax; returns; estimated tax; payment. (1) The taxes levied under ORS 321.015 shall be due and payable annually, on or before the last day of January, for the preceding year. The tax shall be delinquent if not paid by the due date which shall be determined without regard to any extension of time for filing the return.

(2) Subject to the provisions relating to estimated tax payments provided in subsections (4) and (5) of this section, on or before the last day of January, each taxpayer shall make out a return on the form prescribed by the Department of Revenue showing the amount of the tax for which the taxpayer is liable for the preceding year and the other information the department considers necessary to correctly determine the tax due and shall mail or deliver the return, together with a remittance for the amount of the tax, to the office of the department. The return shall be signed and verified by the taxpayer or a duly authorized agent of the taxpayer. Whenever in its judgment good cause exists, the department may allow upon written application made on or before the due date further time not exceeding 30 days for filing a return.

(3) All payments received under ORS 321.005 to 321.185 and 321.560 to 321.600 shall be credited, first, to penalty and interest accrued, and then to tax due.

(4) Commencing January 1, 1994, each taxpayer expecting to incur a liability pursuant to this section in excess of \$1,500 for any calendar year shall, on forms prescribed by the Department of Revenue, make and file with the department on or before the last day of the month following the end of each calendar quarter an estimate of the taxpayer's tax liability for the year. At least one-quarter of the estimated tax shall be remitted to the department with each estimated tax report and the balance shall be remitted to the department on or before the due date of the tax return required by subsection (2) of this section, without regard for any extension of the due date thereof.

(5) If the amount remitted with an estimated tax report filed on or before the due date thereof is at least 25 percent of the tax of the taxpayer as due for the calendar year preceding the year for which the report is made or at least 20 percent of the taxpayer's tax liability as due for the year for which the report is made, or 100 percent of the tax liability on the actual merchantable forest products harvested for the calendar quarter preceding the due date of the estimated tax report, no penalty or interest shall be charged. Otherwise a penalty in the form of interest at the rate established under ORS 305.220 for each month or fraction thereof shall be assessed for the period of delinquency calculated on the difference between the payment made and the payment which would have been due had the taxpayer estimated the liability for the quarter in an amount equal to the liability as due for such quarter. The provisions of ORS chapters 305 and 314 relating to penalties and interest shall not apply to the estimated tax payments described in this section. WESTERN OREGON FORESTLAND AND PRIVILEGE TAX

321.257 Definitions for ORS 321.257 to 321.390. As used in ORS 321.257 to 321.390, unless the context requires otherwise:

(1) “Arms-length transaction” means a transaction made in the open market where there is no duress, where each party is independent of the other and where there are no trades or hidden considerations involved.

(2) “Department” means the Department of Revenue.

(3) “Forestland” means land in western Oregon (a) which is being held or used for the predominant purpose of growing and harvesting trees of a marketable species and has been designated as forestland or (b) the highest and best use of which is the growing and harvesting of such trees. Trees of a marketable species may vary in different areas in western Oregon and may change as the utilization of forest trees changes. The size, age, location, quality and condition of trees do not necessarily determine marketable species. Forestland often contains isolated openings which because of rock outcrops, river wash, swamps, chemical conditions of the soil, brush and other like conditions prevent adequate stocking of such openings for the production of trees of a marketable species. If such openings in their natural state are necessary to hold the surrounding forestland in forest use through sound management practices, they are deemed forestland. Forestland does not include buildings, structures, machinery, equipment or fixtures erected upon, under or above the soil, but does include roads described in ORS 308.236.

(4) “Harvest” means the point at which timber that has been cut, severed or removed for purposes of sale or use is first measured in the ordinary course of business as determined by reference to common practice in the timber industry.

(5) “Inadequate sales data” means sale volume of less than 20 percent of the harvest volume reported for that timber age class in the market area for the calendar year ending two years prior to the end of the year for which taxes will be paid or less than 10 timber sales transactions.

(6) “Land class” or “land classes” means one of the eight classifications of forestland, used for assessment purposes by the department, based upon State Tax Commission Valuation Division Supplements published in 1967, and identified in ORS 321.352 (1).

(7) “Log Purchase Value Index” shall be based on log grade recovery classes as set by rule which correspond to the timber age classes. The “Log Purchase Value Index” means the percentage change in the average value of log purchases from private lands calculated by comparing the two preceding reporting periods.

(8) “Market area” means those groups of areas containing timber with similar values as designated by the department by the authority under ORS 321.282 (1). The department shall designate market areas by rule.

(9) “Owner of timber” means any individual or combination of individuals, partnership, firm, corporation or association of whatever nature holding title to harvested timber by virtue of:

(a) An instrument of conveyance;

(b) The harvesting of the timber; or

(c) The harvesting of the timber and payment therefor.

(10) “Stumpage value” of timber means values determined from log grade value tables adopted or used by the department pursuant to ORS 321.282.

(11) “Sustained yield management” means the growing and harvesting of timber crops on a continuous basis on land that is primarily dedicated to timber production.

(12) “Taxing district” or “district” means each county, city, school district and other corporation vested with the power to levy property taxes in western Oregon.

(13) “Taxpayer” means the owner of timber at time of harvest.

(14) “Timber” means all logs which can be measured in board feet and other forest products as determined by department rule.

(15) “Unit of proper measurement” means any unit of measurement commonly used in the timber industry for measuring timber and timber products harvested.

(16) “Western Oregon” means that portion of the state lying west of a line beginning at the intersection of the

northern boundary of the State of Oregon and the western boundary of Wasco County, thence southerly along the western boundaries of the counties of Wasco, Jefferson, Deschutes and Klamath to the southern boundary of the State of Oregon.

(17) "Average Western Oregon Log Value" means the average log value used in calculating the Log Purchase Value Index for each market area or similar geographic unit, and each age class or similar classification weighted by the reported log volume for each market area or similar geographic unit, and each age class or similar classification. [1977 c.892 s.1; 1983 c.539 s.2; 1985 c.759 s.18; 1989 c.1083 s.1; 1993 c.653 s.6; 1993 c.801 s.1]

Note: The amendments to 321.257 by section 12, chapter 1078, Oregon Laws 1999, apply to privilege tax reporting periods beginning on or after January 1, 2001, and property tax years beginning on or after July 1, 2001. See section 13, chapter 1078, Oregon Laws 1999. The text that is applicable on and after those dates is set forth for the user's convenience.

321.257. As used in ORS 321.257 to 321.390, unless the context requires otherwise:

(1) "Arms-length transaction" means a transaction made in the open market where there is no duress, where each party is independent of the other and where there are no trades or hidden considerations involved.

(2) "Average Pacific Northwest Coast Lumber Price Index" means the average of the Western Wood Products Association Pacific Northwest Coast Lumber Price annual price indices for Douglas Fir and Hem-Fir.

(3) "Department" means the Department of Revenue.

(4) "Forestland" means land in western Oregon (a) which is being held or used for the predominant purpose of growing and harvesting trees of a marketable species and has been designated as forestland or (b) the highest and best use of which is the growing and harvesting of such trees. Trees of a marketable species may vary in different areas in western Oregon and may change as the utilization of forest trees changes. The size, age, location, quality and condition of trees do not necessarily determine marketable species. Forestland often contains isolated openings which because of rock outcrops, river wash, swamps, chemical conditions of the soil, brush and other like conditions prevent adequate stocking of such openings for the production of trees of a marketable species. If such openings in their natural state are necessary to hold the surrounding forestland in forest use through sound management practices, they are deemed forestland. Forestland does not include buildings, structures, machinery, equipment or fixtures erected upon, under or above the soil, but does include roads described in ORS 308.236.

(5) "Harvest" means the point at which timber that has been cut, severed or removed for purposes of sale or use is first measured in the ordinary course of business as determined by reference to common practice in the timber industry.

(6) "Immediate harvest value" means the amount that each species or subclassification of timber would sell for at a voluntary sale made in the ordinary course of business for purposes of immediate harvest. The value shall be determined by methods that make reasonable and adequate allowance for age, size, quality, growing conditions, costs of removal, accessibility to point of conversion, market conditions and all other relevant factors.

(7) "Land class" or "land classes" means one of the eight classifications of forestland, used for assessment purposes by the department, based upon State Tax Commission Valuation Division Supplements published in 1967, and identified in ORS 321.352 (1).

(8) "Market area" means those groups of areas containing timber with similar values as designated by the department. The department shall designate market areas by rule.

(9) "Owner of timber" means any individual or combination of individuals, partnership, firm, corporation or association of whatever nature holding title to harvested timber by virtue of:

(a) An instrument of conveyance;

(b) The harvesting of the timber; or

(c) The harvesting of the timber and payment therefor.

(10) "Sustained yield management" means the growing and harvesting of timber crops on a continuous basis on land that is primarily dedicated to timber production.

(11) "Taxing district" or "district" means each county, city, school district and other corporation vested with the power to levy property taxes in western Oregon.

(12) "Taxpayer" means the owner of timber at time of harvest.

(13) "Timber" means all logs which can be measured in board feet and other forest products as determined by department rule.

(14) "Unit of proper measurement" means any unit of measurement commonly used in the timber industry for measuring timber and timber products harvested.

(15) "Western Oregon" means that portion of the state lying west of a line beginning at the intersection of the

northern boundary of the State of Oregon and the western boundary of Wasco County, thence southerly along the western boundaries of the counties of Wasco, Jefferson, Deschutes and Klamath to the southern boundary of the State of Oregon.

321.259 Legislative findings. The Legislative Assembly finds that:

(1) Multiple taxation through a yearly ad valorem levy on both trees and forestland managed in sustained yield timber operations discourages conservation, private ownership and investment of capital.

(2) The interests of the state, its citizens and future citizens are best served by sustained yield practices and taxing policies that encourage production of forest resources for commerce, recreation and watersheds, stabilize employment levels, prevent large population shifts and encourage millage of timber products within Oregon.

(3) Timber on private lands managed on a sustained yield basis should be treated as a crop and not taxed as real property.

(4) A tax at time of harvest recognizes the hazards and uncertainties involved in growing a long-term timber crop on a sustained yield basis.

(5) Forestland should be taxed based on the value of the forestland in timber production, and the majority of the tax should be imposed at the time of harvest. [1993 c.801 s.3]

Note: 321.259 was added to and made a part of ORS 321.257 to 321.390 by legislative action but was not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

321.260 [Formerly 528.020; repealed by 1977 c.892 s.51]

321.262 Purposes of ORS 321.257 to 321.390. The purposes of ORS 321.257 to 321.390 are:

(1) To impose with respect to forestlands in western Oregon a system of ad valorem taxation whereby the value of forestland is determined by the Legislative Assembly effective July 1, 1995, and annually adjusted as described in ORS 321.352.

(2) To establish a privilege tax on timber harvested in western Oregon as a means of:

(a) Recognizing the long-term nature of the forest crop and fostering the public policy of Oregon to encourage the growing and harvesting of timber.

(b) Protecting the public welfare by assuring that the citizens of the state and future generations shall have the benefits to be derived from the continuous production of forest products from the private forestlands of western Oregon.

(c) Promoting the state's policy of encouraging forestry and the restocking of forestlands to provide present and future benefits by enhancing the water supply, preventing erosion, providing habitat for wildlife, providing scenic and recreational opportunities and providing for needed products.

(d) Producing revenues for local taxing districts at the time of harvest in lieu of collecting a portion of ad valorem taxes on forestland.

(3) To assure local taxing districts that privilege tax receipts will be considered a local revenue source. [1977 c.892 s.2; 1993 c.801 s.4]

(2) For the privilege of harvesting timber from privately owned land in western Oregon a tax is imposed as provided in ORS 321.257 to 321.322.

(3) The tax imposed by subsection (2) of this section is intended to recover the annuitized value of forgone property taxes on forestland. [1977 c.892 s.4; 1993 c.801 s.6; 1999 c.1078 s.19]

321.273 Rates of privilege tax imposed for harvest of timber from private lands in western Oregon; exemption for certain timber harvested after 2002. (1) For the privilege of harvesting timber from privately owned land in western Oregon, a privilege tax is imposed on taxpayers at the rates provided under subsection (2) or (3) of this section.

(2) If the land upon which the timber is harvested is not assessed as provided in ORS 321.354 and is otherwise subject to privilege taxes, the rate of the privilege tax is 3.20 percent of the stumpage value of timber harvested from privately owned land.

(3) If the timber is harvested from forestland assessed under ORS 321.354:

(a) The rate of the privilege tax is 1.9 percent of the stumpage value of timber harvested from privately owned land on or after January 1, 2000, and before January 1, 2002.

(b) The rate of the privilege tax is 1.4 percent of the stumpage value of timber harvested from privately owned land on or after January 1, 2002, and before January 1, 2003.

(4) Timber harvested from forestland assessed under ORS 321.354 on or after January 1, 2003, is exempt from the privilege tax imposed under ORS 321.257 to 321.322. [1993 c.801 s.8; 1999 c.1078 s.21]

Note: The amendments to 321.273 by section 23, chapter 1078, Oregon Laws 1999, apply to privilege tax reporting periods beginning on or after January 1, 2001. See section 24, chapter 1078, Oregon Laws 1999. The text that is applicable on and after January 1, 2001, is set forth for the user's convenience.

321.273. (1) For the privilege of harvesting timber from privately owned land in western Oregon, a privilege tax is imposed on taxpayers at the rates provided under subsection (2) or (3) of this section.

(2) If the land upon which the timber is harvested is not assessed as provided in ORS 321.354 and is otherwise subject to privilege taxes, the rate of the privilege tax is 3.20 percent of the immediate harvest value of timber harvested from privately owned land.

(3) If the timber is harvested from forestland assessed under ORS 321.354:

(a) The rate of the privilege tax is 1.9 percent of the immediate harvest value of timber harvested from privately owned land on or after January 1, 2000, and before January 1, 2002.

(b) The rate of the privilege tax is 1.4 percent of the immediate harvest value of timber harvested from privately owned land on or after January 1, 2002, and before January 1, 2003.

(4) Timber harvested from forestland assessed under ORS 321.354 on or after January 1, 2003, is exempt from the privilege tax imposed under ORS 321.257 to 321.322.

321.274 Privilege tax on harvest of hardwood timber on private lands; western Oregon forestland; election by owner. (1) Notwithstanding ORS 321.267 (1)(e), and upon the election of a taxpayer made as provided under subsection (2) of this section, the taxes imposed under ORS 321.257 to 321.390 on the harvest of timber from other privately owned land in western Oregon are imposed on the harvest of hardwood timber from land in western Oregon described in ORS 321.267 (1)(e) that is privately owned.

(2) A taxpayer having total ownership of forestland in western Oregon in excess of five acres but not in excess of 2,000 acres who elects to claim a credit allowed under ORS 315.104 for reforestation project costs paid or incurred in connection with a reforestation project as described under ORS 321.267 (1)(e) on the forestland and for which a preliminary certificate is issued for a tax year beginning on or after January 1, 1990, shall be considered to have made the election to pay the privilege tax imposed under subsection (1) of this section upon the harvest, on and after the date the preliminary certificate is issued, of all such hardwood timber harvested from all forestland owned by the taxpayer on the date the preliminary certificate is issued. For purposes of this section, "ownership or total ownership" shall be determined in the same manner as "ownership or total ownership" is determined for purposes of ORS 321.705 to 321.765. If, after the date the preliminary certificate is issued, the forestland planted in hardwood timber as described in ORS 321.267 (1)(e) is sold or otherwise transferred, the election shall be binding upon the purchaser or transferee and all subsequent purchasers and transferees, as to that particular land, until such time as all of the hardwood timber on that land has been harvested, the land is changed in use or the timber is exempt under other provision of ORS 321.257 to 321.390, all to be determined subject to rules adopted by the Department of Revenue. [1989 c.887 s.7b; 1991 c.459 s.279; 1993 c.801 s.38]

321.282 Designation of areas for determination of stumpage values by department; net stumpage recovery basis for certain taxpayers. (1) On or before October 1 of each year, the Department of Revenue shall designate areas containing timber with similar values and such areas shall be used as units for determination of stumpage values. Prior to February 1 of each year, the department shall prepare and adopt by order tables of values by log grade or other appropriate system recognized by the department as commonly used in the industry for each species or subclassification of timber within such units. The tables shall be used to calculate taxes due under ORS 321.257 to 321.390 for the year for which the tables are adopted. The values shall be determined as of January 1 of the year for

which the tables are adopted.

(2)(a) Except as provided in paragraphs (b) and (c) of this subsection, the stumpage values shall be based upon voluntary purchases of standing timber made in the ordinary course of business for harvest within 37 months and shall make reasonable and adequate allowances for all relevant factors, including size, quality, volume, age, disease, defect, breakage, stand density, costs of removal, accessibility to point of conversion, topography of the site and surrounding country, and local market conditions in western Oregon. The values shall be expressed in terms of a dollar amount per thousand board feet for each log grade of each species or subclassification, and shall be determined by averaging the available sales data for the 12 calendar months prior to October 1 of the year preceding the year for which the tables are adopted for each species or subclassification.

(b) In the event there are inadequate sales data in a market area, the department shall use the Log Purchase Value Index for the affected timber age class for the market area as defined by rule.

(c) In order to determine values for hardwoods and substandard grades of conifers, the department may use a conversion return technique as defined by rule of the department.

(3)(a) Supplemental tables for adjustment shall be prepared in recognition that certain primary factors affecting logging costs and stumpage values may vary significantly within a given valuation area. The adjustments may be either plus or minus, depending upon the basis of the typical logging cost used in subsection (1) of this section. The primary factors to be considered are average volume per acre harvested, logging conditions, and average log size for young growth thinning operations. In addition, recognition shall be given to the added costs involved in logging small, somewhat isolated areas. However, the department, either on its own motion or in response to an application from a taxpayer, may specify an adjustment of stumpage value for timber that is damaged by fire, ice storm, insect damage, disease, flood, blowdown or other causes.

(b) When a taxpayer uses the adjustments specified in this subsection, the taxpayer shall maintain appropriate accounting records to support the adjustments.

(4) The log grading system used by the department for valuation purposes and by the taxpayer in making the privilege tax return shall be that of the Columbia River Log Scaling and Grading Bureau or other system commonly used in the forest industry and adopted by the department by rule.

(5) Public hearings shall be held at least 45 days prior to the adoption of timber valuation schedules or changes in the boundaries of valuation areas developed in accordance with subsections (1) to (3) of this section. Notice of the hearings shall be published in a newspaper of general circulation throughout the state at least 14 days prior to the hearings date. In addition, the department may cause notice to be broadcast pursuant to ORS 193.310 to 193.360.

(6)(a) A taxpayer who harvests less than 500,000 board feet of timber in the calendar year or who has less than 1,000 acres of forestland in western Oregon, and who, during the calendar year immediately preceding the due date of the privilege tax return, is not engaged in and does not have an ownership interest of more than 10 percent in a business engaged in the processing of timber into wood products, may elect to calculate and pay a tax on the basis of net stumpage recovery from such forestland rather than by use of the tables prepared in accordance with subsections (1) to (3) of this section.

(b) For purposes of this subsection, "net stumpage recovery" means the selling price of the logs at a conversion center in an arm's length transaction, less the costs described in one of the following subparagraphs:

(A) The logging costs reflected by a written agreement entered into in connection with the logging operation. The department may analyze the agreement and adjust the contract price to eliminate costs paid by the taxpayer for work or material not connected with logging, log hauling costs and marketing the timber.

(B) Administration, logging and log hauling costs typical for the type of harvest as determined by the department.

(c) The department may require such proof from the taxpayer as it deems necessary to determine the amount of stumpage recovery and eligibility for the alternate calculation of the tax provided in this subsection. [1977 c.892 s.6; 1979 c.454 s.1; 1983 c.563 s.1; 1985 c.759 s.19; 1989 c.1083 s.2; 1991 c.459 s.280; 1993 c.653 ss.8,8a]

Note: The amendments to 321.282 by section 25, chapter 1078, Oregon Laws 1999, apply to privilege tax reporting periods beginning on or after January 1, 2001. See section 26, chapter 1078, Oregon Laws 1999. The text that is applicable on and after January 1, 2001, is set forth for the user's convenience.

321.282. (1) The Department of Revenue shall determine on or before February 1 of each year the immediate harvest values as of January 1 of the calendar year for which the immediate harvest values are to be used in computing the privilege tax imposed by ORS 321.273. The values shall be determined for each species or subclassification, as provided in subsection (2) of this section, and shall be expressed in terms of a dollar amount per thousand board foot or other unit measure. The total listing of values shall be combined into a convenient set of tables issued by the

department. A copy of the tables shall be retained on file in the office of the department.

(2) The department shall select various areas in western Oregon to be treated as units for the application of the immediate harvest values determined under this section. The department shall determine unit values for immediate harvest for each species in each area. The department may make further value classifications based on age, size and other relevant factors. The areas shall be selected, within the discretion of the department based on administrative feasibility, to include timber having similar growing and marketing conditions. The determination of the size and location of appropriate areas shall not be subject to review by the courts.

(3) Public hearings shall be held at least 45 days prior to the adoption of timber valuation schedules or changes in the boundaries of valuation areas developed in accordance with subsections (1) and (2) of this section. Notice of the hearings shall be published in a newspaper of general circulation throughout the state at least 14 days prior to the hearings date. In addition, the department may cause notice to be broadcast pursuant to ORS 193.310 to 193.360.

(4)(a) A taxpayer who harvests less than 500,000 board feet of timber in the calendar year or who has less than 1,000 acres of forestland in western Oregon, and who, during the calendar year immediately preceding the due date of the privilege tax return, is not engaged in and does not have an ownership interest of more than 10 percent in a business engaged in the processing of timber into wood products, may elect to calculate and pay a tax on the basis of net stumpage recovery from such forestland rather than by use of the tables prepared in accordance with subsections (1) and (2) of this section.

(b) For purposes of this subsection, "net stumpage recovery" means the selling price of the logs at a conversion center in an arm's length transaction, less the costs described in one of the following subparagraphs:

(A) The logging costs reflected by a written agreement entered into in connection with the logging operation. The department may analyze the agreement and adjust the contract price to eliminate costs paid by the taxpayer for work or material not connected with logging, log hauling costs and marketing the timber.

(B) Administration, logging and log hauling costs typical for the type of harvest as determined by the department.

(c) The department may require such proof from the taxpayer as it deems necessary to determine the amount of stumpage recovery and eligibility for the alternate calculation of the tax provided in this subsection.

321.284 Stumpage values; appeal. (1) Within 21 days after the stumpage value tables are adopted by the Department of Revenue as provided in ORS 321.282, a taxpayer may appeal either the stumpage values or any allowances of all relevant factors, or both, as listed in ORS 321.282 to the Oregon Tax Court. Values modified by the court shall apply only to the complainant. Multiple appeals may be consolidated by the court. In the event that five or more taxpayers owning in the aggregate not less than five percent of the total forestland subject to ad valorem taxation in a single market area, or their representative organization appeals, values modified by the court shall apply to all taxpayers in that market area.

(2) An appeal to the Oregon Tax Court under this section shall be taken in the same manner and form as a complaint filed under ORS 305.404 to 305.560. A taxpayer shall be considered to be aggrieved by the department's values if the taxpayer harvests timber in western Oregon. The court has jurisdiction to affirm or modify the values contained in the stumpage tables adopted by the department.

(3) An appeal filed in the Oregon Tax Court pursuant to this section shall have priority over all other cases pending before the court and shall be heard and decided as soon after coming to issue as is reasonably possible.

(4) If the Oregon Tax Court fails to render a decision before November 1, the stumpage values adopted by the department may be used as the stumpage values for the tables referred to in ORS 321.282 until a decision is reached. If the court establishes stumpage values different from those adopted by the department, the provisions of ORS 321.560 shall apply, except that no penalty shall be assessed for deficiencies attributable to changes in the stumpage values and any refund shall be payable, with interest, no later than July 1 following the calendar year in which the court renders the decision. [1989 c.1083 s.4; 1991 c.459 s.281; 1993 c.653 s.9; 1995 c.650 s.92]

Note: The amendments to 321.284 by section 26a, chapter 1078, Oregon Laws 1999, apply to privilege tax reporting periods beginning on or after January 1, 2001. See section 26b, chapter 1078, Oregon Laws 1999. The text that is applicable on and after January 1, 2001, is set forth for the user's convenience.

321.284. (1) Within 21 days after the immediate harvest value tables are adopted by the Department of Revenue as provided in ORS 321.282, a taxpayer may appeal the immediate harvest values to the Oregon Tax Court. Values modified by the court shall apply only to the complainant. Multiple appeals may be consolidated by the court. In the event that five or more taxpayers owning in the aggregate not less than five percent of the total forestland subject to ad valorem taxation in a single market area, or their representative organization appeals, values modified by the court

shall apply to all taxpayers in that market area.

(2) An appeal to the Oregon Tax Court under this section shall be taken in the same manner and form as a complaint filed under ORS 305.404 to 305.560. A taxpayer shall be considered to be aggrieved by the department's values if the taxpayer harvests timber in western Oregon. The court has jurisdiction to affirm or modify the values contained in the immediate harvest value tables adopted by the department.

(3) An appeal filed in the Oregon Tax Court pursuant to this section shall have priority over all other cases pending before the court and shall be heard and decided as soon after coming to issue as is reasonably possible.

(4) If the Oregon Tax Court fails to render a decision before November 1, the immediate harvest values adopted by the department may be used as the immediate harvest values for the tables referred to in ORS 321.282 until a decision is reached. If the court establishes immediate harvest values different from those adopted by the department, the provisions of ORS 321.560 shall apply, except that no penalty shall be assessed for deficiencies attributable to changes in the immediate harvest values and any refund shall be payable, with interest, no later than July 1 following the calendar year in which the court renders the decision.

321.299 Western Oregon Timber Tax Reserve Account. (1) The Western Oregon Timber Tax Reserve Account is established, separate and distinct from the General Fund. The Western Oregon Timber Tax Reserve Account shall consist of the moneys transferred to the account under subsection (2) of this section.

(2) Prior to August 31 of each fiscal year, the Department of Revenue shall determine the balance in the Western Oregon Timber Tax Reserve Account. If the balance in the Western Oregon Timber Tax Reserve Account is less than 10 percent of the average of the timber tax collections from all timber taxes imposed under ORS 321.273 in the three preceding fiscal years, the department shall cause to be transferred to the Western Oregon Timber Tax Reserve Account, on a periodic basis, from the Western Oregon Timber Tax Account during the current fiscal year, 50 percent of the amount needed, as of the date of determination, to bring the balance in the Western Oregon Timber Tax Reserve Account to 10 percent of the average of the timber tax collections in the three previous fiscal years. The remaining amount needed to bring the balance in the Western Oregon Timber Tax Reserve Account to 10 percent of the average of the timber tax collections in the three preceding fiscal years shall be transferred in the next succeeding fiscal year. The transfer shall be made before the determination is made under this subsection for that next succeeding fiscal year.

(3) If the balance in the Western Oregon Timber Tax Reserve Account as determined under subsection (2) of this section is more than 10 percent of the average timber tax collections in the three preceding fiscal years, all of the excess determined prior to August 31 of any year shall be transferred to the Western Oregon Timber Tax Account and shall be included in the estimates of the department made under ORS 321.312 (2)(b) as amounts to be credited and

paid as timber tax collections for the current fiscal year.

(4) If, for any fiscal year, the amounts available for distribution from the Western Oregon Timber Tax Account do not equal the offsets, as determined and certified under ORS 321.312 (3), an amount equal to the deficiency shall be transferred from the Western Oregon Timber Tax Reserve Account to the Western Oregon Timber Tax Account and shall be paid in the same manner as other moneys in the Western Oregon Timber Tax Account are distributed until each taxing district receives for the fiscal year an amount equivalent to its offset.

(5) All moneys in the Western Oregon Timber Tax Reserve Account shall be invested, upon certification of the amounts available for investment in the account, as provided in ORS 293.701 to 293.820, and the earnings shall be credited to the account. Interest earned on cash balances invested by the State Treasurer shall be credited to this account. Moneys are appropriated continuously from the Western Oregon Timber Tax Account for use in reimbursing the General Fund for expenses incurred in the collection of taxes imposed by ORS 321.273 and other expenses associated with forest taxation and for costs incurred by the State Forestry Department in carrying out ORS 315.104 and 321.705 to 321.765 for the period beginning July 1, 1999, and ending July 1, 2001.

(2) Notwithstanding the provisions of ORS 291.238, the amount of moneys necessary to pay refunds of the taxes imposed by ORS 321.273 is appropriated continuously to the department and shall be used by the department for the payment of all refunds of taxes imposed by ORS 321.273 which have been audited and approved by the department. This appropriation shall be from the Western Oregon Timber Tax Account. Any penalties, interest and taxes due from the taxpayer on account of taxes imposed by ORS 321.273 shall be applied in that order in computing any refund, and only the balance due the taxpayer, if any, shall be refunded.

(3) Moneys remaining in the Western Oregon Timber Tax Account following the appropriations described in subsections (1) and (2) of this section shall be distributed as follows:

(a) Sixty-five percent of moneys that are derived from the harvest of timber on land subject to assessment under ORS 321.353 (6) to (9) shall be distributed as follows:

(A) Ninety-three percent of the amount distributed under this paragraph shall be transferred to and is continuously appropriated to the State School Fund for the purposes for which State School Fund moneys may be spent.

(A) Ninety-three percent of the amount distributed under this paragraph shall be transferred to and is continuously appropriated to the State School Fund for the purposes for which State School Fund moneys may be spent.

(B) Seven percent of the amount distributed under this paragraph shall be transferred to and is continuously appropriated to the Community College Support Fund established under ORS 341.620.

(4)(a) Moneys that are to be distributed to western Oregon counties under subsection (3)(b) of this section shall be distributed to each western Oregon county in the proportion that the assessed value of forestland in the county for the preceding fiscal year bears to the total assessed value of forestland for the preceding fiscal year.

(b) The Department of Revenue may adopt rules to further implement the distribution calculation described in this subsection.

(5) All moneys distributed to counties pursuant to subsection (4) of this section are continuously appropriated to

the counties to which the moneys are distributed. On or before August 31 of each fiscal year, the department shall determine the amount distributable to counties from the Western Oregon Timber Tax Account as of May 15 of the preceding fiscal year, and shall remit to the counties the amounts so determined. 321.307. (1) The revenue from the taxes imposed by ORS 321.273 shall be remitted by the Department of Revenue to the State Treasurer who shall deposit it in a suspense account, separate and distinct from the General Fund, established under the provisions of ORS 293.445 which shall be known as the Western Oregon Timber Tax Account. Interest earned on cash balances invested by the State Treasurer shall be credited to this account. Any penalties, interest and taxes due from the taxpayer on account of taxes imposed by ORS 321.273 shall be applied in that order in computing any refund, and only the balance due the taxpayer, if any, shall be refunded.

(3)(a) The records of the department shall reflect the amount of revenue deposited in the Western Oregon Timber Tax Account which it has credited to the account of each taxing district. Subject to appropriations as provided in subsections (1) and (2) of this section and ORS 321.311 and transfers required under ORS 321.299, the department shall credit the entire balance of such revenue to such districts. The amount credited to each district from the revenue collected during each calendar quarter shall be determined by allocating the revenue collected in each calendar quarter to the several western Oregon counties and then by allocating the share of each county among the several participating taxing districts within that county. Seventy-five percent of the collections shall be allocated in the proportion that the average annual harvest value of timber harvested in each county during the last five calendar years preceding the fiscal year in which the collection occurs bears to the average annual harvest value of timber harvested in all western Oregon counties during the same period. Twenty-five percent of the collections shall be allocated in the proportion that the assessed value of forestland in each western Oregon county during the preceding fiscal year bears to the assessed value of forestland in all western Oregon counties during such fiscal year. The amounts as allocated shall be apportioned and credited to each participating district in each county as follows:

(A) Seventy-five percent thereof shall be apportioned in the proportion that the average annual harvest value of timber harvested in the district during said five years, multiplied by the average of the district's rates of levy in the ad valorem tax roll for the five preceding fiscal years, bears to the average harvest value of timber harvested in all districts in the county multiplied by the corresponding average rate of levy in each district.

(B) Twenty-five percent thereof shall be apportioned in the proportion that the assessed value of forestland in the district during the preceding fiscal year multiplied by the average of the district's rates of levy in the ad valorem tax roll for the five preceding fiscal years bears to the assessed value of forestland in all districts in the county multiplied by the corresponding average rate of levy in each district.

(b) For purposes of this subsection, for fiscal years beginning before July 1, 1995, the average annual harvest value of timber harvested from land classified under ORS 321.255 to 321.360 (1975 Replacement Part) as reforestation land as of July 1, 1977, shall be adjusted. The adjustment shall be computed by dividing the total severance tax rate

imposed upon timber harvested from such reforestation land by six and one-half percent. The resulting factor shall be multiplied by the value of timber harvested from the reforestation lands.

(4) All moneys credited to the taxing districts pursuant to subsection (3) of this section are continuously appropriated to the districts in whose names they are credited, and the department shall remit the full amounts including interest remaining to the credit of each district as of the 10th day of the second month following the close of each calendar quarter to the county treasurers of the respective counties in which the districts are located on or before the last day of that month, together with the department's certification of the amount thereof which is for the credit of each such district. A working balance may be retained in the Western Oregon Timber Tax Account for the payment of administrative expenses provided by subsection (1) of this section.

Note: Section 32, chapter 1078, Oregon Laws 1999, provides:

Sec. 32. (1) Notwithstanding ORS 321.307 (3)(b), for the fiscal year beginning July 1, 2000, a distribution of Western Oregon Timber Tax Account moneys to western Oregon counties may not be made.

(2) On or before August 31, 2000, 30 percent of moneys held in the Western Oregon Timber Tax Reserve Account shall be distributed to western Oregon counties in the manner provided for Western Oregon Timber Tax Account distributions under ORS 321.307 (4) and (5), and is appropriated to western Oregon counties for the purposes for which Western Oregon Timber Tax Account distributions are appropriated.

(3) The Department of Revenue shall certify to the county assessor the amount distributed to the county under this section. For purposes of calculating the property tax offset under ORS 321.312 for the property tax year beginning July 1, 2000, the county assessor shall consider a distribution received under this section to be a distribution pursuant to ORS 321.307 (3)(b).

(4) On August 31, 2000, the balance of moneys in the Western Oregon Timber Tax Reserve Account shall be distributed as follows:

(a) Ninety-three percent of the amount distributed under this subsection shall be transferred to and is appropriated to the State School Fund for the purposes for which State School Fund moneys may be spent.

(b) Seven percent of the amount distributed under this subsection shall be transferred to and is appropriated to the Community College Support Fund established under ORS 341.620.

(5) A transfer described in ORS 321.299 (2) to (4) may not be made on or after July 1, 2000. [1999 c.1078 s.32]

321.312 Privilege tax on harvest of timber to be offset against operating levy. Each year when extending the operating levy of the county upon the assessment roll the county assessor shall offset against the levy submitted by the county the amount of revenue distributed to the county pursuant to ORS 321.307 (3)(b) and correspondingly reduce the amount of the levy to be collected through extension on the tax roll for the current fiscal year. [1977 c.892 s.11; 1979 c.438 s.2; 1985 c.759 s.23; 1991 c.459 s.286; 1993 c.801 s.13; 1999 c.1078 s.30]

Note: The amendments to 321.312 by section 30, chapter 1078, Oregon Laws 1999, apply to Western Oregon Timber Tax Account distributions occurring on or after July 1, 2000. See section 31, chapter 1078, Oregon Laws 1999. The text that is applicable until July 1, 2000, is set forth for the user's convenience.

321.312. (1) Each year when extending the levies of the taxing districts upon the assessment rolls the county assessor shall offset against the levy submitted by each taxing district an estimated amount of revenue to be raised from privilege taxes imposed by ORS 321.273 and correspondingly reduce the amount of the levy to be collected through extension on the tax roll for the current fiscal year.

(2)(a) Prior to January 15, 1994, and prior to January 15 of each year thereafter, the Department of Revenue shall prepare a preliminary estimate of the revenues received from all taxes imposed under ORS 321.273 as a result of the harvesting of timber that will be credited to taxing districts for the ensuing fiscal year. The estimate shall include an estimate of the proportion of those revenues that each taxing district will receive. The estimate shall be forwarded to the taxing unit and may be used by the taxing unit in the preparation of its budget.

(b) Prior to August 31 of each fiscal year, the Department of Revenue, on the basis of its records and other information available to the department, shall prepare a final estimate of the collections that will be credited to each taxing district as a result of the harvest of timber during the calendar quarter beginning July 1, October 1 and January 1 of the current fiscal year and shall certify the final estimates so prepared to the appropriate county treasurer for use by the county treasurer and by the county assessor both in determining the amount of revenue to be distributed to the taxing district as limited by subsection (6) of this section and the amount of revenue to be offset against the levy of the taxing unit under subsection (3) of this section. In making the estimate, the department shall take into consideration any transfers to or from the Western Oregon Timber Tax Reserve Account required under ORS 321.299.

(3) Not later than September 10 of each year each county treasurer in western Oregon shall certify to the county assessor of the county the amount of privilege tax receipts then on deposit to the credit of each taxing district in the county under ORS 321.307 plus an amount equal to the department's estimate of collections that will be credited to the taxing district as a result of the harvest of timber during the calendar quarters beginning July 1, October 1 and January 1 of the current fiscal year as certified under of subsection (2)(b) of this section. However, the amount on deposit each August 31 shall be deemed to include amounts payable to the treasurer by the department not later than August 31 pursuant to ORS 321.307 (4) even if payment has not been made by August 31. Subject to instructions from the department pursuant to subsection (4) of this section, the estimated amount of revenue to be offset against the levy of a district pursuant to subsection (1) of this section shall be the amount so certified to the assessor by the treasurer.

(4) Subject to ORS 321.299, if the department has reason to believe that estimates made pursuant to subsection (3) of this section will be greater than the revenue from privilege taxes which will actually be available to the taxing district in the fiscal year, it may instruct the assessor to decrease the estimate accordingly, and such corrected estimate shall be the amount offset against the levy submitted by the district pursuant to subsection (1) of this section.

(5) Each county treasurer shall thereafter distribute the moneys on deposit on August 31 and the moneys remitted from the Western Oregon Timber Tax Account during that fiscal year, to the taxing districts to which they have been credited as certified by the department pursuant to ORS 321.307 (4) until the total of the moneys which were thus on deposit plus the total thus remitted, or the amount offset against the levy under subsection (1) of this section, whichever is the lesser, has been distributed.

(6) If the moneys on deposit on August 31 plus the moneys thus remitted to the treasurer and credited to a taxing district exceed the amount offset against the levy under subsection (1) of this section, the county treasurer shall hold such excess receipts on deposit in a special account until the following year when they shall be included in and treated as moneys on deposit on August 31 of such following year.

321.322 Returns; time for filing; extension. (1) On or before the last day of January, each taxpayer who has harvested any timber during the preceding calendar year, shall prepare a return on the form prescribed by the Department of Revenue showing the amounts and kinds of timber harvested for the preceding calendar year, the amount of tax for which the taxpayer is liable for harvesting during the preceding calendar year and such other relevant information as the department considers necessary to determine the tax due correctly and shall mail or deliver the return, together with a remittance for the unpaid balance of the tax, to the office of the department at Salem, Oregon. The return shall be signed and certified by the taxpayer or a duly authorized agent of the taxpayer, as provided in ORS 305.810. Whenever in its judgment good cause exists, the department may allow upon written

application made on or before the due date further time not exceeding 30 days for filing a return. The tax shall be delinquent if not paid by the due date which shall be determined without regard to any extension of time for filing the return.

(2) All privilege tax payments received under ORS 321.257 to 321.390 shall be credited first to penalty and then to interest accrued on the tax being paid and then to the tax.

(3) A taxpayer incurring less than \$10 total privilege tax liability under ORS 321.257 to 321.390 in any calendar year is excused from the payment of such tax but shall be required to file a return. 321.347 Land designations; classifications; certain election by landowners. For the purposes of ORS 321.257 to 321.390:

(1) All land in western Oregon valued as forestland for ad valorem tax purposes on January 1, 1977, shall retain that classification for the purposes of ORS 321.257 to 321.390 unless it is specifically excluded from the provisions thereof or unless it is removed from that classification as provided in ORS 321.359 or is no longer land the highest and best use of which is forestland.

(2) Land designated as forestland pursuant to ORS 321.605 to 321.680 (1975 Replacement Part) shall retain the original date of such designation.

(3) Lands classified as reforestation lands as of July 1, 1977, pursuant to ORS 321.255 to 321.360 (1975 Replacement Part) shall be considered to have been designated as forestland from the date of original classification as reforestation lands. Any lands so classified prior to February 1, 1972, shall be presumed to have been designated not earlier than February 1, 1972.

(4) Pursuant to the election of the owner, as provided in section 45, chapter 892, Oregon Laws 1977, land which, as of January 1, 1977, was designated under the provisions of ORS 321.705 to 321.765 shall be considered to have been designated as forestland for the purposes of ORS 321.257 to 321.390 from the date of the original designation under those provisions. Any lands so designated prior to January 1, 1972, shall be presumed to have been designated not earlier than January 1, 1972, for the purposes of additional taxes imposed by ORS 308A.700 to 308A.733. [1977 c.892 s.23; 1979 c.553 s.10; 1981 c.419 s.7; 1991 c.459 s.289; 1999 c.19 s.5; 1999 c.314 ss.68,68a]

321.348 Assignment of forestland to land classes; change in class. (1) As of the tax year beginning July 1, 1995, and for each tax year thereafter, forestland shall be assigned by the Department of Revenue to land classes as defined in ORS 321.257.

(2) Land classes assigned under subsection (1) of this section may be changed thereafter by the department upon

the initiative of the department, or upon the request of an owner, if further investigation reveals that the basis for the land class determination was inaccurate. Any such redetermination of land class shall be certified immediately to the county assessor. [1993 c.801 s.17]

Note: 321.348 was added to and made a part of ORS 321.257 to 321.390 by legislative action but was not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

321.349 Valuation of certain forestland at farm use value. (1) Subject to subsection (2) of this section, land that is changed from farm use special assessment under ORS 308A.050 to 308A.128 to special assessment as forestland under ORS 321.257 to 321.390, at the election of the owner made under rules adopted by the Department of Revenue, shall not be valued under ORS 308.205, 308.232 and 321.257 to 321.390 for the tax year of the change and years thereafter in which such special forestland assessment is in effect for the land, but shall be valued under ORS 308A.050 to 308A.128, if:

(a) The land has been assessed under ORS 308A.050 to 308A.128 for at least the 10 consecutive years immediately prior to the year for which the change is first effective;

(b) The planting of the timber takes place after October 15, 1983, and qualifies for the current tax year for special assessment as forestland under ORS 321.257 to 321.390;

(c) The timber on the land is of an average age of less than 40 years; and

(d) The land is held by an owner having a total ownership of forestland in western Oregon not in excess of 2,000 acres, as determined under subsection (3) of this section.

(2) If timber on land valued under subsection (1) of this section reaches, for any tax year, an average age of 40 years or more, this section shall cease to apply. However, without application and without any additional tax, interest or penalty, the land shall for that tax year and for each year thereafter for which the land is qualified, be valued under ORS 308.205, 308.232 and 321.257 to 321.390.

(3) In computing a forestland owner's acreage for purposes of subsection (1) of this section, all of the owner's forestland, as defined in ORS 321.257, in western Oregon shall be included. As used in this subsection, "total ownership" includes (a) forestland owned by the owner individually; and (b) forestland owned by any corporate or other group owner in which the owner holds a share of ownership of 10 percent or more. No owner may have forestland valued under subsection (1) of this section if the owner, or any individual having a share in the owner, has a spouse, brother, sister, ancestor or lineal descendant who is an owner, or who holds a share in an owner having forestland valued under subsection (1) of this section. However, the county assessor may grant exceptions to this requirement if the owner satisfactorily demonstrates that the combination of ownership with the indicated relatives arose from bona fide business reasons other than a desire to circumvent the 2,000 acre limitation imposed under subsection (1) of this section. [1983 c.657 s.8; 1991 c.459 s.290; 1993 c.801 s.38a; 1999 c.19 s.6; 1999 c.314 s.66; 1999 c.1078 s.79]

321.351 Department of Revenue to review forestland values. In 2000, and every six years thereafter, the Department of Revenue shall review Oregon forestland values proposed by ORS 321.348, 321.353 and 321.811 and pursuant to ORS 192.245 shall report its findings to the Legislative Assembly during the period of its regular session next to convene. [1993 c.801 s.21a; 1999 c.21 s.51]

Note: 321.351 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 321 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

321.352 Western Oregon forestland assessment for 1993-1994 and 1994-1995; standards; certification of values to assessors; appeals of values by certain taxpayers. (1) Notwithstanding ORS 308.205, for the tax year beginning July 1, 1993, and the tax year beginning July 1, 1994, forestland in western Oregon shall be assessed at its value for forest use. For each of those years, the value of forestland shall be the previous year's value as adjusted by the moving average percentage change calculated under subsection (2) of this section.

(2) Each year, the Department of Revenue shall determine a percentage change in the average stumpage value of young growth Douglas fir timber, classes B, C and D, for the current and two preceding years when compared with a similar calculation made in the previous year. For purposes of obtaining the averages required by this subsection:

(a) In computing the increase or decrease in stumpage value for any year, the stumpage values established for that year by the department under ORS 321.282 for severance tax purposes shall be used.

(b) The standards for classes B, C and D shall be the standards used by the department for valuing timber under ORS 321.622 (1975 Replacement Part).

(3) For purposes of determining forestland values pursuant to subsections (1) and (2) of this section, forestland in western Oregon shall be divided into those land market areas as the department shall establish by rule.

(4) Prior to July 1 of each year, the department shall determine and certify to the appropriate county assessor the values of forestland as provided in subsections (1) to (3) of this section. The county assessor shall use the value so certified in the preparation of the assessment and tax rolls of the county each tax year.

(5) At any time after the certification of values pursuant to subsection (4) of this section, but not later than August 1, five or more taxpayers owning in the aggregate not less than five percent of the total forestland acreage subject to ad valorem taxation in a single land market area may appeal any or all of the values in that area directly to the tax court by filing a joint petition with the tax court in the manner provided for appeals from orders of the county boards of property tax appeals. Notice of the appeal shall be made in each county having values affected by the appeal, either by personal service, by certified mail on each taxpayer affected, or by publication made once a week for two consecutive weeks in a newspaper of general circulation in the county. The notice shall designate the values appealed, and include a statement of the provisions of subsection (6) of this section. The petition shall designate one of the group as the representative of all, and all proceedings before the tax court and any appeal from its determination shall be conducted procedurally as though the designated representative were the only petitioner.

(6) If the tax court increases or reduces any of the values under appeal, the judgment of the court shall apply to the valuation of all forestland in the designated market area for that year. An appeal may be taken to the Oregon Supreme Court from the judgment of the tax court. Unless changed upon appeal to the Supreme Court, the tax court determination shall be binding upon the department and upon each assessor and taxpayer affected by such determination of value.

(7) All other appeals from the application of the forestland values certified by the department under subsection (4) of this section shall be taken in the time and manner otherwise provided by law for such property tax appeals. [1977 c.892 s.24; 1979 c.437 s.1; 1981 c.428 s.1; 1981 c.804 s.91; 1985 c.613 s.16; 1991 c.459 s.291; 1993 c.270 s.65; 1993 c.653 s.12; 1993 c.801 s.18; 1995 c.650 s.93; 1999 c.21 s.52]

321.353 Value per acre of forestland by land class; value index; assessment at percentage of forestland value; maximum assessed value. (1) The assessed value of forestland in western Oregon shall be determined as provided in subsection (8) of this section.

(2) Notwithstanding ORS 308.205, 308.232 or 321.352 or other law and subject to subsection (3) of this section, for the tax year beginning July 1, 1995, and for each tax year thereafter, forestland in western Oregon shall be considered to have a specially assessed value per acre in accordance with the following schedule:

Land Class	Value Per Acre
FA.....	\$720
FB.....	\$619
FC.....	\$396
FD.....	\$299
FE.....	\$171
FF.....	\$42
FG.....	\$7
FX.....	\$1

(3)(a) For the tax year beginning July 1, 1995, and for each tax year thereafter, the values per acre of forestland as determined under subsection (2) of this section shall be adjusted according to the change calculated under this subsection.

(b) The Department of Revenue shall determine the assessed values of forestland by multiplying the assessed values of the forestland for the previous year by the value index calculated by the department and certified to the

appropriate county assessors under subsection (4) of this section. For the tax year beginning July 1, 1995, the “assessed values of the forestland for the previous year” means the values set forth in subsection (2) of this section.

(c) As used in this subsection, “value index” means the number 1.0 plus the decimal equivalent of 50 percent of the change, whether positive or negative, in the Average Western Oregon Log Value for:

(A) The current and seven preceding six-month periods when compared with a similar calculation made one year previously for the tax year beginning July 1, 1995;

(B) The current and nine preceding six-month periods when compared with a similar calculation made one year previously for the tax year beginning July 1, 1996;

(C) The current and 11 preceding six-month periods when compared with a similar calculation made one year previously for the tax year beginning July 1, 1997; and

(D) The current and 13 preceding six-month periods when compared with a similar calculation made one year previously for all tax years beginning on or after July 1, 1998.

(d) As used in this subsection, “current” means the six-month period last ending before the calculation is made.

(e) For purposes of determining forestland values under this section, forestland in western Oregon shall be divided into those land market areas as the department shall establish by rule.

(4) Prior to July 1 of each tax year, the department shall determine and certify to the appropriate county assessor the values of forestland in western Oregon. Except as provided in ORS 321.352 (6), the county assessor shall use the value so certified in the preparation of the assessment and tax rolls of the county each tax year.

(5) ORS 321.352 (5) to (7) apply to the forestland values determined under this section.

(6) For the tax year beginning July 1, 1995, and for each tax year thereafter, forestland in western Oregon shall be subject to ad valorem taxation at the same rates as nonforestland similarly situated. However, the assessed value for taxation of such forestland shall not exceed 20 percent of its value determined under ORS 321.352 to 321.381.

(7) For each land class described in subsection (2) of this section, the forestland maximum assessed value per acre shall equal 103 percent of the forestland maximum assessed value per acre for the preceding assessment year.

(8) The assessor shall compute the assessed value of forestland by taking the lesser of the value established under subsection (6) of this section or subsection (7) of this section and multiplying the value by the acreage of the forestland.

(9) For the first assessment year for which property is designated as forestland, the forestland's assessed value shall be determined as provided in subsection (8) of this section. [1993 c.801 ss.17a,20; 1995 c.79 s.174; 1997 c.541 s.391; 1999 c.19 s.7; 1999 c.21 s.53]

Note: The amendments to 321.353 by section 14, chapter 1078, Oregon Laws 1999, apply to property tax years beginning on or after July 1, 2001. See section 16, chapter 1078, Oregon Laws 1999. The text that is applicable on and after July 1, 2001, is set forth for the user's convenience.

(3)(a)(A) For tax years beginning on or after July 1, 1995, and before July 1, 2001, the values per acre of forestland

as determined under subsection (2) of this section shall be adjusted according to the change calculated under this paragraph.

(B) The Department of Revenue shall determine the assessed values of forestland by multiplying the assessed values of the forestland for the previous year by the value index calculated by the department and certified to the appropriate county assessors under subsection (4) of this section. For the tax year beginning July 1, 1995, the "assessed values of the forestland for the previous year" means the values set forth in subsection (2) of this section.

(C) As used in this paragraph, "value index" means the number 1.0 plus the decimal equivalent of 50 percent of the change, whether positive or negative, in the Average Western Oregon Log Value, as defined in ORS 321.257 (1997 Edition) for:

(i) The current and seven preceding six-month periods when compared with a similar calculation made one year previously for the tax year beginning July 1, 1995;

(ii) The current and nine preceding six-month periods when compared with a similar calculation made one year previously for the tax year beginning July 1, 1996;

(iii) The current and 11 preceding six-month periods when compared with a similar calculation made one year previously for the tax year beginning July 1, 1997; and

(iv) The current and 13 preceding six-month periods when compared with a similar calculation made one year previously for all tax years beginning on or after July 1, 1998.

(D) As used in this paragraph, "current" means the six-month period last ending before the calculation is made.

(E) For purposes of determining forestland values under this paragraph, forestland in western Oregon shall be divided into those land market areas as the department shall establish by rule.

(b)(A) For the tax year beginning July 1, 2001, and for each tax year thereafter, the values per acre of forestland shall be determined by the department by multiplying the values per acre for the previous tax year by the value index calculated by the department and certified to the appropriate county assessor under subsection (4) of this section.

(B) As used in this paragraph, "value index" means the number 1.0 plus the decimal equivalent of one-half of the percentage change, whether positive or negative, in the average of the Average Pacific Northwest Coast Lumber Price Index values over the seven preceding one-year (calendar) periods when compared with the corresponding average calculated with respect to the previous year.

(4) Prior to July 1 of each tax year, the department shall determine and certify to the appropriate county assessor the values of forestland in western Oregon. Except as provided in ORS 321.352 (6), the county assessor shall use the value so certified in the preparation of the assessment and tax rolls of the county each tax year.

(5) ORS 321.352 (5) to (7) apply to the forestland values determined under this section.

(6) For the tax year beginning July 1, 1995, and for each tax year thereafter, forestland in western Oregon that is not assessed under ORS 321.354 shall be subject to ad valorem taxation at the same rates as nonforestland similarly situated. However, the assessed value for taxation of such forestland shall not exceed 20 percent of its value determined under ORS 321.352 to 321.381.

(7) For each land class described in subsection (2) of this section, the forestland maximum assessed value per acre of forestland assessed under this section shall equal 103 percent of the forestland maximum assessed value per acre for the preceding assessment year.

(8) The assessor shall compute the assessed value of forestland by taking the lesser of the value established under subsection (6) of this section or subsection (7) of this section and multiplying the value by the acreage of the forestland.

(9) For the first assessment year for which property is designated as forestland, the forestland's assessed value shall be determined as provided in subsection (8) of this section.

Note: 321.353 was added to and made a part of ORS 321.257 to 321.390 by legislative action but was not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

(2) Notwithstanding ORS 321.273 (3) or (4), any timber harvested from forestland described in subsection (1) of this section, during the year of acquisition and the four calendar years immediately following, shall be subject to the privilege tax imposed under ORS 321.273 (2).

(3) Additional taxes may not be imposed as a result of a disqualification under this section.

(4) The notification requirements and other procedures that the county assessor must follow in disqualifying forestland do not apply to a disqualification under this section. [1999 c.1078 s.10]

Note: Section 11, chapter 1078, Oregon Laws 1999, provides:

Sec. 11. Section 10 of this 1999 Act [321.365] applies to property tax years beginning on or after July 1, 2000, and to privilege tax reporting periods beginning on or after January 1, 2000. [1999 c.1078 s.11]

Note: 321.365 was added to and made a part of 321.257 to 321.390 by legislative action but was not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

321.367 Forestland management; effect of failure to manage forestland in accordance with management plan. (1) The State Forester shall identify all of the forestlands that fail to meet the minimum stocking required under ORS 527.610 to 527.770 and 527.992 and that are therefore underproductive as described under ORS 526.455.

(2)(a) At any time the State Forester has reason to believe that forestland is not being managed as forestland, the State Forester shall review the owner's management plan, if any, and inspect the property. Subject to subsection (4) of this section, if the State Forester then determines the land is not being managed in accordance with a plan which makes provision for: (A) Regeneration of all suitable nonstocked land; (B) Maintenance of a free-to-grow condition; (C) Protection from fire, insects, disease, animal damage, undesirable vegetative competition; and (D) Final harvest, the State Forester shall advise the owner that the land is not being managed in accordance with a plan that meets the criteria set forth in this subsection and that a plan for the land that does meet the criteria must be developed and activated within one year after the date of the advisement.

(b) At the request of the owner, the State Forester shall assign a forester or provide a listing of foresters to assist the owner in developing and implementing an appropriate management plan for the land.

(c) As soon as practicable after the time indicated in the advisement has expired, the State Forester shall view the land to determine if the land is being managed in accordance with a plan that meets the criteria set forth in paragraph (a) of this subsection. If, upon inspection, the State Forester finds that the land is not being so managed, the State Forester shall notify the owner and the county assessor.

(3) The county assessor, upon receipt of the notice from the State Forester, shall cease to treat such lands as forestland under ORS 321.257 to 321.390 and shall value such lands under ORS 308.205 and 308.232.

(4) If at the time that the State Forester views the land under subsection (2)(c) of this section, it is determined that a change in ownership has occurred, the State Forester shall notify the new owner as required under subsection (2)(a) of this section in the manner of the original notification.

(5) When the owner of forestland declared ineligible for forestland taxation under this section provides satisfactory information to the State Forester of subsequent action taken to correct the deficiency resulting in the disqualification of land, or provides an acceptable management plan to correct such deficiency, the State Forester shall so indicate to the county assessor. The assessor shall then assess the land under ORS 321.257 to 321.390, if the land is otherwise qualified for such assessment.

(6) The State Forester shall adopt rules necessary to carry out the purposes of this section. [1977 c.892 s.28a; 1979 c.454 s.5; 1983 c.669 s.1; 1987 c.158 s.53; 1991 c.854 s.7; 1993 c.801 s.38b]

321.372 [1977 c.892 s.29; 1979 c.350 s.15; 1983 c.462 s.16; 1985 c.759 s.25; 1991 c.459 s.296; repealed by 1999 c.314 s.94]

Note: 321.372 is repealed July 1, 2000. See section 94, chapter 314, Oregon Laws 1999. For text of 321.372 operative until July 1, 2000, see 321.372 (1997 Edition).

321.375 Notice of appeal of forestland value; form of notice. For any tax year beginning on or after July 1, 1982, for which the value of forestland in western Oregon is determined under ORS 321.352, the county assessor or tax collector shall notify the owner of each affected parcel of the appeal of the forestland value, and that additional taxes

may be assessed if the court determines that the value of the forestland is greater than the value placed upon the assessment and tax rolls. The notice may be on or accompany the tax statement, or may be mailed to the owner by separate mailing within 30 days before or after the tax statement is mailed. If the notice is on the tax statement, the words "forestland value under appeal-potential additional tax liability" or other similar phrase shall be considered to meet the requirements of this section. If an owner owns more than one parcel of forestland in the county, and the notice is given by separate mailing, only one notice need be given to that owner. [1981 c.428 s.3; 1985 c.759 s.26; 1991 c.459 s.297; 1993 c.270 s.72]

321.377 [1977 c.892 s.53; repealed by 1985 c.759 s.40]

321.379 Reports by purchaser of privately owned timber; reports by purchasers of logs from timber harvested from private lands; seller to provide purchasers of woods direct logs with operations permit number; penalty. (1) Any purchaser in an arms-length transaction of privately owned timber located within western Oregon shall, within 30 days after the purchase of the timber, report the particulars of the purchase to the Department of Revenue. The particulars that must be reported shall be those designated by rule of the department and shall be relevant to the valuation of stumpage. The report shall be made in the form specified by rule of the department.

(2) Any seller of woods direct logs shall provide any purchaser of those logs with the proper State Forestry Department Notification of Operations permit number applicable to the logs and the name of the timber owner as shown on the permit. Purchasers shall include that information in any records or reports of purchases required by the department under this chapter.

(3) Any seller or purchaser who fails to report a sale or purchase as required under this section shall be liable for a penalty of \$1,000 for each failure to report, which shall be assessed and collected in the manner provided in ORS 321.560 and 321.570. [1989 c.1083 s.5; 1993 c.653 s.14; 1995 c.350 s.3; 1999 c.1078 s.27]

321.381 Confidentiality of reports submitted under ORS 321.379. (1) Particulars of timber and log sales or purchases, reported to the Department of Revenue under ORS 321.379, shall be confidential records of the department. Those records shall be available to the State Forestry Department, the Legislative Revenue Officer, or authorized representatives of the Legislative Revenue Officer, for the purpose of preparation of reports, estimates and analyses required by ORS 173.800 to 173.850, and to the authorized agents of the federal government and the several states on a reciprocal basis where the federal government and states have a provision of law which provides confidentiality meeting or exceeding that provided by this section.

(2) Violation of subsection (1) of this section is subject to a fine not exceeding \$5,000 or, if an officer or employee of the state, dismissal or removal from office or employment, or both fine and dismissal or removal from office or employment.

(3) Notwithstanding subsection (1) of this section, if stumpage value tables are appealed to the Oregon Tax Court under ORS 321.284, the department may disclose to the court any information received under ORS 321.379 that the department collected in determining the stumpage values under appeal. [1989 c.1083 s.6]

Note: The amendments to 321.381 by section 72, chapter 1078, Oregon Laws 1999, apply to privilege tax reporting periods beginning on or after January 1, 2001, and property tax years beginning on or after July 1, 2001. See section 73, chapter 1078, Oregon Laws 1999. The text that is applicable on and after those dates is set forth for the user's convenience.

321.381. (1) Particulars of timber and log sales or purchases, reported to the Department of Revenue under ORS 321.379, shall be confidential records of the department. Those records shall be available to the State Forestry Department, the Legislative Revenue Officer, or authorized representatives of the Legislative Revenue Officer, for the purpose of preparation of reports, estimates and analyses required by ORS 173.800 to 173.850, and to the authorized agents of the federal government and the several states on a reciprocal basis where the federal government and states have a provision of law which provides confidentiality meeting or exceeding that provided by this section.

(2) Violation of subsection (1) of this section is subject to a fine not exceeding \$5,000 or, if an officer or employee of the state, dismissal or removal from office or employment, or both fine and dismissal or removal from office or employment.

(3) Notwithstanding subsection (1) of this section, if immediate harvest value tables are appealed to the Oregon Tax Court under ORS 321.284, the department may disclose to the court any information received under ORS 321.379 that the department collected in determining the immediate harvest values under appeal.

321.390 Land used to grow certain hardwood to be assessed as farm use land; exception upon election; application required for unzoned land. (1) Land described in ORS 321.267 (1)(e) (relating to hardwood timberland, including hybrid cottonwood timberland) shall be assessed as farm use land under ORS 308A.050 to 308A.128, unless the owner of the land makes the election under ORS 321.274.

(2)(a) If land is or becomes land described under ORS 321.267 (1)(e) and the land is not located within an exclusive farm use zone, the owner shall make application for special valuation as farm use land in the manner provided under ORS 308A.077, as follows:

(A) If the change in use takes place on or after July 1, the owner shall file the application on or before April 1 of the following year.

(B) If the change in use takes place prior to July 1, the owner shall file the application on or before August 1 of the same year.

(b) If an application is filed as provided under this subsection, the owner shall have seven years beginning with the first year of classification to meet the income requirements of ORS 308A.071 and need not meet the two-year farm use requirements of ORS 308A.068. [1989 c.887 s.8; 1991 c.459 s.298; 1999 c.314 s.52]

(Temporary provisions relating to interim studies and reports)

Note: Sections 59, 60 and 61, chapter 1078, Oregon Laws 1999, provide:

Sec. 59. (1) The Department of Revenue shall convene a working group to review forestland values established under ORS 321.353 and 321.811 and real market values for highest and best use forestlands. The working group shall develop and make recommendations on appropriate measures of forestland values for tax years beginning on or after July 1, 2003. The Department of Revenue shall present a report stating the recommendations of the working group to the interim committees of the Seventieth Legislative Assembly having jurisdiction over revenue matters, before January 1, 2001.

(2) The working group shall consist of representatives of owners of eastern Oregon and western Oregon forestland, county assessors, the Department of Revenue and the State Forestry Department.

(3)(a) If the working group is unable to agree on appropriate measures of forestland value within a time that is sufficient to prepare a report and make recommendations to the interim revenue committees by the time prescribed in subsection (1) of this section, the department shall commence an alternative means of dispute resolution as authorized under ORS 183.502. If the alternative means of dispute resolution requires the appointment of outside consultants or of a panel, the consultants or panel members shall have expertise in forestland appraisal. The members of the working group shall agree upon the method for selecting the consultants or panel members.

(b) The expenses of the working group and any expenses associated with an alternative means of dispute resolution commenced under this section shall be considered expenses of administering forest taxes. [1999 c.1078 s.59]

Sec. 60. The Department of Revenue shall convene a working group representing affected parties to study and make recommendations for an economical, administratively efficient and cost-effective small forestland landowner deferred forest tax optional program. Any recommendation must allow small forestland landowners to choose to pay a substantial majority of forest taxes at the time of harvest. The recommendations shall be presented to the interim committees of the Seventieth Legislative Assembly having jurisdiction over revenue matters, prior to January 1, 2001. [1999 c.1078 s.60]

Sec. 61. The Department of Revenue shall convene a working group representing affected parties to study the methods and procedures by which forestland owners may appeal determinations of forestland real market value. The department shall prepare recommendations and present those recommendations to the interim committees of the Seventieth Legislative Assembly having jurisdiction over revenue matters, prior to January 1, 2001. [1999 c.1078 s.61]

EASTERN OREGON PRIVILEGE TAX

321.405 Definitions for ORS 321.405 to 321.515. As used in ORS 321.405 to 321.515, unless the context requires otherwise:

(1) "Eastern Oregon" means that portion of the state lying east of a line beginning at the intersection of the northern boundary of the State of Oregon and the western boundary of Wasco County, thence south along the western boundaries of the counties of Wasco, Jefferson, Deschutes and Klamath to the southern boundary of the State of Oregon.

(2) "Department" means the Department of Revenue.

(3) "Forestland" means forestland as defined in ORS 321.805.

(4) "Harvest" means the point at which timber that has been cut, severed, or removed for purposes of sale or use is first measured in the ordinary course of business as determined by reference to common practice in the timber industry.

(5) "Owner of timber" means any individual or combination of individuals, partnership, firm, corporation or association of whatever nature holding title to harvested timber by virtue of:

(a) An instrument of conveyance;

(b) The harvesting of the timber; or

(c) The harvesting of the timber and payment therefor.

(6) "Sustained yield management" means sustained yield management as defined in ORS 321.257.

(7) "Timber" means all logs which can be measured in board feet and other forest products as determined by department rule, but does not include western juniper or products from harvested western juniper.

(8) "Taxpayer" means the owner of timber at time of harvest. [1961 c.627 s.1; 1971 c.654 s.7; 1983 c.539 s.3; 1985 c.759 s.27; 1993 c.653 s.15; 1993 c.801 s.22; 1999 c.631 s.3]

321.408 Purposes of ORS 321.405 to 321.515. The purposes of ORS 321.405 to 321.515 are:

(1) To impose with respect to forestland in eastern Oregon a system of ad valorem taxation whereby the assessed value of forestland is determined by the Legislative Assembly effective January 1, 1994, and annually adjusted as described in ORS 321.810.

(2) To establish a privilege tax on timber harvested in eastern Oregon as a means of:

(a) Recognizing the findings in ORS 321.410 without discriminating in favor of either eastern or western Oregon.

(b) Recognizing the long-term nature of the forest crop and fostering the public policy of Oregon to encourage the growing and harvesting of timber.

(c) Protecting the public welfare by assuring that the citizens of the state and future generations shall have the benefits to be derived from the continuous production of forest products from the private forestland of eastern Oregon.

(d) Promoting the state's policy of encouraging forestry and the restocking of forestland to provide present and future benefits by enhancing the water supply, preventing erosion, providing habitat for wildlife, providing scenic and recreational opportunities and providing for needed products.

(e) Producing revenues for local taxing districts at the time of harvest in lieu of collecting a portion of ad valorem taxes on forestland.

(3) To assure local taxing districts that privilege tax receipts will be considered a local revenue source. [1993 c.801 s.25]

321.410 Legislative findings on ORS 321.405 to 321.515. It is hereby found that:

(1) Multiple taxation through a yearly ad valorem levy on both trees and forestland managed in sustained yield timber operations discourages conservation, private ownership and investment of capital.

(2) The interests of the state, its citizens and future citizens are best served by sustained yield practices and tax policies that encourage production of forest resources for commerce, recreation and watersheds, stabilize employment levels, prevent large population shifts and encourage millage of timber products within Oregon.

(3) Timber on private lands managed on a sustained yield basis should be treated as a crop and not taxed as real property.

(4) A tax at time of harvest recognizes the hazards and uncertainties involved in growing a long-term timber crop on a sustained yield basis.

(5) That portion of our state lying east of the summit of the Cascade Mountains differs greatly in forest tree types, soils, climate, growing conditions and topography from western Oregon.

(6) Eastern Oregon forests predominate in Ponderosa pine and associated species, while western Oregon forests predominate in Douglas fir and associated species. [1961 c.627 s.2; 1993 c.801 s.23]

321.415 Scope of ORS 321.405 to 321.515; certain timber not subject to privilege tax; effect on other taxes.

(1) Lands assessed by the Department of Revenue pursuant to ORS 308.505 to 308.665 or 308.805 to 308.820 and the

timber thereon shall not be subject to the provisions of ORS 321.405 to 321.515.

(2) The tax imposed under the provisions of ORS 321.405 to 321.515 shall be additional to that levied under the provisions of ORS 321.005 to 321.185 and 321.560 to 321.600.

(3) Timber on timberland which is exempt from the ad valorem real property tax shall be exempt from the privilege tax imposed by ORS 321.405 to 321.515.

(4) Land used exclusively for growing cultured Christmas trees, and the cultured Christmas trees growing thereon, as defined in ORS 215.203, shall not be subject to the provisions of ORS 321.405 to 321.515 and 321.805 to 321.825.

(5) Except as provided in ORS 321.426, land and hardwood timber, including but not limited to hybrid cottonwood, shall not be subject to the provisions of ORS 321.405 to 321.515 and 321.805 to 321.825 if the land and timber are:

(a) Grown or growing on land which has been prepared by intensive cultivation methods and which is cleared of competing vegetation for at least three years after tree planting;

(b) Of a species marketable as fiber for inclusion in the “furnish” for manufacturing paper products;

(c) Harvested on a rotation cycle within 10 years after planting; and

(d) Subject to intensive agricultural practices such as fertilization, insect and disease control, cultivation and irrigation.

(6)(a) Timber on land that, at the time of harvest, is assessed under ORS 308.146 (1) to (3) or specially assessed under ORS 308.370 or 308A.300 to 308A.330, if the land was assessed under ORS 308.146 (1) to (3) or 308.232 or was specially assessed under ORS 308.370 or 308A.300 to 308A.330 for at least five property tax years preceding the date the timber was harvested from the land, shall not be subject to the provisions of ORS 321.405 to 321.515.

(b) For purposes of this subsection and ORS 321.421 (4), land that has been forestland assessed under ORS 321.812 for any of the five property tax years preceding the date the timber was harvested from the land shall be considered to be forestland assessed under ORS 321.812.

(7) Nothing contained in ORS 321.405 to 321.515 shall prevent:

(a) The collection of ad valorem property taxes which became a lien against timber prior to July 1, 1962.

(b) The collection of taxes, charges or assessments made pursuant to law for protection.

(c) The collection of taxes levied under the provisions of ORS 321.005 to 321.185 and 321.560 to 321.600. [1961 c.627 s.5; 1963 c.60 s.1; 1977 c.892 s.39; 1983 c.657 s.3; 1991 c.714 s.1; 1993 c.801 s.26; 1995 c.79 s.176; 1997 c.154 s.52; 1999 c.1078 s.49]

Note: 308.370 is repealed July 1, 2000, by section 94, chapter 314, Oregon Laws 1999. The text of 321.415 was not amended by enactment of the Legislative Assembly to reflect the repeal. Editorial adjustment of 321.415 for the repeal of 308.370 has not been made.

321.420 Privilege tax imposed on harvest of timber from private forestlands in eastern Oregon; exemption of timber from ad valorem taxation. (1) All timber in eastern Oregon shall be exempt from levy and collection of the general ad valorem real property tax.

(2) For the privilege of harvesting timber from privately owned land in eastern Oregon a tax is imposed as set forth in ORS 321.405 to 321.515.

(3) The tax imposed by subsection (2) of this section is intended to recover the annuitized value of forgone property taxes on forestland. [1961 c.627 s.3; 1963 c.225 s.1; 1971 c.654 s.8; 1993 c.801 s.27; 1999 c.19 s.8; 1999 c.1078 s.51]

Note: Section 52, chapter 1078, Oregon Laws 1999, provides:

Sec. 52. The amendments to ORS 321.420 by section 51 of this 1999 Act apply to privilege tax reporting periods beginning on or after January 1, 2000, and to property tax years beginning on or after July 1, 2000. [1999 c.1078 s.52]

321.421 Rates of privilege tax imposed for harvest of timber from private lands in eastern Oregon; exemption for certain timber harvested after 2002. (1) For the privilege of harvesting timber from privately owned land in eastern Oregon, a privilege tax is imposed upon taxpayers at the rates provided under subsection (2) or (3) of this section.

(2) If the land upon which the timber is harvested is not assessed as provided in ORS 321.812 and is otherwise subject to privilege taxes, the rate of the privilege tax is 1.80 percent of the immediate harvest value of timber

harvested from privately owned land.

(3) If the timber is harvested from forestland assessed under ORS 321.812:

(a) The rate of the privilege tax is 1.1 percent of the immediate harvest value of timber harvested from privately owned land on or after January 1, 2000, and before January 1, 2002.

(b) The rate of the privilege tax is 0.8 percent of the immediate harvest value of timber harvested from privately owned land on or after January 1, 2002, and before January 1, 2003.

(4) Timber harvested from forestland assessed under ORS 321.812 on or after January 1, 2003, is exempt from the privilege tax imposed under ORS 321.405 to 321.515. [1993 c.801 s.29; 1999 c.1078 s.53]

321.425 [1961 c.627 s.4; 1977 c.892 s.39a; repealed by 1993 c.801 s.43]

321.426 Privilege tax on hardwood timber on private lands; eastern Oregon forestland; election by owner.

(1) Notwithstanding ORS 321.415 (5), and upon the election of a taxpayer made as provided under subsection (2) of this section, the taxes imposed under ORS 321.405 to 321.515 on the harvest of timber from other privately owned land in eastern Oregon are imposed on the harvest of hardwood timber from land in eastern Oregon described in ORS 321.415 (5) that is privately owned.

(2) A taxpayer having total ownership of forestland in eastern Oregon in excess of five acres but not in excess of 5,000 acres who elects to claim a credit allowed under ORS 315.104 for reforestation project costs paid or incurred in connection with a reforestation project as described under ORS 321.415 (5) on the forestland and for which a preliminary certificate is issued for a tax year beginning on or after January 1, 1992, shall be considered to have made the election to pay the privilege tax imposed under subsection (1) of this section upon the harvest, on and after the date the preliminary certificate is issued, of all such hardwood timber harvested from all forestland owned by the taxpayer on the date the preliminary certificate is issued. For purposes of this section, "ownership or total ownership" shall be determined under rules adopted by the Department of Revenue. If, after the date the preliminary certificate is issued, the forestland planted in hardwood timber as described in ORS 321.415 (5) is sold or otherwise transferred, the election shall be binding upon the purchaser or transferee and all subsequent purchasers and transferees, as to that particular land, until such time as all of the hardwood timber on that land has been harvested, the land is changed in use or the timber is exempt under other provisions of ORS 321.405 to 321.515, all to be determined subject to rules adopted by the department. [1991 c.714 s.3; 1993 c.801 s.39]

321.430 Determination of immediate harvest values; application by areas. (1) The Department of Revenue shall determine on or before February 1 of each year the immediate harvest values as of January 1 of the calendar year for which the immediate harvest values are to be used in computing the privilege tax imposed by ORS 321.421. The values shall be determined for each species or subclassification, as provided in subsections (2) and (3) of this section, and shall be expressed in terms of a dollar amount per thousand board foot or other unit measure. The total listing of values shall be combined into a convenient set of tables issued by the department. A copy of the tables shall be retained on file in the office of the department.

(2) The department shall select various areas in eastern Oregon which shall be treated as units for the application of the immediate harvest values determined under this section. The department shall determine unit values for immediate harvest for each species in each area, except that for Ponderosa pine the department may make further value classifications based on age, size and other relevant factors. The areas shall be selected, within the discretion of the department based on administrative feasibility, to include timber having similar growing and marketing conditions. The determination of the size and location of appropriate areas shall not be subject to review by the courts.

(3) As used in this section, "immediate harvest value" means the amount that each species or subclassification of timber would sell for at a voluntary sale made in the ordinary course of business for purposes of immediate harvest. Such value shall be determined by methods which make reasonable and adequate allowances for age, size, quality, growing conditions, costs of removal, accessibility to point of conversion, market conditions and all other relevant factors. [1961 c.627 s.4a; 1983 c.563 s.3; 1985 c.761 s.19; 1993 c.98 s.15; 1993 c.653 s.17; 1993 c.801 s.30; 1995 c.350 s.4]

321.432 Elective tax calculation; net stumpage recovery procedures. (1) A taxpayer who harvests less than 500,000 board feet of timber in the calendar year and who, during the 12-month period immediately preceding the due date of the privilege tax return, is not engaged in and does not have an ownership interest of more than 10 percent in a business engaged in the processing of timber into wood products, may elect to calculate and pay a tax on the basis of

net stumpage recovery from such forestland rather than by use of the tables prepared in accordance with ORS 321.430.

(2) For purposes of this section, "net stumpage recovery" means the selling price of the logs at a conversion center in an arm's length transaction, less the costs described in one of the following paragraphs:

(a) The logging costs reflected by a written agreement entered into in connection with the logging operation. The Department of Revenue may analyze the agreement and adjust the contract price to eliminate costs paid by the taxpayer for work or material not connected with logging, log hauling costs and marketing the timber.

(b) Administration, logging and log hauling costs typical for the type of harvest as determined by the department.

(3) The department may require such proof from the taxpayer as it deems necessary to determine the amount of stumpage recovery and eligibility for the alternate calculation of the tax provided in this section. [1987 c.551 s.5; 1991 c.459 s.302; 1993 c.801 s.31]

321.434 Reports by purchaser of purchase of privately owned timber; seller to provide purchasers of woods direct logs with operations permit number; penalty. (1) Any purchaser in an arms-length transaction of privately owned timber located within eastern Oregon shall, within 30 days after the purchase of the timber, report the particulars of the purchase to the Department of Revenue. The tax shall be delinquent if not paid by the due date which shall be determined without regard to any extension of time for filing the return.

(2) On or before the last day of January, each taxpayer shall make out a return on the form prescribed by the Department of Revenue showing the amount of tax for which the taxpayer is liable for the preceding calendar year and such other relevant information as the department considers necessary to correctly determine the tax due and shall mail or deliver the return, together with a remittance for the unpaid balance of the tax, to the office of the department at Salem, Oregon. The return shall be signed and verified by the taxpayer or a duly authorized agent of the taxpayer, as provided in ORS 305.810. 321.475 Collection of tax and effect of paying tax pending appeal. (1) No proceeding for the collection of the taxes provided for in ORS 321.405 to 321.515 shall be stayed by reason of the taking or pending of any appeal, except under order of the court and only in those cases wherein a good and sufficient undertaking has been executed in favor of the Department of Revenue and approved by the court covering the entire amount of the tax, interest and penalties imposed and any and all costs that may be involved. The undertaking shall be filed with the clerk of the court.

321.485 Eastern Oregon Timber Tax Account; deposit of tax revenues; refunds; distribution to State School Fund, Community College Support Fund and counties. (1) The revenue from the taxes imposed by ORS 321.405 to 321.515 shall be remitted by the Department of Revenue to the State Treasurer who shall deposit it in a suspense account, separate and distinct from the General Fund, established under the provisions of ORS 293.445 which shall be known as the Eastern Oregon Timber Tax Account. Interest earned on cash balances invested by the State Treasurer shall be credited to this account. Moneys are appropriated continuously from the Eastern Oregon Timber Tax Account for use in reimbursing the General Fund for expenses incurred in the collection of taxes imposed by ORS 321.405 to 321.515 and other expenses associated with administering forest taxes and for costs incurred by the State Forestry Department in carrying out the provisions of ORS 526.425 by providing assistance to nonindustrial private forest landowners in eastern Oregon.

(2) Notwithstanding the provisions of ORS 291.238, the amount of moneys necessary to pay refunds of the taxes imposed under ORS 321.405 to 321.515 is appropriated continuously to the department from the suspense account referred to in subsection (1) of this section, and shall be used by the department for the payment of all refunds of taxes imposed under ORS 321.405 to 321.515 which have been audited and approved by the department. Any penalties, interest and taxes then due from the taxpayer shall be applied in that order in computing any refund, and only the balance due the taxpayer, if any, shall be refunded.

(3) Moneys remaining in the Eastern Oregon Timber Tax Account following the appropriations described in subsections (1) and (2) of this section shall be distributed as follows:

(a) Sixty-five percent of moneys that are derived from the harvest of timber on land subject to assessment under ORS 321.811 (8) to (11) shall be distributed as follows:

(A) Ninety-three percent of the amount distributed under this paragraph shall be transferred to and is continuously appropriated to the State School Fund for the purposes for which State School Fund moneys may be spent.

(B) Seven percent of the amount distributed under this paragraph shall be transferred to and is continuously appropriated to the Community College Support Fund established under ORS 341.620.

(c) The balance of the account shall be distributed as follows:

(A) Ninety-three percent of the amount distributed under this paragraph shall be transferred to and is continuously appropriated to the State School Fund for the purposes for which State School Fund moneys may be spent.

(B) Seven percent of the amount distributed under this paragraph shall be transferred to and is continuously appropriated to the Community College Support Fund established under ORS 341.620.

(4)(a) Moneys that are to be distributed to eastern Oregon counties under subsection (3)(b) of this section shall be distributed to each eastern Oregon county in the proportion that the assessed value of forestland in the county in the preceding fiscal year bears to the total assessed value of forestland for the preceding fiscal year.

(b) The Department of Revenue may adopt rules to further implement the distribution calculation described in this subsection.

(5) All moneys distributed to counties pursuant to subsection (4) of this section are continuously appropriated to the counties to which the moneys are distributed. On or before August 31 of each fiscal year, the department shall determine the amount distributable to counties from the Eastern Oregon Timber Tax Account as of May 15 of the

preceding fiscal year, and shall remit to the counties the amounts so determined. The department shall certify to the county assessor the amount remitted to the county under this subsection.

(6) The amount of Eastern Oregon Timber Tax Account moneys to be transferred for a fiscal year under subsection (3)(a) and (c) of this section shall be determined as of May 15 of the fiscal year and transferred on or before May 31 of the fiscal year in which the distribution is being made.

(7) A working balance may be retained in the Eastern Oregon Timber Tax Account for the payment of administrative expenses described in subsection (1) of this section. [1961 c.627 s.16 (1), (2), (3) and (5); 1963 c.86 s.2; 1971 c.408 s.2; 1981 c.623 s.8; 1985 c.759 s.28; 1989 c.966 s.25; 1993 c.801 s.40; 1997 c.586 s.2; 1999 c.19 s.10; 1999 c.1078 s.55]

Note: The amendments to 321.485 by section 55, chapter 1078, Oregon Laws 1999, apply to Eastern Oregon Privilege Tax distribution periods beginning on or after July 1, 2000. See section 55a, chapter 1078, Oregon Laws 1999. The text that is applicable until July 1, 2000, including amendments by section 10, chapter 19, Oregon Laws 1999, is set forth for the user's convenience.

321.485. (1) The revenue from the taxes imposed by ORS 321.405 to 321.520 shall be remitted by the Department of Revenue to the State Treasurer who shall deposit it in a suspense account, separate and distinct from the General Fund, established under the provisions of ORS 293.445 which shall be known as the Eastern Oregon Timber Tax Account. Interest earned on cash balances invested by the State Treasurer shall be credited to this account. Moneys are appropriated continuously from the Eastern Oregon Timber Tax Account for use in reimbursing the General Fund for expenses incurred in the collection of taxes imposed by ORS 321.405 to 321.520 and for costs incurred by the State Forestry Department in carrying out the provisions of ORS 526.425 by providing assistance to nonindustrial private forest landowners in eastern Oregon.

(2) Notwithstanding the provisions of ORS 291.238, the amount of moneys necessary to pay refunds of the taxes imposed under ORS 321.405 to 321.520 is appropriated continuously to the department from the suspense account referred to in subsection (1) of this section, and shall be used by the department for the payment of all refunds of taxes imposed under ORS 321.405 to 321.520 which have been audited and approved by the department. Any penalties, interest and taxes then due from the taxpayer shall be applied in that order in computing any refund, and only the balance due the taxpayer, if any, shall be refunded.

(3) Subject to subsections (1) and (2) of this section, the records of the department shall reflect each county's credit which shall be proportionate to the total credit in the same proportion that each county's total appraised timber valuation bears to the total appraised timber valuation for eastern Oregon. Appraised valuations of timber for purposes of ORS 321.405 to 321.520 shall be those determined in accordance with the provisions of ORS 306.127 (1961 Replacement Part), as adjusted by the department, or with the department's approval, as of July 1 of each year. After July 1, 1964, however, the appraised values as of that date shall serve as the basis for the allocation of privilege tax revenues under ORS 321.405 to 321.520, except for the purpose of subtracting or adding the appraised valuations of timber which before July 1 of each year has been transferred into or out of ownerships exempt from taxation.

(4) All moneys and interest earned thereon credited to the counties pursuant to subsection (3) of this section are continuously appropriated to the counties in whose names they are credited, and the full amounts remaining to the credit of each county as of the 10th day of the second month following the close of each of the calendar quarters designated in ORS 321.435 shall be remitted to the county treasurers of the respective counties on or before the last day of that month. Remittances shall be made by the Department of Revenue from the suspense account referred to in subsection (1) of this section. A working balance may be retained in the Eastern Oregon Timber Tax Account for the payment of administrative expenses provided by subsection (1) of this section.

Note: Section 58a, chapter 1078, Oregon Laws 1999, provides:

Sec. 58a. (1) Notwithstanding ORS 321.485 (3)(b), for the fiscal year beginning July 1, 2000, a distribution of Eastern Oregon Timber Tax Account moneys to eastern Oregon counties may not be made.

(2) On or before August 31, 2000, each county treasurer in eastern Oregon shall certify to the county assessor of the county the amount of privilege tax receipts then on deposit. Each county assessor shall apply the amount so certified to reduce the property tax levy of taxing units within the county as provided in subsections (3) and (4) of this section.

(3) The county assessor shall first allocate receipts to the various taxing units having appraised timber valuations established under ORS 321.485 (3) (1997 Edition) in the same proportion that the computed property tax on timber in

the taxing unit bears to the total computed property tax on timber in all taxing units within the county for the fiscal year beginning July 1, 1999. As used in this subsection, "computed property tax on timber" means the amount of property tax in dollars that would have been imposed on the appraised valuation of timber in the unit for the fiscal year beginning July 1, 1999, if timber had not been exempt from ad valorem taxation by ORS 321.420 and had been included in the computation of a rate percent of levy extended against timber as well as other property within the unit.

(4) Immediately upon extension of the tax levy as provided in ORS 311.105, the county assessor shall certify to the county treasurer the amounts that have been apportioned to the various taxing units within the county. The county treasurer shall thereafter distribute the moneys on deposit on August 31, 2000, to the taxing units in proportion to the total amounts certified to the county treasurer by the county assessor until the total of amounts so certified have been distributed. [1999 c.1078 s.58a]

321.487 Privilege tax distribution to offset operating levies. Each year when extending the operating levies of the county upon the assessment rolls, the county assessor shall offset against the levy submitted by the county the amount of revenue distributed to the county pursuant to ORS 321.485 (3)(b) and correspondingly reduce the amount of the levy to be collected through extension on the tax roll for the current fiscal year. [1999 c.1078 s.57]

Note: Section 58, chapter 1078, Oregon Laws 1999, provides:

Sec. 58. Section 57 of this 1999 Act [321.487] applies to Eastern Oregon Timber Tax Account distributions and property tax years beginning on or after July 1, 2001. [1999 c.1078 s.58]

321.515 County treasurer to furnish amounts of distributions from Eastern Oregon Timber Tax Account; county assessors to reduce tax levies by amount certified; apportionment to taxing units. (1) Not later than August 31 of each fiscal year, each county treasurer in eastern Oregon shall certify to the county assessor of the county the amount of privilege tax receipts then on deposit plus an amount equal to 50 percent of the receipts from the privilege tax in the preceding year. Each county assessor shall apply the amount so certified to reduce the property tax levy of taxing units within the county as provided in subsections (2) to (4) of this section.

(2) The county assessor shall first allocate such anticipated receipts to the various taxing units having appraised timber valuations established under ORS 321.485 (3) in the same proportion which the computed property tax on timber in such unit bears to the total computed property tax on timber in all units within the county. As used in this subsection, "computed property tax on timber" means the amount of property tax in dollars which would have been imposed on the appraised valuation of timber in the unit in the current fiscal year if timber were not exempted from ad valorem taxation by ORS 321.420, but were included in the computation of a rate percent of levy extended against timber as well as other property within the unit.

(3) The county assessor shall subtract from the levy submitted by each taxing unit the amount of anticipated receipts allocated to it pursuant to subsection (2) of this section and shall extend on the assessment roll in each case no more than the remainder as the taxing unit's levy for the current fiscal year.

(4) Immediately upon extension of the tax levy as provided in ORS 311.105, the county assessor shall certify to the county treasurer the amounts which have been apportioned to the various taxing units within the county. The county treasurer shall thereafter distribute the moneys on deposit on August 31 and the moneys remitted to the county treasurer from the Eastern Oregon Timber Tax Account for tax quarters of that fiscal year, to the taxing units in proportion to the total amounts certified to the county treasurer by the county assessor until the total amounts remitted or the total amounts so certified, whichever is the lesser, have been distributed.

(5) If the amounts received by the treasurer under subsection (4) of this section are greater than one-half of the

previous year's county privilege tax share, the county treasurer shall hold such excess receipts in a special account until they are certified and apportioned under subsections (1) to (4) of this section. [1961 c.627 s.21; 1971 c.408 s.3; 1991 c.459 s.304; 1993 c.801 s.32]

GENERALLY

321.550 Notice of intent to harvest; rules; effect of failure to file notice. (1) No person shall harvest or cause to be harvested any timber from land in Oregon without first having notified the State Forester in writing with a copy to the Department of Revenue on forms prepared by the State Forester and the department of intent to harvest pursuant to ORS 321.005 to 321.185, 321.257 to 321.390, 321.405 to 321.515 and 321.560 to 321.600.

(2) The notification shall specify where and when the harvest will take place and the nature of the harvest and shall include maps and other data as required by the State Forester and the department. The department shall establish by rule procedures to assure the receipt of the tax returns sent out or a report of nonharvest from the person. The department shall conduct field and office audits to ascertain the correctness of any timber tax return.

(3)(a) If, on or after October 3, 1989, a person fails to file a written notice as required in subsection (1) of this section with respect to any harvest over 5,000 board feet, the department shall notify the person. If, after the person has been notified, the person fails to file a written notice as required in subsection (1) of this section with respect to any subsequent harvest, over 5,000 board feet, there shall be added to the amount of the timber tax required to be shown on the return as a result of the subsequent harvest a delinquency penalty of \$250 for each violation occurring within a calendar year. The department shall collect the penalty in the same manner as taxes are collected.

(b) No penalty shall be imposed under this subsection if a penalty for failure to file the notice with the State Forester has been imposed under ORS 527.992.

(c) The delinquency penalty shall first be added to either the western Oregon forestland and privilege tax imposed under ORS 321.257 to 321.390, or the eastern Oregon privilege tax imposed under ORS 321.405 to 321.515, if either tax is applicable to the harvest. If neither tax is applicable, the delinquency penalty shall be added to the forest products harvest tax imposed under ORS 321.005 to 321.185. [1985 c.759 s.2; 1989 c.588 s.4; 1991 c.459 s.305; 1993 c.801 s.41]

321.560 Audit of returns; interest and penalties; appeal of harvest value. (1)(a) The provisions of ORS chapters 305 and 314 as to the audit and examination of reports and returns, determination of deficiencies, liens, assessments, claims for refund, conferences and appeals to the Oregon Tax Court, and the procedures relating thereto, shall apply to the determination of taxes, penalties and interest imposed under ORS 321.005 to 321.185, 321.257 to 321.390, 321.405 to 321.515 or 321.560 to 321.600, except where the context requires otherwise.

(b) In addition, on or before March 1 of the year of determination, any taxpayer may appeal to the Oregon Tax Court for the revision of a harvest value for an area determined pursuant to ORS 321.430.

(2) If a taxpayer fails to file a return required by ORS 321.045, 321.257 to 321.390 or 321.405 to 321.515, or fails to pay a tax at the time the tax becomes due, there shall be added to the amount of tax required to be shown on the return a delinquency penalty of five percent of the amount of such tax.

(3) If the failure to file a return continues for a period in excess of three months after the due date, there shall be added to the amount of tax required to be shown on the return a failure to file penalty of 20 percent of the amount of such tax. This penalty is in addition to the delinquency penalty imposed by subsection (2) of this section.

(4) If all or any part of the delinquency or deficiency for which a determination is made is due to fraud or an intent to evade the provisions of ORS 321.005 to 321.185, 321.257 to 321.390, 321.405 to 321.515 or 321.560 to 321.600 or

the rules adopted thereunder, a penalty of 100 percent of such delinquency or deficiency shall be added, plus interest at the rate established under ORS 305.220 for each month, or any fraction thereof, computed on the full amount of the delinquency or deficiency plus penalty, from the time the return was due.

(5) For purposes of this section, the amount of tax required to be shown on the return shall be reduced by the amount of any part of the tax which is paid on or before the date prescribed for payment of the tax and by the amount of any credit against the tax which may be lawfully claimed upon the return.

(6) A delinquent tax or a deficiency shall bear interest at the rate established under ORS 305.220 for each month, or any fraction thereof, from the time the return was due. [Formerly 321.055; 1991 c.459 s.306; 1995 c.53 s.4; 1995 c.350 s.5; 1995 c.650 s.95]

321.570 Warrant for collection of delinquent taxes. (1) If any tax imposed by ORS 321.005 to 321.185, 321.257 to 321.390, 321.405 to 321.515 or 321.560 to 321.600, or any portion of such tax, is not paid within 30 days after the date that the written notice and demand for payment required under ORS 305.895 is mailed, the Department of Revenue may issue a warrant, directed to the sheriff of any county of the state, commanding the sheriff to levy upon and sell the real and personal property of the taxpayer owning the same, found within that county, for the payment of the amount of the tax, with the added penalties, interest and cost of executing the warrant, and to return the warrant to the department and to pay to it the money collected from the sale, within 60 days after receipt of the warrant. A copy of the warrant shall be mailed or delivered to the taxpayer by the department at the taxpayer's last-known address.

(2) The sheriff shall, within five days after the receipt of the warrant, record a copy with the county clerk, and the clerk shall immediately enter in the County Clerk Lien Record the name of the taxpayer mentioned in the warrant, and the amount of the tax or portion of the tax and penalties for which the warrant is issued and the date when the copy is recorded. The amount of the warrant so recorded shall become a lien upon the title to and interest in real property of the taxpayer against which it is issued, in the same manner as a judgment duly docketed. The sheriff immediately shall proceed upon the warrant in all respects, with like effect, and in the same manner prescribed by law in respect to executions issued against property upon judgments of a court of record, and shall be entitled to the same fees for services in executing the warrant, to be added to and collected as a part of the warrant liability.

(3) In the discretion of the department a warrant of like terms, force and effect may be issued and directed to any agent authorized to collect this tax. In the execution of the warrant, such agent has the powers conferred by law upon sheriffs, but is entitled to no fee or compensation in excess of actual expenses paid in the performance of such duty.

(4) If a warrant is returned not satisfied in full, the department shall have the same remedies to enforce the claim for taxes against the taxpayer as if the state had a recorded judgment against the taxpayer for the amount of the tax. [Formerly 321.075; 1989 c.625 s.78]

321.580 Effect of failure or refusal to make return. If any taxpayer neglects or refuses to make a return required to be made by ORS 321.005 to 321.185, 321.257 to 321.390, 321.405 to 321.515 or 321.560 to 321.600 the Department of Revenue is authorized to determine the tax due, based upon any information in its possession or that may come into its possession. The department shall give the taxpayer written notice of the tax and delinquency charges and the tax and delinquency charges shall be a lien from the time of severance. If the tax and delinquency charges are not paid within 30 days from the mailing of the notice, the department shall proceed to collect the tax in the manner provided in ORS 321.570. [Formerly 321.092]

321.590 [Formerly 321.095; repealed by 1993 c.801 s.43]

321.600 Tax as debt; collection; limitation. All taxes, interest and penalties due and unpaid under ORS 321.005 to 321.185, 321.257 to 321.390, 321.405 to 321.515 or 321.560 to 321.600 shall constitute a debt due the State of Oregon and may be collected, together with interest, penalty and costs, by appropriate judicial proceeding, which remedy is in addition to all other existing remedies. However, no proceeding for the collection of taxes under ORS 321.005 to 321.185, 321.257 to 321.390, 321.405 to 321.515 or 321.560 to 321.600 shall be instituted after the expiration of six years from the date such taxes were due. 321.705 Definitions for ORS 321.705 to 321.765. As used in ORS 321.705 to 321.765, unless the context requires otherwise:

(1) “State Forester” means the State Forester or the authorized representative of the State Forester.

(2) “Western Oregon” means that portion of the state lying west of a line beginning at the intersection of the northern boundary of the State of Oregon and the western boundary of Wasco County, thence south along the western boundaries of the counties of Wasco, Jefferson, Deschutes and Klamath to the southern boundary of the State of Oregon.

(3) “Forestland” means land which, in the judgment of the State Forester, is suitable for the production of timber and is being utilized primarily for that purpose. Forestland often contains isolated openings which, because of rock outcrops, river wash, swamps, chemical conditions of the soil, brush and other like conditions prevent adequate stocking of such openings for the production of trees of a marketable species. If such openings in their natural state are necessary to hold the surrounding forestland in forest use through sound management practices, they are deemed forestland. If forestland contains an amount of land being utilized in the production of cultured Christmas trees and the amount of land is, in the judgment of the State Forester, incidental to the amount of land being utilized in the production of timber, the land being utilized in the production of cultured Christmas trees shall be deemed forestland. Forestland does not include buildings, structures, machinery, equipment or fixtures erected upon, under or above the soil, but does include roads described in ORS 308.236.

(4) “Timber” means wood growth, mature or immature, growing or dead, standing or down.

(5) “Owner” means any individual, partnership, corporation or association of whatever nature, owning both the forestland and any timber thereon.

(6) “Cultured Christmas trees” means trees:

(a) Grown on lands used exclusively for that purpose capable of preparation by intensive cultivation methods such as plowing or turning over the soil;

(b) Of a marketable species;

(c) Managed to produce trees meeting U.S. No. 2 or better standards for Christmas trees as specified by the Agriculture Marketing Service of the United States Department of Agriculture; and

(d) Evidencing periodic maintenance practices of shearing for Douglas fir and pine species; weed and brush control and one or more of the following practices: Basal pruning, fertilization, insect and disease control, stump culture, soil cultivation, irrigation. [1961 c.714 s.1; 1977 c.892 s.41; 1977 c.893 s.1a; 1979 c.553 s.1; 1997 c.586 s.3]

321.710 Legislative findings; purpose of ORS 321.705 to 321.765. It is the purpose of ORS 321.705 to 321.765 to provide an optional method of ad valorem taxation for certain owners of forestland in western Oregon which will tax the land alone at its productivity value. It is hereby found that the normal system of taxing both the land and the increasing value of the growing timber tends to force those smaller owners with predominantly young growth holdings to harvest their timber before it has properly matured because of the constantly increasing taxes imposed on the timber and the lack of sufficient annual income from mature timber to meet the overall tax burden. The optional tax provided by ORS 321.705 to 321.765 is intended to make it possible for such owners to hold their timber to the proper rotation age. [1961 c.714 s.2]

321.715 Administration by State Forester; rules and regulations; publicizing; report to legislature. (1) The State Forester may provide rules and regulations for the classification of forestland under ORS 321.705 to 321.765 and prescribe the form of any required statements and reports.

(2) The State Forester shall take appropriate action to bring to the attention of forest landowners the possibilities and effects of classification under ORS 321.705 to 321.765.

(3) The State Forester shall submit a report to each regular session of the Legislative Assembly of the values per acre determined by the State Forester under ORS 321.720 (2). [1961 c.714 s.9; 1975 c.617 s.3; 1997 c.541 s.400]

321.720 Determination of forestland value per acre; timber exemption; maximum assessed value and assessed value. (1) The assessed value of forestland classified under ORS 321.705 to 321.765 shall be determined as provided in subsection (7) of this section.

(2) Notwithstanding ORS 308.205 or any other provision of law forestland in western Oregon classified under the provisions of ORS 321.705 to 321.765 shall be considered to have a value per acre for a site class equal to the value per acre the forestland would have under ORS 321.353 if the forestland were subject to ORS 321.257 to 321.390.

(3) The values determined under subsection (2) of this section shall first apply to the July 1 assessment date for which the application for classification of the land is made with the State Forester under ORS 321.730. The site class used in subsection (2) of this section shall be the average site class certified for the land by the State Forester.

(4) Conversion of average site class to forestland class for the purpose of determining the value per acre that the forestland would have under ORS 321.353 if the forestland were subject to ORS 321.257 to 321.390 shall be made in accordance with the following schedule:

Site Class	Land Class
I	FA
II	FC
III	FD
IV	FF
V	FG

(5) Timber on forestland classified under ORS 321.705 to 321.765 shall be exempt from separate ad valorem taxation.

(6) Forestland classified under ORS 321.705 to 321.765 shall have a maximum assessed value per acre equal to 103 percent of the forestland's maximum assessed value per acre for the preceding assessment year.

(7) The assessor shall compute the assessed value of forestland classified under ORS 321.705 to 321.765 by taking the lesser of the value established per acre under subsection (2) of this section or subsection (6) of this section for the applicable site class for the forestland and multiplying the value by the acreage of the forestland.

(8) For the first assessment year for which property is classified under ORS 321.705 to 321.765, the forestland's assessed value shall be determined as provided in subsection (7) of this section. [1961 c.714 s.3; 1969 c.326 s.5; 1975 c.617 s.1; 1977 c.892 s.42; 1977 c.893 s.3; 1979 c.787 s.1; 1985 c.157 s.2; 1991 c.459 s.307; 1997 c.541 s.397; 1997 c.586 s.4]

321.721 [1975 c.617 s.2; repealed by 1991 c.459 s.321]

321.725 Eligibility of forestland for classification; eligible owners; classification of all eligible lands in single tax lot. (1) Subject to subsections (2) to (4) of this section, owners of forestland in western Oregon may elect to have such land classified under ORS 321.705 to 321.765 if:

(a) The forestland is not used for uses which are incompatible with the cultivation of timber thereon, as determined in accordance with generally accepted principles of good forestry;

(b) The size of timber on the forestland that predominates is not in excess of eight inches in diameter (breast high, outside the bark) or the average age of timber on the forestland is not in excess of 40 years. If the State Forester determines that the forestland proposed to be classified consists of areas of substantially different size or age classes, the State Forester may consider each area separately and determine a predominant size or age of timber for each such area for purposes of this subsection;

(c) The land is being held or used for the predominant purpose of growing and harvesting trees of marketable species and such trees are well distributed over the area to be classified; and

(d) The land meets the minimum forest management standards established by rule by the State Forester, or if the owner has a plan approved by the State Forester for meeting those standards.

(2) Only owners having a total ownership of forestland in western Oregon in excess of 10 acres but not in excess of 5,000 acres shall be entitled to classify forestland under this section. In computing an owner's acreage for purposes of this subsection, total ownership shall be included even though portions of the forestland of the owner may not be eligible for classification under subsection (1) of this section. As used in this subsection, "total ownership" includes (a) forestland owned by the applicant owner individually and (b) any forestland owned by any corporate or other entity in which the applicant owner holds a share of ownership of 10 percent or more.

(3) An owner electing to classify land under ORS 321.705 to 321.765 shall classify all of the lands that are eligible for classification under ORS 321.705 to 321.765 that are located within a single tax lot. Lands classified under ORS 321.705 to 321.765 on July 1, 1997, are not subject to the requirements of this subsection.

(4) No owner may have forestland classified under ORS 321.705 to 321.765 if such owner, or any individual having a share in an entity owning forestland, has a spouse, brother, sister, ancestor or lineal descendant who is an owner having forestland classified under ORS 321.705 to 321.765 or who owns a share in an entity that has forestland classified under ORS 321.705 to 321.765. However, the State Forester may grant exceptions to this requirement where the applicant satisfactorily demonstrates that the combination of ownerships with the indicated relatives arose from bona fide business reasons other than a desire to circumvent the 5,000-acre limitation imposed by this section. [1961 c.714 s.4; 1969 c.326 s.1; 1971 c.684 s.1; 1975 c.617 s.6; 1977 c.893 s.6; 1979 c.553 s.2; 1983 c.745 s.1; 1997 c.586 s.5]

321.727 Exceptions from minimum acreage requirements for certain lands. Notwithstanding the minimum acreage requirement imposed by ORS 321.725 (2), the land of owners with 10 acres or less of land that is classified under ORS 321.705 to 321.765 as of the July 1, 1977, assessment date shall remain classified until the land is removed from such classification as provided in ORS 321.760. [1977 c.893 s.8; 1997 c.586 s.6]

321.730 Application for classification; certification by State Forester. (1) An owner of forestland eligible for classification under ORS 321.705 to 321.765 may apply to the State Forester for a determination and certification to that effect. Applications shall be made on or before April 1 of the assessment year for which classification is desired. Application shall be made on appropriate forms supplied by the State Forester, and shall include the following:

- (a) A description of all land the applicant desires to be classified under ORS 321.705 to 321.765.
- (b) Date of acquisition.
- (c) Whether the land is being held or used for the predominant purpose of growing and harvesting trees of marketable species, including cultured Christmas trees.
- (d) Whether the land has been subdivided or a plat has been filed under ORS 92.120.
- (e) Whether a permit has been granted for harvesting for excepted purposes under the Oregon Forest Practices Act.
- (f) Whether the land, or any of it, is subject to a lease or option which permits it to be used for any purpose other than the growing and harvesting of trees.
- (g) A statement that the applicant is aware of the potential tax liability involved when the land ceases to be classified under ORS 321.705 to 321.765.

(h) An affirmation that the statements contained therein are true.

(2) The State Forester, in determining whether the application submitted under subsection (1) of this section should be approved, shall weigh the relevant evidence submitted on the application form required by subsection (1) of this section to determine if the land meets the eligibility requirements under ORS 321.705 to 321.765.

(3) If the State Forester determines that an applicant's land is eligible for classification under ORS 321.705 to 321.765, the State Forester shall so certify to the county assessor or assessors of the county or counties in which the land that is the subject of the classification is located and the land shall be classified under ORS 321.705 to 321.765 as of the January 1 of the first assessment year for which the application applies and for tax years thereafter until the land is removed from classification under ORS 321.760 or other law. A copy of such certification shall be sent to the applicant.

(4) Certifications made under this section shall include the average site class of the forestland certified. Whenever appropriate in making such determination, the State Forester may split the area being certified into smaller areas for the application of different average site classes.

(5) In the event the application submitted under subsection (1) of this section is not or cannot be made acceptable to the State Forester, the State Forester shall not classify the land. Any adverse ruling by the State Forester under this section shall be made within 90 days of the receipt of the application.

(6) If an owner has forestland classified under this section, the owner shall notify the State Forester by mail not later than the 30th day after any change of land use or ownership.

(7) No person shall make any false statement in any application, statement or report made under this section. [1961 c.714 ss.6,14; 1967 c.619 s.1; 1969 c.326 s.2; 1971 c.684 s.2; 1977 c.893 s.9; 1979 c.553 s.3; 1985 c.157 s.3; 1991 c.459 s.308; 1991 c.854 s.1; 1997 c.541 s.402]

321.731 Applications for 1991 considered first application for purposes of ORS 321.730. Applications made under ORS 321.760 (1989 Edition) for the 1991 assessment year (1991-1992 tax year) may be considered a first application for purposes of the amendments to ORS 321.730 by section 1, chapter 854, Oregon Laws 1991. [1991 c.854 s.2]

321.732 Review of classified land by State Forester; notice of deficiencies; declassification. (1) The State Forester shall review all classified lands periodically to insure that the lands are managed in accordance with the minimum forest management standards described in ORS 321.725. In the event that the State Forester finds that the owner of classified lands is not complying with ORS 321.725, the State Forester shall:

(a) Notify the owner in writing of the specific deficiencies in forest management practices to be corrected.

(b) Allow the owner a reasonable time, as determined by the State Forester, to correct the deficiencies in forest management practices. In fixing a reasonable time, the State Forester shall consider available materials, equipment and the season of the year.

(2) If, after notice under subsection (1) of this section is given, the State Forester determines that management of the land continues to fail to meet minimum management standards under ORS 321.725, and that the deficiencies which were the subject of the notice have not been corrected within the time specified in the notice, the State Forester shall declassify the land pursuant to ORS 321.760 (1)(b). 321.745 Assignment of "site class"; redeterminations. (1) Forestland shall be assigned to one of the following average site classes, for purposes of the certification under ORS 321.730, according to the estimated total height of the dominant and codominant trees on the land at 100 years of age:

-
- (a) Site I..... 200 feet.
 - (b) Site II..... 170 feet.
 - (c) Site III..... 140 feet.
 - (d) Site IV..... 110 feet.
 - (e) Site V..... 80 feet.
-

(2) The growth standards for site class determination specified in subsection (1) of this section shall apply to Douglas fir sites. In the case of other species, the State Forester may apply the standards specified in subsection (1) of this section or, if in the opinion of the State Forester such standards are not appropriate for a particular species, the State Forester may adopt different standards which are demonstrated to the satisfaction of the State Forester to be more appropriate for establishing five corresponding site classes for the species involved.

(3) Site classes assigned under subsections (1) and (2) of this section may be changed thereafter by the State Forester upon the initiative of the State Forester, or upon request of an owner, if further investigation reveals that the estimates forming the basis of the site class determination were inaccurate. Any such redetermination of site class shall be certified immediately to the county assessor. [1961 c.714 s.8]

321.747 Application of privilege tax to harvest of timber on small tract. (1) Notwithstanding ORS 321.267 (2), 321.720 (5) or any other law, if land is classified or is changed to the classification granted under ORS 321.705 to 321.765 for ad valorem property tax purposes and if, within five years after July 1 of the first tax year for which classification is granted timber is harvested from the land, ORS 321.257 to 321.390 shall apply to the harvest of the timber.

(2) Nothing in this section shall be construed to affect any determination made as to classification or declassification of land under ORS 321.705 to 321.765 or designation or removal of land from designation under ORS 321.257 to 321.390. [1983 c.745 s.4; 1991 c.459 s.310; 1997 c.541 s.397a; 1997 c.586 s.7]

321.760 Declassification; notice. (1) The State Forester shall certify to the owner involved, and to the appropriate county assessor or assessors, the removal from classification of any forestland previously classified under ORS 321.705 to 321.765 when:

- (a) The owner requests such declassification in writing. A request for declassification under this paragraph shall apply to all of the forestlands that are classified under ORS 321.705 to 321.765 and located within a single tax lot.
- (b) The State Forester determines, after investigation, that the forestland is no longer entitled to classification under ORS 321.705 to 321.765.
- (c) Pursuant to ORS 321.705, the State Forester determines that the predominant use of the land is for the production of cultured Christmas trees.
- (d) Notwithstanding ORS 321.727, the land is transferred to an owner who, upon completion of the transfer, has a total ownership of forestland in western Oregon of less than 10 acres.
- (e) Pursuant to ORS 92.102, the State Forester receives notification from the county assessor that a subdivision plat has been recorded under ORS chapter 92.
- (f) The forestland is sold or transferred to an ownership making the forestland exempt from ad valorem property taxation.

(2) The sale or transfer of forestland to a new owner under subsection (1)(f) of this section or the transfer by reason of death of a former owner to a new owner shall not operate to declassify the land so long as the land continues to meet all of the eligibility requirements under ORS 321.725 and 321.730, except that the land need not meet the requirement that the predominant size of timber on the forestland be eight inches in diameter (breast high), outside the bark or of an average age of less than 40 years. However, the county assessor shall notify the State Forester if a sale or transfer of the forestland occurs for the purpose of determining the continued eligibility of the forestland for classification under ORS 321.705 to 321.765.

(3) Upon declassification under this section, additional taxes, if any, shall be determined and imposed as provided in ORS 308A.700 to 308A.733.

(4)(a) Declassifications certified under this section shall take effect as of the date that the notice of declassification is sent by certified mail or delivered by the State Forester to the owner. If the declassification is effective before July 1, the declassification shall apply for the ensuing tax year. However, if the declassification is effective on or after July 1, classification shall continue for the current tax year and declassification shall apply for the tax year beginning the following July 1.

(b) A notice of declassification mailed or delivered by the State Forester to the owner under this section shall contain a written explanation summarizing:

- (A) ORS 308A.706 (1)(d) (relating to change in special assessment);
- (B) ORS 308A.727 (relating to change in use to open space use special assessment for certain golf courses);
- (C) The administrative act necessary under ORS 308A.724 to change the property to another classification described in this paragraph; and

(D) The imposition of any penalties that would result from the disqualification if no requalification or reclassification is made under one of the other special assessment laws listed in this paragraph.

(c) The State Forester shall include within the notice of declassification sent to the owner:

(A) A statement explaining that the amount of privilege taxes that would have been payable under ORS 321.257 to 321.322 during the five years immediately preceding declassification, and interest on the privilege taxes at the rate of six percent a year, are to be added to the additional taxes due as a result of the declassification; and

(B) A statement that the total amount of additional taxes due as a result of the declassification is to be determined by the county assessor and will be provided to the owner pursuant to ORS 308A.721.

(5) No additional tax shall be imposed under ORS 308A.700 to 308A.733 if the forestland or portion thereof that is declassified is designated as forestland at the election of the owner pursuant to ORS 321.347 (4) and section 45, chapter 892, Oregon Laws 1977. If the land is later removed from designation under ORS 321.257 to 321.390, however, the land shall be subject to additional taxes imposed by ORS 308A.703 in the manner provided in ORS 321.347 (4) (relating to computation of the period of classification as designated forestland). (2) On or before March 1 preceding the tax year for which a determination is made, any owner affected by a determination of value per acre for a site class made by the State Forester under ORS 321.720 (2) may appeal to the State Board of Forestry for a revision of the value per acre for the site class. The appeal shall be made under such rules as the State Board of Forestry may adopt. SPECIAL ASSESSMENT OF EASTERN OREGON FORESTLANDS

321.805 Definitions for ORS 321.805 to 321.825. As used in ORS 321.805 to 321.825, unless the context requires otherwise:

(1) “Forestland” means land east of the summit of the Cascade Mountains which is not assessed as farmland pursuant to ORS 308A.050 to 308A.128 and is not assessed by the Department of Revenue pursuant to ORS 308.505 to 308.665 or 308.805 to 308.820; and which either is being held or used for the predominant purpose of growing and harvesting trees of a marketable species and has been designated as forestland under ORS 321.805 to 321.825, or is land the highest and best use of which is the growing and harvesting of such trees. Forestland is the land alone. Forestland often contains isolated openings that because of rock outcrops, river wash, swamps, chemical conditions of the soil, brush and other like conditions prevent adequate stocking of such openings for the production of trees of a marketable species. If such openings in their natural state are necessary to hold the surrounding forestland in forest use through sound management practices, they are deemed forestland.

(2) “Owner” means any individual or combination of individuals, partnership, firm, corporation or association of whatever nature owning or controlling forestland.

(3) The “summit of the Cascade Mountains” shall be considered to be a line beginning at the intersection of the northern boundary of the State of Oregon and the western boundary of Wasco County, thence southerly along the western boundaries of the counties of Wasco, Jefferson, Deschutes and Klamath to the southern boundary of the State of Oregon. [1971 c.654 s.2; 1977 c.892 s.46; 1983 c.539 s.4; 1995 c.79 s.178; 1997 c.154 s.53; 1999 c.314 s.55]

Note: The amendments to 321.805 by section 45, chapter 1078, Oregon Laws 1999, apply to tax years beginning on or after July 1, 2001. See section 48, chapter 1078, Oregon Laws 1999. The text that is applicable on and after July 1, 2001, is set forth for the user's convenience.

321.805. As used in ORS 321.805 to 321.825, unless the context requires otherwise:

(1) “Average Pacific Northwest Inland Lumber Price Index” means the average of the Western Wood Products Association Pacific Northwest Inland Lumber Price annual price indices for Douglas Fir-Larch, White Fir (Hem-Fir) and Coast Inland North Ponderosa Pine.

(2) “Forestland” means land east of the summit of the Cascade Mountains which is not assessed as farmland pursuant to ORS 308A.050 to 308A.128 and is not assessed by the Department of Revenue pursuant to ORS 308.505 to 308.665 or 308.805 to 308.820; and which either is being held or used for the predominant purpose of growing and harvesting trees of a marketable species and has been designated as forestland under ORS 321.805 to 321.825, or is land the highest and best use of which is the growing and harvesting of such trees. Forestland is the land alone. Forestland often contains isolated openings that because of rock outcrops, river wash, swamps, chemical conditions of

the soil, brush and other like conditions prevent adequate stocking of such openings for the production of trees of a marketable species. If such openings in their natural state are necessary to hold the surrounding forestland in forest use through sound management practices, they are deemed forestland.

(3) "Owner" means any individual or combination of individuals, partnership, firm, corporation or association of whatever nature owning or controlling forestland.

(4) The "summit of the Cascade Mountains" shall be considered to be a line beginning at the intersection of the northern boundary of the State of Oregon and the western boundary of Wasco County, thence southerly along the western boundaries of the counties of Wasco, Jefferson, Deschutes and Klamath to the southern boundary of the State of Oregon.

321.810 Determining value of forestland for 1993-1994 and 1994-1995; forestland index; appeal of values; notice of appeal. (1) Notwithstanding ORS 308.205 and 308.235, for the tax year beginning July 1, 1993, and the tax year beginning July 1, 1994, and for purposes of ORS 308.232, the value of forestland shall be determined under this section. Land which has been designated as forestland under ORS 321.805 to 321.825 shall be valued as forestland under this section and shall be noted on the assessment and tax roll as being forestland potentially subject to additional taxes under ORS 308A.700 to 308A.733.

(2) Each tax year, the value of forestland shall be determined by multiplying the value of the forestland for the previous tax year by the forestland index calculated by the Department of Revenue and certified to the appropriate county assessors under subsection (3) of this section.

(3) The Department of Revenue shall calculate, and certify to each county assessor on or before August 15 of each year the forestland index to be used in the calculation of the value of forestland as of the preceding July 1 assessment date. The county assessor shall use the index so certified in the preparation of the assessment and tax rolls.

(4) As used in this section, "forestland index" means the number 1.0 plus the decimal equivalent of 50 percent of the percentage change, whether positive or negative, in the sum of the yearly average immediate harvest value of timber determined by the department for the previous five years compared to the sum of the five yearly average immediate harvest values beginning one year prior to the most recent five-year harvest dates. The average immediate harvest value for each year shall be calculated by the Department of Revenue by dividing the total of the immediate harvest values on the returns by the total of the volumes on the returns. The volumes and immediate harvest values used to determine the index shall be based upon those volumes reported in thousand board feet or in the unit of measure in which the preponderance of volume has been reported. The returns used shall be the privilege tax returns timely filed under ORS 321.435.

(5) At any time after the certification of the index pursuant to subsection (3) of this section, but not later than September 15, five or more taxpayers owning in the aggregate not less than five percent of the total forestland acreage subject to ad valorem taxation in eastern Oregon may appeal the values directly to the tax court by filing a joint petition with the tax court in the manner provided for appeals from orders of the county boards of property tax appeals. Notice of the appeal shall be made in each county having values affected by the appeal, either by personal service, by certified mail on each taxpayer affected, or by publication made once a week for two consecutive weeks in a newspaper of general circulation in the county. The notice shall designate the values appealed, and include a statement of the provisions of subsection (6) of this section. The petition shall designate one of the group as the representative of all, and all proceedings before the tax court and any appeal from its determination shall be conducted procedurally as though the designated representative were the only petitioner.

(6) If the tax court increases or reduces any of the values under appeal, the judgment of the court shall apply to the valuation of all forestland for that year. An appeal may be taken to the Oregon Supreme Court from the judgment of the tax court. Unless changed upon appeal to the Supreme Court, the tax court determination shall be binding upon the department and upon each assessor and taxpayer affected by such determination of value.

(7) All other appeals from the application of the forestland index certified by the department under subsection (3) of this section shall be taken in the time and manner otherwise provided by law for such property tax appeals. [1971 c.654 s.3; 1981 c.337 s.1; 1985 c.759 s.31; 1991 c.459 s.314; 1993 c.270 s.66; 1993 c.653 s.19; 1993 c.801 s.35; 1995 c.650 s.97; 1999 c.21 s.56; 1999 c.314 s.70]

321.811 Value per acre of forestland in eastern Oregon; value index; assessment at percentage of forestland value; maximum assessed value. (1) The assessed value of forestland in eastern Oregon shall be determined as provided in subsection (10) of this section.

(2) Notwithstanding ORS 308.205 and 308.235, and for purposes of ORS 308.232, the specially assessed value of

forestland shall be determined under subsections (2) to (8) of this section. Land that has been designated as forestland under ORS 321.805 to 321.825 shall be valued as forestland under subsections (2) to (7) of this section and shall be noted on the assessment and tax roll as being forestland potentially subject to additional taxes under ORS 308A.700 to 308A.733.

(3) Subject to subsection (4) of this section, for tax years beginning on or after July 1, 1995, forestland shall be considered, for purposes of ORS 321.805 to 321.825, to have a value of \$42 per acre.

(4) Each tax year beginning on or after July 1, 1995, the value of forestland shall be determined by multiplying the value of the forestland for the previous tax year by the forestland index calculated by the Department of Revenue and certified to the appropriate county assessors under subsection (5) of this section. As used in this subsection, for the tax year beginning July 1, 1995, "value of the forestland for the previous tax year" means \$42.

(5) The Department of Revenue shall calculate, and certify to each county assessor on or before August 15, 1995, and on or before August 15 of each tax year thereafter, the forestland index to be used in the calculation of the value of forestland as of the July 1 assessment date immediately preceding. Except as provided in ORS 321.810 (6), the county assessor shall use the index so certified in the preparation of the assessment and tax roll.

(6) As used in subsections (2) to (7) of this section, "forestland index" means the number 1.0 plus the decimal equivalent of 50 percent of the percentage change, whether positive or negative, in the sum of the yearly average immediate harvest value of timber determined by the department for the previous five years compared to the sum of the five yearly average immediate harvest values beginning one year prior to the most recent five-year harvest dates. The average immediate harvest value for each year shall be calculated by the Department of Revenue by dividing the total of the immediate harvest values on the returns by the total of the volumes on the returns. The volumes and immediate harvest values used to determine the index shall be based upon those volumes reported in thousand board feet or in the unit of measure in which the preponderance of volume has been reported. The returns used shall be the privilege tax returns timely filed under ORS 321.435.

(7) ORS 321.810 (5) to (7) apply to the forestland values determined under subsections (2) to (7) of this section.

(8) For the tax year beginning July 1, 1995, and for each tax year thereafter, forestland shall be subject to ad valorem property taxation at the same rates as nonforestland similarly situated. However, the assessed value for taxation of such forestland shall not exceed 20 percent of its value determined under subsections (2) to (7) of this section.

(9) Forestland shall have a maximum assessed value per acre equal to 103 percent of the forestland's maximum assessed value per acre for the preceding assessment year.

(10) The assessor shall compute the assessed value of forestland by taking the lesser of the value established under subsection (8) of this section or subsection (9) of this section and multiplying the value by the acreage of the forestland.

(11) For the first assessment year for which property is designated as forestland, the forestland's assessed value shall be determined as provided in subsection (10) of this section. [1993 c.801 ss.33a,34; 1997 c.541 s.404; 1999 c.21 s.57; 1999 c.314 s.71]

Note: The amendments to 321.811 by section 46, chapter 1078, Oregon Laws 1999, apply to tax years beginning on or after July 1, 2001. See section 48, chapter 1078, Oregon Laws 1999. The text that is applicable on and after July 1, 2001, is set forth for the user's convenience.

321.811. (1) The assessed value of forestland in eastern Oregon shall be determined as provided in subsection (10) of this section.

(2) Notwithstanding ORS 308.205 and 308.235, and for purposes of ORS 308.232, the specially assessed value of forestland shall be determined under subsections (2) to (8) of this section. Land that has been designated as forestland under ORS 321.805 to 321.825 shall be valued as forestland under subsections (2) to (7) of this section and shall be noted on the assessment and tax roll as being forestland potentially subject to additional taxes under ORS 308A.700 to 308A.733.

(3) Subject to subsection (4) of this section, for tax years beginning on or after July 1, 1995, forestland shall be considered, for purposes of ORS 321.805 to 321.825, to have a value of \$42 per acre.

(4) Each tax year beginning on or after July 1, 1995, the value of forestland shall be determined by multiplying the value of the forestland for the previous tax year by the value index calculated by the Department of Revenue and certified to the appropriate county assessors under subsection (5) of this section.

(5) The Department of Revenue shall calculate, and certify to each county assessor on or before August 15 of each tax year the value index to be used in the calculation of the value of forestland as of the assessment date immediately

preceding. Except as provided in ORS 321.810 (6), the county assessor shall use the index so certified in the preparation of the assessment and tax roll.

(6) As used in subsections (2) to (7) of this section, "value index" means the number 1.0 plus the decimal equivalent of one-half of the percentage change, whether positive or negative, in the average of the Average Pacific Northwest Inland Lumber Price Index values over the five preceding one-year (calendar) periods when compared with the corresponding average calculated with respect to the previous year.

(7) ORS 321.810 (5) to (7) apply to the forestland values determined under subsections (2) to (7) of this section.

(8) For the tax year beginning July 1, 1995, and for each tax year thereafter, forestland that is not assessed under ORS 321.812 shall be subject to ad valorem property taxation at the same rates as nonforestland similarly situated. However, the assessed value for taxation of such forestland shall not exceed 20 percent of its value determined under subsections (2) to (7) of this section.

(9) Forestland assessed under this section shall have a maximum assessed value per acre equal to 103 percent of the forestland's maximum assessed value per acre for the preceding assessment year.

(10) The assessor shall compute the assessed value of forestland by taking the lesser of the value established under subsection (8) of this section or subsection (9) of this section and multiplying the value by the acreage of the forestland.

(11) For the first assessment year for which property is designated as forestland, the forestland's assessed value shall be determined as provided in subsection (10) of this section.

Note: Section 47, chapter 1078, Oregon Laws 1999, provides:

Sec. 47. For the tax year beginning July 1, 2001, solely for purposes of determining the value index for the tax year beginning July 1, 2001, under ORS 321.811, a calculation shall be made under ORS 321.811 (6) for the tax year beginning July 1, 2000. [1999 c.1078 s.47]

321.812 Specially assessed value and maximum assessed value of forestland of large landowners. (1) The Department of Revenue shall identify the forestland that is held in common ownership of 5,000 acres or more as of January 1, 2000. Forestland that the department has so identified shall be specially assessed as provided in this section for the tax year beginning July 1, 2000, and for subsequent tax years, without regard to whether the forestland continues to be held in common ownership of 5,000 acres or more.

(2) Forestland assessed under this section shall have a specially assessed value per acre equal to 75 percent of the value per acre determined under ORS 321.811 (2) to (7).

(3) Forestland assessed under this section shall have a maximum assessed value per acre equal to 103 percent of the forestland maximum assessed value per acre for the preceding tax year.

(4)(a) The assessor shall compute the assessed value of forestland by taking the lesser of the value established under subsection (2) or (3) of this section and multiplying that amount by the acreage of the forestland.

(b) Notwithstanding paragraph (a) of this subsection, the forestland shall be assessed as provided in ORS 308.232 if the real market value of the forestland is less than the value established under paragraph (a) of this subsection.

(5) For purposes of this section:

(a) The department shall certify to the county assessor of a county in which forestland identified in subsection (1) of this section is located a list of the property tax accounts containing forestland so identified.

(b) Forestland shall be considered to be in common ownership if the forestland is owned by the person directly or is owned by a corporation, partnership, association or other entity in which the person owns a majority interest. [1999 c.1078 s.35]

Note: Section 39, chapter 1078, Oregon Laws 1999, provides:

Sec. 39. Sections 35 [321.812] and 37 of this 1999 Act apply to tax years beginning on or after July 1, 2000. [1999 c.1078 s.39]

Note: The amendments to 321.812 by section 40, chapter 1078, Oregon Laws 1999, apply to property tax years beginning on or after July 1, 2003. See section 41, chapter 1078, Oregon Laws 1999. The text that is applicable on and after July 1, 2003, is set forth for the user's convenience.

321.812. (1) The Department of Revenue shall identify the forestland that is held in common ownership of 5,000

acres or more as of January 1, 2000.
