(a) The person was at or near the place described in a proclamation under this section on the date specified in the proclamation; and

(b) The person’s absence cannot be satisfactorily explained after diligent search.

(3) In administering the estate of an absentee under ORS chapter 117, the court may enter an order directing the State Medical Examiner to deposit a death certificate with the county registrar for a decedent presumed to be dead under this section. Sec. 4. Suspension of ethanol standards. A suspension under this section shall be limited to counties east of the summit of the Cascade Mountains and may be extended for an additional period not to exceed 90 days.

(2) The Governor must receive a recommendation of suspension from the State Department of Energy before issuing an executive order under this section. Before recommending a suspension, the department shall provide a 30-day period of public comment on the proposed suspension, unless the department determines that a shorter public comment period is necessary. The department shall issue written findings of fact with the recommendation of suspension. [2007 c.885 §4]

176.755 Policy. (1) The Legislative Assembly finds that the lack of energy resources and other energy resource emergencies may threaten the availability of essential services and transportation, and the operation of the economy, jeopardizing the peace, health, safety and welfare of the people of Oregon.

(2) The Legislative Assembly finds it necessary to provide an orderly procedure for anticipating and responding to energy resource shortages and to grant, under conditions prescribed in ORS 176.750 to 176.815, emergency powers to order involuntary curtailments in the use of energy resources to the Governor and other state and local officers.

(3) The Legislative Assembly declares it the policy of Oregon to assist the President of the United States in effective management and control of such factors and situations as contribute to an emergency affecting or likely to affect Oregon; to cooperate with other states in matters related to an emergency affecting or likely to affect Oregon; to meet extraordinary conditions in Oregon arising out of the crisis, by taking such steps as are necessary and appropriate; and generally to protect the peace, health, safety and welfare of the people of Oregon. [1974 c.5 §1]

176.760 Information to be available to Governor. (1) On a continuing basis the Governor may obtain all necessary information from energy resource producers, suppliers and consumers, doing business within Oregon, and from political subdivisions in this state, as necessary for the Governor to determine whether shortages or an emergency will require energy resource conservation measures. Such information may include, but is not limited to:

- (a) Sales volumes.
- (b) Forecasts of energy resource requirements.
- (c) Inventory of energy resources.
- (d) Local distribution patterns of information under paragraphs (a) to (c) of this subsection.

(3) In obtaining information under this section the Governor:

(a) Shall seek to avoid eliciting information already furnished by a person or political subdivision in this state to a federal, state or local regulatory authority that is available for the study of the Governor; and

(b) Shall cause reporting procedures, including forms, to conform to existing requirements of federal, state and local regulatory authorities. [1974 c.5 §3; 1975 c.601 §1]

176.765 Confidentiality of information; use; liability. (1) Notwithstanding any other law, information furnished under ORS 176.760 and designated by that person as confidential, shall be maintained as confidential by the Governor and any person who obtains information which the person knows to be confidential under ORS 176.750 to 176.815. The Governor shall not make known in any manner any particulars of such information to persons other than those specified in subsection (4) of this section. No subpoena or judicial order may be issued compelling the Governor or any other person to divulge or make known such confidential information, except when relevant to a prosecution for violation of subsection (5) of this section.

(2) Nothing in this section prohibits use of confidential information to prepare statistics or other general data for publication, so presented as to prevent identification of particular persons.
