(3) Service charges may also be collected and enforced as provided in ORS 454.225. [Amended by 1975 c.247 §1]

450.135 Ordinance declaring method of payment. (1) For the purposes specified in ORS 450.075 (3), a district may declare by ordinance before doing the same that the cost, or any portion thereof, shall be assessed against the property directly benefited. Or it may provide in the ordinance that the cost shall be paid partly by assessment against the property directly benefited and partly out of the general funds of or sewer service charges collected by the district.

(2) The determination of the board as expressed in the ordinance as to the proportion of the cost shall be based upon an exercise of the board's sound discretion.

450.140 Assessment ordinance. If any of the cost of sewers, drains or sewage treatment plants is assessed against the property directly benefited thereby, the board shall, before attempting to make the improvement or assessment, adopt a general ordinance providing for the method of assessment. The ordinance shall:

(1) Contain provision for notice to property owners of intention to make the assessment and improvement.

(2) Provide that notice shall be not less than 20 days before action is taken thereon.

(3) Provide an opportunity for property owners to appear before the board for the purpose of remonstrating against assessments.

(4) Provide for the general method of assessing the property directly benefited and of the recording of liens against the property directly benefited, and of making supplementary assessments and rebates.

450.145 Entry of assessments in lien docket; lien docket as public record. (1) When assessments are made they shall be entered into a permanent lien docket which shall be kept in the office of the district and wherein shall be shown the amount of each lien, property against which it has been assessed, the owner thereof and such additional information as is required to keep a permanent and complete record of the lien and the payments thereon.

(2) The lien docket shall be a public record kept by the secretary and shall be open to inspection during all business hours established by the district.

450.150 Hearing of objections to proposed improvements. (1) The board shall appoint a time for the hearing of remonstrances or objections against any proposed improvement regardless of the method of payment. At the time appointed all objectors or remonstrators shall have the right to be heard.

(2) If two-thirds or more of the owners of the property directly benefited, which is liable for any of the cost of the sewers, drains or sewage disposal plants, file written remonstrances objecting to the proposed improvement, the board shall sustain the remonstrances, and no further proceedings in the matter of proposed improvements shall be had for a period of six months.

(3) If two-thirds of the owners of the property directly benefited by the proposed improvements do not file written remonstrances against the improvement, the board may proceed with the making of the improvement.

450.155 [Amended by 1953 c.649 §2; 1955 c.19 §1; repealed by 1995 c.333 §37]

450.160 Collection and enforcement of delinquent liens; reassessment. (1) In case the whole or any portion of the cost of sewers, drains or sewage treatment plants is assessed against the property directly benefited and the owner of the property fails to pay the amount of the lien, or any portion thereof, or the interest thereon, when they become due, the board may proceed to foreclose the lien in any manner provided by law for the collection of liens by local governments as defined in ORS 174.116 and may provide by ordinance a general procedure for the collection of liens in any manner not inconsistent with law.

(2) The provisions of ORS 223.405 to 223.485 relating to reassessment shall be available to sanitary districts where applicable. [Amended by 2003 c.802 §117]

450.165 Preparation and approval of plans for drains and sewer installations.

(1) Whenever the board deems it expedient or necessary to cause to be constructed sewers, drains or sewage treatment plants, the cost of which, in whole or in part, is to be paid either by the proceeds of the sale of bonds by the district or assessed against the property directly benefited or by both methods in proportion, the board shall retain a registered professional engineer to prepare plans and specifications for the sewers, drains or sewage treatment plants, which plans and specifications shall be filed in the office of the secretary of the district.

(2) The district board may, however, adopt any plans and specifications they see fit, provided the plans have been prepared by a registered professional engineer and have been approved by the Department of Human Services and the Environmental Quality Commission.

450.170 Levy of taxes. (1) Assessment and collection of property taxes within the district shall be made by the county officers charged with assessment and collection of other property taxes in the county in which the property lies.

(2) The district board shall fix the amount of money to be raised by taxation for district purposes and for the payment of the principal and interest of outstanding indebtedness of the district which will become due during the year.

(3) The district board shall, in the manner and time prescribed by law, transmit to the county assessor a statement of such taxes. If the board fails to levy a direct ad valorem tax sufficient to pay the interest on and the maturing principal of all outstanding general obligation bonds, the county board

of any county in which any portion of the district is included shall levy such tax which shall be extended and collected the same as all other sanitary district taxes. [Amended by 1969 c.563 §16]

450.175 Collection of taxes. (1) Taxes levied under ORS 450.170 shall be collected at the same time and in the same manner as county taxes are collected, and when collected shall be paid to the district.

(2) The taxes shall be a lien upon the property against which they are levied in the sanitary district and shall be of the same force and effect as other liens for taxes. Their collection shall be enforced by the same means as provided for the enforcement of liens for state and county taxes. [Amended by 2001 c.373 §5]

450.177 Filing boundary change with county assessor and Department of Revenue. For purposes of ad valorem taxation, a boundary change must be filed in final approved form with the county assessor and the Department of Revenue as provided in ORS 308.225. [2001 c.138 §30]

Note: 450.177 was added to and made a part of 450.005 to 450.245 by legislative action but was not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

(Annexation)

450.215 Plans for division and disposal of properties. (1) If territory proposed to be annexed is within the limits of another sanitary district, the board of the district to which annexation is proposed and the board of such other district shall meet with each other prior to the hearing on the annexation petition to agree upon a division and disposal of the properties of the other district that lie within the territory proposed to be annexed. An agreement between the boards is effective only in the event the proposed annexation is approved by the electors.

(2) The plan of division of properties provided for in subsection (1) of this section shall be arrived at by giving consideration to the assessed valuation of the other district as a whole, the assessed valuation of the

territory to be annexed, the types of properties and their location and intended use. If a plan of division of properties is agreed upon, the plan shall be reduced to writing and, if the proposed annexation is approved by the electors, shall be binding upon the districts party to the plan and upon all other interested persons. [Amended by 1957 c.671 §7; 1969 c.563 §20; 1971 c.727 §123]

450.220 [Amended by 1957 c.671 §8; 1969 c.563 §21; repealed by 1971 c.727 §203]

450.225 Effective date of annexation; disposition of properties in territory; liabilities and indebtedness of territory; filing of report. (1) If the territory annexed to the district was, prior to the vote on the petition for annexation, within the limits of another sanitary district, the effective date of the annexation shall be the effective date of the withdrawal from the other district of the territory previously within its limits.

(2) Unless a plan for division of properties has been agreed upon as provided in ORS 450.215 (2), the district from which the territory has been withdrawn shall proceed to turn over to the district to which the territory has been annexed, its properties in the territory withdrawn. The provisions of ORS 222.560 shall govern the method and procedure by which such division of properties shall be made.

(3) Notwithstanding subsection (2) of this section, the district to which the territory was annexed may, in the sound discretion of its board, assume such obligations if the obligations do not bring the total of the district's obligation above any applicable limitations prescribed by law or otherwise. When the district assumes such obligations, it shall be liable to the other district, as provided by ORS 222.520 (2)(a) or (b), at the option of the annexing district. After the district agrees to make the payments referred to in this subsection, neither the annexing district nor the annexed territory shall be charged by the other district with any future liabilities, obligations or functions of the other district.

(4) Within 30 days after the effective date of the county board's order of annexation, the secretary of the annexing district shall file a written report with the Environmental Quality Commission, stating the name of the district and the date of the county board's order of annexation, and shall furnish with the report a map of the district boundaries as they are after the annexation. (Miscellaneous)

450.245 Application of ORS 450.005 to 450.245 to districts organized under former laws; savings clause. (1) Sanitary districts organized under chapter 385, Oregon Laws 1935, which were exercising the functions of sanitary districts on July 16, 1949, are vested with all rights, powers and obligations prescribed in ORS 450.005 to 450.245 and, after July 16, 1949, shall conduct their business in accordance with and be subject to those sections.

(2) No right or obligation incurred by the formation of a sanitary district pursuant to the provisions of chapter 385, Oregon Laws 1935, as amended by chapter 402, Oregon Laws 1941, is affected by the repeal of those provisions.

(Districts With Valuation Less Than \$250,000)

450.250 Definitions for ORS 450.250 to 450.300. (1) "District" means a sanitary district duly organized under the provisions of ORS 450.005 to 450.245, having an assessed valuation of not more than \$250,000.

(2) "Sewerage system" means complete or primary sewage treatment and disposal facilities, sewer mains, pumping stations, and all equipment and appurtenances necessary, useful or convenient for the treatment or disposal of sewage, or any portion of such a system, whether within or without the boundaries of a district. [1955 c.577 §1; 1959 c.157 §9]

450.255 Districts eligible for state help in financing sewerage systems. Districts that have been certified by the Environmental Quality Commission as being in need of sewerage systems may apply to the State Treasurer for the financing of such costs under authority of ORS 450.250 to 450.300. The Environmental Quality Commission shall certify to the State Treasurer, in writing, a list of the districts that are in dire need of sewerage and sanitation facilities. [1955 c.577 §2; 1959 c.574 §1]

450.260 Conditions precedent to financing application. A district shall not apply to the State Treasurer for financing under ORS 450.250 to 450.300 unless:

(1) It submits to the State Treasurer plans and specifications prepared by compe-

tent licensed engineers setting forth the type or character of sewer system or sewerage facilities proposed for the particular district and the estimated cost of the system and of the appurtenances thereto.

(2) It submits to the State Treasurer the proposed plan of the district for liquidation of indebtedness to be incurred for financing the cost of such system or facilities. [1955 c.577 §3]

450.265 Bonds issued by district pursuant to ORS 450.250 to 450.300 are subject to State Treasurer control; refunding bonds issuable. The bonds issued by districts pursuant to ORS 450.250 to 450.300 shall bear such dates, be in such form, run for such periods of time, bear such rates of interest, and be sold by the districts at such prices as the State Treasurer may determine. Refunding bonds of like obligation may be issued to replace outstanding bonds, provided the refunding bonds are sold publicly upon competitive bids. [1955 c.577 §4; 1981 c.94 §38]

450.270 Powers of State Treasurer in connection with ORS 450.250 to 450.300.

(1) The State Treasurer shall be the sole judge as to whether state funds shall be invested in the bonds of a district and as to which undertakings shall first be financed. The decision of the State Treasurer on the subject of investment and priority shall be final.

(2) The State Treasurer may enlist the technical services of any state officer or department in a study of the feasibility and cost of the sewerage project. The State Treasurer further may employ licensed engineers, at the cost of the district, to make such a study for the district and for the State Treasurer.

(3) The State Treasurer, in the discretion of the State Treasurer, may purchase with moneys from the revolving fund provided by ORS 450.250 to 450.300, general obligation sewerage system bonds of any district, issued under authority of ORS 450.250 to 450.300. If the State Treasurer deems it expedient in the acquisition and construction of a sewerage system for a district to furnish sewerage service for territory that is contiguous to or outside the boundaries of the district, the State Treasurer may authorize the district to furnish such service and to construct part of its system outside its boundaries for such purpose.

(4) The State Treasurer may authorize districts to issue sewerage system bonds with the right reserved to them to redeem bonds at par value and accrued interest prior to the final maturity dates of the bonds.

(5) The State Treasurer, in the discretion of the State Treasurer, may authorize

deferment of payment of interest upon the sewerage bonds of the district for a period not exceeding three years, and may provide for the issuance of such bonds with graduated rates of interest.

(6) The State Treasurer may specify the procedure to be followed by a district in availing itself of the provisions of ORS 450.250 to 450.300. [1955 c.577 §5]

450.275 State Treasurer approval of other bond issues by district whose bonds are owned by state. So long as any of the sewerage bonds of the district are owned by the state, the district shall not issue other bonds of any character without prior written approval of the State Treasurer. [1955 c.577 §6]

450.280 Circumstances and conditions under which State Treasurer may purchase sewerage system bonds. (1) The State Treasurer may purchase from a district at private sale sewerage system bonds bearing interest at a rate agreed upon by the State Treasurer and the district. The bonds shall qualify for investment by the state only if the sewer connection charges and revenues of the sewerage system of the issuing district, after the payment of operation and maintenance expenses, are pledged wholly to the payment of the principal of and interest upon the bonds, and the issuing district shall covenant to levy ad valorem taxes upon all of the taxable property within its boundaries to meet deficiencies in the charges and revenues pledged, and only if the combined indebtedness for all public purposes, other than state or federal, within the boundaries of the district, including the proposed sewerage system indebtedness, but excluding obligations issued for other utilities that are self-supporting or self-liquidating or are approximately so, does not exceed 25 percent of the total real market value of all taxable property within the district as reflected in the last roll certified under ORS 311.105. The limitation shall apply only to districts that finance the costs of their sewerage systems under ORS 450.250 to 450.300. The limitation shall include the ratios of indebtedness to the total valuation, determined in like manner, of other subdivisions that overlap the district to an extent of more than 50 percent of the total value of the district. Indebtedness within the 25 percent limitation may be incurred by a district if approved by the electors of the district at an election called and held for that purpose. Notwithstanding that revenues may have been pledged to the payment of the principal of and the interest upon a particular issue of general obligation bonds owned by the state, the same revenues, with the approval of the State Treasurer, may be pledged to the payment of the principal of and the interest on additional issues

of bonds purchased by the state from the district. The additional issues shall be on a parity with previous issues as to the pledge of charges and revenues. In order to complete the financing of a sewerage system, after bonds payable as to principal and interest from revenues and ad valorem taxation have been issued, the State Treasurer may purchase issues of general obligation sewerage system bonds of districts, payable only from ad valorem property taxes, provided such issues, together with other obligations of the district, do not exceed the debt limits specified in this section.

(2) All bonds heretofore issued under authority of ORS 450.250 to 450.300 and sold to the state, and the proceedings under which they were issued, are approved, validated, ratified, and confirmed, and the bonds are the valid and legally binding general obligations of the issuing district. [1955 c.577 §7; 1957 c.121 §1; 1959 c.574 §2; 1971 c.647 §91; 1981 c.94 §39; 1981 c.804 §101; 1991 c.459 §403; 1995 c.79 §224]

450.285 State Sanitary District Sewer Bond Fund. (1) The State Sanitary District Sewer Bond Fund is established separate and distinct from the General Fund. Moneys in the State Sanitary District Sewer Bond Fund are continuously appropriated to the State Treasurer for investment under authority of ORS 450.250 to 450.300, and for payment of costs of the State Treasurer in connection with the investment.

(2) The earnings of the fund established under this section shall accrue to the General Fund, and the amounts received in payment of the principal of investments of the fund established under this section shall be credited to the General Fund, to be available for the payment of general governmental expenses.

(3) The State Treasurer may engage such assistance and incur such expenses to carry out the purposes of ORS 450.250 to 450.300 as may be necessary. [1955 c.577 §8; 1957 c.702 §1; 1957 s.s. c.14 §1; 1963 c.341 §4; 2005 c.755 §39]

450.290 Provisions concerning liquidation of indebtedness incurred by district financing sewerage system under ORS 450.250 to 450.300. (1) Each district financing the cost of a sewerage system under authority of ORS 450.250 to 450.300 shall submit to the State Treasurer for approval, a schedule of its rates and sewer connection charges, and proposed method of collection thereof. The rates and charges shall be such as, in the judgment of the State Treasurer, are sufficient to pay the operation and maintenance costs of the system and to liquidate, during the period approved by the State Treasurer, the indebtedness incurred by the district in the construction of the system. The State Treasurer may further require as

part of the agreement to purchase the bonds of the district, that the district levy and collect assessments in the manner provided by ORS 450.005 to 450.245, and that it pledge the receipts from such assessments, both principal and interest, to the payment of its bonds and the interest thereon. The district shall be fully authorized to levy and collect such assessments against properties within or without the boundaries of the district, that will be benefited by the sewerage system of the district. Should the receipts of the district prove inadequate to pay such costs and such indebtedness, the State Treasurer may direct the district to increase its rates and charges to make the sewerage project self-supporting and self-liquidating, and the district thereupon shall establish the rates and charges prescribed by the State Treasurer.

(2) If the district does not have the ability to collect sewerage charges in connection with or as part of the charge for another service or utility that can be curtailed to secure collection, and if the State Treasurer so directs, delinquent charges for use of or connection with a sewerage system shall be certified to the assessor of the county or counties in which the district is located and shall be entered upon the tax rolls of the county and be collected and accounted for in the same manner in which city taxes are collected and accounted for. The said charges shall constitute liens upon the real property of the corporation or person against whom they are assessed.

(3) The district shall obtain from the State Treasurer approval of its annual budgets and tax levies before they are certified to the clerk and assessor of the county in which the district is located, for extension upon the county tax rolls. [1955 c.577 §9; 1991 c.459 §403a]

450.295 Refinancing indebtedness of district; court-appointed receiver may operate system. If any district fails to meet, when due, any obligations sold to the state under authority of ORS 450.250 to 450.300, the State Treasurer and the district may agree upon and put into effect, any plan they may consider expedient for refinancing the indebtedness of the district, or the State Treasurer, with the approval of the circuit court of the county in which the major portion of the assessed valuation of the district is located, may appoint a receiver to operate the sewerage system. The receiver shall act as such so long as the circuit court deems receivership necessary to protect the interests of the state and of the district. [1955 c.577 §10]

450.300 Duty of treasurer to keep funds separate and to withhold tax receipts for bond payments; liability of treasurer. The treasurer of each district that finances the cost of a sewerage system or facilities under authority of ORS 450.250 to 450.300 shall keep collections or assessments for sewerage service and sewer connection fees separate and distinct from other funds of the district and shall withhold from tax receipts not less often than quarterly the full amounts proportionate to the elapsed portion of the tax year that have been levied for the payment of interest on and the principal of the sewerage system bonds of the district. For failure to account for sewerage revenues and taxes as provided in this section, such treasurers shall be liable upon their official bonds. [1955 c.577 §11]

(Sanitary District Sewerage System Revolving Fund)

450.303 Purchase of general obligation bonds of sanitary districts; Sanitary District Sewerage System Revolving Fund.

(1) Any sanitary district in the state having an actual value in excess of \$750,000, that has not been able to sell its general obligation bonds on the market upon competitive bids or has not been able to obtain a bid for its bonds pursuant to notice of sale of the bonds published in a newspaper of general circulation printed and published for a period of two consecutive weeks in the county in which the major portion of the assessed value of the district is located, may sell its bonds to the State of Oregon, if the bonds are approved for investment by the State Treasurer. For the purposes of this section, actual value shall be determined in the manner prescribed by ORS 450.120. Bonds issued under authority of this section, together with other outstanding indebtedness of the district, shall not exceed in the aggregate 15 percent of the actual value of the district. For the purposes of this section, the 15 percent limitation shall supersede the limitation imposed by ORS 450.120 or any other law in conflict with this section. Only bonds authorized and issued in compliance with ORS 450.005 to 450.080, 450.085 to 450.115, 450.125 to 450.245 and the provisions of this section may be purchased by the State of Oregon as investments of the fund designated in subsection (2) of this section.

(2) The Sanitary District Sewerage System Revolving Fund is established separate and distinct from the General Fund. Moneys in the Sanitary District Sewerage System Revolving Fund are continuously appropriated to the State Treasurer for investment under the authority of this section. The interest paid on the investments purchased pursuant to this section shall be credited to

the General Fund of the State of Oregon, and the principal, as it is repaid to the state by sanitary districts, shall be credited to the General Fund to be available for the payment of general governmental expenses. The State Treasurer is authorized to sell at not less than cost, the bonds, in whole or in part, that have been purchased under the authority of this section. The proceeds of sale of the bonds shall be credited to the General Fund to be available for the payment of general governmental expenses. 450.785 Initiation of formation of sanitary authority by governing body without petition. In addition to other methods of initiating proceedings for the formation of a sanitary authority under ORS 450.705 to 450.860 and 450.865 to 450.945 and when they consider it necessary for the protection of the public health, safety and welfare, the governing bodies of one or more counties may on their own motion initiate the formation of a sanitary authority by order in the manner provided in ORS 198.835. However, a district proposed to be initiated under this section need not be located entirely within one county. If the governing body of more than one county initiates formation of a sanitary authority under this section, the governing body of the principal county, as that term is defined in ORS 198.705, shall set the

date, time and place of the public hearing, give notice of the hearing, conduct the hearing and call the election as provided in ORS 198.800 to 198.825. [1955 c.614 §17; 1971 c.727 §126; 1983 c.740 §173]

450.787 Formation of authorities by cities and sanitary or drainage districts.

(1) The governing bodies of two or more cities, two or more sanitary or drainage districts or one or more cities and one or more districts, when they consider it necessary for the public health, safety and welfare, may initiate the formation of a sanitary authority by resolution. The resolution shall set forth the name and boundaries of the proposed sanitary authority. The governing bodies shall file the resolution with the governing body of the principal county, as defined in ORS 198.705. If any part of the proposed sanitary authority is within a city, the resolution shall be accompanied by a certified copy of a resolution of the governing body of the city approving the resolution that initiates formation of the sanitary authority.

(2) Upon receipt of the resolution, the county governing body or boundary commission shall determine that provision of sewage disposal or drainage services to the area within the proposed sanitary authority can best be achieved by creation of a sanitary authority rather than by sanitary or drainage districts or cities. In making this determination, the county governing body shall consider the following factors:

(a) The ability of the proposed authority to provide sewage disposal or drainage services to the area within the proposed authority;

(b) The effect on both long and short-term rates for patrons within the proposed authority;

(c) The impact, if any, of the proposed authority on adjacent special districts and cities; and

(d) Consistency of the proposed authority with the adopted comprehensive plan of the county within the boundaries of the proposed water authority.

(3) After the county governing body or boundary commission makes the determination under subsection (2) of this section, the county governing body shall by order provide for a public hearing on the proposal. The order shall set forth the date, time and place of the hearing. Notice of the hearing shall be given in the manner provided by ORS 198.800 except that the notice shall state that the governing bodies of the cities or districts have filed a resolution with the county governing body declaring their intention to initiate formation. The hearing and election on the proposal, and election of

board members, shall be conducted as provided by ORS 198.800 to 198.825. [1989 c.809 §10]

(Dissolution)

450.788 Law applicable to dissolution of authority. A water authority or a sanitary authority formed under ORS 450.600 to 450.989 may be dissolved in the manner set forth in ORS 198.920 to 198.955 for other districts. [1993 c.577 §12]

Note: 450.788 was added to and made a part of 450.600 to 450.989 by legislative action but was not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

in ORS 174.116 situated within the boundaries of the authority at wholesale, retail or a combination of wholesale and retail. [1993 c.577 §14; 2003 c.802 §120]

Note: 450.817 was added to and made a part of 450.600 to 450.989 by legislative action but was not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

450.820 Authority may maintain garbage collection system and engage in insect control activities. In addition to other powers granted to it under ORS 450.600 to 450.989, the authority may:

(1) Maintain and operate disposal sites and garbage collection systems in compliance with the requirements of ORS 459.005 to 459.437, 459.992 (1) and (2) and 466.995 (1).

450.825 Plan for sewage disposal and drainage to be developed by authority. As soon as practicable after the election of the first members of the board, the board shall make a study and survey of the existing sewage disposal facilities and systems in the authority and of its sewage disposal needs, both present and future, and prepare an overall coordinated plan for the authority which incorporates, so far as practicable, existing sewage disposal and drainage systems, future sewage treatment plants, including connecting trunk and lateral sewers, and future drainage systems. Such plan shall be revised from time to time as circumstances may require. In preparing the plan or revisions thereto, the board shall take into consideration expected fluctuations in population and in business and industrial activity. [1955 c.614 §28]

450.830 Authority may construct and operate sewage disposal and drainage systems; operation beyond authority boundaries. The sanitary authority may construct, maintain or operate sewage disposal and drainage systems, including sewage treatment plants, trunk and lateral sewers and drains, or any combination thereof, for any area within the authority. Portions of such systems may be constructed outside the authority where necessary or expedient. The authority may furnish sewage disposal service to areas outside the authority on a contract basis. [1955 c.614 §29]

450.835 Contract for or purchase of sewage disposal and drainage systems. A sanitary authority may, in performing the powers conferred by ORS 450.830:

(1) Contract with any person, or enter into intergovernmental agreements under ORS chapter 190, for the use or joint operation of all or any portion of any sewage disposal or drainage system; or

(2) Purchase all or any portion of any sewage disposal or drainage system on such terms as are fair and reasonable. Where the area served by such system, or part thereof, is situated within the authority, the authority may agree, on such terms as are fair and reasonable, to furnish sewage disposal or drainage functions for the area then served by such sewage disposal or drainage system. Under this subsection, as a part of the purchase agreement and on such terms as are fair and reasonable, the authority may assume liability for any outstanding bonded or other indebtedness incurred prior to the time of purchase in connection with the facilities to be purchased. [1955 c.614 §30; 2003 c.802 §121]

450.837 Water and sanitary authority as municipality for purpose of enforcing plumbing code; limitations. (1) Water authorities and sanitary authorities are municipalities for the purposes of administering and enforcing the plumbing code as provided under ORS 455.150.

(2) However, notwithstanding ORS 455.150 (3), a building official appointed by a water authority or sanitary authority or an inspector acting under the authority and direction of such a building official shall administer and enforce only that portion of the plumbing code governing the installation and maintenance of connections between structures and the mains and sewers of the authority.

(3) Nothing in this section authorizes a building official or inspector of a water authority or sanitary authority to administer or enforce all or part of any specialty code except the plumbing code.

(4) A water authority or sanitary authority shall notify the Director of the Department of Consumer and Business Services not later than May 1 of each year as to whether the authority will or will not exercise the code enforcement power granted by this section. [1989 c.809 §11; 1993 c.577 §33; 1995 c.553 §6]

(Finances)

450.840 Costs for construction and operation of systems and general expenses of sanitary authority; how borne. (1) The cost of construction of a sewage disposal system, including treatment plants and trunk or lateral sewers, or a drainage system shall be borne by the area directly benefited by the system. The property within such area shall bear such cost in the manner provided in ORS 450.855.

(2) The cost of operation and maintenance of sewage disposal systems and drainage systems shall be borne by the area directly benefited by such systems. The

property within such area shall bear such cost in the manner provided in ORS 450.880.

(3) The costs and expenses of the authority which are not chargeable under ORS 450.600 to 450.989 to any particular area within the authority such as overall planning, expenses of the board, conduct of elections and hearings and mosquito and other insect control shall be borne by the entire authority in the manner provided in ORS 450.885 (1)(a). [1955 c.614 §31]

450.845 Areas needing sewerage installations to be determined and plans for installations to be made. Whenever the board deems it expedient or necessary for the protection of the public health, safety and welfare to cause to be constructed treatment plants or trunk or lateral sewers or drains, or any combination thereof, the board shall determine the proposed boundaries of the area to be directly benefited thereby and have a registered professional engineer prepare plans and specifications for such plants, sewers or drains. Such plans and specifications must be approved by the Department of Human Services and the Environmental Quality Commission and shall be filed in the office of the authority. Parcels of land which may be served practicably by lateral sewers or drains connected with treatment plants or trunk sewers or drains and are not adequately served by existing plants, sewers or drains, as the case may be, are considered to be directly benefited by the plants, sewers or drains of the authority. If all or any portion of the cost of construction is to be specially assessed against individual property, the engineer shall include in the plans and specifications, a description of the location and assessed value of each lot, tract or parcel of land, or portion thereof, to be specially benefited by the improvement, with the names of the record owners thereof and an estimate of the unit cost of the improvement to the specially benefited property. [1955 c.614 §32]

450.850 Hearing on board's proposed construction plans and estimated special assessments; notice of hearing. (1) After plans and specifications have been prepared and filed as provided in ORS 450.845, the board shall hold a hearing within the authority and may adjourn the hearings from time to time.

(2) The board shall post notice of the time and place of the hearing in at least three conspicuous places in the area directly benefited, for two weeks prior to the hearing and publish such notice in a newspaper of general circulation printed and published in the area once a week for two successive weeks prior to the hearing or, if there is no such newspaper, in a newspaper of general circulation printed and published in the

county in which the area, or the largest portion thereof, is situated. Such notice shall contain a statement that the board proposes to construct a sewage treatment plant or trunk or lateral sewers or drains, or any combination thereof, for the area and a statement, if special assessments are to be levied against property specially benefited, showing the estimated total cost of the improvement which is to be paid for by special assessment of benefited property and the engineer's estimated unit cost of the improvement to the specially benefited property, clearly indicating that this is an estimate and not an assessment; and set forth the proposed boundaries of the area and that all interested persons may appear and be heard. [1955 c.614 §33; 1973 c.399 §1]

450.855 Action board may take at hearing concerning boundaries, installations to be constructed, costs and financing. At the hearing under ORS 450.850 the board may:

(1) Modify the proposed boundaries of the area directly benefited by and to pay for the proposed installations except that no land in the authority which could not be directly benefited by the proposed installation may be included and no land in the authority which could be directly benefited by the proposed installation may be excluded. If it appears that land should be included in the area which was not included within the boundaries designated in the notice of the hearing and that the owners of such land have not appeared at the hearing the board shall adjourn the hearing and give notice to such owners by registered mail, by certified mail with return receipt or by posting and publishing notice in the area to be included in substantially the same manner that notice is given under ORS 450.850 (2). If the notice is given by registered or certified mail, the notice shall be mailed at least 10 days prior to the date fixed for the further hearing. The notice shall contain the date, time and place of the adjourned hearing, a statement that the board proposes to construct sewage treatment plants or trunk or lateral sewers or drains for an area within the authority, a description of the additional area to be included within such area and a statement that all persons interested may appear and be heard.

(2) Determine what installations shall be constructed and the total cost of the construction. The cost of making engineering plans and specifications shall be borne by the area directly benefited by the installation as a part of the construction costs.

(3) Determine the manner in which the property within the area shall bear the cost

of the proposed installations. The board may provide, in its sound discretion, that the cost shall be borne by assessments against the property directly benefited, by sewer connection charges, by collection of sewer service charges in the area or, if general obligation bonds are to be issued and sold to finance the construction of the installations, by annual levies of taxes against property in the area, or by any combination of these methods. If all or a part of the cost of the proposed installations are to be borne by assessments against the property directly benefited, the board may, in its sound discretion, levy the assessments in an amount based upon the engineer's estimate of the cost, or may delay the assessments until the total cost of the installation is determined. Such cost shall be apportioned, so far as practicable, in accordance with the special and peculiar benefit each parcel of land in the area could receive from the installation. Where parcels of land in the area are partially or wholly undeveloped or are devoted to uses which in no way require sewage disposal service, the board may, in its sound discretion, defer assessing, imposing or levying all or any part of the assessments, sewer service charges or taxes against such parcels until the parcels or the undeveloped portions thereof are connected with the installations.

(4) Determine the method of financing the construction of the proposed installations and the amount and type of bonds, if any, to be issued and sold under ORS 450.895 to 450.920 to finance the construction of the proposed installations. [1955 c.614 §34; 1973 c.399 §2; 1977 c.621 §1; 1991 c.249 §37]

450.860 Portion of installation construction costs in an authority chargeable to area benefited. When in providing sewage disposal or drainage systems for an area within the authority the board determines that any portion of sewage treatment plants or trunk or lateral sewers or drains constructed or acquired, or being constructed or acquired, by the authority, will be used by the area, a fair and equitable portion of the original cost of such plants, sewers or drains and of improvements thereto, less depreciation, shall be charged to the area on an assessment or sewer service charge basis, or any combination thereof. The proceeds of such assessments or charges shall be used by the board, in its discretion, for payment of bonds issued to construct such plants, sewers or drains or for future improvements or additions to or maintenance of such plants, sewers or drains. The determination made under this section shall be made at the hearing of the board in connection with any proposed construction of sewage disposal or drainage systems for the area. [1955 c.614 §57]

450.865 Ordinance specifying action of board at hearing; remonstrances. (1) After the board has concluded the hearing under ORS 450.850 and 450.855 it may adopt an ordinance specifying the installations to be constructed for the area, the boundaries of the area, the method of apportioning the construction cost to the area directly benefited, whether by assessment, by sewer connection charges, by sewer service charges or annual levy, or combinations thereof, and the method of financing the construction of the installations. A copy of the ordinance shall be published once a week for two successive weeks in a newspaper of general circulation printed and published in the area directly benefited or, if there is no such newspaper, in a newspaper of general circulation printed and published in the county in which the area, or the largest portion thereof, is situated.

(2) If within 30 days after the last publication of such ordinance written remonstrances against the proposed construction are filed in the office of the authority by a majority of the owners of the land in the area directly benefited, no further proceedings shall be had in connection with the proposed construction. However, a modified proposal may be initiated within six months thereafter.

(3) If such remonstrances are not filed by a majority of the owners of the land in the area directly benefited, the board may proceed with the construction of the installation in accordance with the ordinance. [1955 c.614 §35; 1973 c.399 §3]

450.867 Election on ordinance adopted under ORS 450.865. (1) If the ordinance adopted under ORS 450.865 specifies that all or a part of the cost of construction of the installation is to be financed through the sale of general obligation bonds of the authority to be repaid by annual levies of taxes against property in the area, the board may call an election within the area to be directly benefited by the construction on the question of whether or not the construction and financing plan adopted by the ordinance should be implemented by the board. The date of the election and a brief description of the proposition to be voted upon shall be included in the ordinance adopted under ORS 450.865.

(2) If a majority of the electors voting on the question at the election vote against the proposal, there shall be no further proceedings in connection with the proposed construction. However, a modified proposal may be initiated within six months after the date of the election.

(3) If a majority of the qualified electors voting at the election approve the proposal,

the board may proceed with the construction of the installation in accordance with the ordinance, subject to the right of property owners within the area to remonstrate under ORS 450.865. [1973 c.399 §6; 1975 c.647 §40; 1983 c.350 §273]

450.870 Assessments against benefited property. (1) All assessments made pursuant to ORS 450.855 (3) shall be determined and made by an order of the board adopted in accordance with such procedures as shall be established by a general ordinance adopted by the board. Such general ordinance shall establish a procedure for assessing property directly benefited by the installation, making supplementary assessments and rebates, notice of the proposed assessment, provide for correction of errors, establish the form of the assessment order and such other procedures as are necessary to the adoption of the assessment order. It shall not be necessary to issue a separate order for each parcel of land, and any number of parcels in the same area and the same county may be included in one order. A copy of the order making an assessment, certified and acknowledged by the manager of the authority, shall be filed with the county clerk of the county in which the land is located. Upon being filed, the assessment shall constitute a lien against the land assessed.

(2) Notice of all assessments levied by an authority shall be given to the landowner by mail and shall be payable on the 30th day after such notice is mailed unless agreements for payment of such installments are made pursuant to ORS 223.205 and 223.210 to 223.295. All assessments shall be paid to the authority and a receipt shall be issued therefor. From time to time the board shall order the satisfaction of the liens against lands on which assessments have been paid, and a copy of such order shall be filed with the county clerk of the county in which the lands are located. [1955 c.614 §36; 1973 c.399 §4; 1977 c.621 §2; 1995 c.333 §23; 2001 c.215 §8]

450.875 Collection of delinquent assessments by lien foreclosure procedure; reassessment procedure. (1) In case the whole or any portion of the cost of sewage treatment plants, trunk or lateral sewers or drains is assessed against property directly benefited and the owner of the property fails to pay the amount of the lien, or any portion thereof, or the interest thereon, when due, the board may proceed to foreclose the lien in any manner provided by law for the collection of liens by local governments as defined in ORS 174.116 and may provide by ordinance a general procedure for the collection of liens in any manner not inconsistent with law.

(2) The provisions of ORS 223.405 to 223.485 relating to reassessment shall be available to sanitary authorities where applicable. [1955 c.614 §37; 2003 c.802 §122]

450.880 Sewer service charges. (1) The authority may adopt ordinances imposing sewer service charges within an area within the authority, for the purpose of financing the improvement, operation and maintenance of a sewage disposal or drainage system acquired or constructed by the authority for the area.

(2) The board may contract with any city or district serving water in such area to collect such service charges with the water bills, and the serving agency may cut off water for nonpayment of such service charges. The board may pay the water-serving agency for the reasonable cost of such collection services.

(3) Service charges may also be collected and enforced in substantially the manner provided in ORS 454.225. [1955 c.614 §38; 1983 c.740 §174]

450.885 Tax levies on property in the authority; budget for authority. (1) The authority may, annually as provided in this section:

(a) Levy a tax on all the property in the authority to provide funds with which to pay expenses of the authority and pay general obligation bonds of the authority which expenses and bonds are not chargeable under ORS 450.600 to 450.989 to any particular area in the authority.

(b) Levy an additional tax on the property in any particular area within the authority to provide funds with which to pay any part of the principal and interest on general obligation bonds which are to be paid by such area where sewer service charges or assessments will not be sufficient to pay such principal and interest.

(2) Assessment and collection of taxes levied on property within the authority shall be made by the county officers charged with assessment and collection of other property taxes in the county in which the property lies.

(3) Each year, immediately after the necessary records are made, the county assessor of each county in which the authority is situated shall transmit to the board a statement in writing, showing the total value of all property within the authority and within each area within the authority which is subject to levy under subsection (1)(b) of this section as ascertained for that year from the assessment rolls of each county in which property of the authority lies.

(4) The board shall prepare a budget in the form, manner and time prescribed in the

Local Budget Law and in accordance therewith fix the amount of money to be raised by taxation for carrying out its functions and activities and for the payment of the principal and interest of outstanding indebtedness of the authority which will become due during the year. The board shall determine the amount of taxes to be raised from the entire authority and the additional amount to be raised from each of the areas within the authority which are directly benefited by particular installations.

(5) The board shall, in the manner and time prescribed by law, transmit to the county assessor of each county a statement of taxes which are to be collected in such county. If the board fails to levy taxes under this section sufficient to pay the interest on and the maturing principal of all outstanding general obligation bonds of the entire authority or on property in areas which are primarily obligated to pay the bonds, the governing body of the counties in which the authority is situated shall cause such taxes to be levied, extended and collected and, if necessary, cause a tax on all the property in the authority to be levied, extended and collected to pay general obligation bonds of the authority. However, any levy against all property in the authority under this subsection shall not alter or limit the obligation of the area primarily obligated on the bonds as between such area and the authority. [1955 c.614 §39; 1995 c.79 §225]

450.890 Collection of taxes; taxes are liens on property. (1) Taxes levied under ORS 450.885 shall be collected at the same time and in the same manner as county taxes are collected and, when collected, shall be paid to the sanitary authority. Taxes collected to pay expenses or obligations of a particular area shall be credited to separate accounts or funds of the authority to be used for such purposes.

(2) The taxes shall be a lien upon the property against which they are levied and shall be of the same force and effect as other liens for taxes. Their collection shall be enforced by the same means as provided for the enforcement of liens for county property taxes. [1955 c.614 §40; 1975 c.122 §1; 2001 c.215 §9]
