State of Oregon in accordance with their terms and shall be enforceable against the State of Oregon by owners of the bonds. However, no owner of bonds authorized by this section shall ever have the right to compel any exercise of the taxing power of the state to pay any such bonds or the interest thereon, or to enforce payment thereof against any property of the state, except those moneys in the infrastructure fund that are pledged to pay the bonds and any moneys the department or an agency may agree to use to repay infrastructure loans under ORS 367.040. Bonds authorized by this section shall not constitute a charge, lien or encumbrance, legal or equitable, upon any property of the state, except moneys in the infrastructure fund that are pledged to pay the bonds, and any property that the department or agency pledges, mortgages or assigns to secure infrastructure loans pursuant to ORS 367.040. Revenue bonds authorized by this section shall not constitute a debt of the state or a lending of the credit of the state within the meaning of any constitutional or statutory limitation.

(3) The total principal amount of revenue bonds that are issued under this section and outstanding at any time shall not exceed \$200 million. [1997 c.679 §6; 2007 c.783 §164]

A municipality shall repay an infrastructure loan in accordance with the terms of the loan contract and to the extent required by the loan contract from any or all of the following sources:

(a) Revenues of any transportation project, including special assessment revenues;

(b) Moneys withheld under subsection (3) or (5) of this section;

(c) The general fund of the municipality; or

(2) An infrastructure loan contract with a municipality may provide that a portion of the proceeds of the loan be applied to fund a reserve fund to secure the repayment of

the loan or secure the repayment of revenue bonds issued to finance the loan.

(3) An infrastructure loan contract with a city or county may provide that all or a portion of the principal and interest on an infrastructure loan be repaid by withholding all or a portion of an apportionment due to a county under ORS 366.762 to 366.768 or due to a city under ORS 366.785 to 366.820. The department shall immediately transfer funds withheld under this subsection from the State Highway Fund to the Oregon Transportation Infrastructure Fund.

(5) If a municipality fails to comply with the terms of an infrastructure loan contract, the department may seek any legal or equitable remedy to obtain compliance or payment of damages. The department shall deposit funds withheld under this subsection in the account of the infrastructure fund to which the municipality's infrastructure loan payments are required to be deposited. The department may waive the right of the State of Oregon to withhold moneys under this subsection only if the department has not pledged the right as security for the repayment of infrastructure bonds. (1) Notwithstanding ORS 283.087 (5), an agency may obtain an infrastructure loan. An agency may agree to pay the infrastructure loan from any or all of the available moneys of the agency and may pledge all or any portion of those moneys to repay the infrastructure loan. An infrastructure loan of an agency does not constitute a debt of the state or a lending of the credit of the state within the meaning of any constitutional or statutory limitation.

(2) If an infrastructure loan is made to an agency, the terms of the infrastructure loan contract bind the State of Oregon and the agency, and the agency shall unconditionally repay the infrastructure loan from the moneys the agency has pledged in accordance with the terms of the infrastructure loan contract. [1997 c.679 §8; 2003 c.201 §15]

367.050 Powers of department. The Department of Transportation may:

(1) Make all contracts and agreements, execute and deliver all instruments and do all things necessary or convenient to provide financial assistance for transportation projects in accordance with ORS 367.010 to 367.067 or to perform covenants made to secure infrastructure bonds; and

(2) Enter into and perform such contracts and agreements with entities concerning the planning, construction, lease or other acquisition, installation or financing of transportation projects. [1997 c.679 §9; 2003 c.201 §16]

(1) The Department of Transportation shall consult with the legislative committees related to transportation during a session of the Legislative Assembly, or the interim legislative committees related to transportation, prior to expending federal funds received under a federal law that provides general economic stimulus moneys to this state that may be used by the department for transportation projects.

Note: 367.055 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 367 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

(1) The Department of Transportation may pledge not more than \$50 million to ensure the repayment of loan guarantees or other extensions of credit made to or on behalf of municipalities to finance transportation projects or to ensure repayment of loan guarantees or other extensions of credit as provided in ORS 367.816. The lien of a pledge made under this subsection is subordinate to the lien of a pledge securing bonds issued under ORS 367.605 to 367.665.

(2) If, during a fiscal year, the moneys in the Oregon Transportation Infrastructure Fund are insufficient to cover any claims by financial institutions, credit enhancement providers, bondholders or bond trustees that arise from loan guarantees or other extensions of credit made under ORS 367.010 to 367.067, the department shall transfer, as often as necessary or appropriate in that fiscal year, moneys from the State Highway Fund to satisfy such claims. However, the department may not make a transfer of moneys from the State Highway Fund otherwise required by this section if:

(a) The transfer will reduce the moneys in the State Highway Fund to an amount that is insufficient to pay the principal and interest that will fall due during the fiscal

year on outstanding bonds issued under ORS 367.555 to 367.600; or

(b) The transfer relates to a claim arising out of a transportation project for which moneys in the State Highway Fund may not be used under section 3a, Article IX, Oregon Constitution, and ORS 366.505. [1999 c.1036 §2; 2003 c.201 §17; 2003 c.790 §15]

Note: 367.080 to 367.086 were enacted into law by the Legislative Assembly but were not added to or made a part of ORS chapter 367 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

Note: Sections 20 and 21, chapter 624, Oregon Laws 2011, provide:

Sec. 20. (1) For the biennium beginning July 1, 2011, at the request of the Oregon Department of Administrative Services, in consultation with the Department of Transportation, the State Treasurer is authorized to issue lottery bonds pursuant to ORS 286A.560 to 286A.585 in an amount not to exceed net proceeds of \$40 million for the purpose described in subsection (2) of this section, plus an additional amount, to be estimated by the State Treasurer, for payment of bond-related costs.

(2) Net proceeds of lottery bonds issued pursuant to this section must be deposited in the Multimodal Transportation Fund established under ORS 367.080 sufficient to provide \$40 million in net proceeds and interest earnings for the Department of Transportation to finance grants and loans for transportation projects as provided in ORS 367.080 to 367.086.

(3) Bond-related costs for the lottery bonds authorized by this section must be paid from the gross proceeds of the lottery bonds and from allocations for the purposes of ORS 286A.576 (1)(c).

(4) The Legislative Assembly finds that issuing lottery bonds to finance transportation projects pursuant to this section is essential to promoting the state's economic development and the use of lottery bond proceeds is authorized based on the following findings:

(a) There is an urgent need to improve and expand publicly owned and privately owned transportation infrastructure to support economic development in this state.

(b) A safe, efficient and reliable transportation network supports the long-term economic development and livability of this state.

(c) A multimodal network of air, rail, public transit, highway and marine transportation moves people and goods efficiently.

(d) Local governments and private sector businesses often lack capital and the technical capacity to undertake multimodal transportation projects.

(e) Public financial assistance can stimulate industrial growth and commercial enterprise and promote employment opportunities in this state.

(f) Public investment in transportation infrastructure will create jobs and further economic development in this state.

(g) The use of lottery bond proceeds as provided in this section will create jobs, further economic development, finance public education or protect parks, watersheds, fish or wildlife within Oregon, and issuance of lottery bonds for the purpose described in this section is therefore an appropriate use of state lottery funds under section 4, Article XV of the Oregon Constitution, and ORS 461.510. [2011 c.624 §20]

Sec. 21. To the extent that proposed transportation projects meet the qualifications established by the Oregon Transportation Commission by rule, the commission shall allocate at least 10 percent of the net proceeds of the lottery bonds authorized by section 20 of this 2011 Act to each region described in this section. For purposes of this section, the regions are as follows:

(1) Region one consists of Clackamas, Columbia, Hood River, Multnomah and Washington Counties.

(3) The Department of Transportation shall adopt rules:

(a) Specifying the process by which a public body or private entity may apply for a loan under this section and prescribing the terms and conditions of loans, including but not necessarily limited to interest rates and repayment schedules; and

(b) Specifying the process by which a public body or private entity may apply for a grant under this section and prescribing the terms and conditions of grants, including but not necessarily limited to a requirement that the public body or private entity receiving the grant provide at least 20 percent of the moneys required for the transportation project. [2005 c.816 §3]

Note: See first note under 367.080.

367.084 Selection of projects. (1) The Oregon Transportation Commission shall select transportation projects to be funded with moneys in the Multimodal Transportation Fund established by ORS 367.080.

(b) Prior to selecting freight transportation projects, the commission shall solicit recommendations from the Freight Advisory Committee.

(c) Prior to selecting public transit and rail projects, the commission shall solicit recommendations from its public transit and rail advisory committees.

(d) Prior to selecting marine projects, the commission shall solicit recommendations from the Oregon Business Development Department.

(3) In selecting transportation projects the commission shall consider:

(a) Whether a proposed transportation project reduces transportation costs for Oregon businesses or improves access to jobs and sources of labor;

(b) Whether a proposed transportation project results in an economic benefit to this state;

(c) Whether a proposed transportation project is a critical link connecting elements of Oregon's transportation system that will measurably improve utilization and efficiency of the system;

(d) How much of the cost of a proposed transportation project can be borne by the applicant for the grant or loan from any source other than the Multimodal Transportation Fund; and

OREGON INNOVATIVE PARTNERSHIPS PROGRAM

367.800 Findings. The Legislative Assembly finds that:

(1) Entrepreneurial approaches to the acquisition, design, management and financing of transportation projects will accelerate cost-effective project delivery.

(2) Entrepreneurial approaches can bring substantial benefits to the public in transportation project development and execution.

(3) Risk management is a critical component of partnerships for transportation projects.

(4) Successful implementation of an Oregon innovative partnership program for transportation projects requires that risk in a project be managed and shared by public and private sector participants, with the partner best able to control a risk bearing responsibility for the risk.

(5) The Legislative Assembly and the executive branch of government accept responsibility for providing predictability for

partnerships for transportation projects and for allowing negotiated agreements to be implemented.

(6) The development, acquisition and construction of transportation projects creates jobs and furthers economic development in Oregon by, among other things:

(a) Increasing the economy and efficiency of public transportation, improving the flow of commerce into and around the state and the surrounding region, improving the attractiveness of Oregon to new businesses and supporting the operations and prosperity of existing businesses; and

(b) Improving the movement of people into and around the state and the surrounding region, alleviating congestion and crowding and reducing the burdens on existing public transportation systems and transportation facilities. [2003 c.790 §1]

Note: 367.800 to 367.826 were enacted into law by the Legislative Assembly but were not added to or made a part of ORS chapter 367 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.
