POWERS OF ATTORNEY

127.002 Definitions for ORS 127.005 to 127.045. For the purposes of ORS 127.005 to 127.045:

(1) "Agent" includes an attorney-in-fact; and

(2) "Financially incapable" has the meaning given that term in ORS 125.005. [2009 c.46 §1]

127.005 When power of attorney in effect; accounting to conservator. (1) When a principal designates another person as an agent by a power of attorney in writing, and the power of attorney does not contain words that otherwise delay or limit the period of time of its effectiveness:

(a) The power of attorney becomes effective when executed and remains in effect until the power is revoked by the principal;

(b) The powers of the agent are unaffected by the passage of time; and

(c) The powers of the agent are exercisable by the agent on behalf of the principal even though the principal becomes financially incapable.

(2) The terms of a power of attorney may provide that the power of attorney will become effective at a specified future time, or will become effective upon the occurrence of a specified future event or contingency such as the principal becoming financially incapable. If a power of attorney becomes effective upon the occurrence of a specified future event or contingency, the power of attorney may designate a person or persons to determine whether the specified event or contingency has occurred, and the manner in which the determination must be made. A person designated by a power of attorney to determine whether the principal is financially incapable is the principal's personal representative for the purposes of ORS 192.553 to 192.581 and the federal Health Insurance Portability and Accountability Act privacy regulations, 45 C.F.R. parts 160 and 164.

(3) If a power of attorney becomes effective upon the principal becoming financially incapable and either the power of attorney does not designate a person or persons to make the determination as to whether the principal is financially incapable or none of the designated persons is willing or able to make the determination, a determination that the principal is financially incapable may be made by any physician. The physician's determination must be made in writing.

(4) All acts done by an agent under a power of attorney during a period in which the principal is financially incapable have the same effect, and inure to the benefit of and bind the principal, as though the principal were not financially incapable.

(5) If a conservator is appointed for a principal, the agent shall account to the conservator, rather than to the principal, for so long as the conservatorship lasts. The conservator has the same power that the principal would have to revoke, suspend or terminate all or any part of the power of attorney.

(6) This section does not apply to powers of attorney for health care executed under ORS 127.505 to 127.660 and 127.995. [Formerly 126.407; 1993 c.767 §25; 2001 c.395 §4; 2009 c.46 §2]

127.010 [Repealed by 1969 c.591 §305]

127.015 Power of attorney not revoked until death or other event known. (1) The death of a principal who has executed a power of attorney in writing, or the occurrence of any other event that would otherwise terminate the authority of the agent, does not revoke or terminate the authority of an agent who, without actual knowledge of the death of the principal or other event, acts in good faith under the power of attorney. Any action so taken, unless otherwise invalid or unenforceable, binds the principal and heirs, devisees and personal representatives of the principal.

(2) An affidavit executed by an agent that states that the agent did not have, at the time of doing an act under the power of attorney, actual knowledge of the revocation or termination of the power of attorney by death or other event, is, in the absence of fraud, conclusive proof of the nonrevocation or nontermination of the power at that time. If the exercise of the power requires execution and delivery of any instrument that is recordable, the affidavit may also be recorded.

(3) This section does not alter or affect any provision for revocation or termination contained in the power of attorney. [Formerly 126.413; 2009 c.46 §3]

127.020 [Repealed by 1969 c.591 §305]

127.025 Authority under power of attorney recognizable regardless of date of execution. A person may not refuse to recognize the authority of an agent under a power of attorney based solely on the passage of time since the power of attorney was executed. [2001 c.395 §1; 2009 c.46 §4]

127.030 [Repealed by 1969 c.591 §305]

127.035 Limitations on liability of person reasonably relying on power of attorney. Any person who reasonably relies in good faith on the authority of an agent under a power of attorney is not liable to any other person based on that reliance, and is not required to ensure that assets of the principal

that are paid or delivered to the agent are properly applied. Any person who has not received actual notice of revocation of a power of attorney is not liable to any other person by reason of relying on a power of attorney that has been revoked. [2001 c.395 §2; 2009 c.46 §5]

127.040 [Repealed by 1969 c.591 §305]

127.045 Duty of agent under power of attorney. Unless otherwise provided in the power of attorney document, an agent must use the property of the principal for the benefit of the principal. [2001 c.395 §3; 2009 c.46 §6]

127.050 [Repealed by 1969 c.591 §305]

[1993 c.767 §8 (enacted in lieu of 127.530)]

(Effect of Executing Advance Directive)

127.535 Authority of health care representative; duties; objection by principal. (1) The health care representative has all the authority over the principal's health care that the principal would have if not incapable, subject to the limitations of the appointment and ORS 127.540 and 127.580. A health care representative who is known to the health care provider to be available to make health care decisions has priority over any person other than the principal to act for the principal in all health care decisions. A health care representative has authority to make a health care decision for a principal only when the principal is incapable.

(2) A health care representative is not personally responsible for the cost of health care provided to the principal solely because the health care representative makes health care decisions for the principal.

(3) Except to the extent the right is limited by the appointment or any federal law, a health care representative for an incapable principal has the same right as the principal to receive information regarding the proposed health care, to receive and review medical records and to consent to the disclosure of medical records. The right of the health care representative to receive this information is not a waiver of any evidentiary privilege or any right to assert confidentiality with respect to others.

(4) In making health care decisions, the health care representative has a duty to act consistently with the desires of the principal as expressed in the principal's advance directive, or as otherwise made known by the principal to the health care representative at any time. If the principal's desires are unknown, the health care representative has a duty to act in what the health care representative in good faith believes to be the best interests of the principal.

(5) ORS 127.505 to 127.660 do not authorize a health care representative or health care provider to withhold or withdraw life-sustaining procedures or artificially administered nutrition and hydration in any situation if the principal manifests an objection to the health care decision. If the principal objects to such a health care decision, the health care provider shall proceed as though the principal were capable for the purposes of the health care decision objected to.

(6) An instrument that would be a valid advance directive except that the instrument is not a form described in ORS 127.515, has expired, is not properly witnessed or otherwise fails to meet the formal requirements of ORS 127.505 to 127.660 shall constitute evidence of the patient's desires and interests.

(7) A health care representative is a personal representative for the purposes of ORS 192.553 to 192.581 and the federal Health Insurance Portability and Accountability Act privacy regulations, 45 C.F.R. parts 160 and 164. [1989 c.914 §7; 1993 c.767 §9; 2005 c.53 §1; 2009 c.381 §§2,3]

127.540 Limitations on authority of health care representative. ORS 127.505 to 127.660 do not authorize an appointed health care representative to make a health care decision with respect to any of the following on behalf of the principal:

(1) Convulsive treatment.

(2) Psychosurgery.

(3) Sterilization.

(4) Abortion.

(5) Withholding or withdrawing of a life-sustaining procedure unless:

(a) The appointed health care representative has been given authority to make decisions on withholding or withdrawing life-sustaining procedures; or

(b) The principal has been medically confirmed to be in one of the following conditions:

(A) A terminal condition.

(B) Permanently unconscious.

(C) A condition in which administration of life-sustaining procedures would not benefit the principal's medical condition and would cause permanent and severe pain.

(D) A progressive, debilitating illness that will be fatal and is in its advanced stages, and the principal is consistently and permanently unable to communicate, swallow food and water safely, care for the principal, and recognize the principal's family and other people, and there is no reasonable chance that the principal's underlying condition will improve.

(6) Withholding or withdrawing artificially administered nutrition and hydration, other than hyperalimentation, necessary to sustain life except as provided in ORS 127.580. [1989 c.914 §8; 1993 c.442 §18; 1993 c.767 §10; 2011 c.149 §1]

(Provisions Generally Applicable to Advance Directives and Health Care Decisions)

127.545 Revocation of advance directive or health care decision; when revocation effective; effect of executing power of attorney for health care. (1) An advance directive or a health care decision by a health care representative may be revoked:

(a) If the advance directive or health care decision involves the decision to withhold or withdraw life-sustaining procedures or artificially administered nutrition and hydration, at any time and in any manner by which the principal is able to communicate the intent to revoke; or

(b) At any time and in any manner by a capable principal.

(2) Revocation is effective upon communication by the principal to the attending physician or health care provider, or to the health care representative. If the revocation is communicated to the health care representative, and the principal is incapable and is under the care of a health care provider known to the representative, the health care representative must promptly inform the attending physician or health care provider of the revocation.

(3) Upon learning of the revocation, the health care provider or attending physician shall cause the revocation to be made a part of the principal's medical records.

(4) Execution of a valid power of attorney for health care revokes any prior power of attorney for health care. Unless the health care instruction provides otherwise, execution of a valid health care instruction revokes any prior health care instruction.

(5) Unless the advance directive provides otherwise, the directions as to health care decisions in a valid advance directive supersede:

(a) Any directions contained in a previous court appointment or advance directive; and

(b) Any prior inconsistent expression of desires with respect to health care decisions.

(6) Unless the power of attorney for health care provides otherwise, valid appointment of an attorney-in-fact for health care supersedes:

(a) Any power of a guardian or other person appointed by a court to make health care decisions for the protected person; and

(b) Any other prior appointment or designation of a health care representative.

(7) Unless the power of attorney for health care expressly provides otherwise, a power of attorney for health care is suspended:

(a) If both the attorney-in-fact and the alternative attorney-in-fact have withdrawn; or

(b) If the power of attorney names the principal's spouse as attorney-in-fact, a petition for dissolution or annulment of marriage is filed and the principal does not reaffirm the appointment in writing after the filing of the petition.

(8)(a) If the principal has both a valid health care instruction and a valid power of attorney for health care, and if the directions reflected in those documents are inconsistent, the document last executed governs to the extent of the inconsistency.

(b) If the principal has both a valid health care instruction, or a valid power of

attorney for health care, and a declaration for mental health treatment made in accordance with ORS 127.700 to 127.737, and if the directions reflected in those documents are inconsistent, the directions contained in the declaration for mental health treatment governs to the extent of the inconsistency.

(9) Any reinstatement of an advance directive must be in writing. [1989 c.914 §9; 1993 c.571 §26a; 1993 c.767 §12; 2015 c.82 §1]

127.550 Petition for judicial review of advance directives; scope of review; authority to file petition. (1) A health care decision made by an individual who is authorized to make the decision under ORS 127.505 to 127.660 and 127.995 is effective immediately and does not require judicial approval.

(2) A petition may be filed under ORS 127.505 to 127.660 and 127.995 for any one or more of the following purposes:

(a) Determining whether a principal is incapable.

(b) Determining whether an appointment of the health care representative or a health care instruction is valid or has been suspended, reinstated, revoked or terminated.

(c) Determining whether the acts or proposed acts of the health care representative breach any duty of the representative and whether those acts should be enjoined.

(d) Declaring that an individual is authorized to act as a health care representative.

(e) Disqualifying the health care representative upon a determination of the court that the health care representative has violated, failed to perform or is unable to perform the duties under ORS 127.535 (4).

(f) Approving any health care decision that by law requires court approval.

(g) Determining whether the acts or proposed acts of the health care representative are clearly inconsistent with the desires of the principal as made known to the health care representative, or where the desires of the principal are unknown or unclear, whether the acts or proposed acts of the health care representative are clearly contrary to the best interests of the principal.

(h) Declaring that a power of attorney for health care is revoked upon a determination by the court that the attorney-in-fact has made a health care decision for the principal that authorized anything illegal. A suspension or revocation of a power of attorney under this paragraph shall be in the discretion of the court.

(i) Considering any other matter that the court determines needs to be decided for the protection of the principal.

(3) A petition may be filed by any of the following:

(a) The principal.

(b) The health care representative.

(c) The spouse, parent, sibling or adult child of the principal.

(d) An adult relative or adult friend of the principal who is familiar with the desires of the principal.

(e) The guardian of the principal.

(f) The conservator of the principal.

(g) The attending physician or health care provider of the principal.

(4) A petition under this section shall be filed in the circuit court in the county in which the principal resides or is located.

(5) Any of the determinations described in this section may be made by the court as a part of a protective proceeding under ORS chapter 125 if a guardian or temporary guardian has been appointed for the principal, or if the petition seeks the appointment of a guardian or a temporary guardian for the principal. [1989 c.914 §9a; 1993 c.767 §13; 2001 c.396 §2]

127.555 Designation of attending physician; liability of health care representative and health care provider. (1) If there is more than one physician caring for a principal, the principal shall designate one physician as the attending physician. If the principal is incapable, the health care representative for the principal shall designate the attending physician.

(2) Health care representatives, and persons who are acting under a reasonable belief that they are health care representatives, shall not be guilty of any criminal offense, or subject to civil liability, or in violation of any professional oath, affirmation or standard of care for any action taken in good faith as a health care representative.

(3) A health care provider acting or declining to act in reliance on the health care decision made in an advance directive, made by an attending physician under ORS 127.635 (3), or made by a person who the provider believes is the health care representative for an incapable principal, is not subject to criminal prosecution, civil liability or professional disciplinary action on the grounds that the health care decision is unauthorized unless the provider:

(a) Fails to satisfy a duty that ORS 127.505 to 127.660 and 127.995 place on the provider;

(b) Acts without medical confirmation as required under ORS 127.505 to 127.660 and 127.995;

(c) Knows or has reason to know that the requirements of ORS 127.505 to 127.660 and 127.995 have not been satisfied; or

(d) Acts after receiving notice that:

(A) The authority or decision on which the provider relied is revoked, suspended, superseded or subject to other legal infirmity;

(B) A court challenge to the health care decision or the authority relied on in making the health care decision is pending; or

(C) The health care representative has withdrawn or has been disqualified.

(4) The immunities provided by this section do not apply to:

(a) The manner of administering health care pursuant to a health care decision made by the health care representative or by a health care instruction; or

(b) The manner of determining the health condition or incapacity of the principal.

(5) A health care provider who determines that a principal is incapable is not subject to criminal prosecution, civil liability or professional disciplinary action for failing to follow that principal's direction except for a failure to follow a principal's manifestation of an objection to a health care decision under ORS 127.535 (5). [1989 c.914 §10; 1993 c.767 §14]

127.560 Provisions not exclusive; effect of provisions on civil and criminal liability of health care representative and provider. (1) Except as otherwise specifically provided, ORS 127.505 to 127.660 and 127.995 do not impair or supersede the laws of this state relating to:

(a) Any requirement of notice to others of proposed health care;

(b) The standard of care required of a health care provider in the administration of health care;

(c) Whether consent is required for health care;

(d) The elements of informed consent for health care under ORS 677.097 or other law;

(e) The provision of health care in an emergency;

(f) Any right a capable person may have to consent or withhold consent to health care administered in good faith pursuant to religious tenets of the individual requiring health care;

(g) Delegation of authority by a health care representative;

(h) Any legal right or responsibility any person may have to effect the withholding or withdrawal of life-sustaining procedures including artificially administered nutrition and hydration in any lawful manner;

(i) Guardianship or conservatorship proceedings; or

(j) Any right persons may otherwise have to make their own health care decisions, or to make health care decisions for another.

(2) The provisions of ORS 127.505 to 127.660 and 127.995 do not in themselves impose civil or criminal liability on a health care representative or health care provider who withholds or withdraws or directs the withholding or withdrawal of life-sustaining procedures or artificially administered nutrition and hydration when a principal is in a health condition other than those conditions described in ORS 127.540 (5)(b), 127.580 or 127.635 (1). The provisions of ORS 127.505 to 127.660 and 127.995 do not abolish or limit the civil or criminal liability of a health care representative under other statutory or common law if the health care representative withholds or withdraws or directs the withholding or withdrawal of life-sustaining procedures or artificially administered nutrition and hydration when a principal is in a health condition other than those conditions described in ORS 127.540 (5)(b), 127.580 or 127.635 (1). [1989 c.914 §11; 1993 c.767 §15; 2011 c.149 §2]

127.565 Independent medical judgment of provider; effect of advance directive on insurance. (1) In following a health care instruction or the decision of a health care representative, a health care provider shall exercise the same independent medical judgment that the health care provider would exercise in following the decisions of the principal if the principal were capable.

(2) No person shall be required either to execute or to refrain from executing an advance directive as a criterion for insurance. No health care provider shall condition the provision of health care or otherwise discriminate against an individual based on whether or not the individual has executed an advance directive.

(3) No existing or future policy of insurance shall be legally impaired or invalidated in any manner by actions taken under ORS 127.505 to 127.660 and 127.995. No person shall be discriminated against in premium or contract rates because of the existence or absence of an advance directive or appointment of a health care representative.

(4) Nothing in ORS 127.505 to 127.660 and 127.995 is intended to impair or supersede any conflicting federal statute. [1989 c.914 §12; 1993 c.767 §16]

127.570 Mercy killing; suicide. (1) Nothing in ORS 127.505 to 127.660 and 127.995 is intended to condone, authorize or approve mercy killing, or to permit an affirmative or deliberate act or omission to end

life, other than to allow the natural process of dying. In making a health care decision, a health care representative may not consider an attempted suicide by the principal as any indication of the principal's wishes with regard to health care.

(2) The withholding or withdrawing of a life-sustaining procedure or of artificially administered nutrition and hydration in accordance with the provisions of ORS 127.505 to 127.660 and 127.995 does not, for any purpose, constitute a suicide, assisting a suicide, mercy killing or assisted homicide. [1989 c.914 §14; 1993 c.767 §17]

127.575 Instrument presumed valid. A health care provider has no duty to give effect to any instrument unless the provider has received a copy of the instrument. Health care providers are entitled to assume the validity and enforceability of an advance directive if the directive on its face is in compliance with ORS 127.505 to 127.660 and 127.995, and the provider has not been given notice of a suspension, reinstatement, revocation, superseding document, disqualification, withdrawal, dispute or other legal infirmity raising a question as to the validity or enforceability of the directive. Health care providers are entitled to assume the validity and enforceability of any other instrument if the provider has not been given notice of a suspension, reinstatement, revocation, superseding document, disqualification, withdrawal, dispute or other legal infirmity raising a question as to the validity or enforceability of the instrument. [1989 c.914 §15; 1993 c.767 §18]

127.580 Presumption of consent to artificially administered nutrition and hydration; exceptions. (1) It shall be presumed that every person who is temporarily or permanently incapable has consented to artificially administered nutrition and hydration, other than hyperalimentation, that are necessary to sustain life except in one or more of the following circumstances:

(a) The person while a capable adult clearly and specifically stated that the person would have refused artificially administered nutrition and hydration.

(b) Administration of such nutrition and hydration is not medically feasible or would itself cause severe, intractable or long-lasting pain.

(c) The person has an appointed health care representative who has been given authority to make decisions on the use, maintenance, withholding or withdrawing of artificially administered nutrition and hydration.

(d) The person does not have an appointed health care representative or an advance directive that clearly states that the person did not want artificially administered nutrition and hydration, and the person is permanently unconscious.

(e) The person does not have an appointed health care representative or an advance directive that clearly states that the person did not want artificially administered nutrition and hydration, the person is incapable, and the person has a terminal condition.

(f) The person has a progressive illness that will be fatal and is in an advanced stage, the person is consistently and permanently unable to communicate by any means, swallow food and water safely, care for the person's self and recognize the person's family and other people, and it is very unlikely that the person's condition will substantially improve.

(2) If a person does not have an appointed health care representative or an advance directive that clearly states that the person did not want artificially administered nutrition and hydration, but the presumption established by this section has been overcome under the provisions of subsection (1)(a), (b), (d), (e) or (f) of this section, artificially administered nutrition and hydration may be withheld or withdrawn under the provisions of ORS 127.635 (2), (3) and (4).

(3) The medical conditions specified in subsection (1)(b), (d), (e) and (f) of this section must be medically confirmed to overcome the presumption established by subsection (1) of this section. [1989 c.914 §16; 1993 c.767 §18a]

127.585 [1989 c.914 §13; 1993 c.767 §19; renumbered 127.995 in 1993]

127.605 [Formerly 97.050; 1991 c.470 §12; repealed by 1993 c.767 §29]

127.610 [Formerly 97.055; repealed by 1993 c.767 §29]

127.615 [Formerly 97.060; repealed by 1993 c.767 §29]

127.620 [Formerly 97.065; repealed by 1993 c.767 §29]

127.625 Providers under no duty to participate in withdrawal or withholding of certain health care; duty of provider who is unwilling to participate. (1) No health care provider shall be under any duty, whether by contract, by statute or by any other legal requirement to participate in the withdrawal or withholding of life-sustaining procedures or of artificially administered nutrition or hydration.

(2) If a health care provider is unable or unwilling to carry out a health care instruction or the decisions of the health care representative, the following provisions apply:

(a) The health care provider shall promptly notify the health care representative, if there is a health care representative;

(b) If the authority or decision of the health care representative is in dispute, the health care representative or provider may seek the guidance of the court in the manner provided in ORS 127.550;

(c) If the representative's authority or decision is not in dispute, the representative shall make a reasonable effort to transfer the principal to the care of another physician or health care provider; and

(d) If there is no health care representative for an incapable patient, and the health care decisions are not in dispute, the health care provider shall, without abandoning the patient, either discharge the patient or make a reasonable effort to locate a different health care provider and authorize the transfer of the patient to that provider. [Formerly 97.070; 1993 c.767 §20]

127.630 [Formerly 97.080; repealed by 1993 c.767 §29]

127.635 Withdrawal of life-sustaining procedures; conditions; selection of health care representative in certain cases; required consultation. (1) Life-sustaining procedures as defined in ORS 127.505 that would otherwise be applied to an incapable principal who does not have an appointed health care representative or applicable valid advance directive may be withheld or withdrawn in accordance with subsections (2) and (3) of this section if the principal has been medically confirmed to be in one of the following conditions:

(a) A terminal condition;

(b) Permanently unconscious;

(c) A condition in which administration of life-sustaining procedures would not benefit the principal's medical condition and would cause permanent and severe pain; or

(d) The person has a progressive illness that will be fatal and is in an advanced stage, the person is consistently and permanently unable to communicate by any means, swallow food and water safely, care for the person's self and recognize the person's family and other people, and it is very unlikely that the person's condition will substantially improve.

(2) If a principal's condition has been determined to meet one of the conditions set forth in subsection (1) of this section, and the principal does not have an appointed health care representative or applicable advance directive, the principal's health care representative shall be the first of the following, in the following order, who can be located upon reasonable effort by the health care facility and who is willing to serve as the health care representative:

(a) A guardian of the principal who is authorized to make health care decisions, if any;

(b) The principal's spouse;

(c) An adult designated by the others listed in this subsection who can be so located, if no person listed in this subsection objects to the designation;

(d) A majority of the adult children of the principal who can be so located;

(e) Either parent of the principal;

(f) A majority of the adult siblings of the principal who can be located with reasonable effort; or

(g) Any adult relative or adult friend.

(3) If none of the persons described in subsection (2) of this section is available, then life-sustaining procedures may be withheld or withdrawn upon the direction and under the supervision of the attending physician.

(4) Life-sustaining procedures may be withheld or withdrawn upon the direction and under the supervision of the attending physician at the request of a person designated the health care representative under subsections (2) and (3) of this section only after the person has consulted with concerned family and close friends, and if the principal has a case manager, as defined by rules adopted by the Department of Human Services, after giving notice to the principal's case manager.

(5) Notwithstanding subsection (2) of this section, a person who is the principal's parent or former guardian may not withhold or withdraw life-sustaining procedures under this section if:

(a) At any time while the principal was under the care, custody or control of the person, a court entered an order:

(A) Taking the principal into protective custody under ORS 419B.150; or

(B) Committing the principal to the legal custody of the Department of Human Services for care, placement and supervision under ORS 419B.337; and

(b) The court entered a subsequent order that:

(A) The principal should be permanently removed from the person's home, or continued in substitute care, because it was not safe for the principal to be returned to the person's home, and no subsequent order of the court was entered that permitted the principal to return to the person's home before the principal's wardship was terminated under ORS 419B.328; or

When acting under authority of a declaration, a physician or provider must comply with it to the fullest extent possible, consistent with reasonable medical practice, the availability of treatments requested and applicable law. If the physician or other provider is unable or unwilling at any time to carry out preferences or instructions contained in a declaration or the decisions of the attorney-in-fact, the physician or provider may withdraw from providing treatment if withdrawal is consistent with the exercise of independent medical judgment that is in the best interest of the principal. 127.725 Limitations on liability of physician or provider. NOTICE TO PERSON
MAKING A DECLARATION FOR
MENTAL HEALTH TREATMENT

This is an important legal document. It creates a declaration for mental health treatment. Before signing this document, you should know these important facts:

This document allows you to make decisions in advance about certain types of mental health treatment: psychoactive medication, short-term (not to exceed 17 days) admission to a treatment facility, convulsive treatment and outpatient services. Outpatient services are mental health services provided by appointment by licensed professionals and programs. The instructions that you include in this declaration will be followed only if a court or two physicians believe that you are incapable of making treatment decisions. Otherwise, you will be considered capable to give or withhold consent for the treatments. Your instructions may be overridden if you are being held pursuant to civil commitment law.

You may also appoint a person as your representative to make treatment decisions for you if you become incapable. The person you appoint has a duty to act consistently with your desires as stated in this document or, if not stated, as otherwise known by the representative. If your representative does not know your desires, he or she must make decisions in your best interests. For the appointment to be effective, the person you appoint must accept the appointment in writing. The person also has the right to withdraw from acting as your representative at any time. A "representative" is also referred to as an "attorney-in-fact" in state law but this person does not need to be an attorney at law.

This document will continue in effect for a period of three years unless you become incapable of participating in mental health treatment decisions. If this occurs, the directive will continue in effect until you are no longer incapable.

You have the right to revoke this document in whole or in part at any time you have not been determined to be incapable. YOU MAY NOT REVOKE THIS DECLARATION WHEN YOU ARE CONSIDERED INCAPABLE BY A COURT OR TWO PHYSICIANS. A revocation is effective when it is communicated to your attending physician or other provider.

If there is anything in this document that you do not understand, you should ask a lawyer to explain it to you. This declaration will not be valid unless it is signed by two qualified witnesses who are personally known to you and who are present when you sign or acknowledge your signature.

NOTICE TO PHYSICIAN OR PROVIDER

Under Oregon law, a person may use this declaration to provide consent for mental health treatment or to appoint a representative to make mental health treatment decisions when the person is incapable of making those decisions. A person is "incapable" when, in the opinion of a court or two physicians, the person's ability to receive and evaluate information effectively or communicate decisions is impaired to such an extent that the person currently lacks the capacity to make mental health treatment decisions. This document becomes operative when it is delivered to the person's physician or other provider and remains valid until revoked or expired. Upon being presented with this declaration, a physician or provider must make it a part of the person's medical record. When acting under authority of the declaration, a physician or provider must comply with it to the fullest extent possible. If the physician or provider is unwilling to comply with the declaration, the physician or provider may withdraw from providing treatment consistent with professional judgment and must promptly notify the person and the person's representative and document the notification in the person's medical record. A physician or provider who administers or does not administer mental health treatment according to and in good faith reliance upon the validity of this declaration is not subject to criminal prosecution, civil liability or professional disciplinary action resulting from a subsequent finding of the declaration's invalidity.

____

[1997 c.563 §3 (enacted in lieu of 127.735)]

(2) For purposes of this section only, a declaration shall be considered a power of attorney for health care, without regard to

whether the declaration appoints an attorney-in-fact. [1993 c.442 §17]

(Immunities and Liabilities)

(Section 4)

127.885 §4.01. Immunities; basis for prohibiting health care provider from participation; notification; permissible sanctions. Except as provided in ORS 127.890:

(1) No person shall be subject to civil or criminal liability or professional disciplinary action for participating in good faith compliance with ORS 127.800 to 127.897. This includes being present when a qualified patient takes the prescribed medication to end his or her life in a humane and dignified manner.

(2) No professional organization or association, or health care provider, may subject a person to censure, discipline, suspension, loss of license, loss of privileges, loss of membership or other penalty for participating or refusing to participate in good faith compliance with ORS 127.800 to 127.897.

(3) No request by a patient for or provision by an attending physician of medication in good faith compliance with the provisions of ORS 127.800 to 127.897 shall constitute neglect for any purpose of law or provide the sole basis for the appointment of a guardian or conservator.

(4) No health care provider shall be under any duty, whether by contract, by statute or by any other legal requirement to participate in the provision to a qualified patient of medication to end his or her life in a humane and dignified manner. If a health care provider is unable or unwilling to carry out a patient's request under ORS 127.800 to 127.897, and the patient transfers his or her care to a new health care provider, the prior health care provider shall transfer, upon request, a copy of the patient's relevant medical records to the new health care provider.

(5)(a) Notwithstanding any other provision of law, a health care provider may prohibit another health care provider from participating in ORS 127.800 to 127.897 on the premises of the prohibiting provider if the prohibiting provider has notified the health care provider of the prohibiting provider's policy regarding participating in ORS 127.800 to 127.897. Nothing in this paragraph prevents a health care provider from providing health care services to a patient that do not constitute participation in ORS 127.800 to 127.897.

(b) Notwithstanding the provisions of subsections (1) to (4) of this section, a health care provider may subject another health care provider to the sanctions stated in this paragraph if the sanctioning health care provider has notified the sanctioned provider prior to participation in ORS 127.800 to 127.897 that it prohibits participation in ORS 127.800 to 127.897:

(A) Loss of privileges, loss of membership or other sanction provided pursuant to the medical staff bylaws, policies and procedures of the sanctioning health care provider if the sanctioned provider is a member of the sanctioning provider's medical staff and participates in ORS 127.800 to 127.897 while on the health care facility premises, as defined in ORS 442.015, of the sanctioning health care provider, but not including the private medical office of a physician or other provider;

(B) Termination of lease or other property contract or other nonmonetary remedies provided by lease contract, not including loss or restriction of medical staff privileges or exclusion from a provider panel, if the sanctioned provider participates in ORS 127.800 to 127.897 while on the premises of the sanctioning health care provider or on property that is owned by or under the direct control of the sanctioning health care provider; or

(C) Termination of contract or other nonmonetary remedies provided by contract if the sanctioned provider participates in ORS 127.800 to 127.897 while acting in the course and scope of the sanctioned provider's capacity as an employee or independent contractor of the sanctioning health care provider. Nothing in this subparagraph shall be construed to prevent:

(i) A health care provider from participating in ORS 127.800 to 127.897 while acting outside the course and scope of the

provider's capacity as an employee or independent contractor; or

(ii) A patient from contracting with his or her attending physician and consulting physician to act outside the course and scope of the provider's capacity as an employee or independent contractor of the sanctioning health care provider.

(c) A health care provider that imposes sanctions pursuant to paragraph (b) of this subsection must follow all due process and other procedures the sanctioning health care provider may have that are related to the imposition of sanctions on another health care provider.

(d) For purposes of this subsection:

(A) "Notify" means a separate statement in writing to the health care provider specifically informing the health care provider prior to the provider's participation in ORS 127.800 to 127.897 of the sanctioning health care provider's policy about participation in activities covered by ORS 127.800 to 127.897.

(B) "Participate in ORS 127.800 to 127.897" means to perform the duties of an attending physician pursuant to ORS 127.815, the consulting physician function pursuant to ORS 127.820 or the counseling function pursuant to ORS 127.825. "Participate in ORS 127.800 to 127.897" does not include:

(i) Making an initial determination that a patient has a terminal disease and informing the patient of the medical prognosis;
