633.006 Definitions for ORS 633.006 to 633.089. As used in ORS 633.006 to 633.089, unless the context requires otherwise:

(5) “Contract feeder” means an independent contractor, or any other person who feeds commercial feed to animals pursuant to an oral or written agreement whereby such commercial feed is supplied, furnished or otherwise provided to such person by any distributor and whereby such person's remuneration is determined all or in part by feed consumption, mortality, profits, or amount or quality of product. It does not include a bona fide employee of a manufacturer or distributor of commercial feed.

(6) “Customer-formula feed,” “custom mix” or “custom mixed feed” means any mixture of materials, substances or ingredients described or set forth under the definition of commercial feed, each lot of which is mixed according to the specific instructions of, or prescribed for the specific use of, the final consumer or feeder. For the purpose of this subsection “final consumer” means a person who owns or who contracts for the feeding of animals under the control or ownership of that person.

(7) “Department” means the State Department of Agriculture.

(8) “Distribute” means to offer for sale, sell or barter, commercial feed or customer-formula feed; or to supply, furnish or otherwise provide commercial or customer-formula feed as a contract feeder.

633.015 Registration of commercial feed required; fee. (1) No person shall distribute a nonregistered commercial feed. Every brand, and each formula or formulation thereof, of commercial feeds manufactured, compounded, delivered, distributed, sold, offered or exposed for sale in this state shall be registered with the State Department of Agriculture. Application for registration shall be submitted on forms furnished by the department, and, if the department so requests, shall be accompanied by the label or a facsimile of the label and other printed matter describing the product. Upon approval by the department, a certificate of registration shall be furnished to the applicant. All registrations expire on December 31 of each year. The application shall include the information required by ORS 633.025 (1)(b), (c), (d) and (e) and such other information as the department may require.

(2) A distributor shall not be required to register any brand of commercial feed which has been registered under ORS 633.006 to 633.089 and 633.992 by another person.

(3) Changes in the guarantee of either chemical or ingredient composition of a registered commercial feed may be permitted, if there is satisfactory evidence that such changes would not result in a lowering of the feeding value of the product for the purpose for which designed.

(4) The department may refuse registration of any commercial feed when the application is not in compliance with the provisions of ORS 633.006 to 633.089 and 633.992 and may cancel any registration subsequently found not to be in compliance with any provision of ORS 633.006 to 633.089 and 633.992, after the registrant has been given reasonable opportunity to be heard before the department and to amend the application in order to comply with the requirements of ORS 633.006 to 633.089 and 633.992.

(5) Customer-formula feeds are exempt from registration.

(6) Each application for registration shall be accompanied by a fee to be established by the department not to exceed \$20 for each formula or formulation of commercial feed under each brand. [1961 c.314 s.2; 1967 c.591 s.3; 1971 c.489 s.1]

633.020 [Repealed by 1961 c.314 s.12]

633.025 Labeling requirements. (1) Any commercial feed distributed in this state shall be accompanied by a legible label bearing the following information:

(a) The net weight.

(b) The name or brand under which the commercial feed is sold.

(c) The guaranteed analysis of the commercial feed, listing the minimum percentage of crude protein and crude fat, and the maximum percentage of crude fiber. For mineral feeds the list shall include the following specifications as to minerals present, expressed as herein indicated: Minimum and maximum percentages of calcium (Ca), minimum percentage of phosphorus (P), minimum percentage of iodine (I), and minimum and maximum percentages of salt (NaCl). Other substances or elements, determinable by laboratory methods, may be guaranteed by permission of the State Department of Agriculture. When other substances or elements are guaranteed, they shall be subject to inspection and analysis in accordance with methods and regulations prescribed by the department. Products sold solely as mineral or vitamin supplements, or both, need not show guarantees for protein, fat or fiber.

(d) The common or usual name of each ingredient used in the manufacture of the commercial feed, except as the department may, by regulation, permit the use of a collective term for a group of ingredients all of which perform the same function or, by regulation, permit the use of a statement of alternative ingredients of comparable feeding value. In lieu of the common or usual name of each ingredient used, or a collective term for a group of ingredients, or a statement of alternative ingredients, a statement may be made that the ingredients used in the manufacture of the commercial feed are in accordance with the registration with the department, and such list of ingredients shall be made available to the purchaser upon request to the manufacturer or the department.

(e) The name and principal business address of the person responsible for distributing the commercial feed.

(2) When a commercial feed is distributed in this state in bags or other containers, the label shall be placed on or affixed to the container; when a commercial feed is distributed in bulk the label shall accompany delivery and be

furnished to the purchaser at time of delivery. Containers of commercial feed not containing a drug are exempt from the labeling provisions of this section when such containers are filled in the presence of the purchaser from retail bins or other retail bulk display containers if such bins or bulk display containers are labeled with the information otherwise required to be present on individual packages of such feed.

(3) If a commercial feed contains a drug, the department shall require the label to show the purpose, amount present, directions for use, and any necessary warning against misuse of the feed. In registering any commercial feed containing substances referred to in this subsection, the department shall adopt, in so far as practicable, and shall be in conformity with the rules, regulations and restrictions established by the federal government relating to such substances. [1961 c.314 s.3; 1967 c.591 s.3a; 1971 c.489 s.2; 1979 c.116 s.2]

(b) Name and address of the purchaser.

(c) Date of sale.

(d) The product name and brand name, if any, and the number of pounds or other recognized units of measurement of each registered commercial feed used in the mixing or mixture and the name and number of pounds of each other feed ingredient added.

(2) If a custom mixed feed contains a nonnutritive substance which is intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease or which is intended to affect the structure of any function of the animal body, the department may require the label and the invoice to show:

(a) The amount of the substance present.

(b) The directions for use and warnings against misuse of the feed.

(3) The invoice or information prescribed in this section shall be furnished by the seller to the user or purchaser at the time the custom mixed feed is delivered. The records of the seller from which the invoice and information is derived shall be maintained by the seller for a period of at least two years. Such records and any undelivered quantities of the custom mixed feed held by the seller mixed for the purchaser, may be inspected by the department during business hours. [1967 c.591 s.9]

633.029 Registration required for animal feed manufacturers and sellers; exemption for persons not using drugs in feeds. (1)(a) No person shall operate an animal feed manufacturing plant, distribute commercial feeds other than at retail, be furnished a certificate of registration of a brand in this state, distribute a custom-formula feed manufactured for that person, or repackage or relabel a commercial feed manufactured by another person without having first obtained a license from the State Department of Agriculture. Application for license shall be on forms prescribed by the department and shall be accompanied by a license fee to be established by the department not to exceed \$500. All licenses shall expire December 31 of each year.

(b) In accordance with the provisions of ORS 183.310 to 183.550, the department may promulgate rules designating different license fees for various categories of persons described in paragraph (a) of this subsection, so as to recognize differences in types of activities or volumes of business.

(2)(a) A person who is a contract feeder is not subject to the provisions of subsection (1) of this section, provided no drugs in any form are utilized in the manufacturing, mixing or processing of such feed. In the event drugs are so utilized, the contract feeder or person using the same shall be subject to the provisions of subsection (1) of this section.

(b) In accordance with the applicable provisions of ORS 183.310 to 183.550, the department shall promulgate rules designating the types or categories of persons described in paragraph (a) of this subsection to whom this section applies. In promulgating such rules, the department shall consider:

(A) The methods of manufacture, mixing or processing of feed used;

(B) The quantities and kinds of drugs used; and

(C) The number, ages and kinds of animals to which such feed is to be made available. [1971 c.489 s.7; 1973 c.342 s.3; 1979 c.116 s.3]

633.037 Records required of licensees; records inspection by department. A person or contract feeder who manufactures, mixes or processes feeds in which drugs have been used so that the person or contract feeder is not exempt from the provisions of ORS 633.029, shall maintain an accurate record for at least one year from the date the drugs were so used showing the name or identity of each drug so used and its level of usage. The State Department of Agriculture is authorized to inspect the records of such persons to insure compliance with ORS 633.029 and this section. [1967 c.591 s.6a; 1973 c.342 s.1]

633.045 Adulterated commercial feeds prohibited. No person shall distribute an adulterated commercial feed. A commercial feed shall be deemed to be adulterated:

- (1) If any poisonous, deleterious or nonnutritive ingredient is therein present in sufficient amount to render it injurious to health when fed in accordance with directions for use shown on the label.
- (2) If any valuable constituent has been in whole or in part omitted or abstracted therefrom or any less valuable substance substituted therefor.
- (3) If its composition or quality falls below or differs from that which by its labeling it is purported or represented to possess.
- (4) If it contains added hulls, screenings, refuse screenings, straw, cobs or other high fiber material, unless the name of each material is stated on the label.
- (5) If it contains pesticide residues or other chemicals in excess of amounts which, by regulation, the State Department of Agriculture declares safe for feeding purposes. In adopting such regulations the department may take into consideration the commonly permitted amounts of chemicals authorized by:
 - (a) The United States and other states.
 - (b) Other recognized agencies or organizations experienced in the chemical field.
- (6) If it contains a drug other than those permitted by regulations promulgated by the department. In promulgating such regulations the department shall consider the current good manufacturing practice regulations for medicated feed premixes and for medicated feeds established under authority of the Federal Food, Drug and Cosmetic Act. - (1) If its labeling is false or misleading in any particular.
- (2) If it is distributed under the name of another feed.
- (3) If it is not labeled as required by ORS 633.025 and by regulations adopted pursuant to ORS 633.006 to 633.089 and 633.992.
- (4) If it purports to be or is represented as a feed ingredient or as containing a feed ingredient, unless such feed ingredient conforms to the definition of identity, if any, prescribed by regulation of the State Department of Agriculture. In adopting such regulations the department may take into consideration the commonly accepted definitions approved or authorized by:
 - (a) The United States and other states.
 - (b) Other recognized agencies or organizations experienced in such matters, such as the Association of American Feed Control Officials.
- (5) If any word, statement, or other information required by ORS 633.006 to 633.089 and 633.992 or by regulation of the department to appear on the label is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs, or devices in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use. [1961 c.314 s.6]

633.060 [Amended by 1961 c.425 s.17; repealed by 1961 c.314 s.12]

sample, inspect, make analyses of, and test commercial feeds distributed within this state, at such times and places and to such an extent as may be necessary to determine whether or not such feeds are in compliance with the provisions of ORS 633.006 to 633.089 and 633.992. The department is authorized to enter upon any public or private premises, including any vehicle of transport, during regular business hours, in order to have access to commercial feeds and to records relating to their distribution.

(3) In determining for administrative purposes whether or not a commercial feed is deficient in any component, the department shall be guided solely by the official sample as defined in ORS 633.006 (15) and obtained and analyzed as provided by subsection (2) of this section.

(4) When inspection and analysis of an official sample indicate that a commercial feed has been adulterated or misbranded, the results of analysis shall be forwarded by the department to the registrant. Upon request, within 30 days, the department shall furnish to the registrant a portion of the sample analyzed.

(5) Investigational samples which may be examined otherwise than by the official method required by this section may be taken by the department. For administrative purposes, only samples taken as directed by subsection (3) of this section may be used. [1961 c.314 s.7; 1967 c.591 s.4]

633.077 Testing and analysis of bulk commercial feed and custom mixed feed; disclosure of test or analysis results. (1) The State Department of Agriculture shall establish and maintain a procedure, plan and system whereby a farmer, contract feeder or other person actually feeding bulk commercial feed or custom mixed feed to animals may request the department to sample and provide special official testing and analysis of such feeds. It is the purpose and intent of this section that the department desires to make its personnel, facilities and laboratories available to such persons and to determine if such feeds are in compliance with the provisions of ORS 633.006 to 633.089 and 633.992 or for any other purpose which the department may determine is reasonable and necessary.

(2) The department may provide for the obtaining, handling and testing of samples of bulk commercial feed and custom mixed feed as provided in subsection (1) of this section, including split sampling thereof with portions of each sample being made available to the seller and to the contract feeder or person feeding the feed to animals. Copies of the final results of the tests or analysis, which shall not be a public record, shall be made available only to the seller and to the contract feeder or person feeding the feed to animals. (7) Registration of a brand and grade of fertilizer, agricultural minerals, agricultural amendments or lime under ORS 633.310 to 633.495 relieves all retailers or other persons from the necessity of registering such material, except that whenever registered brands or grades representing two different sources of manufacture, not a custom mix, are combined in one receptacle, for sale, or offered for sale, or delivery in bulk, the person authorizing or responsible for such mixture shall be deemed a manufacturer and shall register the combination as a new brand or grade.

(8) A custom mix is not required to be registered under this section. [1955 c.235 s.12; 1965 c.268 s.10; 1977 c.799 s.3]

The analyses may include such other determinations as the department may, at any time, deem advisable. This section also applies to all such products in bulk and custom mixed.

(2) In addition to such sampling, any authorized officer, employee or deputy of the department may, for the purpose of determining whether ORS 633.310 to 633.495 are being complied with, take samples of any fertilizer, agricultural minerals, agricultural amendments or lime, sold, offered or exposed for sale, or delivered in Oregon, at such times and in such manner as the authorized officer, employee or deputy deems desirable.

(3) Every person in possession of any fertilizer, agricultural minerals, agricultural amendments or lime shall grant free access thereto, for the purpose of sampling, to any authorized officer, employee or deputy of the department. [Amended by 1955 c.235 s.5; 1965 c.268 s.12; 1977 c.799 s.6]

The department may require such supportive data be submitted in order to verify any ingredient statement or guarantee. [Amended by 1955 c.235 s.7; 1977 c.799 s.8]

633.430 Refusal and cancellation of registration. The State Department of Agriculture may refuse registration, or cancel the registration, of any brand or grade of fertilizer, agricultural minerals, agricultural amendment or lime, the sale of which would violate any of the provisions of ORS 633.310 to 633.495. The provisions of ORS 183.310 to 183.550 relating to the refusal and revocation of licenses by the department shall apply to the refusal to register, or cancellation of the registration, of any brand or grade of fertilizer, agricultural minerals, agricultural amendment or lime under ORS 633.310 to 633.495. (4) Any sample taken under those sections, and the report showing the results of the official test made on any such sample, shall be prima facie evidence in any court in this state of the true condition of the entire lot, in the examination of which the sample was taken.

(5) A copy of the result of any such test shall be mailed to the person or authorized representative, if known, owning, possessing or holding the seed from which the sample was drawn.
