[1967 c.413 §2]

616.220 Injunction against violations of ORS 616.215. In addition to the remedies provided by ORS 616.205 to 616.295, the State Department of Agriculture or its authorized agents may apply to the circuit court for, and such court shall have jurisdiction upon hearing and for cause shown to grant, a temporary or permanent injunction restraining any person from violating any provision of ORS 616.215, irrespective of whether or not there exists an adequate remedy at law.

616.225 Disposal of adulterated, misbranded, unsound or unsafe food or consumer commodity. (1) Whenever a duly authorized representative of the State Department of Agriculture finds, or has probable cause to believe, that any food or consumer commodity is adulterated, or so misbranded as to be dangerous or fraudulent, within the meaning of ORS 616.205 to 616.295, the representative shall affix to such article a tag or other appropriate marking, giving notice that such article is, or is suspected of being adulterated or misbranded and has been detained, embargoed or seized, and warning all persons not to remove or dispose of such article by sale or otherwise until permission for removal or disposal is given by an authorized representative of the department. No person shall remove or dispose of such detained, embargoed or seized article by sale or otherwise without permission of the department.

(2) Whenever the department or any of its authorized representatives finds in any room, building, vehicle of transportation, or other structure, any meat, fluid milk, dairy product, seafood, poultry, vegetable, fruit or other perishable articles which are unsound, or contain any filthy, decomposed or putrid substance, or that may be poisonous or deleterious to health or otherwise unsafe, the same hereby being declared a nuisance, the department or its authorized representative forthwith shall condemn or destroy the same, or in any other manner render it unsalable as human food.

(3) The department shall carry out the provisions of this section as provided in ORS 561.605 to 561.630. [Amended by 1973 c.227 §4]

616.230 Regulations fixing definitions and standards; conformity to federal regulations. (1) The State Department of Agriculture, by rule, shall establish definitions and standards of identity, quality and fill of container for the State of Oregon. In carrying out the provisions of this subsection, the department shall take into consideration definitions and standards established in other states and definitions and standards established pursuant to the federal Act.

(2) Whenever in the judgment of the department such action will promote honesty and fair dealing in the interest of consumers, the department shall promulgate rules establishing definitions and standards of identity, quality and fill of container for foods for which no such definitions or standards have been established under the federal Act. In addition, the department may promulgate rules supplementing or amending any rule under the federal Act which sets definitions and standards of identity, quality and fill of container for foods.

(3) Temporary permits for interstate shipment of experimental packs of food varying from the requirements of definitions and standards of identity under the federal Act are effective in this state under the conditions stated in such permits. In addition, the department may issue additional permits when such permits are determined by the department to be necessary to the completion or conclusiveness of an otherwise adequate investigation and when the interests of consumers are safeguarded. Such permits shall be subject to any terms and conditions the department may prescribe. [Amended by 1973 c.227 §5; 1975 c.304 §5]

616.235 When food deemed adulterated. A food shall be deemed to be adulterated:

(1)(a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health. However, if the substance is not an added substance such food shall not be considered adulterated under this paragraph if the quantity of such substance in such food does not ordinarily render it injurious to health.

(b) If it bears or contains any added poisonous or added deleterious substance, other than a pesticide chemical in or on a raw agricultural commodity and other than a food additive or color additive, which is unsafe within the meaning of ORS 616.245, or it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of ORS 616.341 or if it is, bears or contains any food additive which is declared unsafe by the State Department of Agriculture under ORS 616.350. However, when a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under ORS 616.341, and

such raw agricultural commodity has been subjected to processing, such as canning, cooking, freezing, dehydrating or milling, the residue of such pesticide chemical remaining in or on such processed food, notwithstanding ORS 616.341 and this section are not unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of such residue in the processed food when ready-to-eat, is not greater than the tolerance prescribed for the raw agricultural commodity.

(c) If it consists in whole or in part of a diseased, contaminated, filthy, putrid or decomposed substance, or if it is otherwise unfit for food.

(d) If it has been produced, prepared, packed or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered diseased, unwholesome or injurious to health.

(e) If it is, in whole or in part, the product of a diseased animal or an animal which has died otherwise than by slaughter, or that has been fed upon the uncooked offal from a slaughterhouse.

(f) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(2)(a) If any valuable constituent has been in whole or in part omitted or abstracted therefrom;

(b) If any substance has been substituted wholly or in part therefor;

(c) If damage or inferiority has been concealed in any manner; or

(d) If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength or make it appear better or of greater value than it is.

(3)(a) If it is confectionery and has partially or completely imbedded therein any nonnutritive object. This paragraph does not apply in the case of any nonnutritive object if, in the judgment of the department, such object is of some practical functional value to the confectionery product and would not render the product injurious or hazardous to health.

(b) If it bears or contains any alcohol except alcohol not in excess of one-half of one percent by weight used solely as a flavoring.

(c) If it bears or contains any nonnutritive substance. This paragraph does not apply to a nonnutritive substance which is in or on confectionery if, in the judgment of the department, its use is of some practical functional value in the manufacture, packaging or storing of such confectionery and if the use of such substance does not promote deception of the consumer or otherwise result in adulteration or misbranding in violation of any provision of ORS 616.205 to 616.215, 616.225 to 616.256, 616.286, 616.295, 616.310, 616.315, 616.325, 616.330, 616.341, 616.350 to 616.366, 616.790 and 616.992. The department, for the purpose of avoiding uncertainty in the application of this subsection, may promulgate rules allowing or prohibiting the use of particular nonnutritive objects or substances.

(d) If it bears or contains any color additive which is determined unsafe pursuant to ORS 616.350. [Amended by 1959 c.301 §1; 1961 c.637 §2; 1973 c.227 §6; 1983 c.304 §1]

616.240 [Repealed by 1965 c.501 §10]

616.245 Adding poisonous or deleterious substance. Any poisonous or deleterious substance, other than a pesticide, added to any food except where such substance is required in the production thereof or cannot be avoided by good manufacturing practice, shall be deemed to be unsafe for purposes of the application of ORS 616.235 (1)(b); but when such substance is so required or cannot be so avoided, the State Department of Agriculture shall promulgate rules limiting the quantity therein or thereon to such extent as the department finds necessary for the protection of public health, and any quantity exceeding the limits so fixed shall also be deemed to be unsafe for purposes of the application of ORS 616.235 (1)(b). While such a rule is in effect limiting the quantity of any such substance in the case of any food, such food shall not, by reason of bearing or containing any added amount of such substance, be considered to be adulterated within the meaning of ORS 616.235 (1)(a). In determining the quantity of such added substance to be tolerated in or on different articles of food, the department shall take into account the extent to which the use of such substances is required or cannot be avoided in the production of each such article and the other ways in which the consumer may be affected by the same or other poisonous or deleterious substances. [Amended by 1973 c.227 §7]

616.250 When food deemed misbranded. A food shall be deemed to be misbranded:

(1) If its labeling is false or misleading in any particular, or fails to conform to ORS 616.325.

(2) If it is offered for sale under the name of another food.

(3) If it is an imitation of another food, unless its label bears in type of uniform size and prominence the word

“imitation” and, immediately thereafter, the name of the food imitated.

(4) If its container is so made, formed or filled as to be misleading.

(5) If in package form:

(a) Unless it bears a label containing:

(A) The name and place of business of the manufacturer, packer or distributor; and

(B) An accurate statement of the net quantity of the contents in terms of weight, measure, volume or numerical count. The statement shall be separately and accurately stated upon the principal display panel of the label.

(b) The same reasonable variations allowed in ORS chapter 618 shall be permitted.

(c) Exemptions as to small packages shall be established by rules promulgated by the State Department of Agriculture.

(6) If any word, statement or other information required by or under authority of ORS 616.205 to 616.295 to appear on the label or labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs or devices, in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(7) If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by rule as provided by ORS 616.230, unless it conforms to such definition and standard and its label bears the name of the food specified in the definition and standard, and, in so far as may be required by such rule, the common names of optional ingredients, other than spices, flavoring and coloring present in such food.

(8) If it purports to be or is represented as a food for which a standard of quality has been prescribed by rule as provided by ORS 616.230 and its quality falls below the standards such rule specifies, a statement that it falls below such standard.

(9) If it is a food for which a standard or standards of fill of container have been prescribed by rule as provided by ORS 616.230, and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such rule specifies, a statement that it falls below such standard.

(10) If it is not subject to the provisions of subsection (7) of this section, unless its label bears:

(a) The common or usual name of the food, if any there be; and

(b) In case it is fabricated from two or more ingredients, the common or usual name of each such ingredient.

However, spices, flavorings and colorings, other than those sold as such, may be designated as spices, flavorings and colorings, without naming them. To the extent that compliance with the requirements of paragraph (b) of this subsection is impractical or results in deception or unfair competition, exemptions shall be established by rule promulgated by the department.

(11) If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral and other dietary properties as the department determines to be, and by rule prescribed as, necessary in order to fully inform purchasers as to its value for such uses.

(12) If it bears or contains any artificial flavoring, artificial coloring or chemical preservative, unless it bears labeling stating that fact. To the extent that compliance with the requirements of this subsection is impracticable, exemptions shall be established by rule promulgated by the department. This subsection and subsections (7) and (10) of this section with respect to artificial coloring do not prohibit the use of harmless coloring matter in butter, cheese or ice cream. The provisions of this subsection with respect to chemical preservatives do not apply to a pesticide chemical when used in or on a raw agricultural commodity which is the product of the soil.

(13) If it is a raw agricultural commodity which is the product of the soil, bearing or containing a pesticide chemical applied after harvest, unless the shipping container of such commodity bears labeling which declares the presence of such chemical in or on such commodity and the common or usual name and the function of such chemical. However, no such declaration is required while such commodity, having been removed from the shipping container, is being held or displayed for sale at retail out of such container in accordance with the custom of the trade.

(14) If following the labeled directions or instructions on the product in using it as a food ingredient will result in the final food being adulterated or misbranded.

(15) If it is a color additive, unless its packaging and labeling are in conformity with the packaging and labeling requirements applicable to such color additive prescribed under the provisions of the federal Act.

(16) If it has been salvaged, unless it bears labeling or notification stating that fact. For the purposes of this subsection, “salvaged” means the reconditioning, repacking, relabeling, cleaning or culling of foods that have been damaged or adulterated as a result of fire, storm, flood, water, smoke, chemicals, radiation or commercial transit accident.

(17) If it purports to be or is represented as a food that is organically grown or processed and it fails to comply with ORS 616.406 and 616.421.

(18) If it purports to be or is represented as a food that is transitional and it fails to comply with ORS 616.406 to 616.421. [Amended by 1953 c.267 §2; 1973 c.227 §8; 1973 c.563 §1; 1983 c.740 §232; 1989 c.1025 §9]

Note: The amendments to 616.250 by section 4, chapter 320, Oregon Laws 2001, become operative October 21, 2002. See section 11, chapter 320, Oregon Laws 2001. The text that is operative on and after October 21, 2002, is set forth for the user's convenience.

(1) If its labeling is false or misleading in any particular, or fails to conform to ORS 616.325.

(2) If it is offered for sale under the name of another food.

(3) If it is an imitation of another food, unless its label bears in type of uniform size and prominence the word "imitation" and, immediately thereafter, the name of the food imitated.

(c) Exemptions as to small packages shall be established by rules promulgated by the State Department of Agriculture.

(6) If any word, statement or other information required by or under authority of ORS 616.205 to 616.295 to appear on the label or labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs or devices, in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(7) If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by rule as provided by ORS 616.230, unless it conforms to such definition and standard and its label bears the name of the food specified in the definition and standard, and, in so far as may be required by such rule, the common names of optional ingredients, other than spices, flavoring and coloring present in such food.

Such exemptions shall be conditioned upon the fact that such food is not adulterated or misbranded under the provisions of ORS 616.205 to 616.426 and 616.900, upon the removal from such processing, labeling or repacking establishment. [1973 c.227 §10 (enacted in lieu of 616.255)]

Evidence obtained under the authority of this paragraph may not be used in a criminal prosecution of the person from whom obtained and carriers are not subject to other provisions of ORS 616.205 to 616.385 by reason of their receipt, carriage, holding or delivery of food in the usual course of business as carriers.

(d) To enter at reasonable times any retail food establishment holding a valid liquor license to insure that the retail establishment properly posts the sign required by ORS 471.551.

(2) Upon completion of any inspection of a food establishment, warehouse or vehicle, and prior to leaving the premises, the authorized representative of the department making the inspection shall furnish to the owner, operator or agent in charge a written report setting forth any conditions or practices observed by such representatives which in the judgment of the representative indicate that any food in such establishment, warehouse or vehicle:

(a) Consists in whole or in part of any filthy, putrid or decomposed substance; or

(b) Has been prepared, packed or held, in whole or in part, under insanitary conditions whereby it may have become contaminated with filth or whereby it may have been rendered injurious to health.

(3) If the authorized representative of the department making any inspection of a food establishment, warehouse or vehicle has obtained samples in the course of such inspection, upon completion of the inspection and prior to leaving the premises, the representative shall furnish to the owner, operator or agent in charge a receipt describing the samples obtained, and shall tender or offer payment therefor.

(4) If samples are obtained as provided in subsection (3) of this section, and analyses are made of such samples for the purpose of ascertaining whether such food consists in whole or in part of any filthy, putrid or decomposed substance or is otherwise unfit for food, a copy of the results of such analyses shall be furnished by the department to the owner, operator or agent in charge.

(2) The department also may cause to be disseminated such information regarding food as the department deems necessary in the interest of public health and the protection of the consumer against fraud.

(3) Nothing in this section shall be construed to prohibit the department from collecting, reporting and illustrating the results of its investigations. [Amended by 1973 c.227 §13]

616.300 [Repealed by 1953 c.686 §37]

616.310 Notice or warning of minor violations. Nothing in ORS 616.205 to 616.295, 616.305 to 616.315 and 616.992 shall be construed as requiring the State Department of Agriculture to report for the institution of proceedings under those sections minor violations of those sections whenever the department believes that the public interest will be served adequately in the circumstances by a suitable written notice or warning. [Amended by 1973 c.227 §14]

616.315 Jurisdiction of courts. Justice courts have concurrent jurisdiction with the circuit courts for the enforcing of the provisions of ORS 616.205 to 616.295, 616.305 to 616.315 and 616.992. [Amended by 1973 c.227 §15]

Note: See second note under 616.205.

616.325 Consumer commodity labeling requirements; restrictions on consumer commodity distribution;

rulemaking; conformance to federal standards. (1) All labels of consumer commodities shall conform to such requirements for the declaration of net quantity of contents as the State Department of Agriculture by rule may prescribe. In carrying out the provisions of this subsection, the department shall consider the requirements and exemptions provided in the federal Fair Packaging and Labeling Act, 15 U.S.C. 1451, et seq., as amended, and the rules promulgated pursuant thereto.

(2) The label of any package of a consumer commodity which bears a representation as to the number of servings of such commodity contained in such package shall bear a statement of the net quantity, in terms of weight, measure or numerical count, of each such serving.

(3) No person shall distribute or cause to be distributed in commerce any packaged consumer commodity if any qualifying words or phrases appear in conjunction with the separate statement of the net quantity of contents required by subsection (1) of this section, but nothing in this subsection prohibits supplemental statements, at other places on the package, describing in nondeceptive terms the net quantity of contents. Such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure or count that tends to exaggerate the amount of the commodity contained in the package.

(4) Whenever the department determines that rules containing prohibitions or requirements other than those prescribed by subsection (1) of this section are necessary to prevent the deception of consumers or to facilitate value comparisons as to any consumer commodity, the department shall promulgate rules with respect to that commodity which:

(a) Establish and define standards for the characterization of the size of a package enclosing any consumer commodity, which may be used to supplement the label statement of net quantity of contents of packages containing such commodity. This paragraph shall not be construed as authorizing any limitation on the size, shape, weight, dimensions or number of packages which may be used to enclose any commodity;

(b) Regulate the placement upon any package containing any consumer commodity or upon any label affixed to such commodity, of any printed matter stating or representing by implication that such commodity is offered for retail sale at a price lower than the ordinary and customary retail sale or that a retail sale price advantage is accorded to purchasers thereof by reason of the size of that package or the quantity of its contents;

(c) Require that the label on each package of a consumer commodity bear the common or usual name of such consumer commodity, if any, and in case such consumer commodity consists of two or more ingredients, the common or usual name of each such ingredient listed in order of decreasing predominance. However, nothing in this paragraph requires that any trade secret be divulged; or

(d) Prevent the nonfunctional slack-fill of packages containing consumer commodities.

(5) For the purposes of subsection (4)(d) of this section, a package is nonfunctionally slack-filled if it is filled to substantially less than its capacity for reasons other than protection of the contents of such package or the requirements of machines used for enclosing the contents in such package. The department may adopt any rules promulgated by the federal government pursuant to the federal Fair Packaging and Labeling Act, 15 U.S.C. 1451, et seq. [1973 c.227 §24; 1975 c.304 §15]

616.330 Alcoholic beverage exemption. ORS 616.205 to 616.215, 616.225 to 616.256, 616.286, 616.295, 616.310, 616.315, 616.325, 616.341, 616.350 to 616.366, 616.790, 616.992, rules adopted by the Department of Human Services under ORS 616.077 (1) and this section do not apply to alcoholic beverages. [1973 c.227 §25a; 1985 c.519 §4]

Note: 616.330 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 616 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

616.333 Diethylstilbestrol use in food; label. (1) A retail or wholesale food distributor shall place a warning label on food containing diethylstilbestrol.

(2) The label shall state:

WARNING: This product contains diethylstilbestrol (DES), a synthetic hormone. Studies associate consumption of DES with vaginal cancer and male genital abnormalities.

(3) As used in this section, “food” means fruits, vegetables, meats, poultry, eggs, dairy products and other natural and processed products offered for sale for human or animal consumption. [1979 c.268 §4]

PESTICIDE CHEMICALS AND FOOD ADDITIVES

616.335 Definition for ORS 616.335 to 616.385. As used in ORS 616.205 and 616.335 to 616.385, “experts qualified by scientific training and experience to evaluate the safety of food additives” or similar phrases mean individuals with sufficient training and experience in biology, medicine, pharmacology, physiology, toxicology, veterinary medicine or other appropriate sciences to recognize and properly evaluate the behavior and effects of chemical substances upon the body of humans or animals when such substances are taken into the body as food additives. [1961 c.637 §14]

616.340 [1961 c.637 §4; repealed by 1973 c.227 §16 (616.341 enacted in lieu of 616.340)]

616.341 Use of poisons, pesticides or food additives restricted. Any added poisonous or deleterious substance, any food additive, any pesticide chemical in or on a raw agricultural commodity or any color additive, with respect to any particular use or intended use, shall be considered unsafe for the purpose of application of ORS 616.235 unless there is in effect a rule promulgated pursuant to ORS 616.366 limiting the quantity of such substance, and the use or intended use of such substance conforms to the terms prescribed by such rule. While such rule relating to such substance is in effect, a food shall not, by reason of bearing or containing such substance in accordance with the rule, be considered adulterated within the meaning of ORS 616.235. [1973 c.227 §17 (enacted in lieu of 616.340)]

616.345 Rules and regulations governing use of pesticide chemicals. (1) The State Department of Agriculture shall promulgate regulations establishing tolerances for pesticide chemicals or exempting them from the necessity of a tolerance as provided by ORS 616.341 with respect to the presence in or on raw agricultural commodities of poisonous or deleterious pesticide chemicals and of pesticide chemicals which are not generally recognized, among experts qualified by scientific training and experience to evaluate the safety of pesticide chemicals, as safe for use, to the extent necessary to protect the public health. In promulgating such regulations, or regulations authorized by ORS 616.355, the department shall give appropriate consideration to but not be limited by:

(a) The necessity for the production of an adequate wholesome and economic food supply.

(b) The other ways in which the consumer may be affected by the same pesticide chemical or by other related substances that are poisonous or deleterious.

(c) The laws and regulations of the United States and other states.

(d) The opinions of recognized experts and governmental agencies in the field of pesticide chemicals.

(2) The department shall promulgate regulations exempting any pesticide chemical from the necessity of a tolerance with respect to use in or on all raw agricultural commodities when such tolerance is not necessary to protect the public health.

(3) Any person who has registered, or who has submitted an application for the registration of, an economic poison or pesticide with the department as required by law, may file with the department a petition as authorized by ORS 183.310 to 183.550, proposing the promulgation of a regulation establishing a tolerance for a pesticide chemical which constitutes, or is an ingredient of such economic poison or pesticide, or exempting the pesticide chemical from the requirement of a tolerance. The petition shall contain data showing:

(a) The name, chemical identity, and composition of the pesticide chemical;

(b) The amount, frequency, and time of application of the pesticide chemical;

(c) Full reports of investigations made with respect to the safety of the pesticide chemical;

(d) The results of tests on the amount of residue remaining, including a description of the analytical method used;

(e) Practicable methods of removing residue which exceeds any proposed tolerance;

(f) Proposed tolerances for the pesticide chemical if tolerances are proposed; and

(g) Reasonable grounds in support of the petition. Samples of the pesticide chemical shall be furnished to the department upon request. [1961 c.637 §5; 1975 c.304 §16]

616.350 Control of food additives. The State Department of Agriculture, for the protection of the health and life of animals or the people of this state, may take measures to control, limit or prohibit the use or intended use, or the presence of food additives. It may promulgate rules relating thereto. Such rules may prescribe for any reason as set forth in this section, that any food additive is unsafe within the meaning of ORS 616.235 (1)(b). In promulgating rules under the provisions of this section the authority of the department includes:

(1) Providing for an exemption from the operation of ORS 616.335 to 616.385 of the use or intended use of a

specific food additive.

(2) Prescribing, with respect to one or more proposed uses of the food additive involved, the conditions under which such additive may be safely used including but not limited to, specifications as to the particular food or classes of food in or in which such additive may be used, the maximum quantity which may be used or permitted to remain in or on such food, the manner in which such additive may be added to or used in or on such food, and any directions or other labeling or packaging requirements for such additive deemed necessary to assure the safety of such use.

(3) Establishing and prescribing tolerances, if appropriate, to assure that the proposed use of a food additive will be safe. The department shall not:

(a) Fix such tolerance limitation at a level higher than it finds to be reasonably required to accomplish the physical or other technical effect for which such additive is intended.

(b) Establish a rule for such proposed use if it finds upon a fair evaluation of the data before it, that such data does not establish that such use would accomplish the intended physical or other technical effect.

(4) Prescribing for the exemption from the requirements of this section any food additive, and any food bearing or containing such additive, intended solely for investigational use by qualified experts when in the opinion of the department, such exemption is consistent with the public health. [1961 c.637 §8; 1973 c.227 §18]

616.355 Enforcement procedure for violation of ORS 616.341, 616.345 or 616.350. (1) Whenever the State Department of Agriculture determines under the provisions of ORS 616.341, 616.345 or 616.350 the fact that a product or food does or may seriously endanger or affect the health or life of animals or people, by reason of the addition to or the application of a pesticide chemical or other poisonous or dangerous chemical, substance or material in or on such product or food, the department is authorized and is directed to take or carry out any measure, action or procedure necessary for the protection of the health or life of animals or people.

(2) The order, rules promulgated thereunder or amendments thereto, may include:

(a) Seizing, embargoing and quarantining such product or food in accordance with the applicable provisions of ORS 561.605 to 561.630.

(b) Prohibiting temporarily or permanently the sale, offer for sale or the disposing of such product or food.

(c) Requiring reconditioning, processing or reprocessing, relabeling or other procedures as set out in ORS 561.605 to 561.625 before such product or food may be sold, offered for sale or disposed of for consumption by animals or people.

(d) Requiring such product or food to be destroyed without indemnity if it is verified it is unfit or unsafe for consumption by animals or people. [1961 c.637 §6; 1973 c.227 §19; 1975 c.304 §17]

616.360 Standards for rules. In the promulgation of rules under ORS 616.341, 616.345, 616.350, 616.366 and 616.380, the State Department of Agriculture shall give appropriate consideration to:

(1) Measures and procedures required to protect the health and life of animals and the people of this state.

(2) The laws of other states.

(3) The laws of the United States. The department's rules shall conform in so far as practicable with, but shall not be more restrictive than, the laws and rules of the federal Food and Drug Administration.

(4) The opinions of recognized experts and governmental agencies in the field of food additives. [1961 c.637 §9; 1973 c.227 §20]

616.365 [1961 c.637 §10; repealed by 1973 c.227 §21 (616.366 enacted in lieu of 616.365)]

616.366 Rules for use of poisons, pesticides, food or color additives; matters to be considered. (1) The State Department of Agriculture, whenever public health or other considerations in this state so require, is authorized to adopt, amend or repeal rules whether or not in accordance with rules promulgated under the federal Act, prescribing therein tolerances for:

(a) Any added, poisonous or deleterious substances;

(b) Food additives;

(c) Pesticide chemicals in or on raw agricultural commodities; or

(d) Color additives.

(2) Such authority includes but is not limited to:

(a) Zero tolerances, and exemptions from tolerances in the case of pesticide chemicals in or on raw agricultural commodities;

(b) Prescribing the conditions under which a food additive or a color additive may be safely used; and
(c) Exemptions where such food additive or color additive is to be used solely for investigational or experimental purposes.

(3) Such rules may be promulgated upon the department's own motion or upon the petition of any interested party requesting that such rules be promulgated. It is incumbent upon a petitioner to establish by data submitted to the department that a necessity exists for such rule, and that its effect will not be detrimental to the public health. If the data furnished by the petitioner is not sufficient to allow the department to determine whether such rule should be promulgated, the department may require additional data be submitted and failure to comply with the request shall be sufficient grounds to deny the request.

(4) In adopting, amending or repealing such rules the department shall consider, among other relevant factors, the following which the petitioner, if any, shall furnish:

(a) The name and all pertinent information concerning such substance, including where available, its chemical identity and composition;

(b) A statement of the conditions of the proposed use including directions, recommendations and suggestions;

(c) Specimens of proposed labeling;

(d) All relevant data bearing on the physical or other technical effect and the quantity required to produce such effect;

(e) The probable composition of any substance formed in or on a food resulting from the use of such substance;

(f) The probable consumption of such substance in the diet of humans and animals taking into account any chemically or pharmacologically related substance in such diet;

(g) The safety factors which, in the opinion of experts qualified by scientific training and experience to evaluate the safety of such substances for the use or uses for which they are proposed to be used, are generally recognized as appropriate for the use of animal experimentation data;

(h) The availability of any needed practicable methods of analysis for determining the identity and quantity of such substance in or on an article, any substance formed in or on such article because of the use of such substance, and the pure substance and all intermediates and impurities; and

(i) Facts supporting a contention that the proposed use of such substance will be a useful one. [1973 c.227 §22 (enacted in lieu of 616.365)]

616.370 [1961 c.637 §11; repealed by 1973 c.227 §26]

616.375 [1961 c.637 §12; repealed by 1973 c.227 §26]

616.380 Enforcement procedure for control of food additives. Whenever the State Department of Agriculture determines the fact that a product or food containing a food additive is or may seriously endanger or affect the health or life of animals or people, it may seize, embargo and quarantine such product or food, or take other necessary procedures or action as authorized by ORS 616.355 for the regulation and control of pesticide chemicals or other poisonous or dangerous chemicals. [1961 c.637 §13]

616.385 Public hearing required for regulations. All regulations promulgated under ORS 616.335 to 616.385 shall only be promulgated after public hearing and shall be in accordance with the applicable provisions of ORS 183.310 to 183.550. [1961 c.637 §15]

(1) The applicable product name complies with the terms of subsection (2) or (9) of this section with or without additional descriptive terms. The only allowable marketing terms are “organic,” “organically grown,” “certified organic,” “certified organically grown,” “transitional” and “transitional to organic.” No other terms shall mean or imply “organic” or the use of the organic farming method, as described in ORS 616.406 to 616.421.

SANITARY REGULATIONS FOR FOOD AND FOOD ESTABLISHMENTS

616.695 Definitions for ORS 616.695 to 616.755. As used in ORS 616.695 to 616.755, unless the context requires otherwise:

(1) “Department” means the State Department of Agriculture.

(2) “Food establishment” means:

(a) Any room, building, structure or place, used or intended for use, or operated for storing, preparing, compounding, manufacturing, processing, freezing, packaging, distributing, handling, salvaging or displaying food.

(b) The ground upon which such place or business is operated or used and so much ground adjacent thereto as is also used in carrying on the business of the establishment. The department may prescribe such additional area or places which, although they may not be contiguous or adjacent to the above area or establishment, may be included therein.

(c) Vehicles, machinery, equipment, utensils, tools, fixtures, implements, and all other articles or items, used in operating or carrying on the business of a food establishment.

(3) “Food” means any article used, or intended to be used, for food, ice, drink, confection or condiment, whether simple or compound, or any part or ingredient thereof or in the preparation thereof, and for human consumption.

(4) “Salvaging” means the business of reconditioning, repacking, relabeling, cleaning or culling of foods that have been damaged or adulterated as a result of fire, storm, flood, water, smoke, chemicals or commercial transit accident. [1965 c.501 §1; 1975 c.389 §1; 1983 c.160 §3]

616.700 Department to enforce sanitation requirements for food and food establishments. The State Department of Agriculture shall enforce the provisions of ORS 616.695 to 616.755 and adopt rules necessary therefor in accordance with the applicable provisions of ORS 183.310 to 183.550, to insure and verify that:

(1) Food establishments are constructed and maintained in a clean, healthful and sanitary condition. This shall include floors, walls, ceilings, doors, windows, lighting and ventilation, toilet and lavatory facilities, water supply, separation or partitioning of rooms, health and cleanliness of personnel, cleanliness and sanitation of surrounding premises, disposal of all waste and sewage material, insect and rodent control, construction and sanitation of equipment and utensils, and prohibition of pets therein. However, ORS 616.695 to 616.755 shall not be applied to prevent licensing and operation of a food establishment solely because such establishment is in an area which is part of and not separate from a domestic kitchen if the establishment is upon investigation by the department found to be constructed and maintained in a clean, healthful and sanitary condition.

(2) Food establishments maintain time and temperature controls, indicating and recording thermometers and indicating pressure gauges for pressure cookers and retorts, minimum temperature and time period standards for cooking foods, and other facilities necessary to carry out the intent and purpose of ORS 616.695 to 616.755.

(3) Food dispensed, transported, sold, held for sale, stored, salvaged or displayed, is not filthy, decomposed, putrid, unsafe, contaminated, deleterious to health, unfit, unwholesome, unclean, insanitary or diseased. [1965 c.501 §2; 1971 c.131 §1; 1975 c.389 §2; 1983 c.740 §233]

616.705 [Repealed by 1965 c.501 §10]

616.706 Issuance, suspension and revocation of licenses; status; posting; cancellation; fees; how determined.

(1) Except as otherwise provided in ORS 616.695 to 616.755, no person shall operate a food establishment without first obtaining and thereafter maintaining a license therefor. Application for a license shall be made to the State Department of Agriculture on forms prescribed by the department. Each license shall expire on June 30 next following its date of issuance.

(2) The department may, subject to the applicable provisions of ORS 183.310 to 183.550, suspend, revoke or refuse to issue a license if the licensee has violated any of the provisions of ORS 616.695 to 616.755 or regulations prescribed thereunder.

(3) A license is personal to the applicant and may not be transferred. A new license is necessary if the business entity of the licensee is changed, or if the membership of a partnership is changed, irrespective of whether or not the business name is changed.

(4) The license shall cover all operations of the person licensed thereunder, under one entity or ownership. With prior approval of the department, the location of a licensed food establishment, or any part thereof, may be moved without the requirement of a new license if there is no change in the ownership or business entity.

(5) The license shall be posted in a conspicuous place in the main office of the food establishment. Duplicate copies of the license shall be conspicuously posted in branch offices, warehouses and other places owned or operated by the licensee at locations other than the main office. A license is automatically canceled if the food establishment ceases or discontinues operations or business.

(6) The license fees shall be established by the department in accordance with ORS 183.310 to 183.550, and shall not be less than \$25 nor more than \$750 for each establishment. The license fees may be established at a specified amount for a retail food store, food warehouse, food processing establishment, or other food establishment, or may be established on the basis of the annual gross dollar volume of sales or services of each establishment in each of these four categories of food establishments. The license fees may be different for each category. In establishing the basis and amounts for the license fees the department shall consider, among other things, the number of establishments in each of the four categories of food establishments, the various annual gross dollar volumes of business of the establishments, the differences in activities carried on at the establishments, and the costs of administration and enforcement of this chapter. [1965 c.501 §3; 1975 c.389 §3; 1979 c.183 §2; 1982 s.s.1 c.4 §4; 1991 c.632 §2]

616.710 [Repealed by 1965 c.501 §10]

(2) All provisions of ORS 616.695 to 616.755 other than licensing apply to food establishments set forth in subsection (1) of this section.

(3) The provisions of ORS 616.695 to 616.755 do not apply to:

(a) Restaurants, bed and breakfast facilities, commissaries, vending machines and mobile food and beverage units licensed under ORS 624.010 to 624.120, 624.310 to 624.430 or those which are exempted under ORS 624.330.

616.715 [Repealed by 1965 c.501 §10]

616.716 When inspection required; ORS 616.695 to 616.755 in addition to other laws. (1) The State Department of Agriculture may inspect the applicant's food establishment and shall not issue a license until or unless such establishment is in compliance with the provisions of ORS 616.695 to 616.755 and regulations promulgated thereunder.

(2) The provisions of ORS 616.695 to 616.755 are in addition to and not in lieu of all other laws relating to food and to food establishments. [1965 c.501 §5; 1975 c.389 §5; 2001 c.104 §242]

(2) To be exempt from the provisions of ORS 616.695 to 616.755 as set forth in subsection (1) of this section, a person shall file an application for such exemption on forms prescribed by the State Department of Agriculture.

(3) An applicant for renewal of a license, or any person operating under an exemption approved by the department, shall file an application for exemption with the department prior to December 15 of each year, covering the subsequent year of operation.

(4) An applicant to operate a new food establishment shall file an application and receive approval thereof, if any,

prior to starting such business.

(5) Unless exempt from licensing as provided in ORS 616.711, food establishments exempt from certain provisions of ORS 616.695 to 616.755 as authorized in this section, shall be subject to the provisions of ORS 616.706 and shall be required to obtain and maintain licenses thereunder. [1965 c.501 §6; 1975 c.389 §6]

616.725 [Repealed by 1965 c.501 §10]

616.726 City regulation of food and food establishments authorized; department to examine city regulation for adequacy. (1) The provisions of ORS 616.695 to 616.755 do not prohibit any city from enacting and enforcing any ordinance establishing a system, program, inspection services and licensing thereunder, within the corporate limits or boundaries thereof, which carries out the purposes and intent of ORS 616.695 to 616.755, if the same is at least equal to the provisions of ORS 616.695 to 616.755 and regulations promulgated thereunder. A copy of each such ordinance, including any amendment thereof, shall be forwarded by the city to the State Department of Agriculture.

(2) Not less than once each two years the department shall investigate the ordinance and determine if it meets the requirements and standards of subsection (1) of this section and if such system, program and inspections thereunder are being properly carried out and enforced. If the department finds such program, system and inspections do not meet these requirements and standards, it shall give written notice of such finding to the chief administrative officer of the city.

(3) If the department thereafter finds, not less than 30 days after the date of giving notice, that such system, program and inspections continue to fail to be enforced properly or are not carrying out the intent and purposes of ORS 616.695 to 616.755, the department shall make a finding to that effect and thereupon the provisions of ORS 616.695 to 616.755 shall become applicable to all persons and food establishments within the corporate limits of such city. [1965 c.501 §7; 1975 c.389 §7]

616.730 [Repealed by 1965 c.501 §10]

616.731 Deposit and use of fees and money. The State Department of Agriculture shall deposit all fees paid to it under this chapter in the Department of Agriculture Service Fund. Such fees are continuously appropriated to the department for the purpose of administering and enforcing the provisions of this chapter. [1965 c.501 §8; 1975 c.389 §8; 1979 c.499 §20]

616.735 When insanitary conditions exist. A food establishment shall be considered unclean, unhealthful and insanitary if:

(1) Food in the food establishments is not protected from adulteration as defined in ORS 616.235, as required by the State Department of Agriculture;

(2) The refuse, dirt and waste products, subject to decomposition or fermentation incident to the operation of the food establishment are not removed as required by the department;

(3) All trunks, trays, boxes, baskets, buckets, or other receptacles, chutes, platforms, racks, troughs, shelves and all knives, saws, cleavers and other utensils and machinery used in operation of the food establishment are not thoroughly cleaned as required by the department;

(4) Proper toilet and lavatory facilities are not provided for employees, or not maintained and kept in a clean and sanitary condition; or

(5) The clothing and persons of operatives, employees, clerks or other persons therein employed are unclean. [Amended by 1975 c.389 §9]

616.740 Condemnation where insanitary conditions exist. (1) Whenever the State Department of Agriculture determines that any floor, sidewall, ceiling, locker, closet, furniture, receptacle, implements or machinery of any food establishment is kept in an unclean, unhealthful or insanitary condition, the department shall:

(a) Notify the owner or person in charge of such food establishment that such food establishment shall not be used for such purposes until it is put in a sanitary condition by making the changes ordered by the department in the notice; and

(b) Post a notice upon the food establishment found in an unclean, unhealthful or insanitary condition, to the effect that it is condemned for further use on account of the unclean, unhealthful or insanitary condition.

(2) The notice shall not be removed from any such food establishment until the same has been put in a sanitary

condition. A continued use of such food establishment without making the changes ordered, or unauthorized removal of the notice is a violation of this section. [Amended by 1975 c.389 §10]

616.745 Handling of food by diseased persons prohibited. (1) The Department of Human Services may, by rule, define certain communicable diseases which may be spread to the public through the handling of food in food establishments.

(2) No owner or employer shall require, permit or suffer any person to work, nor shall any person work, in a food establishment who is affected with a disease described in subsection (1) of this section. [Amended by 1973 c.829 §55; 1975 c.389 §11]

616.750 Procedure where food handler suspected of disease. If the State Department of Agriculture for reasonable cause believes that any person working in any food establishment is affected with any infectious or contagious disease, the department may require the person to be examined by a competent physician and that the physician furnish the department with a certificate stating whether upon examination the physician has found the person to be affected with any infectious or contagious disease. If within five days after so required the person has not furnished the department with such a certificate by a competent physician, the person is guilty of a violation of ORS 616.745 and the department may apply to the circuit court to enjoin the person from continuing to work in the food establishment until the certificate is furnished. The circuit court hereby is authorized to issue the injunction. [Amended by 1975 c.389 §12]

616.755 Securing information from health officers. The State Department of Agriculture may, for the purpose of enforcing the provisions of ORS 616.745 and 616.750, request information from any city, county or state health officer, bureau, board or commission within Oregon.
