(b) The secretary of the department of the federal government under which the United States Coast Guard is operating has exempted from numbering the same boats or classes of boats.

capable of making a report, the occupant shall make or cause the report to be made. [Formerly 488.168; 1991 c.17 §1]

BOATING UNDER INFLUENCE OF INTOXICANTS

830.505 Implied consent to chemical tests for intoxicants; refusal to submit; consequences. (1) Any person who operates a boat on any waters of this state shall be deemed to have given consent to submit to chemical tests of the person's breath for the purpose of determining the alcoholic content of the person's blood if the person is arrested for operating a boat while under the influence of intoxicants while in violation of ORS 830.325 or of a municipal ordinance. Tests shall be administered upon the request of a peace officer having reasonable grounds to believe that the person arrested was operating a boat while under the influence of intoxicants while in violation of ORS 830.325 or of a municipal ordinance. Before the test is administered, the person requested to take the test shall be informed of rights and consequences as described in ORS 830.545.

(2) No chemical test of the person's breath shall be given under subsection (1) of this section, to a person under arrest for operating a boat while under the influence of intoxicants in violation of ORS 830.325 or of a municipal ordinance, if the person refuses the request of a peace officer to submit to the chemical test after the person has been informed of rights and consequences as described in ORS 830.545.

(3) Within the time required by the State Marine Board by rule, the arresting officer shall report the following information to the board:

(a) Whether the person refused to submit to a test.

830.510 Chemical evidence of use of intoxicants. (1) At the trial of any civil or criminal action, suit or proceeding arising out of the acts committed by a person operating a boat while under the influence of any intoxicants, if the amount of alcohol in the person's blood at the time alleged is less than 0.08 percent by weight of alcohol and shown by chemical analysis of the person's breath or blood, it is indirect evidence that may be used with other evidence, if any, to determine whether or not the person was then under the influence of intoxicants.

(2) Not less than 0.08 percent by weight of alcohol in a person's blood constitutes being under the influence of intoxicating liquor.

(3) Percent by weight of alcohol in the blood shall be based on grams of alcohol per 100 milliliters of blood or based on grams of alcohol per 210 liters of breath.

(4) For purposes of ORS 830.505 to 830.545, "boat" means a motorboat or sailboat. [1991 c.931 §6; 2011 c.260 §2]

830.515 Evidence of refusal to submit to test in legal proceeding. If a person refuses or fails to submit to chemical tests of the breath, blood or urine as required by ORS 830.505 and 830.520, evidence of the person's refusal or failure to submit is admissible in any criminal or civil action or proceeding arising out of acts alleged to have been committed while the person was operating a boat while under the influence of intoxicating liquor or controlled substances. [1991 c.931 §8]

830.520 Circumstances under which chemical tests may be administered. Nothing in ORS 830.505 is intended to preclude the administration of chemical tests described in this section. A peace officer may obtain a chemical test of the blood to determine the amount of alcohol in any person's blood or a test of the person's blood or a test of the person's blood or urine, or both, to determine the presence of a controlled substance in the person as provided in the following:

(1) If, when requested by a peace officer, the person expressly consents to such a test.

(2) Notwithstanding subsection (1) of this section, from a person without the person's consent if:

(a) The peace officer has probable cause to believe that the person was operating a boat while under the influence of an intoxicating liquor or controlled substance and that evidence of the offense will be found in the person's blood or urine; and

(b) The person is unconscious or otherwise in a condition rendering the person incapable of expressly consenting to the test or tests requested. [1991 c.931 §9]

830.525 Chemical tests obtained by subject. In addition to chemical tests of the breath, blood or urine administered under ORS 830.505 and 830.520, upon the request of a peace officer, a person shall be permitted upon request, at the person's own expense, reasonable opportunity to have any licensed physician, licensed professional nurse or qualified technician, chemist or other qualified person of the person's own choosing administer a chemical test or tests of the person's breath or blood for the purpose of determining the alcoholic content of the person's blood or a chemical test or tests of the person's blood or urine, or both, for the purpose of determining the presence of a controlled substance in the person. The failure or inability to obtain such a test or tests by a person shall not preclude the admission of evidence relating to a test or tests taken upon the request of a peace officer. [1991 c.931 §10]

830.535 Criteria for chemical analyses. (1) A chemical analysis is valid under ORS 830.505, 830.520 or 830.525 if:

(C) A forensic laboratory established by the Department of State Police under ORS 181.080 that is accredited by a national forensic accrediting organization.

(b) It is an analysis of a person's breath and is performed by an individual possessing a valid permit to perform chemical analyses issued by the Department of State Police under ORS 813.160 or by the State Marine Board under the provisions of this section. Chemical analyses must be performed according to methods approved by the Department of State Police under ORS 813.160 or approved by the board under this section. For purposes of this section, the board shall do all of the following:

(A) Approve methods of performing chemical analyses of a person's breath.

(B) Prepare manuals and conduct courses throughout the state for the training of peace officers in chemical analyses of a person's breath, which courses shall include, but are not limited to, approved methods of chemical analyses, use of approved equipment and interpretation of test results together with a written examination on these subjects.

(C) Test and certify the accuracy of equipment to be used by peace officers for chemical analyses of a person's breath before regular use of the equipment and periodically thereafter at intervals of not more than 90 days. Tests and certification required by this subparagraph must be conducted by trained technicians.

(D) Ascertain the qualifications and competence of individuals to conduct chemical analyses in accordance with one or more methods approved by the board or by the Department of State Police under ORS 813.160.

(E) Issue permits to individuals according to their qualifications. Permits may be issued to peace officers only upon satisfactory completion of the prescribed training course and written examination. A permit must state the methods and equipment that the peace officer is qualified to use. Permits are subject to termination or revocation at the discretion of the board.

(2) In conducting a chemical test of the blood, only a duly licensed physician or a person acting under the direction or control of a duly licensed physician may withdraw blood or pierce human tissue. A licensed physician, or a qualified person acting under the direction or control of a duly licensed physician, is not civilly liable for withdrawing any bodily substance, in a medically acceptable manner, at the request of a peace officer.

(3) An individual who performs a chemical analysis of breath or blood under ORS 830.505, 830.520 or 830.525 shall prepare and sign a written report of the findings of the test. A test administered at the request of a peace officer must include the identification of the peace officer upon whose request the test was administered.

(4) Any individual having custody of the report mentioned in subsection (3) of this section shall, upon request of the person tested, furnish a copy of the report to that person or that person's attorney.

(5) The expense of conducting a chemical test as provided by ORS 830.505 or 830.520 must be paid by the governmental units on whose equipment the test is conducted or by the governmental units upon whose request the test was administered if no governmental

unit's equipment is used to conduct the test. [1991 c.931 §11; 2003 c.19 §2]

(1) The information about rights and consequences shall be substantially in the form prepared by the State Marine Board. The board may establish any form it determines appropriate and convenient.

(2) The information about rights and consequences shall be substantially as follows:

(a) Operating a boat under the influence of intoxicants is a crime in Oregon and the person is subject to criminal penalties if the test shows that the person is under the influence of intoxicants. If the person refuses the test or fails, evidence of the refusal or failure may also be offered against the person.

(b) The person fails the test if the test shows the person is under the influence of intoxicants under Oregon law.

(c) If the person is convicted of operating a boat while under the influence of intoxicants, the person may not operate a boat for a period of time following the conviction.

(d) If the person is convicted of operating a boat while under the influence of intoxicants, the person is not eligible to apply for any certificate of title, registration or numbering and all certificates of title, registration and numbering necessary to lawfully operate a boat on Oregon waters shall be canceled for at least a year. The ineligibility to apply for certificates or the cancellation of the certificates shall be substantially longer if the person refuses the test.

(e) After taking the test, the person shall have a reasonable opportunity, upon request, for an additional chemical test for blood alcohol content to be performed at the person's own expense by a qualified individual of the person's choosing.

(3) Nothing in this section prohibits the board from providing additional information concerning rights and consequences that the board considers appropriate or convenient. [1991 c.931 §12]

830.550 Implied consent to field sobriety tests for intoxicants; refusal to submit; consequences. (1) Any person who operates a boat on any waters of this state shall be deemed to have given consent to submit to field sobriety tests upon the request of a peace officer for the purpose of determining if the person is under the influ-

ence of intoxicants if the peace officer reasonably suspects that the person has committed the offense of operating a boat while under the influence of intoxicants in violation of ORS 830.325 or a municipal ordinance. Before the tests are administered, the person requested to take the test shall be informed of the consequences of refusing to take or failing to submit to the tests under ORS 830.545.

(2) If a person refuses or fails to submit to field sobriety tests as required by subsection (1) of this section, evidence of the person's refusal or failure to submit is admissible in any criminal or civil action or proceeding arising out of allegations that the person was operating a boat while under the influence of intoxicants.

(3) Within the time required by the State Marine Board by rule, the arresting officer shall report the following information to the board:

(a) Whether the person refused to submit to a test.

(b) Whether the person was informed of rights and consequences as described under ORS 830.545.

The representative or successor shall file with the State Marine Board a notice of any transfer of the boat, boathouse or floating home by the representative or successor, together with evidence satisfactory to the board of all facts entitling the representative or successor to make the transfer. Upon the receipt of satisfactory evidence of the facts, and the required fee, the board shall issue a new certificate of title and a certificate of number or registration.
