### **Statement on the December 2015 Economic and Revenue Forecast**

SALEM—Senate Majority Leader Ginny Burdick (D-Portland) released the following statement this morning upon release of the December 2015 Economic and Revenue Forecast:

“Oregon’s economy continues to grow, and that’s great news for small businesses and families in both rural and urban parts of the state.

“The forecast keeps our investments in top priorities from the 2015 session on track for now. We will be ready to take action in February to keep funding for education, health care and public safety on the right course.”
