The Honorable Theodore R. Kulongoski, Governor of Oregon, delivered the following State of the State Address:

Speaker Minnis, President Courtney, members of the Legislative Assembly, honored guests and fellow citizens, I am honored to be here, and proud to deliver my State of the State message on this first day of the 2005 legislative session.

Before I begin my remarks I would like to ask for a moment of silence in honor of Oregon’s soldiers and Marines who have died in Iraq and Afghanistan. Again, today, our flags are lowered to half-staff for a brave Oregon soldier who has given his life for our country. We also honor the victims of the tsunami two weeks ago – and in this blessed land of plenty, we remember that we are each other’s keeper.

The last time we met in this beautiful House chamber I was being inaugurated, you were recovering from a record five special sessions – and we were both facing one of most difficult budget climates in Oregon’s history. With that sobering reminder of our recent past, let me say to each of you – welcome back. The people of Oregon need you here – and I do too.

Someone asked me recently what my biggest wish was for 2005. I didn’t give the obvious answer: A money tree. Or the easy answer: A short legislative session. Instead, I said that I wanted 2005 to be a year of genuine bi-

partisanship. That we would pledge to put people ahead of party; conciliation ahead of confrontation; and protecting our children ahead of protecting the status quo.

Throughout this session, there are going to be differences of opinion between our two parties. Between your two chambers. And between the peoples’ two policymaking branches of government. There’s nothing wrong with that. Debate is healthy and no one in this chamber – starting with me – has a monopoly on being right.

But my friends – there is nothing less inspiring and more unhelpful to the citizens of Oregon than the sound of one-hand clapping. I need your hand to join my hand. That is the only way we will accomplish what the people sent us to Salem to do: Improve their lives. Protect their communities. Educate their children. And lift their spirits.

This is a new year – and the right moment to report to you that the state of our state is good. We’re not only back on our feet – we’re moving forward. The evidence is everywhere. Our economy is recovering – slowly but steadily. Thousands of new jobs have been created in the last two years. And national survey after national survey point to Oregon as one of the best places to do business. Just last month, Oregon was named to an honor roll list – along with only six other states – for economic development. And we’ve been ranked in the top ten states for being business friendly – highlighting our low workers’ compensation rates.

So there is every reason to start this 2005 legislative session with hope. This doesn’t mean we don’t have problems. We do – and believe me – I’m not blind to them. Too many of our citizens are still hurting. They want to work – but can’t find a job. They need health insurance – but can’t afford to buy it. They believe in public education – but worry that overcrowded classrooms and program cuts mean that their children won’t be ready to compete in college and for jobs. We cannot ignore these real concerns. But I am an optimist at heart. Everything in my life has been about looking to the future. And I see no reason to change now.

In 2003, when unemployment was increasing and revenue was decreasing, our mission was to limit the damage to Oregon families and businesses caused by an economy tumbling downhill. Our mission for the 05-07 biennium is to shift an economy that is already on the move – into high gear, and build a fiscally responsible budget that will protect vital government services and our quality of life the next time a recession strikes.

This is easier said than done. If that isn’t obvious now – it will be in the weeks to come. So my message is: We have a lot of work ahead of us to create jobs, grow businesses, make government more efficient and accountable, invest in our pre-K through 20 education system, fight meth and other dangers to our children, and build prosperity.

I can’t do this alone, and neither can you. But as I look around this chamber and see old friends and new faces – not to mention happy kids who are depending on us to do the right thing – I know that if we put partisanship to the side – and partnership up front – we can do it together.

In the coming months, you will hold hearings and vote on bills covering everything from crime to culture to health care. But nothing we do – between now and sine die – will be more important than the decisions we make about the budget. The 05-07 budget will either be a tool for fiscal sanity and economic growth – or it will be, as it has often been in the past – a political shell game for borrowing money we don’t have; emptying reserve funds we can’t

replace; and raising taxes that the people of Oregon, twice in one year, said they don't want.

I have already submitted my budget to you and the citizens of Oregon. I'm not going to again talk about what it funds or doesn't fund. That information is easy to find on my website. But I will say this: In preparing my budget, I threw out the old rulebook. This is not a current services budget. It funds programs based on whether they produce measurable outcomes.

This is not to say that I didn't make painful cuts in worthy programs. I did. And I've spent many sleepless nights worrying about the people affected by these cuts. But there was simply no way to avoid hard choices. As a former President once said: We have more will than wallet. The bottom line is: State government has 12-billion dollars to spend – and that's it! I will not go looking for more taxes from citizens. I want Oregonians to understand – this is what we can buy with the money we have.

What our citizens want is a tax code that is fair to all taxpayers. That is why I said when I released my budget, I am always prepared to review any proposal that makes the code more fair and equitable to all taxpayers.

What my 05-07 budget lacks in dollars, it makes up for in transparency, honesty and fiscal responsibility. There are no gimmicks. No borrowing to pay for ongoing operating expenses. And no shifting costs to future budgets. At the same time, my budget is constructed in a way that inherently includes a spending limitation and rainy day fund. The old way of budgeting was to put any increase in anticipated revenue into existing programs. In 2005, we need to think and act differently.

For starters, we need to think and act like the Oregon families we represent. They know they have to come up with a budget – not a wish list. They know they have to make hard choices. And they know that too much debt and not enough savings is a recipe for disaster. All I'm asking is that we live by the same rules that our fellow citizens live by. That is what I've tried to do.

I spent two years making government more accountable, more cost-effective, and more consumer friendly. I created a 05-07 budget that is tied to my six core principles – each of which is critical to maintaining the Oregon values we hold dear. And today, I renew my call for putting 4-percent of revenues into a rainy day fund that will protect us against a repeat of the massive headache we faced in the 01-03 biennium – multiple special sessions to cut essential government services. I also want to renew my call for the creation of an investment fund for pre-K through 20 education. These two steps – a rainy day fund and an education investment fund – will give state government the financial stability it has lacked for years.

I believe it was a personal test of my leadership and character to get Oregon back on the budgetary straight and narrow. That means to pay as we go – and to build a rainy day fund that will protect us against a sharp decline in revenue like the one we faced in 2002 and 2003. This same test of leadership and character now rests with you. The budget realities I confronted, you must confront. The need for a long-term investment in education that I recognized, you must recognize. And the line in the sand that I drew against business as usual, you must draw.

The people of Oregon do not expect miracles. But they do expect accountability and leadership. And it is our obligation to give them both. To do that we need to make sure that the 05-07 budget is fiscally responsible; that we build a strong and predictable economy; that we stand up for equality of opportunity for all of our citizens; and that we defend the Oregon way of life.

I've talked about the link between the state of our state and budget discipline. Now I want to talk about the link between the state of our state and the economy, equality, and what I see as the biggest threat to Oregon's values and sovereignty.

Growing Oregon's economy is my passion. But creating family wage jobs is my obsession. The Washington Post recently ran a story with the headline: Average-Wage Earners Fall Behind. Not only are many workers being forced to take new jobs at lower wages – these jobs often come without health or pension benefits. Is this really the future we want? Thousands of hard working Oregonians losing wages and healthcare, and unable to properly care for their families – or contribute to our economy. For me – this is not progress. But investing in workforce training – to help low-wage earners start over – is progress.

When workers earn a wage that enables them to take care of themselves and their families, the majority of problems that government is asked to resolve are reduced or go away. Everything from domestic violence to hunger to health care. So as I recently told the Oregon Business Council: I am committed to helping existing businesses grow and prosper – and to bring new businesses to Oregon that will create jobs here. I am committed to reducing regulatory barriers to business. I am committed to creating an economic niche for Oregon – that it will have the best educated, best trained, best skilled population of any state in America. And I am committed to embracing change – and facing Oregon's economic future not just with hope – but with optimism and imagination.

My determination to create family wage jobs and grow Oregon's economy is not new. It's the course I've been traveling for two years – and I have no intention of pulling off to the side of the road now. Instead, I want more speed. More confidence. More unity. This is how we will achieve long-term economic success in Oregon – and meet the challenges that stand in the way of that success.

The first of these challenges is globalization of the market.

Many hard working Oregonians believe that the global economy is making it more difficult for them to earn a living and find financial security. And some Oregon businesses believe that the global economy is making it more difficult for them to make a profit. These concerns are not made up. Free trade is not always fair trade. But I cannot put the Genie back in the bottle. And even if I could, it would not be the right decision for Oregon. We live in a global economy. That's the reality. We can curse the night or light a candle. I say – and will always say – light a candle!

We are a coastal state. This gives us an enormous competitive advantage. But we must have better, cheaper and faster ways to import what we need and export what we make. That's why I'll be sending you a new transportation package called Connect Oregon, which will do for our rail, marine and aviation infrastructure what our 2003 transportation package did for Oregon's roads and bridges.

The second major economic challenge we face is ramping up the development and use of state-of-the-art technology.

I am not turning my back on traditional industries. Timber and agriculture are essential to Oregon's economy. And for many of our rural communities – timber and agriculture is the economy. We need to help these traditional industries innovate their way to profitability.

But we also need to develop new industries that will do for the American economy in the 21st century what computers did in the closing decades of the 20th century. I want Oregon to be a world leader in this kind of

innovation. That's why I created the Oregon Innovation Council, which will recommend ways to increase research and development – and make Oregon a global leader in the use of technology.

Our last major economic challenge is education.

I could spend my entire time today talking about the connection between education and long-term prosperity. That's how strongly I feel about making Oregon the best educated state in the country.

But if there's one point I want every Oregonian to understand it is this: Nothing will put Oregon's economy into overdrive faster than a stable, well-funded and accessible pre-K through 20 education system. This means that the state of education in Oregon will become – if it isn't already – the most important measure of the state of our state.

It's not difficult to understand why. Businesses – whether they're here now or coming in the future – will demand a highly skilled workforce. If we do not reverse the decade-long disinvestment in post-secondary education, and pay more attention to retraining lower wage workers – it is only a matter of time before a future Governor stands where I'm standing and says: "The state of our state is in decline."

My vision for education in Oregon is to never let this happen. You can see that in the choices I made for the 05-07 budget. Even during a budget process that required painful choices – we still sent education to the front of the budget line. We put more money into K through 12. We increased funding for community colleges and The Oregon University System. And we doubled our investment in Oregon Opportunity Grants, which will raise to 130,000 the number of students that will be given assistance in paying for a post-secondary education. We also raised the bonding capacity of our community colleges and universities to an unprecedented 450-million dollars.

The issue with education is not just money. That's why I propose to change the way our schools do business. I want to consolidate most central office administrative services; create an electronic data system to track and manage student progress; and put together one statewide health insurance pool for K through 12 – instead of the 198 we have now.

I've been asked many times since I unveiled my 05-07 budget if giving 5-billion dollars, 45-percent of the state General Fund, to K through 12 education is adequate. The answer is no. But it is all we can afford given our current revenues.

However, if the Legislature follows my lead, exercises budget discipline, and restores fiscal stability – then based on today's revenue forecasts, we can create a half-billion dollar per biennium education investment fund before the end of this decade. This will give us the resources we need to build the best public education system in the country.

Globalization, technology and education are three of our great economic challenges. The more courage we have to face them – and determination we show to overcome them – the stronger our state will be. But just as men and women do not live by bread alone, our state does not live by economic output alone.

In addition to economic challenges, we also face a great moral challenge: To make sure that opportunity is an open door through which every citizen can pass – not a revolving door that turns for some and doesn't budge for others. This is a moral challenge because if we do not defend social justice, tolerance and diversity – then the progress we make on the economic front will be bought with compromised principles and a weakened human spirit.

That is not a trade-off I can accept – which is why I will introduce a bill adding sexual orientation to state laws that prohibit discrimination in employment, housing and public accommodations. Ask yourselves: Do we really want to push ahead by leaving others behind? And do we really want to risk our future by turning our backs on the talent and drive of women, minorities, gays and lesbians, and our native brothers and sisters?

We need to bring people in – not shut them out. This is the right thing to do. It also happens to be the smart thing to do. Diversity is a strength – not a weakness. That's why I support affirmative action – and believe that women, minority and small businesses should be afforded meaningful opportunities to participate in both the public and private economy. Standing up for diversity will help us strengthen the state of our state by tapping the abilities of all our citizens. Just as important – standing up for diversity will affirm that we really are one Oregon with one common destiny.

The idea that we are one Oregon with one common destiny goes to the core of who I am and my love for this state. In my inaugural address two years ago, I pledged that the days of ignoring rural Oregon while urban Oregon raced toward recovery were over. I've tried very hard to keep that pledge – by visiting every county in the state, and working with the Legislature to create the Office of Rural Policy whose sole responsibility is to respond to the needs of rural Oregon. The payoff I envision is one thriving economy across all of Oregon that creates jobs and holds families and communities together.

But a powerful economy alone does not make us one Oregon. Only shared values can do that. And we have those shared values. They cross party lines. Regional lines. Ethnic lines. And generational lines. Oregonians' relationship to their environment defines who we are. It describes our love and passion for this place called Oregon. We understand in our souls that our quality of life is measured by our commitment to – and investment in – our environment. I'm talking about protecting our air, water and land resources from the ravages of industrial pollution and unbridled development. I'm talking about protecting our old growth forests from easy plunder and quick profit – and our wildlife from extinction. And I'm talking about protecting our traditional fishing and farming communities.

Every one of these values is now in the cross hairs of the federal government. Their weapon of choice varies. Sometimes it is administrative fiat. Sometimes it is a congressional enactment. Sometimes it is suing us in federal court.

Make no mistake: I believe in a strong state-federal partnership. The federal government owns more than half of Oregon's forestlands. We have to work together. But as equals – not as landlord and tenant. After two years of dealing with the federal government on environmental issues that are critical to Oregon's future, I've learned an important lesson: On our side of the table "partnership" means what the dictionary says it means. On their side of the table it means consultation – and then doing whatever they want.

As Governor, I will not sit by while the federal government attempts to dismantle our environmental legacy, undermine our values, and erode our sovereignty. The time has come to draw a line and say – enough! That's what I intend to do – starting with the federal government's 2004 Biological Opinion for the Columbia River Power System.

The Columbia River hydro system is an asset to Oregon and the greatest source of electricity in the region. It provides many Oregonians with competitively priced power

that is critical to our economy. But abundant salmon is also critical to our economy and our Native tribes. It is wrong to assume we have to sacrifice salmon for power. We can have stable and predictable electrical power – and plentiful salmon.

The 2004 Biological Opinion claims that federal law does not require that salmon be brought back to abundant levels, and that the harm caused by Columbia River dams can be ignored. This is absolute nonsense to me – and to the people of Oregon. That is why I intervened in a lawsuit in federal court last year to prevent the reduction of summer spill over the Columbia River dams. And that is why I intend to take a hard line on the current Biological Opinion.

This dispute is about two words: Survival and recovery. The federal government wants to turn its back on its previous policy of recovering salmon to levels that sustain social, economic and ecological benefits – and substitute the lower standard of making sure that salmon simply survive. This is wrong – and if I cannot compel the federal government through negotiation to do what's right, I will use every legal tool the state has to change survival back to recovery. That includes becoming a plaintiff in this case. And believe me – if we join the suit we will not be a potted plant!

As the Oregon Plan has proven, this is in Oregon's long-term economic interest – because the sooner salmon gets back up to abundant levels, the greater the opportunity to avoid restrictions imposed on our economy by state and federal law.

I have also stated my opposition to the proposed revision by the Forest Service of the 2001 Roadless Area Conservation Rule. I do not want to see the breakup of large contiguous roadless areas, which is certain to lead to severe environmental damage. This is a decades-old debate – centered on decades of uncoordinated laws that do not reflect modern science or current social values.

The time has come to stop looking in the rearview mirror – and end the debate about roadless areas. We thought this debate was over – and it should be. The Administration's attempt to repeal the 2001 Roadless Area Conservation Rule must cease.

Protect roadless areas – do not destroy them!

There is also the matter of global warming. The Administration should never have walked away from the Kyoto Treaty. Global warming is real and it is here today. The facts aren't the issue. The policy is the issue. I think the Administration's policy on global warming is dead wrong.

I have no intention of waiting for the Administration back in Washington to learn the science. I appointed an Advisory Group on Global Warming, which reported to me what Oregon can do to reduce greenhouse gases. We will work together to review and implement these recommendations. At the same time I will be working with western governors so that we can take an aggressive regional approach to this problem.

Not all threats to our environmental values come from Washington DC. We also have one that is home grown – or at least grown at the ballot box. For the last 30 years, Oregon has earned a reputation for having an orderly and sustainable land use planning system. Measure 37 puts that system at risk. This is not about undoing the will of the voters. But there is no dispute that there are ambiguities in the language – and confusion about the meaning – of Measure 37.

We must resolve these ambiguities, and end the confusion – in this legislative session! But that's not enough. With Measure 37 on the table, now is the time to

take a broader look at our land use system – to find ways to make the system more responsive to the needs of our citizens.

I started my remarks today by asking for a moment of silence in honor of the Oregon soldiers who have died in Iraq and Afghanistan. I have been to almost all of the funerals of soldiers with an Oregon connection. And I will go to another one at the end of this ceremony.

Every funeral reminds me that nothing in a parent's life means as much – or hurts as much – as the loss of a child. There is really nothing that can ease that pain. But parents want to believe that there is at least some meaning and purpose to their loss. And we do too. So I talk with them. Cry with them. And understand in my heart that the death of their child is also a wound to Oregon.

All the young men and women who are serving in Iraq and Afghanistan truly are the best Oregon has to offer. Most are in their early twenties. They train hard, leave behind spouses, children, and parents – and walk into harms way. Many join the military as a way to continue their education when they return home. I am forever humbled by their courage and grace – and forever thankful for their belief in duty, honor and country.

I want Oregonians to understand that as far I'm concerned, every soldier, sailor, Marine and airman serving in Iraq and Afghanistan is a patriot. They're given their orders, they salute smartly, and they carry out their mission with great skill and professionalism. They do not question their orders. But perhaps we should.

This is not about whether going to Iraq was the right choice. That is a question for historians and every citizen – in his or her own heart and conscience – to answer. But as Governor and Commander in Chief of the Oregon National Guard – with more than 1300 Guard troops and many other Oregon soldiers deployed overseas, and more on the way – it is my responsibility to ask whether our national leadership, which had a plan for starting this war, also has a plan for ending it.

Is there an exit strategy – and how far down the road is it?

The Iraqi elections at the end of this month provide us with an opportunity to engage the United Nations in a leadership role, and to help it create a true international coalition that will work to bring social and economic stability to that country, and even more important, bring our troops home.

Why does Iraq affect the state of our state? Because the Oregon brave hearts now in Iraq are this state's future leaders. Who among them will be Oregon's Governor some day? Or founder of the next Nike? Or teacher of the year? Of those who already died – we'll never know. But we do know that our state will never as be strong as it can be if we continue to send the generation now coming of age into the breach with no plan to bring them home.

When I mention future leaders of Oregon – I can't help but think about the recent loss of one of our greatest leaders from the past: Loren "Stub" Stewart. He would be a role model for any young Oregonian. And he should certainly be a role model for us throughout this session. He worked hard. He was self-reliant. And he had an unshakable belief that every Oregonian has the power to make this wonderful state an even better place to live. Stub Stewart was the embodiment of Winston Churchill's famous observation: "We make a living by what we get, but we make a life by what we give."

Now it is our turn to give. Our turn for bipartisanship. Our turn to make a true commitment to fiscal responsibility. Our turn to build a rainy day fund and an investment fund for education. Our turn to check our moral

compass and make sure that the shadow of bigotry and intolerance never darkens our spirit. Our turn to make this wonderful state an even better place to live. And most of all – our turn to roll up our sleeves and get to work.

I'm ready – and I'm certain that you are too.

God bless us all. And God bless Oregon.

**3.21 Announcement of Conflict of Interest.** (1) When involved in an actual or potential conflict of interest, as defined by ORS 244.020, a member shall announce, on the floor or in the committee meeting, the nature of the potential conflict prior to voting on the issue giving rise to the potential conflict.

If a person not a member votes or attempts to vote for any member or violates a provision of this rule, he or she shall be barred from the floor of the House for the remainder of the session, and he or she may be punished further as determined by the vote of 31 members.

(4) All members must remain within the bar of the House until the vote is taken for which the call was made. However, when the House is waiting for an unexcused member and the presiding officer has announced the House is “at ease,” the members may have access to the area behind the rostrum included in the Speaker’s office until the presiding officer calls the House to order. Members must then return to within the bar.

(5) A call of the House shall be considered terminated when the question for which the call was invoked has been voted upon or when a motion to terminate the call is approved by forty members. The motion to terminate the call shall be in order when the Sergeant at Arms has reported that unexcused members cannot be returned within a reasonable time. Termination of the call under this subsection terminates the requirement that the Sergeant at Arms search for unexcused members. In the absence of a quorum after the report of the Sergeant at Arms is received, the House may terminate the call by the unanimous consent of the members present.

(6) Upon a call and until the proceedings are terminated, the presiding officer may direct the Sergeant at Arms to authorize

(2) The Speaker shall appoint majority party and minority party members to all standing committees and statutory committees, in the

same proportion as the number of majority party members and the number of minority party members in the House bear respectively to the total membership of the House. Except as otherwise provided by law, the Speaker shall determine the number of members of each committee.

(3) Within the standing committee structure provided for in House Rule 8.01, the Speaker may designate such subcommittees as deemed necessary and shall appoint the chair of each subcommittee. The Chair of any standing committee under which a subcommittee is created shall appoint the other members of the subcommittee.

(4) The Standing Committee on Ways and Means and committees established by the Oregon Constitution shall be exempt from provisions under subsection (2) of Rule 8.05.

**8.10 Committee Quorum; Rules.** (1) A majority of the members of a standing or special committee shall constitute a quorum for the transaction of business before the committee; provided, however, that each committee may by rule designate a lesser number of its members as a quorum for receiving public testimony.

(3) (a) Meetings of the House and its committees shall be open to the public. No quorum of any committee shall meet in private for the purpose of deliberating or taking collective action on any matter.

(b) For purposes of this subsection, "deliberate" means to discuss for the purpose of taking collective action, whether or not collective action is actually taken; and "collective action" means a joint decision, commitment or promise made between two or more persons.

(4) The House and its committees shall not hold a meeting in any building where discrimination on the basis of race, creed, color, sex, age, disability or national origin is practiced.

(5) The House and its committees shall provide for and give public notice, reasonably calculated to give actual notice to interested persons, of the time, place and subject matter of regular and special meetings. Meetings shall not be held without at least ~~24~~ **48** hours notice to members or House committees and the general public. In case of an actual emergency, a meeting may be held upon notice appropriate to the circumstances.

(6) When the Speaker has reason to believe that adjournment sine die of the session is imminent or that the public interest would be seriously prejudiced by delay, the Speaker may invoke the provisions of subsection (5) relating to emergencies by declaring that an emergency exists. If the House is in session, the Speaker shall announce the emergency and the reasons why it is declared to exist. If the House is not in session, the Speaker shall notify members that an emergency exists and the reasons therefor by distributing such information to the desks of the members. For any meeting called under this emergency provision, notice shall be posted outside the House chambers and any other suitable and conspicuous place. If the meeting scheduled is for the purpose of taking public testimony, at least 24 hours notice must be given by posting the notice outside the House chambers and any other suitable and conspicuous place. A majority of the members may invoke this subsection and notice shall be given as described in this subsection.

(7) In determining the hours of notice required, Saturday, Sunday and holidays are excluded unless the House is in session on those days.

(10) Any meeting of a House committee held through the use of telephone or other electronic communication shall be conducted in accordance with this rule.

(11) Whenever any person has cause to believe that either the declared purpose or the procedure specified in this rule has been violated by the House, by any committee or by any member, the person is entitled to file a complaint with the Committee on Elections and Rules ~~[and Public Affairs]~~. The committee shall conduct a hearing on the matter and shall, if it concludes that the complaint is justified, recommend to the House that censure or other action be taken.

(12) As used in this rule:

The request must be filed with the chair, the Speaker and the Chief Clerk. The hearing or work session shall be held only after notice as required by Rule 8.15(5), but shall be held within three session days after the date of the request.

(2) A committee may act on each measure in its possession: (a) by tabling the measure in committee; or (b) by reporting the measure out of the committee (A) with the recommendation that it be referred to another committee, (B) favorably as to passage, or (C) without recommendation.

(3) In reporting a measure out, a committee shall include in its report: (a) the measure in the form reported out; (b) the recommendation of the committee; (c) an identification of all substantive changes made by the committee in the measure; (d) an analysis of the measure; (e) fiscal impact statement, if any, prepared by the Legislative Fiscal Officer; (f) revenue impact statement, if any, prepared by the Legislative Revenue Officer; and (g) budget notes, if any, as adopted by a majority of the Joint Committee on Ways and Means.

(4) When the Speaker determines that sine die adjournment may impinge on the operations of standing committees, the Speaker shall announce an estimated date for sine die adjournment. Commencing 14 calendar days before the estimated date, a committee shall schedule a hearing or work session only with the consent of the Speaker.

(5) Measures reported out by a committee shall be delivered to the Chief Clerk of the House within three session days after the committee action reporting the measure out.

**8.22 Limitation on Committee Amendments.** Whenever a measure has a subsequent referral to the Ways and Means Committee or Revenue Committee, neither of those committees shall propose to amend the measure in a manner that affects the substance with any other than a fiscal or revenue impact unless the chair of the House committee to which the initial referral was made consents to the amendments. The proposed amendment must be consistent with House Rule 5.35.

**8.25 Committee Actions to be Recorded and Reported.** (1) Motions on measures before a committee shall be voted on by roll call vote of the members of the committee, and the vote of each member

shall be recorded in the committee minutes. All motions on measures shall be adopted only on the affirmative vote of a majority of the members of the committee.

**9.15 Minority Reports; Dissents.** (1) If a minority report, subscribed to by at least two members who are present and vote in opposition to the committee report, accompanies the committee report, both shall be filed and placed on the calendar under the order of business of Propositions and Motions the second session day after distribution of amendments. No member may sign on to more than one report.

(2) When the committee report comes up for consideration, it shall be in order to move adoption of the committee report and, upon explanation of the committee report without debate on that report, for the carrier of the minority report to move immediately that the minority report be substituted therefor. After the motion to substitute has been decided, the measure, if a bill, shall be further considered as provided by Rule 9.37(2) or, if other than a bill, as provided by Rule 9.35(3).

(3) Any member of a committee who dissents from the committee report shall be listed in the committee report as not concurring therein. The names of members dissenting shall be recorded in the Journal and Daily Status Report.

(4) A minority report must be filed with the committee staff not later than the session day next following the day on which notice is given to the committee of intent to file the report, if the presiding officer has ruled that adjournment sine die is imminent.

(5) The minority report is subject to the requirements of House Rule 5.35. **Issues contained within a minority report must have come under discussion in the committee filing the committee report.**

**9.30 Withdrawing Measure from Committee.** A measure, including one referred by the Speaker to a joint committee, may be withdrawn from a committee by 31 members upon a motion to withdraw.

**10.01 Reconsideration.** (1) When a measure has passed or failed to pass or a motion has been adopted or defeated, any member voting on the prevailing side may move for reconsideration of the measure or motion. The motion for reconsideration is not in order on a vote whereby a measure is indefinitely postponed.

(2) The member who intends to move for reconsideration must state their intent orally prior to adjournment on the same day on which the vote to be reconsidered was taken.

(3) A motion to reconsider may be debated together with the main question if the subject of the main question is debatable and the vote on the main question was not ordered by a motion for the previous question. If the vote on the main question was ordered by the previous question, neither the motion to reconsider nor the main question is debatable. However, a debatable motion to refer shall be allowed if the vote on the main question is reconsidered.

(4) The motion to reconsider shall be voted on the first session day after that on which the vote to be reconsidered was taken. The motion for reconsideration has precedence over any other motion, **subject to the provisions of House Rule 5.10.**

(6) There shall be only one motion for reconsideration of any final vote even though the action of the House reverses its previous action.

**10.05 Transmitting Measures on Which Reconsideration Moved.** When a member has given notice of intention to move for reconsideration of the final vote passing a measure, the Chief Clerk shall not thereafter transmit that measure to the Senate until the motion for reconsideration has been disposed of or time for making the motion has expired. However, if the measure subject to reconsideration was passed so late in the session that the Speaker has reasonable cause to believe that its retention will unnecessarily delay the orderly process of legislative business, the Speaker shall immediately lay the motion for reconsideration before the House.

**10.10 Recall of Measure.** (1) If a measure has been transmitted to the Senate before the motion to reconsider is made, the motion must be preceded by a motion to recall the measure. The motion to recall a measure is subject to the same time limit as the motion to reconsider.

(2) If a measure is referred to a conference committee and the committee proposes to report substantive amendments to the measure, the committee must inform the chair of the House Committee to which the measure was initially referred before reporting the measure to the desk.

**11.10 Authority of Conference Committee.** (1) The conference committee has authority to propose any amendments within the scope of the **measure** ~~issue between the houses~~.

agreed upon by a majority of all the conferees, and shall immediately notify the Speaker of such time and place. Barnhart requested the following explanation of his vote be entered in the Journal:

“I supported HB 5068 despite my opposition to using funds from the elderly rental assistance program to fund the very necessary catastrophic fire suppression insurance costs for this summer. That the House found it necessary to spend these funds on programs not related to services to the elderly illustrates how bad Oregon's financial situation really is.

“The House will continue to face bad choices until the unnecessary and unfair tax loopholes are considered in a priority list with budget items. We must, but we do not yet, prioritize all of our spending.”

Lim requested the following explanation of his vote be entered in the Journal:

“I had voted in favor of this bill, however, the Department of Revenue's inaccurate estimate of 30 million dollars of revenue (20 million dollars from cigarette tax and 10 million dollars from other tobacco tax) from the 2003 expanded tobacco tax had not materialized. A serious miscalculation on the part of the Department of Revenue. I would like the Department of Revenue to

give a full explanation to the legislature concerning this 30 million dollar shortfall.”

“I am saddened that I must once again vote against an estate tax reduction bill. I believe that the exempt amount specified in the bill, two million dollars, is reasonable and should be adopted. Unfortunately, the bill fails to adjust rates to make the bill revenue neutral, as the defeated minority report would have done. We cannot afford to reduce taxes on the wealthiest Oregonians when our state’s budget is so seriously under-funded. When the majority in the House supports sensible and revenue neutral estate tax reform, I will support it.”

"I voted against this bill because it is irresponsible to support any additional tax credits at this time, regardless of the merit. It is not sound fiscal policy by this legislative body to grant tax credits

and tax cuts while funding for our children's schools, our seniors and disabled, and our state troopers continue to be cut.

"Until this legislative body gets its fiscal house in order, I will not support any more tax cuts."

Barnhart requested the following explanation of his vote be entered in the Journal:

"I voted "no" on this tax cut bill. I support appropriate incentives to encourage good economic development. I would support a revenue neutral bill that repealed or reduced some of the many obsolete tax expenditures while adopting one of value. This one is not of value according to the feedback effects of the Revenue Impact Statement.

"We cannot afford to further reduce taxes on corporations when they already have so many expensive and valueless tax loopholes on the books."

“I voted against House Bill 2806–A to protect those children who, because of their religion, cannot participate in what most people would consider as benign activities; these include Halloween, Valentine’s Day, and the Pledge of Allegiance. Children quickly pick up on differences and I have seen the discomfort and pain by being different than other children. I think we all recognize their inability to recite the Pledge of Allegiance says nothing about their or their family’s patriotism or love of country. An indirect consequence of this bill will be harassment and bullying of children who are identified as different.

“Based on my experience working in public schools, I know that for these children, standing out as different from her or his classmates will create on-going pain, hurt, and feelings of alienation. It is for these children in the minority that I will vote nay on this bill.”

Holvey requested the following explanation of his vote be entered in the Journal:

“I voted against final passage of House Joint Memorial 28 on the floor of the Oregon House of Representatives on April 20, 2005, because the Memorial requests fulfillment of only one of the promises contained in the Northwest Forest Plan.

“The Memorial incorrectly identifies a 1.0-billion-board-feet harvest per year as a *promise*. In *actuality*, it a goal of the plan. The Memorial also fails to mention fulfillment of other goals or perceived promises of the Northwest Forest Plan.

“The current policy of the Northwest Forest Plan perpetuates a conflict among goals that we cannot meet simultaneously. The Plan will cause lawsuits and prevent adequate harvest and job creation. It will also fall far short of protecting critical natural resources. House Joint Memorial 28 does not address all the interests of the people of Oregon.

“I supported an alternative measure contained in House Joint Memorial 30, which supports a forest policy with more clearly defined goals. I firmly believe that House Joint Memorial 30 would help increase forest harvest, strengthen jobs and create new ones, while ensuring adequate protection of critical natural resources.”

Boquist requested the following explanation of his vote be entered in the Journal:

“HB 3151 requires schools with more than 150 students provide a U.S. Department of Agriculture level lunch to students. The Alsea School Board has advised me the cost of such a program, including remodel and construction, will bankrupt the Alsea School District. The 166 students would be merged to another school district as a result of this law.

“The district has a volunteer lunch program three days per week. To upgrade Benton County will require a full remodel of the serving area, and an addition of a kitchen. This will exceed \$250,000 the district does not have to spend. Due to compression there is not adequate bond authority to raise a levy.

“Sustaining an existing school is more important than this well intended law. I fully agree with the concepts and desire to assist needy children, however, not at the expense of closing down a school district.”

Ackerman requested the following explanation of his vote be entered in the Journal:

“I voted against this bill because it imposes a hypocritical double standard on minor women.

“Current law allows a minor child, 15 and older, to receive treatment for medical conditions without notification or consent of a parent. In addition, a minor child today is allowed to purchase virtually any over-the-counter drug, without restriction, and without parental consent. Finally, minor children are routinely treated as adults in various criminal proceedings.

“The argument that pregnant minor women, almost all of whom are 16 or 17 years old, are incapable of making an informed decision on their own regarding abortions is contrary to how society treats all minors in other issues of personal responsibility.

“In correspondence, pro-life supporters of this bill stated that the rights of the parent should outweigh the rights of the minor child. However, many cases were brought to my attention in which the pregnant teen wanted to keep her child, but the parents insisted instead on an abortion. When confronted with this situation, pro-life supporters had no answer.

“I support a women’s right to privacy, and I oppose this bill.”

“Allow this to explain my vote on House Bill 3162-A. In the House Education Committee I voted in favor of this bill, because I was convinced that eliminating CIM/CAM and Oregon’s current form of assessment was what the majority of Oregonians were in favor of.

“In looking closer at the legislation I noted that the Department of Education wasn’t allowed to bid on providing the tests along with private testing suppliers. This seemed in conflict with the point of the bill, which was to provide the best test in the most cost effective way, thereby directing more money to the classroom. That is why I decided to vote nay on HB 3162-A.

“Thank you for your attention to this matter.”

“House Bill 2360 provides for a mandatory sentence of imprisonment for a person convicted of driving while under influence of intoxicants if the person had a 0.20 percent or greater blood alcohol content at the time of the offense.

“While I agree with the sponsors of the bill that driving under the influence of intoxicants is a very serious problem that must be addressed, I do not feel that removing discretion from judges and imposing mandatory sentences without carefully scrutinizing our wider criminal sentencing policies is the best way to approach this problem.

“First, I believe that judges must have a certain amount of discretion when sentencing offenders. To impose effective and appropriate punishment, judges be allowed to make certain that a sentence imposed properly fits both the crime that has been committed and the individual offender.

“Second, I feel that at a time that spending on jails and corrections is rising rapidly and budgets for schools and programs for seniors are cut, we must examine our overall corrections and sentencing priorities. If we increase sentences on one offense, I believe we must consider decreasing sentences for other offenses. If we do not take this approach we will continue to be forced to cut money from programs like Head Start, drug and alcohol treatment, and K-12 education that are just as important to the citizens of Oregon.

“In short, if we do not consider prioritizing our criminal sentencing policies, and we continue to remove the ability for judges to fit crimes to individual situations and offenders, we will only add to the current corrections spending crisis facing our state.”

“Further, the effective high school drop out rate nears 24 percent. This bill will not address this academic failure. Time is not a standard; the budget is not the standard. Achievement is the standard. I believe Oregon could achieve an academic standard with a three year high school.”

"Having been involved for years with RVACT, I feel that Josephine County and Grants Pass have been served well over the past 20 years with two major projects, the third bridge and the Sixth and Seventh Couplets. In fairness, our turn will come again soon enough for the Fourth Bridge. In the meantime, there are other worthy needs across the state.

"For almost 50 years, the Newberg-Dundee Bypass has waited for design and construction. Heavy traffic, paralleling Interstate numbers, are glutting downtown Newberg and causing safety problems for school children in Dundee. Ackerman requested the following explanation of his vote be entered in the Journal:

“I believe House Bill 2583 is an attack on the freedom of Americans in Oregon.

“Current law states that the making of a false statement of citizenship on a voter registration form is a felony, punishable by a fine and imprisonment. In Oregon, this has been established as a sufficient deterrent to prevent false claims of citizenship.

“The current law also requires that the burden of proof whether one is a citizen rests with the government, a cornerstone of American freedom and justice. House Bill 2583 puts the burden of proof on the American citizen.

“I voted against House Bill 2583 because, as a citizen of the United States of America, I should not have to prove to the government that I am a citizen of the United States of America.”

Barnhart requested the following explanation of his vote be entered in the Journal:

"I voted against HB 2583 because its disguised effect is to reduce the number of citizens who register to vote."

Roblan requested the following explanation of his vote be entered in the Journal:

"I fully support the premise that only United States' citizens have the right to vote. However, I could not bring myself to support House Bill 2583 because it will not accomplish that goal. Instead, it is an unfunded mandate that will add another layer of government. We need to enforce the laws we already have as it is presently a felony to lie about citizenship and age when registering to vote.

"Additionally, no evidence was provided that a problem exists. This bill will do nothing for all who are currently registered to vote; it is only for new registrants. I am particularly concerned that this bill will make it virtually impossible for seniors to register to vote."

HJR 34 (B-Engrossed) – Read. Carried by Boquist.

By unanimous consent, on request of Boquist, rules suspended to permit use of visual aid during presentation of resolution.

HJR 34 (B-Engrossed) – On adoption of the resolution the vote was: Yeas, 43; Nays, 15 – Ackerman, Barnhart, Buckley, Dalto, Dingfelder, Greenlick, Holvey, Hunt, Macpherson, March, Nolan, Rosenbaum, Shields, Smith, G., Tomei; Excused, 2 – Hansen, Wirth. Resolution adopted.

Ackerman requested the following explanation of his vote be entered in the Journal:

“House Joint Resolution 34 is a referral for a constitutional amendment that dedicates a portion of the lottery proceeds for services for Oregon veterans.

“I voted against this resolution because it places another unnecessary amendment into our constitution. Furthermore, the funding of services for Oregon veterans is something that this Legislature can and should find the courage to enact now and not have our veterans wait for a referral next year.”

Barnhart requested the following explanation of his vote be entered in the Journal:

“I voted against HJR 34-B. I strongly support the veteran benefit fund and I supported HJR 34-A in committee. HJR 34-A did not take money from schools, while HJR 34-B takes \$15 million per biennium from K-12 education.

“We will need to continue to look for a source of funding for veterans’ services, because we cannot fund them at the expense of our schools. These funds should have come from the General Fund.”

Merkley requested the following explanation of his vote be entered in the Journal:

“Yesterday, I voted “yes” on HJR 34 which, if passed by the voters of Oregon, would dedicate 1% of lottery proceeds to services for veterans.

“Opponents of this bill made the argument that this bill would divert funds from education and economic development. This is a fair concern. I have been, and will continue to be, a fierce advocate for stable and adequate funding for education and any actions that have the potential to divert funds from our schools should be examined very carefully.

“On balance, however, this bill is very valuable. And, despite the point made by opponents, this bill has no direct impact on K-12 education funding in this session or future sessions. Moreover, it is my belief that the veterans of Oregon are deserving of all the assistance we can provide them. Veterans have often been woefully ignored and this is an opportunity to make a range of important services available to them.”

Tomei requested the following explanation of her vote be entered in the Journal:

“Even though I support expanding services to veterans, I voted against HJR 34. We should not have to choose between our children’s education and veterans.

“The lottery has just expanded to include new line games. Why are we putting that increased revenue toward the profit margins of bars and restaurants? We should lower the percentage profits on those new lottery games. With more money available, we could fund additional services to veterans without compromising funding for education, parks, and other lottery funded services.”

“I voted no on HB 3143 as a result of the ‘opt out’ clause allowing some special districts to ‘opt out’ of an Enterprise Zone. These zones are effective because of the ability to leverage short-term incentives to attract businesses that will provide jobs and income tax revenue that benefit all citizens of our state. As we dilute the strength of Enterprise Zones through ‘opt outs’, we will weaken our ability to offer attractive packages for new business to come to our state. We are in competition with other states and need to strengthen our offers, not weaken them.

“In addition, the ‘opt out’ clause will create a more cumbersome, expensive administrative tracking process, that will be born by our government(s).”

Tomei requested the following explanation of her vote be entered in the Journal:

“I voted against HB 2787, a tax credit for rural health care providers. I recognize the need for additional health care providers in rural areas. However, I cannot continue to support expansion of tax credits to address this issue. Once a tax credit is enacted, it becomes very difficult to remove it. Barnhart requested the following explanation of his vote be entered in the Journal:

“I voted against HB 3474 because it goes seriously overboard. It would allow the Rajneeshee to build a “religious village” on farmland.

“I could support a much narrower bill. HB 3474 discriminates against farmers and wood lot owners.”

Tomei requested the following explanation of her vote be entered in the Journal:

“I voted against HB 3474 because I feel it is too broad. I would support a measure that allowed religious organizations to build places of worship, but this bill allows religious organizations exemptions from land use laws on their property for any purpose – a rock concert venue in residential neighborhood or a halfway house for sex offenders next to schools, etc.

“We need to narrow the scope of this bill to garner my support.”

Thatcher requested the following explanation of her vote be entered in the Journal:

“While I support the following provisions of the bill:

“Raising the dollar threshold for contracts requiring compliance with prevailing wage law and;

“Allowing communities to utilize volunteer labor and donated materials to get needed projects done without affecting the dollar threshold amount,

**“I oppose the bill because it requires state agencies to withhold 25% for missing certified payroll reports.**

“Agencies already have enough tools at their disposal to force compliance. A mandatory 25% withholding goes too far. It's punitive and unnecessary.

“Under SB 477 the agency “shall withhold” 25%, no matter how minor the infraction, or how innocent the contractor may be, or what mistakes the agency made in their determination. This provision should be removed, or at the very least reworded so that an agency has some discretion to withhold less.

“Sometimes mistakes are made by the contractor relating to the filing of certified payroll reports. In those instances, the agency already has a hammer known as “retainage,” allowing them to hold 5% of a contractor's money until all contractual obligations are met—including the filing of certified payroll reports.

“However, state agencies often make mistakes, too. Often they wrongly pursue the contractor for certified payroll reports the contractor is neither subject to as far as the law is concerned, nor is the agency entitled to. These situations occur on a regular basis.

“Under this bill, the agency would be mandated to withhold 25% on a common good-faith dispute such as the one described. This percentage cuts beyond potential profits and into actual operating costs for the project. Therefore, the dollars removed from the contractor could mean the difference between a project progressing on schedule, or shutting down due to lack of operating funds.

“This provision, in an otherwise good bill, accomplishes nothing positive. It only serves to possibly delay projects, put businesses at risk and does nothing to ensure that employees are paid correctly.

“As a contractor, I have experienced agency errors first hand. Sometimes these errors take months to resolve and can be extremely expensive for a business to weather. This 25% withholding provision only exacerbates an already potentially detrimental situation.

“Agencies already hold retainage. Agencies already have rights of action against contractors. This bill would add a \$30,000 wage claim bond that an agency would have right of action against.

“Agencies already have enough tools at their disposal to force compliance. Mandatory 25% withholding goes too far. It's punitive and unnecessary.

“I would not be able to look my employees in the eyes if I voted yes on this bill for they would have to bear the brunt of the consequences of this bill in fights with state agencies that will surely result from this legislation. In fact, my employees begged me to vigorously oppose this bill.

“Therefore, I am voting “No” on Senate Bill 477.”

SB 599, 585, 947, 20, 115, 118, 323, 887 – By unanimous consent, on request of Speaker Pro Tempore, rules suspended and bills remaining on today's Third Reading of Senate Bills carried over and placed in their proper order on Tuesday, June 14, 2005 Calendar.

Ackerman requested the following explanation of his vote be entered in the Journal:

“I voted against House Bill 2450-B, the so-called “Stable Schools Plan,” because it is not a “stable” plan.

“House Bill 2450-B relies on dedicating 51% of Oregon income tax revenues to the K-12 education budget. It assumes that these income tax revenues are a stable source of funding. One need only look to the five special sessions in 2002, in which this legislature had to repeatedly slash state programs due to free-falling revenues to know that this is a false assumption.

“House bill 2450-B is bad public policy, and I will not support this roller-coaster funding scheme.”

Lim requested the following explanation of his vote be entered in the Journal:

“Even though I voted for HB 2450 B-Engrossed, I have some concerns about the K-12 funding. Last four biennia, the income tax funding has been around 55.425% so fifty-one percent in the 2007-2009 K-12 budget is not considered a sufficient level. However, at least nine percent increase in funding for the 2007-2009 K-12 budget hopefully will alleviate some of my concerns. I would like to see these concerns addressed in the Senate.”

Merkley requested the following explanation of his vote be entered in the Journal:

“I voted against HB 3492 today because it increases use of the death penalty. The death penalty has no more power as a deterrent than life without possibility of parole. Further, the death penalty is more costly because of the extensive appeal process. “I voted against House Bill 5153, the House budget for Higher Education, because it is woefully inadequate to meet the needs of our public university system.

“This budget does nothing to restore the massive cuts and skyrocketing tuition increases that this body enacted during the previous legislative sessions. I cannot support continuing to balance the cost of an affordable education on the backs of Oregon students and working families.

“I also believe that fully funding the Higher Education and Community College budgets will do more to stimulate economic development in Oregon than any tax break this body passes or ever hopes to pass.”

Merkley requested the following explanation of his vote be entered in the Journal:

"I voted against HB 5153 today because the funding appropriated in this bill for Oregon's institutions of higher learning is inadequate. Strong institutions of higher education are essential to our quality of life and are essential for a thriving economy. We must do better."

Barnhart requested the following explanation of his vote be entered in the Journal:

“I voted “yes” on HB 2327-B. It has been claimed that the defeat of this bill would reduce costs for the general fund. In fact, the opposite is true.

“Passing this bill maintains the 60% of funding from landowners and 40% from the State. Because of increased costs, both pay more. Without the bill, state costs would be still higher.”

Bill passed.

Ackerman requested the following explanation of his vote be entered in the Journal:

“I voted against House Bill 5139 because it transfers the budget for the Oregon State Fair into the House budget for the State Parks and Recreation Department. This is being done in order for the Oregon State Fair to receive lottery funds that are supposed to be dedicated to state parks.

“The Oregon State Fair is supposed to be run as a business. Bailing out the Oregon State Fair with lottery funds that voters made clear were to be dedicated for state parks alone, is the worst kind of business welfare and I will not support this blatant violation of the voters will.”

Tomei requested the following explanation of her vote be entered in the Journal:

“I voted against HB 5139, the Oregon Parks and Recreation Department budget, because it hijacks dollars dedicated to state parks in order to fund the Oregon State Fair. The State Fair is currently \$24 million in debt. We should not be shifting that burden to our already stressed state parks system.”

HB 5145 (A-Engrossed) – Read third time. Carried by Scott. On passage of the bill the vote was: Yeas, 51; Absent, 2 – Burley, Kropf; Excused for Business of the House, 7 – Avakian, Barker, Boquist, Cameron, Flores, Krieger, Macpherson. Bill passed.

Bill passed.

Ackerman requested the following explanation of his vote be entered in the journal:

“I voted against House Bill 5148, the budget for the Department of Human Services, because it is shamefully inadequate to deal with the crisis our seniors, families, and disabled Oregonians are facing in Oregon today.

“Many in this body have claimed to have agonized over having to not fund all of the vital programs and services that Oregonians desperately need. If that agonizing had extended to the various tax cuts and giveaways that this body was all too quick to pass, we would have gone a long way to restore these vital programs and services.”

Tomei requested the following explanation of her vote be entered in the journal:

“I voted against HB 5148, the Department of Human Services budget. There is much in this budget to cause concern, but in particular, the lack of funding for the Tobacco Use Reduction Account triggered my NO vote. Tobacco use is the leading cause of preventable death and disease; we need to focus resources on reducing the use of tobacco products. This budget ignores that vital component of public health.”

HB 5149 (A-Engrossed) – Read third time. Carried by Hansen.

Speaker Pro Tempore in Chair.

HB 5149 (A-Engrossed) – On passage of the bill the vote was: Yeas, 46; Nays, 7 – Cameron, Garrard, Komp, Nelson, Schaufler, Smith, P., Thatcher; Absent, 1 – Kropf; Excused for Business of the House, 6 – Barker, Boquist, Flores, Krieger, Macpherson, Speaker Minnis. Bill passed.

Ackerman requested the following explanation of his vote be entered in the Journal:

“I voted against House Bill 5151, the budget for the Office of the Governor, because I believe the over \$1 million cut, which amounts to a reduction of over 10%, is punitive in nature and it will never pass muster in the Senate.”

HB 5152 (A-Engrossed) – Read third time. Carried by Smith, G. On passage of the bill the vote was: Yeas, 25; Nays, 29 – Ackerman, Avakian, Barker, Barnhart, Beyer, Boone, Buckley, Dingfelder, Galizio, Greenlick, Hansen, Hass, Holvey, Hunt, Jenson, Komp, Lim, Macpherson, March, Merkley, Nolan, Riley, Roblan, Rosenbaum, Schaufler, Shields, Tomei, Wirth, Witt; Absent, 5 – Boquist, Dalto, Gilman, Kropf, Whisnant; Excused for Business of the House, 1 – Speaker Minnis.

HB 5152 (A-Engrossed) – Bill failed.

Ackerman requested the following explanation of his vote be entered in the Journal:

“I voted against HB 5152, the budget for the Office of the Secretary of State, because I believe the \$7.4 million cut, which amounts to a reduction of 13.5%, is punitive in nature and it will never pass muster in the Senate.

“In addition, I believe that if this body is truly serious about eliminating inefficiencies in government, it makes absolutely no sense to continue to eliminate funding of state auditors whose sole job is to find those inefficiencies.”

HB 5160 (A-Engrossed) – Read third time. Carried by Jenson.

Potential conflict of interest declared by Gilman.

Call of the House demanded by Jenson, joined by Barker, Nolan, Rosenbaum, March and Boone. All present except: Absent (not subject to Call), 1 – Kropf.

HB 5167 (A-Engrossed) – Read third time. Carried by Richardson.

Call of the House demanded by Richardson, joined by Scott, Morgan, Esquivel, Anderson and Boquist. All present except: Absent (not subject to Call), 1 – Kropf.

HB 5167 (A-Engrossed) – On passage of the bill the vote was: Yeas, 33; Nays, 26 – Ackerman, Barker, Barnhart, Beyer, Boone, Buckley, Dalto, Dingfelder, Galizio, Greenlick, Hansen, Hass, Holvey, Hunt, Komp, Macpherson, March, Merkley, Nolan, Riley, Roblan, Rosenbaum, Schaufler, Shields, Tomei, Witt; Absent, 1 – Kropf. Bill passed.

Ackerman requested the following explanation of his vote be entered in the Journal:

“I voted against HB 5167, the budget for the Oregon State Police, because this bill is woefully inadequate and eliminates 20 full time state troopers. With the methamphetamine situation in Oregon reaching epidemic proportions, it makes absolutely no sense to cut 20 full time troopers who are our front line in the war on drugs.”

Dingfelder requested the following explanation of her vote be entered in the Journal:

“I voted against HB 5167 because the funding appropriation in this bill for Oregon’s Department of State Police is inadequate. Specifically, the budget cuts \$3 million from the budget of the Patrol Services Division, which provides law enforcement services

and a uniformed police presence throughout the state. This cut will translate to the loss of twenty state troopers, and I do not think we should jeopardize Oregonians safety and security in this way.”

Tomei requested the following explanation of her vote be entered in the Journal:

“I voted against HB 5167, the State Police budget, because it proposes to cut 20 highway patrol officers. I strongly believe that this level is inadequate and cannot support this budget.”

HB 5168 (A-Engrossed) – Read third time. Carried by Boone.

Speaker in Chair.

HB 5168 (A-Engrossed) – On passage of the bill the vote was: Yeas, 57; Nays, 1 – Komp; Absent, 2 – Hansen, Kropf. Bill passed.

HB 5169 (A-Engrossed) – Read third time. Carried by Kropf.

Call of the House demanded by Morgan, joined by Esquivel, Merkley, Nelson, Hanna and Flores. All present except: Absent (not subject to Call), 1 – Kropf.

HB 5169 (A-Engrossed) – On passage of the bill the vote was: Yeas, 37; Nays, 22 – Ackerman, Barker, Barnhart, Beyer, Buckley, Dingfelder, Galizio, Greenlick, Hansen, Hass, Holvey, Hunt, Macpherson, Merkley, Nolan, Riley, Roblan, Rosenbaum, Shields, Tomei, Wirth, Witt; Absent, 1 – Kropf. Bill passed.

Buckley requested the following explanation of his vote be entered in the Journal:

“I voted “no” because HB 5169 does not provide nearly enough money for this independent agency to operate in an effective manner. The Government Standards & Practices Commission provides transparency and accountability to our democratic process. We should fully fund this commission, and this budget clearly does not.”

Dingfelder requested the following explanation of her vote be entered in the Journal:

“I voted against HB 5169 because the funding appropriation in this bill for Oregon’s Government Standards and Practices Commission (GSPC) is inadequate. More commonly known as the ethics commission, the GSPC helps ensure open public meetings investigates ethics complaints about public officials, and monitors money spent on lobbying. The commission is Oregon’s government watchdog and its sufficient funding is vital to ensure thorough government oversight and accountability.

“In 1991 the Legislature allocated funding for 7.0 FTE at the Commission, but subsequent legislatures have continually reduced its funding. In 2003 the GSPC was allocated just 2.8 FTE for a full time executive director and administrative assistant and a part time investigator who is responsible for monitoring the entirety of Oregon State Government. With such a small staff, the Commission is unable to investigate many of the complaints that are filed with it. HB 5169 would provide funding for only 3.0 FTE, only 0.2 more than last biennium and less than half the FTE of 1991. I believe that a much larger restoration of funding is necessary if we are to expect the GSPC to do its job effectively.

“An open and democratic Oregon needs a sufficiently funded Government Standards and Practices Commission. I am reserving my aye vote for a budget that will provide this funding.”

Tomei requested the following explanation of her vote be entered in the Journal:

“I voted against HB 5169, the budget for the Government Standards and Practices Commission. HB 5169 cuts the budget of this commission by 17%. This commission is responsible for monitoring the ethical standards of government officials. I strongly believe that government officials must be held accountable for their actions. While most government employees behave with the highest ethical standards, we need the ability to monitor and enforce; as President Reagan would say, “Trust but verify.” This budget is cut so drastically that we lose that ability. I cannot support it.

Hunt requested the following explanation of his vote be entered in the Journal.

"I oppose SB 5573 because it cuts \$1 million in general funds from the Elderly Rental Assistance Program. Additionally, it transfers \$10 million out of the Senior Property Tax Deferral Revolving Account, both of which will negatively impact low income seniors."

Tomei requested the following explanation of her vote be entered in the Journal:

"I voted against SB 5573, the budget for the Department of Revenue. SB 5573 has two provisions I cannot support.

"It transfers \$10 million from the Senior Property Tax Deferral Revolving Account to the General Fund.

"Oregon seniors continue to have unmet needs. These dollars should be allocated for services for seniors."

SB 5622 (A-Engrossed) – Read third time. Carried by Kropf.

Call of the House demanded by Kropf, joined by Buckley, Hansen, Morgan, Scott and Anderson. All present.

SB 5622 (A-Engrossed) – On passage of the bill the vote was: Yeas, 40; Nays, 20 – Ackerman, Barnhart, Beyer, Buckley, Dingfelder, Galizio, Greenlick, Holvey, Hunt, Komp, Macpherson, Merkley, Nolan, Riley, Roblan, Rosenbaum, Shields, Tomei, Wirth, Witt. Bill passed.

Dingfelder requested the following explanation of her vote be entered in the Journal:

“I voted against SB 5622 because the funding appropriation in this bill for Oregon’s Government Standards and Practices Commission (GSPC) is inadequate. More commonly known as the Ethics Commission, the GSPC helps ensure open public meetings, investigates ethics complaints about public officials, and monitors money spent on lobbying. The commission is Oregon’s government watchdog and its sufficient funding is vital to ensure thorough government oversight and accountability.

“In 1991 the Legislature allocated funding for 7.0 Full Time Equivalents (FTE) at the Commission, but subsequent Legislatures have continually reduced its funding. In 2003 the GSPC was allocated just 2.8 FTE for a full time executive director and administrative assistant and a part time investigator who is responsible for monitoring the entirety of Oregon State Government. With such a small staff, the Commission is unable to investigate many of the complaints that are filed with it. SB 5622 would provide funding for only 3.0 FTE, only 0.2 more than last biennium and less than half the FTE of 1991. I believe that a much larger restoration of funding is necessary if we are to expect the GSPC to do its job effectively.

“An open and democratic Oregon needs a sufficiently funded Government Standards and Practices Commission. I am reserving my aye vote for a budget that will provide this funding.”

Tomei requested the following explanation of her vote be entered in the Journal:

“I voted against SB 5622, the budget for the Government Standards and Practices Commission. SB 5622 cuts the budget of this commission by 17%. This commission is responsible for monitoring the ethical standards of government officials. I strongly believe that government officials must be held accountable for their actions. While most government employees behave with the

highest ethical standards, we need the ability to monitor and enforce; as President Reagan would say, “Trust but verify.” This budget is cut so drastically that we lose that ability. I cannot support it.”

Hunt requested the following explanation of his vote be entered in the Journal:

“During the 2003-04 Interim, a group of Grandparents raising Grandchildren contacted me to support legislation that would assist them and their families. Since that time, I have met with many grandparents from Clackamas County who find themselves raising their grandchildren and great-grandchildren.

“According to some estimates, there are currently 8 million children in America being raised by their grandparents. The needs of these families are diverse, ranging from financial assistance to legal standing with the courts. Through my work with the grandparents in Clackamas County, I have learned about the complex legal issues surrounding placing children who are in the legal custody of the Department of Human Services.

“I personally agree with many of the grandparents from my district that the courts should always consider the best interest of the child standard when making placement, custody, and adoption decisions. However, the U.S. Supreme Court has ruled in the *Troxel* decision that this is not the first standard to be considered in these decisions – and hence we are reliant on the Supreme Court to remedy this situation.

“Grandparents should have stronger rights to raise their grandchildren, especially when such a situation is in the best interests of children. For all these reasons, I voted for House Bill 2009.

“HB 2009 is not a perfect bill. I share the concerns raised in committee and on the House floor that the bill does not provide adequate protection for caregivers and psychological parents when making these decisions. I’m confident that these protections can be added in the Senate.

“The placement of children will always be a complex and difficult issue. There are many factors and competing interests that must be balanced and considered. Until the Supreme Court restores the best interest standard, we must continue to search for ways to balance the need to protect children and protect the rights of grandparents, psychological parents, and birth relatives.”

HB 2480 – Message from the Governor announcing he vetoed on July 19, 2005.

July 19, 2005

The Honorable Karen Minnis  
Speaker of the House  
Oregon State House of Representatives  
Oregon State Capitol – Room 269  
Salem, OR 97301

Dear Speaker Minnis:

I am returning Enrolled House Bill 2480 unsigned and disapproved.

Since I took office, I have been advocating to strengthen the Department of Human Services' (DHS's) ability to effectively manage the Oregon Health Plan's (OHP's) fee-for-service prescription drug program. In my view, effective management requires not only financial accountability, but also the optimization of patient care. When those objectives are achieved, the state is not only able to provide appropriate medical care to existing OHP clients; it is also able to maximize the number of people to which it can provide health coverage -- a public policy that benefits all Oregonians.

Existing statutory limitations already compromise the state's ability to most effectively manage the OHP fee-for-service drug benefit. As my office has written to you in previous letters, HB 2480 would further inhibit the state's ability to effectively manage that benefit.

DHS currently provides effective treatments for people on the Oregon Health Plan with hepatitis C infection. Their program is consistent with the clinical guidelines established by national experts and the administrative procedures used by Oregon's health insurers. HB 2480 could prevent DHS from continuing to effectively manage their prescription drug program for the treatment of hepatitis C in a manner that ensures that patients most likely to benefit from treatment receive the appropriate medications.

People on the Oregon Health Plan are some of our most vulnerable citizens. It is imperative that everyone on the Oregon Health Plan, regardless of their illness or social circumstances, receive the best medical care possible. It is my obligation, indeed our collective obligation, to ensure that *everyone* on the Oregon Health Plan receives the appropriate medical care.

Sincerely,  
Theodore R. Kulongoski  
Governor

Speaker Pro Tempore in Chair.

Call of the House demanded by Krieger, joined by Macpherson, Riley, Thatcher, Sumner and Olson. All present except: Excused (not subject to Call), 1 – Lim.

HB 2485 (B-Engrossed) – On passage of the bill the vote was: Yeas, 55; Nays, 4 – Butler, Kropf, Nelson, Wirth; Excused, 1 – Lim. Bill passed.

Butler requested the following explanation of his vote be entered in the Journal:

“Because of the concerns I’ve spoken today on the House floor, I have voted, “no” on HB 2485-B. Because of the legal access to pseudophedrine in all neighboring and all Western States, my greatest fear that this bill raises is that we will push legal purchasers of pseudo’s to neighboring states.

“Also, visitors to Oregon can be punished and fined for bringing their cold medicines to Oregon (while forcing other visitors to Oregon to seek Medical providers to prescribe common cold medicines). While we seek for reasonableness in policing and sanctions, this bill contains no such language.

"In addition, because Oregon stands alone in this endeavor, I fear that medical practitioners will bear a much greater burden to call-in RX for their patients with common colds.

"For these and so many other concerns -- why must Oregon be on the leading edge? I believe that my constituents would be better served to not pass this severe legislation at this particular time. There will be many unintended consequences of this law.

"Finally, I plead for the State Board of Pharmacy to work with the national pharmaceuticals to address once and for all the problem of domestic manufacturing of methamphetamines."

Anderson requested the following explanation of his vote be entered in the Journal:

"This bill has given me more unrest than most this whole session.

"I came to Salem in January with the voices of our district attorney and our sheriff ringing in my ears to increase the severity of improper use of methamphetamine. I wrote a bill to change the classification of this terrible chemical because it is destroying families all over our county and our nation. That attempt was incorporated into a major strike at the abuse of meth, HB 2485, sponsored by the Judiciary Committee.

"Then, several weeks ago, I sent out a questionnaire regarding that bill, asking if you all supported (1)."Behind the counter" controls as we presently have or (2). "Prescription only." The results were astounding! A very high percentage of my constituents voted for keeping Sudafed precursors for cooking meth behind the counter. Because of the possible inconvenience to some who don't do well on alternative medication and the added costs for getting a prescription from a physician, I resolved to vote for continuing behind the counter with identification sales.

"The Judiciary Committee members did a recent experiment and in the space of one hour they were able, with little difficulty, to purchase large amounts of the drugs that can be cooked into methamphetamine.

"Then, last week, while I was home for a few days, I visited the Child Welfare Office (Children, Adults and Family Division of the Department of Human Services). In conversation with one of the caseworkers, she mentioned that 18 out of her 20 cases were related to methamphetamine abuse. In addition, she indicated that was average for all the local caseworkers.

"I found out that over the past ten years, the number of methamphetamine "drug busts" had soared nationally from 116 to 17,000!!!

"Moreover, 90% or close to all the property crimes in Josephine County, are directly related to meth abuse. And in our state the greatest increase in use of meth is among young girls under 17 who are trading sex for the drug.

"While I had committed to voting against making this "prescription only" legislation, I realized this is not a situation of convenience anymore. While I hope that there can be a way for the very poor that MUST have Sudafed to get prescriptions inexpensively from a doctor and for all others who can get along on the hundreds of other meds that can substituted, we are in a terrible epidemic. It is destroying lives every day and bringing little babies into the world deformed and challenged severely. If cost were the only determinant, the price to our society will be much greater in Emergency Room treatment, lost manpower at work, and loss of life than we can afford.

"I realized as I struggled over my decision that regardless of the political fallout, I must join in the effort to bring this epidemic to a halt soon. Our federal government is now working on halting the flow of the precursor chemical from China and elsewhere to Mexico where much of the methamphetamine is being "cooked" and shipped to our country. Working from both ends of this problem, we must move quickly.

"I decided I must join with all the voices of Public Safety and our Courts to vote FOR HB 2485. I hope we can look back in several years and return to purchasing new forms of this drug over-the-counter as we have in the past. But for now, I ask your

understanding as I vote YES on HB 2485 to make Sudafed a prescription-only medication in a desperate attempt to kill this epidemic."

HB 3328 (2003 Regular Session) – Message from the Governor announcing he vetoed on September 25, 2003.

September 25, 2003

The Honorable Bill Bradbury  
Secretary of State  
900 Court Street NE – 136 State Capitol  
Salem, OR 97301

Dear Secretary Bradbury:

I am returning Enrolled House Bill 3328 unsigned and disapproved for the reasons below.

House Bill 3328 was intended to clarify Oregon ethics laws by expressly allowing public officials to accept nonremunerative benefits if approved by certain employers (local government, the Oregon university System and the Oregon Health Sciences University), by providing a defense to alleged violation of the ethics laws based on advice of legal counsel and by expanding disclosure requirements for family members of public officials and lobbyists. It also would allow the Government Standards and Practices Commission to review electronic recordings of executive sessions when investigating complaints and to use the Commission's enforcement discretion to send letters of reprimand to public official charged with violations after investigation and review, in lieu of civil penalties.

The ethics laws are certainly in need of revision and clarification and this bill accomplishes several important objectives. And, I commend the sponsors and proponents for their effort in addressing some needed changes in the law as I have noted. But, I nonetheless veto House Bill 3328 because it does not achieve its primary goal: clarification of the ethics laws.

Indeed, I believe it may have further confused this critical area of Oregon law. House Bill 3328 also attempted to allow relatives of a public official to receive food, lodging or travel in excess of the current statutory limit of \$100 cumulative per year. While I am troubled by the expansion of this ability to accept food, lodging and travel to all relatives of a public official, additional changes under the bill prohibit public officials and relatives from using the office for personal gain and may in fact restrict their range of activity well beyond current law and certainly beyond the intent of the drafters. In this way, I believe House Bill 3328 confuses Oregon ethics laws rather than brings clarity to the law that all public officials desire.

Our ethics laws cannot be a matter of public confusion. The public and its public officials must have a clear legislative directive about acceptable behavior and a consistent and predictable legal standard to apply to their conduct. Government must be accountable to the public, but to be accountable public officials must have clear understanding as to the public's expectations. Moreover, public officials must have a legal standard that is fair and when applied to their behavior the outcome must be predictable. Only then will public officials be able to meet the public's expectations. While I look for legislative reform to Oregon's ethics laws, this subject deserves careful attention, expert resources and time. To that end, I will request the Oregon Law Commission to address the subject during the interim and to develop recommendations for a comprehensive, consistent and predictable legal standard for Oregon. Those changes should take into account the desires of the Legislative Assembly as expressed in House Bill 3328. It is my desire that the Oregon Law Commission provide recommendations to be submitted in the next legislative session.

Sincerely,  
Theodore R. Kulongoski  
Governor

“I voted against SB 1076 that deals with the Oregon Health Policy Commission. I firmly believe we need to take proactive steps to address childhood obesity, both for the physical health of our community and also for the economic impact to our health care system. This study would be an important first step and should be included in SB 1076.”

Tomei requested the following explanation of her vote be entered in the Journal:

“I voted against SB 5602, the budget for the Secretary of State. This budget did not include adequate funding for the Audits Division to carry out its duties. At a time when efficiency in government is touted as a highest priority, adequately funding the Audits Division is critical. A recent study showed that for every \$1 spent on audits, we identified \$31 in possible savings. This return is staggering, and we should capitalize on audit investment. Under-funding the Audits Division undermines the claim of promoting accountability and efficiency in state government.”

“I voted “No” on SB 5612 because it contains a budget note that purports to order the Oregon Department of Forestry to violate its scientifically based harvest schedule by over cutting. If we are ever to have an honest and scientifically based public forest land policy in Oregon and in the United States, the legislature must stop interfering with scientifically based sustainable harvest plans.”

Holvey requested the following explanation of his vote be entered in the Journal:

“The proposed budget for the State Commission on Children and Families (HB 5112) is inadequate and fails to access available funds that are forecasted and have not been dedicated for a specific purpose. This budget reduces vital services in the Healthy Start Program for Oregonians with crucial needs. Meanwhile, revenues with no dedicated purpose are projected to be available and could be utilized to fund these services. Therefore, I opposed HB 5112.”

Anderson requested the following explanation of his vote be entered in the Journal:

“I originally voted for this bill because it contains funding for many vital services provided by the Department of Human Services.

“The services provided for Seniors and People with Disabilities that assist those that are unable to provide for themselves or are in need of some assistance are the mark of a society that cares about those who are weaker.

“While I strongly disagree with the systems and procedures of the Children, Adults and Families, I agree that their goal to protect children and restore families to wholeness at the earliest possible moment is admirable and should be sought. There is funding needed to accomplish these goals, but hopefully in a drastically more efficient and sensitive manner and I hope to work in the interim to expose many of the tragic failures of their system.

“The health services provided for in the Oregon Health Plan and the funds passed to the county health departments for a multitude of programs are crucial to the well-being of the citizens of Oregon. I wish there were more funds available to lighten the burden on many who are overwhelmed by the costs of health care today, but I voted to give what could reasonably be given to support these needs without cutting off other desperate needs.

“Originally I voted for the whole Department budget and then at the end of the floor session I asked that my vote be changed from Aye to Nay because my vote would not make a difference to the funding of these various agency budgets for the following reason. Included in the overall budget, there is a line-item to appropriate funds for paying for abortions. I strongly oppose the use of taxpayer dollars to fund the taking of the life of a fetus. Our society would be much wiser to support adoption of these little human beings than to callously snuff out the life God has placed within them. Therefore I used my change of vote to register my sentiment against this funding for this form of murder, abortion on demand.

Barnhart requested the following explanation of his vote be entered in the Journal:

“I voted against HB 5148-B because of the cut in General Assistance, help to Oregon’s one thousand most needy, and the failure of this bill to adequately support the Oregon Health Plan. The bill is much better than the A-Engrossed version, but not good enough.”

Holvey requested the following explanation of his vote be entered in the Journal:

“The proposed budget for the Department of Human Resources (HB 5148) is inadequate and fails to access available funds that are forecasted and have not been dedicated for a specific purpose. This budget reduces vital services including General Assistance and health care services for Oregonians with crucial needs. Meanwhile, revenues with no dedicated purpose are projected to be available and could be utilized to fund these services. Therefore, I opposed HB 5148.”

"As a social worker who's worked with sexually abused children, I cast a very difficult NO vote on HB 3507, a bill to increase penalties for sex offenders whose victims are under 12 years old. Sexual predators who victimize children are monstrous criminals and deserve severe penalties. But this bill is a knee-jerk, feel-good response to recently publicized cases. HB 3507 has been rushed through the hearings process without adequate input from district attorneys, probation officers and family violence advocates. This is a serious issue that needs thorough and thoughtful discussion; it is too important for hasty consideration."

“The proposed budget for community colleges and capital construction (SB 5514-A) is inadequate and fails to access available funds that are forecasted and have not been dedicated for a specific purpose. This budget was ample for capital construction however I was unable to vote for it because of the lack of money designated for community colleges. Meanwhile, revenues with no dedicated purpose are projected to be available and could be utilized to fund these services. Therefore, I opposed SB 5514-A.”

Tomei requested the following explanation of her vote be entered in the Journal:

“I want to explain my vote against SB 5514, the Higher Education Capital Construction budget. The bonding authority for the OUS system is certainly fine and I support that piece. But I vote NO on this budget because of the inadequate and arbitrary allocation of funding for the Community College System. After two years of the community colleges working together to identify a priority list addressing their needs as a whole, the legislative leadership disregarded this work and used community college funding as a system of pork barrel rewards. Our community colleges deserve better and I will not add my approval to this process with an YEA vote.”
