ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

(1) The section, series of sections or chapter of Oregon Revised Statutes.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a bill or measure are “added to and made a part of” the ORS chapter or series.

(3) The following information about the section and bill or measure by which ORS is amended, repealed or “added to”:

(a) The section number and Senate or House bill number for the 2007 bill;

(b) The section number and current session bill number or previous session bill number for the bill repassed over the Governor’s veto during the 2007 session (such as “§3 OV 3333” for a current session overturned veto or “§4 OVP 4444” for a previous session overturned veto); or

(c) The section number and boldfaced ballot measure number for the initiative petition approved at the November 2006 election (such as “§5 BM 55”).

The engrossing level is printed next to the bill number if the bill has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The bill or measure number and engrossing level appear in boldfaced type if the bill or measure has become law, or has been referred, and has been assigned a 2007 Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.

(2) If a member refuses to vote when the member's name is called, the Speaker shall immediately call for the member's vote a second time. If the member again refuses to vote, the Speaker shall read subsection (3) of this rule. The Speaker shall then call for the member to announce the member's vote immediately. If the member fails to vote immediately after this third request, the Speaker shall state for the record: "The member's failure to vote constitutes an intentional violation of House Rule 3.20, subsection (1), and a high breach of decorum. The journal shall show that the Representative is censured for the violation; the clerk shall record the Representative's vote on the measure on which the member refused to vote as a 'yea;' and the member may also be subject to other penalties as the House may order."

(3) Any member's refusal to vote, as required by House Rules, shall be recorded in the journal as an intentional violation of House Rule 3.20, subsection (1), and a high breach of decorum. The Representative shall be censured; the clerk shall record the Representative's vote on the measure on which the member refused to vote as a 'yea;' and the member may also be subject to other penalties as the House may order.

No member shall vote or be allowed to change their vote after the presiding officer announces the result of the roll call by declaring the question has passed or failed to pass.

**3.21 Announcement of Conflict of Interest.** (1) When involved in an actual or potential conflict of interest, as defined by ORS 244.020, a member shall announce, on the floor or in the committee meeting, the nature of the potential conflict prior to voting on the issue giving rise to the potential conflict.

(2) The member's announcement of an actual or potential conflict of interest shall be recorded in the Journal or in the committee minutes. If the member desires to have any more than the announcement recorded, the member shall file in writing a statement of the nature of the potential conflict with the Chief Clerk or the committee assistant by 5:00 p. m. the next session day following the vote on the measure. The statement shall be limited to the substance of the oral explanation given on the floor or in committee.

**3.26 Electronic Roll Call; Time, Changes.** When a vote is taken using the electronic voting system, the members shall be allowed at least thirty seconds to vote, at the end of which time, the clerk will display the vote. After the individual votes have been displayed, any member desiring to change his or her vote may so announce. The presiding officer shall direct the Chief Clerk to make the proper entry into the electronic voting system.

**3.28 Electronic Roll Call; Misuse, Penalties.** No member shall vote for another member using the electronic voting system. No member shall tamper with, alter or attempt to alter the electronic voting system, or cause the electronic voting system to register a vote without the member personally depressing a voting button during each roll call vote. Any member who violates this rule may be punished as determined by the vote of 31 members. If a person not a member votes or attempts to vote for any member or violates a provision of this rule, he or she shall be barred from the floor of the House for the remainder of the session, and he or she may be punished further as determined by the vote of 31 members.

The vote explanation filed under this subsection must comply with subsection (2) of this Rule. If the explanation does not meet those requirements, the Speaker may refuse to cause the explanation to be printed in the Journal.

(2) The vote explanation shall be germane to the subject and shall not reflect on the honor or integrity of any other member. If the explanation does not meet the requirements of this subsection, the Speaker may call the member violating this subsection to order.

**3.45 Printed Measures Required for Voting.** No measure or amendment to a measure shall be finally voted on until it has been printed and placed on the desks of the members.

**3.50 Third Reading Requirement.** (1) No bill shall pass the House until after third reading and no measure shall be read more than once in any one day.

(2) A bill may be referred or re-referred to committee on third reading.

**3.55 Call of the House.** (1) Six members may demand a call of the House at any time before a roll call has begun.

(2) Upon a call of the House, the doors shall be closed until proceedings under the call have been terminated. No other business shall be transacted until the proceedings are so terminated.

(3) Upon a call of the House, the Sergeant at Arms shall cause all members who are not excused to come to the floor. If the Sergeant at Arms cannot locate any unexcused member, the Sergeant at Arms shall so report to the Speaker who shall announce the fact to the members.

(4) All members must remain within the bar of the House until the vote is taken for which the call was made. However, when the House is waiting for an unexcused member and the presiding officer has announced the House is "at ease," the members may

have access to the area behind the rostrum included in the Speaker's office until the presiding officer calls the House to order. Members must then return to within the bar.

Flores requested the following explanation of her vote be entered in the Journal:

"During the 2007 Legislative Session I voted against a similar bill for many of the same reasons I cast a 'no' vote on HB 3616. While the intent of this legislation is good – helping families cover the cost of therapy and counseling – it has the potential to create problems in other areas.

"I'm usually not a big supporter of mandates on health insurance carriers and I view this bill as one of those mandates. Research has shown it is better to allow private sector companies to compete for business. If they believe including coverage for services by licensed professional counselors and licensed marriage and family therapists will help bring in customers or be in the best interest of their patients – then perhaps they would add that coverage without the government forcing them.

"Mandates often have other unintended consequences like causing health insurance companies to raise premiums and co-pays because they have to pass increased costs along to their customers. I fear that may happen in this case. If we allow those companies to make their own decisions on coverage (without a mandate) perhaps they would find other services from other providers which are less expensive to patients.

"I have not seen any testimony showing patients are suffering because their health insurance company doesn't cover these kinds of services from these therapists and counselors. In fact, since Senate Bill 1 became law in 2005 requiring mental health parity, we should see more of this kind of mental health services being offered by insurance companies in Oregon. (And yes, SB 1 was one of those rare occasions where I felt it was important to support a health care mandate and I voted in favor of that legislation.

"I should add I do like some components of the measure which seeks to crack down on unlicensed individuals and help ensure only qualified individuals are providing this kind of treatment and that they are properly credentialed by the state through the licensing process.

“Finally, the proponents claim they brought this issue forward after learning of media reports. I’m not sure we should be ‘legislating by sound bite’. This is also one of the many bills in this 2008 trial session that does not rise to the level of ‘emergency’ and could be better and more fully dealt with in the 2009 regular session.”

By implied consent, rules suspended to temporarily return to the order of business of Standing Committee Reports.

Smith; Excused, 1 – P. Smith. Bill passed.

Bentz requested the following explanation of his vote be entered in the Journal:

“These are my reasons for voting against HB 3631A: 1. The bill did not establish a clear standard for the retailers; 2. the bill did not define ‘warning’; 3. the bill did not establish a single source of information for the retail industry to rely upon in removing items from the shelf; 4. the bill contains a ‘private right of action’ provision which makes clarity an absolute necessity or the burden placed on the retailer is exorbitant.”

Boquist requested the following explanation of his vote be entered in the Journal:

“HB 3631 is an exceptional children’s protection bill that deserves passage once amended in the Senate this session. I’ll be working with other Representatives and Senators to amend the false litigation portion of the existing bill unrelated to protecting children. Members of the majority in the Senate have indicated they will work with us to improve and strengthen the bill then return it to the House.”

Burley requested the following explanation of his vote be entered in the Journal:

“I am a strong supporter of consumer protection efforts and overwhelmingly interested in the safety of our children. This bill, however, does not accomplish these goals. I voted against this bill because I was concerned with the language ‘a private right of action’ whereby a retailer would be held accountable when a product recalled was not promptly removed from the shelf. Furthermore, the retailer could then be sued for attorney’s fees and

punitive damages even if it had been an innocent mistake made by human error.”

Cameron requested the following explanation of his vote be entered in the Journal:

“On the surface, this bill appears to deal with safety for our children. Its does add more regulation into Oregon law that deals with recalled toys. I support the intentions of this bill, as it does take steps to strengthen prosecution of those who knowingly sell recalled potentially dangerous toys.

“However, this bill is extreme in its expansion of the ‘right of action’ of consumers to go after manufacturers or retailers of recalled toys which may lead to all sorts of litigation against innocent retailers. A second hand ‘goodwill’ retailer may not have the ability to locate the toys. A fire department toy drive or a KGW toy drive would now become potential targets of unnecessary lawsuits.

“As a parent of two adult daughters and one who desires to protect the future grandchildren of mine and others, I understand the importance of going after the ‘knowingly bad retailer.’ I would appreciate it if the Senate would keep the tougher prosecuting features of this bill, while protecting those who are trying to do the right thing.”

Flores requested the following explanation of her vote be entered in the Journal:

“This is a very tough vote. On the surface – it appears to be about safety for children by adding more regulation into Oregon law to deal with toys which have been recalled. However, once you look beyond the surface and review the facts you’ll find there are many things about this measure which are very problematic. I like the intent of this legislation and the desire to protect children, but there flaws that need to be addressed. If the Oregon Senate is able to modify the bill to fix these flaws, I will support HB 3631.

“First, there was no testimony on the number of kids who have actually been harmed by recalled toys in Oregon, or how many children have been harmed because we don’t have the new language in the law that this legislation provides. So, I’m not sure we are solving a problem here.

“Yes, there have been thousands of toys recalled and that is a concern for parents, but we already have state and federal law, state and federal agencies charged with enforcing these safety laws. This legislation does help strengthen the ability of those agencies to take steps to prosecute anyone knowingly selling dangerous toys which have been recalled. However, it goes too far in one section which is harmful, especially to small businesses.

“Consumers in Oregon already have a right of action to go after manufacturers or retailers of recalled toys. The section in this bill which allows a private right of action could lead to all sorts of litigation against innocent parties. What about a small toy shop which didn’t check the latest recall web page every five minutes and left a toy on the shelf that was added to the list? Section 1 of the bill includes a definition of ‘retailer’ which covers those who ‘otherwise distribute a children’s product to consumers in this state.’ This could potentially include the local firefighters’ Toy and Joy drive at Christmas, or a Goodwill Store, or a preschool. It would be very difficult for them to police their supplies every day to figure out which items are acceptable and which aren’t.

“As a grandmother of 10 young children I worry every day about what they might encounter in their daily activities: Are they playing out in the sandbox? Are they over at the neighbor’s house horsing around with their toys? I believe parents and other adults in a child’s life need to take responsibility to supervise what they’re getting into and the kinds of toys they’re playing with. I can watch the news and surf the web to see which toys are good or bad for kids. Yes, some government oversight is good but too much that goes too far may do more harm than good. One final note, this legislation is driven by headlines in the media, rushed through the process and was not given the full attention it deserves.”

Huffman requested the following explanation of his vote be entered in the Journal.

“I voted no on House Bill 3631 because, in my opinion, the way this bill is worded could subject Oregon businesses to unnecessary litigation. Complaints made by consumers could be handled at the agency level, rather than by the courts.”

Jenson requested the following explanation of his vote be entered in the Journal.

“House Bill 3631 is a well intentioned bill to protect our children from toys that have been recalled. As such it was difficult to vote against it. However, HB 3631A goes too far when it makes retailers unknowingly liable for merely stocking a toy that becomes subject to a recall from any ‘federal agency,’ even though the Attorney General’s website only will show recall notices from the Consumer Product Safety Commission.

“HB 3631-A makes a retailer subject to class action law suit attorney’s fees, even if the retailer was unaware that a federal or manufacturer’s recall existed. It is my intention to support this legislation when it comes back from the Senate with an amendment to correct this problem.”

Lim requested the following explanation of his vote be entered in the Journal.

“The Legislature has a responsibility to pass laws to protect the children of our state. While House Bill 3631-A is a well-intentioned bill to regulate toy sales, the current version has serious flaws that will expose Oregon’s small businesses to endless litigation.

“Oregon children need to be protected from recalled toys. However, HB 3631-A unnecessarily places the act of selling recalled toys in the Unlawful Trade Practice statute. This means that a retailer has committed fraud even if he or she unknowingly sells a recalled toy. Under HB 3631-A, a plaintiff wouldn’t have to prove an injury actually occurred. A small business owner who committed an honest mistake could be forced to pay damages and hundreds of thousands of dollars in attorney’s fees.

“HB 3631-A will result in significantly higher legal and insurance costs for Oregon’s small businesses. If passed in its current version, it is impossible to calculate the number of jobs that could be lost.

“Few, if any, Oregon small retailers would knowingly sell dangerous toys for children. We need to identify more efficient ways to get recalled toys off the shelves. Rather than targeting small retailers, it would be more effective to locate and remove recalled toys on the wholesale and distribution levels.

“I support efforts to improve toy safety, and I hope HB 3631-A will be improved in the State Senate to accomplish this very important goal. Until the flaws in this legislation are fixed, I cannot support a measure that would needlessly cripple Oregon’s small businesses- the backbone of our state’s economy.”

Maurer requested the following explanation of his vote be entered in the Journal.

“The intention of protecting our state’s children is clearly a noble goal and I would support this bill if one simple change was made.

“HB 3631A goes too far by including a private right of action and unnecessarily places the act of selling a recalled toy in the Unlawful Trade Practice statute (ORS 646.608). This triggers the private right of action which means that a retailer who unintentionally sells a product subject to a recall from ANY federal agency is open to a lawsuit.”

Minnis requested the following explanation of her vote be entered in the Journal.

“I voted ‘no’ on HB 3631 because I do not believe enough time was spent developing this legislation and fatal flaws remain in its language. Having four young grandchildren, I am very sensitive to this issue. It is my hope that the Senate will correct the flaws in the bill and that I will be able to support the amended bill when it returns to the House for Concurrence.”

Olson requested the following explanation of his vote be entered in the Journal.

“Often while crafting legislation we hear ‘the devil is in the detail’. Unfortunately, this is one of those where we all agree with the concept of protecting children; however I believe the detail of how we get there in this case will have negative effects on Oregon.

“As a parent, grandfather, law enforcement officer, and now representative of the people of Oregon I have always been an advocate for child safety. It is our duty to protect those that can not take care of themselves. It is clearly the intent of this bill to do that, however, there are too many flaws in details of this bill for me to support the bill in its current form.

“We are all concerned about lead poisoning and its effect on children. But creating a private right of action against small business is not the way to do this. This bill is a trial lawyer’s dream. It does not require an actual injury. A trial lawyer can sue over a simple mistake, even if no one is injured! Damages may only be \$10, but the tens of thousands of dollars of attorney’s fees could put many small family businesses out of business. This is simply wrong, and that is part of why I voted no on this bill.

“In addition innocently selling a recalled toy is not fraud, it does not belong in the Unlawful Trade Practice statute. These statutes are for those that truly commit fraudulent acts, such as using false, misleading, or deceptive statements. A retailer who makes a mistake should not be treated as if they intentionally lied or defrauded someone.

“This bill also has the potential of putting other organizations that distribute toys, such as the local firefighters’ Toy Drive, or Good Will stores, or preschools at risk. It will be very difficult for them to check their supplies every day to see which items are acceptable that day and which are not.

“I voted NO because this bill needs much more work before being enacted into Oregon Law. I hope my colleagues on the Senate can fix this bill, or reject it allowing future Legislators the time needed to work out these problems before this concept becomes law.”

Sprengr requested the following explanation of her vote be entered in the Journal:

“I am a strong supporter of protection for our children in making sure that toys are safe. However, this bill in its current form will open the door wide for unreasonable litigation and undue burden on our small businesses. This bill contains a provision for a private right of action which means an individual can sue the retailer directly and receive attorney’s fees, which could put many small retailers out of business. A retailer can be sued for attorney’s fees even if no one was actually harmed by the toy and even if the retailer did not know the toy had been recalled. Legislation that encourages litigation does not serve our state well. I would strongly support a bill that protects both children and small businesses.”

Thatcher requested the following explanation of her vote be entered in the Journal.

“I voted no on HB 3631-A because it will create more problems than it seeks to address. The goal of the state should be to increase compliance with recall notices by everyone, not to punish small businesses that make innocent mistakes. Current statutes allow for lawsuits against businesses on behalf of those who are harmed by recalled toys. This bill really won’t add much to the existing legal protections we already have on the books to protect Oregon’s children from recalled toys, but instead it will open up Oregon’s small business retailers to lawsuits through an unprecedented application of the Unlawful Trade Practice statute.

“There are two other areas of concern that will also result in unwanted consequences for Oregonians. First, a literal reading of Section 2 of the bill could result in most or all toys being removed from retailers shelves. This is because most toys contain warnings issued by the toy manufacturer stating that the toy may constitute a health or safety hazard to children below a particular age group. Section 2 prohibits the sale of a toy that is subject to any warning

issued by the manufacturer of the product; that would apply to most toys. This language needs to be changed in order to not inadvertently prohibit the sale of most toys in Oregon.

“Second, the bill would effectively stop all non-profit second-hand stores from accepting any toy donations for resale. Section 1 defines a retailer as ‘a person that, in the ordinary course of the person’s business...distributes a children’s product to consumers in this state’; that would include Goodwill Industries, and the like. Most used toys that otherwise would have been donated to a place like Goodwill, would either be retained by the consumer, sold at garage sales, or dumped in the garbage. This does nothing to protect children.

“If the Senate is able to amend these Sections to make the bill more workable and less punitive toward small businesses, non-profits, and charitable organizations, I might consider changing my vote when it returns to the House Floor.”

Whisnant requested the following explanation of his vote be entered in the Journal.

“I have a 3 year old grandson, Colby, whose safety is very important to me. I would do anything to protect him from harm and unsafe toys which HB 3631A relates to.

“However, this bill adds more regulation into Oregon laws to deal with toys which have been recalled. Also, HB 3631 goes too far by including a ‘private right of action’ and unnecessarily places the act of selling a recalled toy in the Unlawful Trade Practice statute (ORS 646.608). This triggers the ‘private right of action’ which means a retailer who unintentionally sells a product subject to a recall from any federal agency is open to a lawsuit.

“Consumers in Oregon already have a right of action to go after manufacturers or retailers of recalled toys without this bill. Also, we already have state and federal law, state and federal agencies charged with enforcing safety of product laws.

“If the Senate accepts an amendment which our caucus supported, I hope I will be able to vote for the amended bill as a symbolic act stating that we all want to protect our children, grand children and all children from unsafe toys.”

Smith, P. Smith, Sprenger, Thatcher, Whisnant. Resolution adopted.

SB 1101 – Read first time and passed to Speaker's desk for referral.

SB 1063, 1078 – Referred from Speaker's desk to the following committees: 1063 – Business and Labor; 1078 – Government Accountability and Information Technology.

SB 1101 – Referred from Speaker's desk to the Committee on Revenue.

SB 1080 (A-Engrossed) – Read third time. Carried by Beyer. On passage of the bill the vote was: Yeas, 45; Nays, 15 – Barnhart, Bonamici, Buckley, Cannon, Dingfelder, Gelser, Greenlick, Holvey, Kotek, Macpherson, Nathanson, Nolan, Rosenbaum, Shields, Tomei. Bill passed.

Barnhart requested the following explanation of his vote be entered in the Journal:

"In deciding to vote 'no' on SB 1080, I focused on the negative effects on public safety this legislation is likely to have. Many law enforcement agencies and leaders including Eugene's Chief of

Police indicated that this proposal may make some problems worse.

"Citizenship and immigration control are responsibilities of the federal government, while our responsibility in the Legislature is the safety of Oregon roads. This is not the right approach to accomplish the goals of improving road safety, ensuring that drivers have insurance, and reducing the prevalence of fraudulent documents."

Bonamici requested the following explanation of her vote be entered in the Journal:

"Today I voted no on SB 1080-A for the following reasons:

"The primary purpose of licensing drivers is to assure that they have reached a certain level of competence behind the wheel so that our roads are safe. SB 1080-A will result in an increase in people driving without a license, and therefore without an assessment of their driving skills and without insurance.

"SB 1080-A will make it significantly more difficult, if not impossible, for many legal residents of Oregon to get their driver licenses. Our public safety and health services systems simply function better if all residents have identification. The stringent documentation requirements will be an insurmountable burden particularly for our most vulnerable, including the homeless, victims of domestic violence, low-income Oregonians, working poor, and the elderly. Often they will not have or be able to get certified copies of birth certificates, especially if they were born in another state.

"Under SB 1080-A, the DMV must establish that the applicant's name and birth date are an exact match with the Social Security Administration's database before issuing a driver license. The Social Security Administration databases, however, are frequently full of errors that are not the fault of the applicant. Birthdates and names may have been entered erroneously, discrepancies in spellings, use of middle names, and name changes after marriage or divorce can all result in a mismatch. The ombudsman program established by SB 1080-A is a woefully inadequate solution to this problem because there is no funding source. The temporary license, which has no photograph, is a meaningless remedy because people who go to the Social Security Administration to try to resolve any discrepancies with their records will not be able to enter the federal building without photo identification.

"Identity theft is of great concern to many Oregonians. The creation of a database with social security numbers and birth certificate documents at the DMV will be a gold mine for ID thieves. Many people have expressed concern about this provision.

"Oregon already uses a secure biometric photograph for driver licenses, and that photograph stays on file with the DMV. Yet under SB 1080-A, when a license is lost or stolen the DMV is not permitted to use that photograph to verify identification. Accordingly, Oregonians will need to collect all of their original documentation again to get a replacement license. This creates an undue hardship, especially on vulnerable populations.

"Additionally, SB 1080-A does not permit the use of an expired passport to prove identity regardless of the length of time it has been expired. There is no evidence that an expired passport is unreliable, especially if it has expired within the past 5 years. This will create significant problems and expense to U.S. citizens, especially the elderly who may have trouble obtaining their original or certified birth certificates.

"I am concerned that the passage of SB 1080-A will create a new and thriving market for false identification, and in no way do I condone that behavior. But people need to drive. They need to be able to get to work, go to the grocery store, and to take their kids to the doctor. It is a pipe-dream to believe that the requirements of SB 1080-A will mean that people who can't meet the documentation requirements of the bill will simply stop driving.

"Finally, it is even more of a pipe-dream to believe that SB 1080-A will solve the issue of illegal immigration. I recognize that many Oregonians are deeply concerned about people coming to this country without proper documentation, but SB 1080-A is not the solution. People come here to work, usually at unskilled, low wage

jobs in the service industry or in agriculture. They come here for jobs they can't find at home. They seek a better life for their children. They believe in the American dream. And as long as the jobs are here rather than in their home country, they will continue to come.

"We need comprehensive immigration reform at the national level. To attempt to solve this admittedly serious issue with SB 1080-A is like putting a tiny band-aid on a gaping wound. And the result will be more dangerous driving conditions. Chief Ron Louie, the retired Chief of Police of Hillsboro and Astoria, has 33 years of experience in law enforcement. In his testimony in opposition to this bill, he recognized that 'mandating proof of citizenship or residency status before issuance of a drivers license will have the unintended consequence of increasing unlicensed and uninsured drivers.' I agree."

Boquist requested the following explanation of his vote be entered in the Journal:

"SB 1080 is a 75% solution to several identification issues in Oregon. It should have had an alternative to social security cards for the rare exceptions citizens lack proper documents. This will need fixed in 2009. It is an alternative to a federal national ID card but may not stop such action by the federal government. Oregonians are already disadvantaged in other States due to our existing poor licensing procedures. Lastly, ODOT is attempting to profiteer from these licenses but the Executive Branch will not hold them accountable. Security is not free. For all of these reasons, this law will need improved, fixed or revised in the 2009 Session. For now, it is but a 75% solution to a complex security issue."

Dingfelder requested the following explanation of her vote be entered in the Journal:

"I voted no today on SB 1080, which will require driver's license applicants to show proof of citizenship or legal presence in the United States, because of several concerns I have with this piece of legislation. First, I believe this bill raises issues of fairness. With SB 1080 there will be two classes of people in Oregon: those who can afford and easily submit required information to the Department of Motor Vehicles (DMV) and those who cannot. People who are homeless, elderly, dealing with a mental health condition, or are struggling financially will have the hardest time producing such items as a certified birth certificate or documents reflecting a name change. These are our most vulnerable neighbors, and SB 1080 makes little regard for how they will obtain driver's licenses or identification cards in the future.

"Second, SB 1080 raises public safety concerns. Mandating proof of citizenship or residency will have the unintended consequence of increasing unlicensed and uninsured drivers on our roads. As it stands now, everyone in Oregon, no matter what that person's residency status is, must pass a standard driving test showing proficiency at understanding the rules of the road, and that person must also provide proof of insurance. Because of SB 1080, many people will never go to the DMV—they will never take a driving test and they will never insure their cars. But make no mistake, this does not mean people will simply stop driving. People will still need to go to work, take children to school or to the doctor, attend worship services, and carry on with all the other activities in their lives. SB 1080, in the end, will make our roads much less safe.

"Perhaps the greatest issue that SB 1080 raises for me is what this bill will do to our sense of community in Oregon. The feelings of frustration and anger being directed toward one group of people, namely undocumented residents, is something we must confront immediately in order to have a well-functioning community of people here in Oregon. But this attempt to address the problem of undocumented immigration through our state's driver's license system will not solve anything, and in fact will probably lead to troubling and devastating consequences. For these reasons, I felt compelled to vote no on SB 1080."

Greenlick requested the following explanation of his vote be entered in the Journal:

"Pursuant to Section 3.35 of the Special Session Rules of the House of Representatives for the Seventy-fourth Legislative Assembly, I am submitting an Explanation of Vote regarding my opposition to Senate Bill 1080:

"I voted against Senate Bill 1080 today for the following reasons:

"1) The provisions of SB 1080 increase the probability that hazardous and offensive drivers will remain untrained and unlicensed and put other drivers and passengers at risk. Furthermore, it will become harder to track those drivers whose licenses have been suspended or revoked due to the substantive increase in the number of total unlicensed drivers. Those drivers who never bothered to get a license in the first place will have no accountability to the Division of Motor Vehicles.

"2) I am troubled by the creation of a Social Security Number database to carry out the biometric and documentation data required by SB 1080, and I am not convinced that the Department of Transportation will take adequate steps to protect this information.

"3) Senate Bill 1080's heightened documentation standards will disproportionately affect low-income, minority and senior populations, which results in the unequal extension of the driving privilege to those who are eligible. Also troubling is the idea that eligible drivers who cannot produce sufficient documentation may forgo the license application process entirely and drive illegally.

"4) While the crafters of SB 1080 purport that it is an effective measure against illegal immigration, I believe that it is an attempt in vain so long as Congress and the Bush Administration refuse to make significant changes to national immigration policy.

"I appreciate this opportunity to make a statement for the record."

Nathanson requested the following explanation of her vote be entered in the Journal:

"In deciding to vote 'no' on SB 1080, I focused on the negative effects on public safety this bill is likely to create, according to some law enforcement officers. I paid special attention to a letter written by my own Chief of Police, in Eugene, indicating that this proposal may make certain problems worse.

"Citizenship and immigration control are responsibilities of the federal government, while our responsibility is the safety of Oregon roads. This is not the right approach to accomplish the goals of improving road safety, ensuring that drivers have insurance, and reducing the prevalence of fraudulent documents."

Read requested the following explanation of his vote be entered in the Journal:

"One of our most important responsibilities in state government is to ensure the integrity of our systems and to protect the interests of Oregonians. Recent developments have made it clear that the security of Oregon driver licenses is insufficient. Reports of an emerging industry in fraudulent documents, licenses whose terms exceed a driver's ability to remain in Oregon legally, susceptibility to identity theft and other issues all demonstrate the urgent need for Oregon action.

"This legislation however is not perfect, and carries with it some significant vulnerabilities that Oregon's seniors, indigent, and those who have difficulty accessing required documents or resolving clerical errors will be disproportionately affected by the burdens of the bill. I also worry about the bill's influence on Oregon's economy, our workforce, on public safety, and on Oregon's immigrant community.

"As a result of these concerns I strongly advocate the establishment of a task force to monitor the implementation of SB 1080. The task force should document the legislation's impact throughout the state, consider its effects and measure its effectiveness.

"Making decisions in the face of uncertainty is always fraught with risk. It's my hope that future legislatures will pay careful attention to the issue of driver licenses, that future legislators will be willing to change course if the evidence merits, and that all

Oregonians will continue working to build a welcoming community that gives all who are or wish to be Oregonians necessary opportunities and responsibilities. It is my intention to advance that agenda.”

Tomei requested the following explanation of her vote be entered in the Journal:

“SB 1080 requires applicants to provide proof of U. S. citizenship or legal presence in the United States before the Oregon Department of Transportation can issue, renew or replace a driver license or identification card. I vote NO on this bill and I want to explain why.

“Like many Oregonians, I am concerned about illegal immigration. We are a nation of laws; people must obey the law. Illegal immigrants should be held accountable for their actions. Employers should not be offering employment to undocumented workers. Securing our borders is a matter of public safety and homeland security, and we need to take strong action to enforce immigration law.

“Many people think SB 1080 will deter illegal immigration. But it will not. SB 1080 does nothing to deter undocumented aliens from coming to Oregon. It will only put more unlicensed and uninsured drivers on our roadways. It will cause higher insurance premiums for those of us who have insurance; it will make more drivers likely to flee if involved in an accident; and it will make it more likely that law abiding Oregonians will be the victim of a hit and run accident.

“Moreover, it makes it significantly more difficult for many citizens to obtain driver licenses. Many citizens will not be able to locate, do not have, or do not have the wherewithal to obtain, the necessary certified documents required by this measure. The result will be that many Oregon citizens, the most vulnerable among us, the homeless, the working poor, the elderly, people with disabilities, and victims of domestic violence will be unable to obtain driver licenses or identification cards.

“I sincerely think that SB 1080 does NOT address the problems associated with illegal immigration. Rather, it only serves to make Oregon’s roads and highways less safe.”

Bentz requested the following explanation of his vote be entered in the Journal:

“This is a vote explanation for HB 3618A. 1. The problems with the current Law make it unworkable, thus this ‘fix’ is

necessary; 2. The cost of the lawsuit to make the current Law workable is unknown, but assumed to be substantial; 3. The proposed Law will be revenue neutral (according to the Legislative Counsel); 4. If this Law is not passed, many decedent estates will not be able to file estate tax returns, because the D.O.R. has not issued rules and by the time it does, the time for filing may well have passed; 5. There has been an acknowledgement, by the Majority, that changes will be made in the Senate and in the 2009 Legislative session. This assurance supports the vote for the bill even though it is flawed.”

Flores requested the following explanation of her vote be entered in the Journal:

“During the 2007 Legislative Session we adopted House Bill 3201 in an attempt to give estate tax relief to some owners of natural resource businesses and families. However, that new law is flawed in several ways. HB 3201 fails to include the value of trees on timberlands, it fails to include the value of tractors, combines and other rolling stock for farmers; and it fails to include working capital for any of the businesses. House Bill 3618A is an attempt to correct those failures and add some clarification to Oregon’s estate tax laws for ranchers, foresters, commercial fishers and farmers.

“HB 3618A was supported by the Farm Bureau, Oregon Association of Nurseries, Oregon Cattlemen’s Association and Oregon Winegrowers. I have several members of these organizations in my legislative district who make significant contributions to our local economy.

“I am, however, concerned that HB 3618A is a very complicated tax bill and might lead to unintended negative consequences which might not appear until years down the road, especially for small woodland operators. I am optimistic that the Senate will take a close look at this bill and deal with the flaws.

“I voted ‘yes’ for this bill hoping the significant discussions outlining the problems, and the resulting number of ‘no’ votes, will send a clear signal to the Senate to craft amendments to address the inequities to the small woodland owners.”

Gilliam requested the following explanation of his vote be entered in the Journal:

“Tax relief through inheritance tax reform is needed and I have consistently advocated this very issue on a repeated basis.

“My no vote on HB 3618 reflects my confusion over repeated explanations during the floor debate about specific tax consequences. The specific applications of tax codes under this bill are fuzzy at best. The larger question of whether the bill will eventually increase or decrease revenue was not only not answered by the carrier and left dangling with the confusion that the bill will be voided if in fact the results increase revenue.

“House members testified on the floor that this bill was confusing, incomplete, and unsatisfactory yet they urged a yes vote because we had run out of time in this special session. Other arguments centered on the tired old solution that we should ‘fix it on the Senate side’.

“This bill was supposed to fix a bill we passed in the previous session but the bill hasn’t even been implemented. While I believe strongly in giving a break on estate taxes for family farmers, forest owners, and commercial fishing businesses this bill did not accomplish those goals. I look forward to working on clear well vetted solutions that are fair and give real relief to Oregonians who are heirs to our valuable natural resource land.”

Thatcher requested the following explanation of her vote be entered in the Journal:

“I support inheritance tax relief for Oregon’s natural resource land owners, but I voted no on HB 3618 because this legislation needs several improvements. Through my ‘no’ vote, as well as through the negative votes of many of my colleagues in the House, I hope the Oregon Senate realizes there is sufficient concern about those businesses which will be negatively impacted by this particular bill. Those who would face significant harm through increased taxes are small woodland owners and their heirs. This

bill contains provisions which are counterproductive to the intent of the bill which is to give tax relief to natural resource land owners. I anticipate as this bill improves on the Senate side that I will support it when it comes back to the House for concurrence.”

Whisnant requested the following explanation of his vote be entered in the Journal:

“I support and will always support reduction and elimination of the ‘death tax’ which I consider a double taxation policy.

“Last session, the Democrat leadership put into a ‘Christmas Tree’ bill – which is Oregon’s version of ‘earmarking funds’ – an estate tax reduction. This ‘Christmas Tree’ bill passed with a strong bipartisan vote including this estate tax reduction for farming, timber, fishing, and other natural resource families. I voted for the 2007 ‘Christmas Tree’ bill which had good expenditure of our revenues and bad expenditures of our revenues; in my opinion.

“However, there were federal problems with implementing the estate tax reduction. Thus, HB 3618A was introduced. This new bill had some good points but it increased estate taxes for some and did not cover some types of natural resource family estates. It is a tax increase over the current law passed last session. Timber and timberland in Central Oregon has such a low value for its resource purpose that the 50 % threshold of the adjusted gross natural resource state is punitive and contrary to the original law which was to keep resource lands in resource use.

“Thus, I voted NO although the bill passed the House. I am hoping the problems with the bill will be corrected in the Senate. Then, I’ll be able to vote for the amended bill to reduce estate taxes for all our farmers, foresters, and fisheries.”

Smith, P. Smith, Sprenger, Thatcher, Whisnant. Bill passed.

Flores requested the following explanation of her vote be entered in the Journal:

“There are many new homeowners in my legislative district and I am concerned about scam artists taking advantage of some of them. I have corresponded and talked to several realtors, mortgage lenders and others in related businesses about the recent national problems in this arena. I recently attended a seminar involving many of these representatives to get an update on the situation. At that event I learned Oregon is 49<sup>th</sup> out of 50 states in the number of foreclosures.

“We also know that there are several initiatives underway at the federal level and there is a legitimate concern that this new law would put our state-chartered institutions at a disadvantage. Here is a comment I received from one of my constituents in the industry:

“Imagine the business intersection in your District that has a state chartered bank on one corner and a nationally chartered bank on the other. Now imagine an action you take or a vote you cast that will affect only one of those financial institutions, adding costs

or limiting services and competition. That’s exactly what will occur if HB 3603 is passed.”

“While perhaps good intentioned, there are many unanswered questions about this proposed law. I worry that we might be going too far and put some of our businesses at risk.

Here are some other well reasoned thoughts I read on the House Floor regarding this issue from a constituent in the industry.

“The outsourcing of jobs has already started. Many of the wholesale lenders have moved out of state, including WAMU and Wells Fargo. If the banks become the dominant mortgage lenders in the state, it will get worse. They love to centralize at the expense of service and cost. Wells Fargo handles all of our files in Des Moines, Iowa. By contrast, we provide 100 jobs here in Oregon.”

“My biggest concern with legislation on mortgage lending that has been proposed is that it has been put together in a rush without concern for the long term consequences. Over regulating mortgage lending guidelines does not protect Oregon consumers, and in fact will create less opportunity for Oregonians to own their own home. Over regulating mortgage lending guidelines will limit the typical Oregonians ability to create wealth. Over regulating mortgage lending guidelines will have hurt current Oregonians who own homes and need to refinance. The mortgage industry, the title insurance industry, Realtors, contractors, anyone involved with the real estate market are hurting right now. As a small business owner, you know that small business has the power to generate hundreds and thousands of new jobs for Oregon. The legislature is contemplating passing legislation that will further hurt a business that is already in recession and possibly outsourcing these jobs from Oregon to other regions in the country, or perhaps the world.”

“I would prefer the Senate take a look at this legislation to address some of these concerns.”

Galizio requested the following explanation of his vote be entered in the Journal:

“Unlike HB 3630 and SB 1064, HB 3603A was not a product of the Mortgage Workgroup that has been tasked to work through the myriad of issues concerning the mortgage industry.

“My opposition to HB 3603A stems from several issues.

“First, agency members empowered to enforce the provisions of the bill remain uncertain as to the consequences of the bill. This is largely a consequence of the truncated session and time allotted to vet the final version of the bill.

“Second, the bill is not only opposed by industry representatives, it is opposed by consumer advocacy groups that have been actively seeking legislation to confront this challenge.

“Third, passage of this bill may undermine the Mortgage Workgroup that should continue working on these issues after the end of this supplemental session. Passage of this bill gives the minority in the industry not interested in mortgage lending reform the ability to claim that the Oregon Legislature has successfully completed its work in this area.

“Without question, this is a significant national and state problem. House Bill 3630 and Senate Bill 1064 are worthwhile first steps in dealing with these issues. Unfortunately, the same cannot be said about HB 3603A; therefore I must oppose this bill.”

Bonamici requested the following explanation of her vote be entered in the Journal:

“Today I voted no on SB 1068-A. Public education is a critical part of our communities and our state. I firmly believe that public education should and must be provided to the public without charge. SB 1068-A permits charging families for all-day kindergarten. Although the bill does include a provision to provide free all-day kindergarten to low-income families, I could not support the authorization of payment for public school.

“One of the most important tasks we have in the Legislature is to support public education. To me, that includes keeping public schools free of charge.”

Cowan requested the following explanation of her vote be entered in the Journal:

“House Bill 5100 includes many essential capital construction projects that will benefit the State of Oregon, including Clatsop Community College, Oregon Institute of Technology, and the Oregon Wireless Interoperability Network (OWIN). Funding of these projects at our higher education institutions will help train and educate a workforce that will help strengthen Oregon’s economy. The OWIN project will help our communities remain safe and better prepared to handle emergencies and natural disasters.

“However, my no vote on HB 5100 is a reflection of my concern about an item that is included in the omnibus package – and one valuable proposal that was rejected. I object to appropriating \$200,000,000 for a new basketball arena at the University of Oregon without fully studying the implications and revenue, especially when there are other capital construction projects around the state that deserve the Legislature’s immediate attention. I remain hopeful that the new facility will not result in ticket pricing that is too high to be affordable for average households and young people.

“Perhaps more importantly, I am disappointed that a critical need for my community college’s in-process construction project was not addressed. Eight years ago Oregon Coast Community College (OCCC) began master planning for permanent facilities to serve its large and geographically diverse district. In 2004, district voters approved a \$23.5 million bond to match the State’s anticipated capital \$17 million funding, but the 2005 Legislature funded only \$4.5 million of OCCC’s request. In 2007, the Legislature provided only \$3 million of the \$7.5 million requested.

“The College is now well into the construction of its first permanent facilities and time is of the essence. Understanding that it was the intent of the 2007 Ways and Means Committee to complete the requested funding for OCCC during the February 2008 Session, the balance of the \$7.5 million 2007 request (\$4.5 million) was requested during the February 2008 session.

“This remaining State match funding of \$4.5 million would have allowed OCCC to begin and complete the Aquarium Science Center with a 14,000 square foot second floor; allowing the College to provide 1) for the immediate instructional, research and office space needs of such entities as Oregon Fish and Wildlife (ODFW), OSU, Marine Mammal Institute (MMI) and other State and Federal partners and 2) room for the growth of the OCCC marine educational programs, making the Central Oregon Coast a real hub for marine science education.

“If we can find a way to accomplish our goal, the second floor space will complement the instructional purposes on the first floor, allow opportunities for further collaboration between public and private entities and provide much needed space. The community’s desire is to construct a building in compliance with the OSU-HMSC Facility Master Plan that was finalized and approved in July 2007. The funding would also have helped to provide fixed science equipment and allow the College to complete its South County facility. The need is immediate as the College cannot build a ‘fractional’ or partial two story building.

“Several opportunities were lost by not including OCCC’s request in HB 5100.

- The opportunity to complete a collaborative facility serving educational, research and support function for OCCC, OSU, MMI, ODFW and other partners.
- The opportunity to complete the OCCC South Campus in Waldport.
- The opportunity to affirm that State desires to support the local investment that has been made in educational/workforce infrastructure.
- The opportunity to encourage future collaborative efforts to build and diversify economic development in rural Oregon.

“As previously expressed, I fully support the need for new or improved institutions of higher education in communities throughout the State of Oregon. The difference between OCCC and other planned projects, however, is that OCCC already has the local matching funds in place, but because of local bond requirements, OCCC will have to expend its local match by the time the next Legislative Session meets in 2009.

“For these reasons, I was unable to support the Ways and Means Committee decisions reflected in SB 5100.”

Dingfelder requested the following explanation of her vote be entered in the Journal:

“I voted no today on HB 5100. This bill is one of several budget bills we are considering during the 2008 Supplemental Session. While there are items contained in HB 5100 which truly deserve funding, and which I fully support, I feel I must vote no on the bill as a whole. HB 5100 would enable us to authorize general obligation bonds to finance such projects as capital construction at Clatsop Community College, which is needed and which I support; but HB 5100 also provides general obligation bonds for the construction of a new sports facility at the University of Oregon. I received many communications from constituents who were adamantly opposed to the state providing general obligation bonds authorizing a new arena at the University of Oregon, and I agree that this is not the best use of our authority to issue bonds. For these reasons, I felt compelled to vote no.”

Tomei requested the following explanation of her vote be entered in the Journal:

“It is with real regret that I voted NO on HB 5100. This bonding bill contains valuable capital projects that I wholeheartedly support – including capital construction for Clatsop Community College, Oregon Institute of Technology and the Wireless Interoperability Network. Unfortunately, it also includes the bonds for an elaborate, state of the art, basketball arena at University of Oregon. Certainly MacArthur Court needs to be replaced, but I cannot support these bonds at this time.

“I heard from many constituents concerned about the university’s ability to repay this debt. While many scenarios have been presented and several alternate sources of funding suggested should arena revenues fall short, there still remains risk, needing either new taxpayer dollars or tapping other university funds to repay the loan. A large donation has been made contingent on an arbitrary timetable that forces the legislature to act in this hurried manner. Under this rushed timeline, neighborhood studies to address congestion and parking have not been completed. Students came forward to question the impact these bonds will have on other needed capital improvements. There are still too many unanswered questions.

“While I wished to support the other projects in HB 5100, I felt compelled to vote NO on this measure. I cannot support risking taxpayer dollars for a new basketball arena when our community mental health system is sorely lacking and thousands of children remain uninsured.”

Flores requested the following explanation of her vote be entered in the Journal:

“The whole process leading us up to this vote today has been very troubling for me. I have been a member of the House Judiciary Committee for the past two sessions. When I got wind of the so-called negotiations back in November and wanted to know what was going on, I was told I was not welcome.

“For those who say we need this alternative because Initiative 40 will cost too much money and expand the prison population, I say this: Isn't the protection of persons and property one of the highest priorities for the state? Isn't this what we should be doing, protecting the public, locking up bad guys? I hear over and over from constituents who say, 'look, if it means my car won't get ripped off from a meth freak, or my home won't get broken into by a crack head, then I'm fine with having my tax dollars pay to build a few more prison beds.'

“The figures used for the fiscal impact for IP 40 are questionable. Will history repeat itself? Fall 1994. An election season, and a little thing called Measure 11 was on the ballot. Supporters of this new mandatory minimum sentencing law said, 'it's going to cost money, maybe up to a billion dollars to build new prisons, but that's what it's going to take to stem the tide of the crime wave in our state.'

“Back then the estimates from state officials predicted there would be a total prison population of up to 19-thousand inmates by the year 2000. When 2000 rolled around there was around half that number, approximately 10,000 inmates in our prison system. Today the head count is 13,507 according to the Department of Corrections. Back then, DOC planned to build 8 prisons and expand 4 others. That was in 1996. 12 years later we still have two of those prisons on the drawing board.

“As for the actual segment of the prison population that is directly attributed to Measure 11 Crimes, the original forecasts when Measure 11 was before voters was something like 6,000 new beds by the year 2000. Today, 8 years later, DOC says the current measure 11 population is around 5,500. Supporters of SB 1087 will say, 'well the math was all wrong back then and we've fixed that now.' If it happened then, it could happen again. In fact, even our recent prison forecasting is a little off because they had to back off on expansion of the new prison in Madras because the inmate population isn't growing as fast as earlier predicted.

“I have a real concern about the treatment component of this bill. Section 8 contains five little words, 'the Department of Corrections, shall,' provide treatment. I think treatment is a good thing, but I'm not sure it should be a right. Despite what the backers of this measure tell you, this language seems pretty clear to me, the DOC will be obligated to provide treatment to these offenders. Someone out in the community who has not committed a crime, and been convicted, won't have a right to treatment, but if you violate the law, get caught and get sent to the slammer you all of a sudden get that guarantee. That just doesn't seem right.

“If there is such an urgent need to provide treatment, why don't we just do it? In fact if SB 1087 is such a great deal, why don't we just pass it into law right now? Why wait until November? Let's get on with it and adopt these mandatory minimums and treatment programs.

“Here's a possible answer as suggested by Crime Victims United who circulated a letter this morning about their opposition to this measure. 'Enactment would have precluded some of the political grandstanding regarding minimum mandatory sentences that some legislators are already engaging in and the ensuing mischief and harm it could bring to measure 11. We believe this to be one of the underlying political reasons for the referral, a referendum on minimum mandatory sentences with the ultimate goal the disassembly of measure 11. Those in the legislature who support measure 11 should consider this prospect?' Some backers of this bill say every police organization and all the district attorneys are behind this deal. I'm here to tell you I've talked a few law enforcement leaders and there are several DA's who are very not-happy about all the things that have occurred after their association agreed to the terms of this agreement. One source told me they had a 'gun held to their head' and had to sign on in support of this measure, or else.

“Supporters of SB 1087 claim the Mannix measure isn't lenient enough on first time offenders. Who are we kidding? By the time they are nabbed for a felony property crime that lands them in the big house, it is not their first offense. Some studies show these guys have committed dozens of crimes up to that point; they've just never been caught! So, I don't understand why we're continuing to give probation to first time offenders under SB 1087L.

“Finally, my biggest objection to this so called 'compromise.' This is nothing more than an end run around the initiative process. IP 40 has been out circulating for about a year. Even during the 2007 legislative session. If we were really concerned about property crimes we would have enacted one of the measures that we proposed last year. But apparently we weren't that concerned.

“I am very troubled by the message we're sending here. We're saying to the 150,000 voters who signed the petition to get this on the ballot; you don't matter. You don't know what you're talking

about. You're not important. We know better. We're the legislature. We have all the answers. Are we going to start doing this with every ballot measure we don't like? I am very upset by all this and I've heard from several constituents who are also very concerned.

"What's even more disturbing is the way people have tried to influence my decision on this bill. Not one person, not one lobbyist involved in this process, not one legislator has come to me and said, 'hey Linda, I feel your pain. I understand your concerns. Maybe I can help answer some questions.' Not one person. Instead, a few messengers from various sources – and you know who you are – whispered in the hall saying, 'you know, if you vote no on SB 1087, they're gonna come after you. Your opponent is going to hammer you over the head with this in the election. They will carpet bomb mailboxes with mailers saying you are soft on crime.'

"I'm appalled. I dare anyone in this room to compare their record to mine. Maybe one or two are as tough on crime as I have been. But yet, if I don't vote yes on this, I will be painted as soft on property crime. Unbelievable! For the record, I am NOT soft on crime. I do favor some level of mandatory minimums for property criminals. In fact we should have stricter sentencing like we'll get with IP 40. I do favor smart drug treatment programs which use measurable results, with random sampling. If I could,

"I would vote 'no' on this proposal for all of the reasons I've stated earlier and many more. Because of all this, I will have to find a way to help voters understand why we threw them under the bus and put this on the ballot.

Thatcher requested the following explanation of her vote be entered in the Journal:

"As a member of the House Committee on Elections, Ethics and Rules since 2005, I am very cautious anytime there's an attempt by the legislature to undermine the citizen initiative process. This is one of those times.

"I voted 'no' on Senate Bill 1087 for so many reasons; perhaps foremost, because of the message we're sending to Oregonians who are frustrated with their state lawmakers and who take the time and effort to collect signatures and put a measure on a statewide ballot. The message is this: 'You are wrong and we, the legislators, are right. You don't know what you're talking about with your initiative, so the legislature will put another measure on the ballot to give voters the right choice.' This is disrespectful to the initiative process.

"I have also served on the House Judiciary Committee and sponsored eight bills last session to deal with early release of prisoners. Many of those ideas were incorporated into legislation in 2007 to deal with repeat property offenders. It passed unanimously in the House Judiciary Committee, whereupon it was sent to the Ways and Means committee to die; House leaders rejected that bipartisan supported legislation (HB 2329). Even during that time, a citizen's initiative for mandatory minimum sentences for property offenders was underway. The legislative leadership didn't show any interest in this issue until that initiative had collected enough signatures to qualify for the ballot.

"Aside from the political shenanigans, the merits of SB 1087 versus initiative 40 also contributed to my opposition. Several of the property crimes listed in SB 1087 would still generate a sentence of probation for first time offenders. We all know there are very few actual 'first time criminals'; studies show that they have actually committed upwards of 40 crimes before they are finally caught. Once caught, they usually plead down to a misdemeanor prior to a felony conviction.

"There is also a lot of emphasis on drug treatment in SB 1087 to make initiative 40 look bad because it doesn't mandate drug treatment. If the legislature were really serious about treatment programs they can pour more money into them now instead of waiting until approval from voters. I'm concerned that we are also not insisting on effective treatment with proven results.

"Finally, the cost analyses are a concern. I am not comfortable with projections from a state agency saying initiative 40 will break the bank with hundreds of millions of dollars in additional expenses to house all these new inmates. The predictions cast out there for the last mandatory minimum sentencing law, Measure 11

in 1994, have yet to come true. State figures estimated an increase of 6,000 new prison beds due to Measure 11 by 2001. Yet the actual number in 2001 was an increase of only 2,500 beds; less than half the original projection. As of November 2007 the number of Measure 11 beds is approximately 5,500 – still under the 6,000 predicted.

"My constituents tell me public safety is one of the most important services our state government provides and they understand it takes money to lock up criminals. They also realize Oregon's violent crime rate has dropped significantly since Measure 11 took effect 13 years ago. In fact one state study shows nearly 99,000 crimes were avoided in the first 10 years of Measure 11.

"Those who want to criticize my 'no' vote on SB 1087 will try to accuse me of being 'weak-on-crime' while just the opposite is true. It is my belief that SB 1087 only sounds tough on crime; but it is not. For example, SB 1087 puts a lot of emphasis on high level drug traffickers which may only generate a few cases per year in some counties. Meanwhile, the most common low-level street dealers in our neighborhoods would still likely only receive a sentence of probation. There should be more focus on the more common low-to-mid level drug dealers who are committing the bulk of repeat property crimes. The meat just isn't there. If we're going to give voters a choice between SB 1087 and initiative 40 then I will cast my vote now for 40 – instead of a ballot referral where I am using the red button on my desk on the House Floor."

ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

(1) The section, series of sections or chapter of Oregon Revised Statutes.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a bill or measure are “added to and made a part of” the ORS chapter or series.

(3) The following information about the section and bill or measure by which ORS is amended, repealed or “added to”:

(a) The section number and Senate or House bill number for the 2008 bill;

(b) The section number and current session bill number or previous session bill number for the bill repassed over the Governor’s veto during the 2008 session (such as “§3 OV 3333” for a current session overturned veto or “§4 OVP 4444” for a previous session overturned veto); or

The engrossing level is printed next to the bill number if the bill has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The bill or measure number and engrossing level appear in boldfaced type if the bill or measure has become law, or has been referred, and has been assigned a 2008 Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.
