ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

(1) The section, series of sections or chapter of Oregon Revised Statutes.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a measure are “added to and made a part of” the ORS chapter or series.

(3) The following information about the section and measure by which ORS is amended, repealed or “added to”:

(a) The section number and Senate or House measure number;

(b) The section number and current session measure number or previous session measure number if a measure was repassed over the Governor’s veto, followed by “OV” for a current session overturned veto or “OVP” for a previous session overturned veto; or

(c) The section number and boldfaced ballot measure number if an initiative petition was approved at the most recent general election (such as “§5 BM 55”).

The engrossing level is printed next to the measure number if the measure has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The measure number and engrossing level appear in boldfaced type if the measure has become law, or has been referred, and has been assigned an Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.

2.20 Rules of the House. Except as modified or rescinded under Rule 2.05, these rules shall be in effect for the entire term of the Seventy-eighth Legislative Assembly, whether the House is in session or has adjourned sine die.

CONVENING

3.01 Quorum. (1) A quorum of the House is forty members.

(2) If a quorum is present, the House shall proceed to transact its business. If there is no quorum present, a lesser number of members may adjourn from day to day and compel the attendance of absent members.

3.03 Attendance. Except for emergencies, a member shall attend all sessions of the House unless an Excused Absence Request is filed with the Chief Clerk forty-eight (48) hours in advance. All requests for an excused absence will be presumed approved unless the member is otherwise notified by leadership. A member shall attend all meetings of the committees of the House of which he or she is a member unless excused by a chair. No member shall be considered excused, however, unless the presiding officer or a chair has announced the excuse at the opening of the House session or committee meeting, or at the earliest possible time thereafter. No excuse may be announced while the House is under a Call of the House.

3.05 Session Hour. Unless otherwise ordered by the presiding officer or a majority of the members present, the regular hour of meeting shall be 11:00 a.m.

3.07 Open Sessions. All deliberations and meetings of the House shall be open to the press and public.

3.08 Daily Session Length. (1) A session day begins with the initial convening of the House that calendar day and ends with the adjournment of that session. The House shall not meet for more than twelve hours on any session day, excluding time used in recess, unless a majority of those members present vote to suspend this provision.

(2) The convening of a session after adjournment constitutes the beginning of a new session day.

VOTING

3.12 Electronic Roll Call System. The electronic voting system shall be under the control of the presiding officer and shall be operated by the Chief Clerk. The names of the members shall be listed on the electronic roll call board in alphabetical order, except that the name of the Speaker shall be last.

3.15 Roll Call. (1) The electronic voting system shall be used as the roll call to determine the presence of a quorum and/or the presence of members under a Call of the House. Members shall press the "yea" button to record their attendance.

(2) A roll call vote of "yeas" and "nays" shall be taken and recorded on the final passage of all bills and joint and concurrent resolutions. Except as otherwise provided in these rules, the vote shall be recorded by the electronic voting system.

(3) Upon demand of two members, an oral roll call shall be taken and recorded on any measure that requires more than 31 affirmative votes. The Clerk shall call the roll of the membership, alternating between alphabetical order and reverse alphabetical order. The Speaker's name shall be called last.

(4) If the presiding officer is in doubt on any motion or a division is called for on a motion, a roll call shall be taken and recorded by the electronic voting system on the motion. On all other questions to be voted upon, unless otherwise provided in these rules, the presiding officer may order the "yeas" and "nays" taken by the electronic voting system.

(5) The electronic voting system shall not be used for election of officers.

(6) Individual votes shall not be displayed until the time for voting has expired and the electronic voting system has been closed.

(7) In the event the electronic voting system is not in operating order when voting on any question, the presiding officer shall order all "yea" and "nay" votes be taken by oral roll call. The Clerk shall call the roll of the membership in alphabetical order. The Speaker's name shall be called last.

(8) The vote of any member that has not been recorded because of malfunction of the electronic voting system shall be entered into the record if that member was within the bar of the House chamber at the time of the vote and attempted to cast their vote at the appropriate time, and the fact of such malfunction is reported to the presiding officer prior to the announcement of the result of the vote.

3.20 Requirements for Voting. (1) Each member within the bar when the question is stated and the member's name is called shall vote. No member shall be allowed to abstain from voting.

(2) If a member refuses to vote when the member's name is called, the presiding officer shall immediately call for the member's vote a second time. If the member again refuses to vote, the presiding officer shall read subsection (3) of this rule. The presiding officer shall then call for the member to announce the member's vote immediately. If the member fails to vote immediately after this third request, the presiding officer shall state for the record: "The member's failure to vote constitutes an intentional violation of House Rule 3.20, subsection (1) and a high breach of decorum. The Journal shall show that the Representative is censured for the violation; the clerk shall record the Representative's vote on the measure on which the member refused to vote as a 'yea;' and the member may also be subject to other penalties as the House may order."

(3) Any member's refusal to vote, as required by House rules, shall be recorded in the Journal as an intentional violation of Rule

3.20 (1) and a high breach of decorum. The Representative shall be censured; the Clerk shall record the Representative's vote on the measure on which the member refused to vote as a "yea;" and the member may also be subject to other penalties as the House may order.

(4) No member, except by unanimous consent, shall be permitted to vote upon any question unless he or she is within the bar before the last name on an oral roll call was called or is within the bar before the electronic voting system is closed. No member shall vote or be allowed to change their vote after the presiding officer announces the result of the roll call by declaring the question has passed or failed to pass.

3.21 Announcement of Conflict of Interest. (1) When involved in an actual or potential conflict of interest, as defined by ORS 244.020, a member shall announce, on the floor or in the committee meeting, the nature of the actual or potential conflict prior to voting on the issue giving rise to the conflict.

(2) The member shall file in writing a statement of the nature of the actual or potential conflict with the Chief Clerk or the committee assistant by 5:00 p.m. the next business day following the vote on the measure. The statement shall be limited to the substance of the oral explanation given on the floor or in committee. The member's announcement of an actual or potential conflict of interest shall be recorded in the Journal or in the committee minutes.

3.26 Electronic Roll Call; Time, Changes. When a vote is taken using the electronic voting system, the members shall be allowed at least thirty seconds to vote, at the end of which time, the Clerk will display the vote. After the individual votes have been displayed, any member desiring to change his or her vote may so announce. The presiding officer shall direct the Chief Clerk to make the proper entry into the electronic voting system.

3.28 Electronic Roll Call; Misuse, Penalties. No member shall vote for another member using the electronic voting system. No member shall tamper with, alter or attempt to alter the electronic voting system, or cause the electronic voting system to register a vote without the member personally depressing a voting button during each roll call vote. Any member who violates this rule may be punished as determined by the vote of 31 members. If a person not a member votes or attempts to vote for any member or violates a provision of this rule, he or she shall be barred from the floor of the House for the remainder of the session, and he or she may be punished further as determined by the vote of 31 members.

3.30 Voting by Presiding officer. The Speaker shall vote whenever a roll call is required. The Speaker's name shall be called last on an oral roll call vote.

3.35 Explanation of Vote. (1) Any member who wishes to explain his or her vote shall file the written explanation with the Chief Clerk by 5:00 p.m. the next business day following the vote on the measure. The vote explanation filed under this subsection must comply with subsection (2) of this rule. If the explanation does not meet those requirements, the Speaker may refuse to cause the explanation to be printed in the Journal.

(2) The vote explanation shall be germane to the subject and shall not reflect on the honor or integrity of any other member.

3.45 Printed Measures Required for Voting. No measure or amendment to a measure shall be finally voted on until it has been made available electronically or printed and placed on the desks of the members.

3.50 Third Reading Requirement. (1) No bill shall pass the House until after third reading and no measure shall be read more than once in any one day.

(2) A bill may be referred or re-referred to committee on third reading.

3.55 Call of the House. (1) Six members may demand a Call of the House at any time before a roll call has begun.

(2) Upon a Call of the House, the doors shall be closed until proceedings under the Call have been terminated. No other business shall be transacted until the proceedings are so terminated.

(3) Upon a Call of the House, the Sergeant at Arms shall cause all members who are not excused to come to the floor. If the Sergeant at Arms cannot locate any unexcused member, the Sergeant at Arms shall so report to the presiding officer, who shall announce the fact to the members.

(4) All members must remain within the bar of the House until the vote is taken for which the Call was made. However, when the House is waiting for an unexcused member and the presiding officer has announced that the House is "at ease," the members may have access to the area behind the rostrum until the presiding officer calls the House to order. Members must then return to within the bar.

(5) A Call of the House shall be considered terminated when the question for which the Call was invoked has been voted upon or when a motion to terminate the Call is approved by forty members. The motion to terminate the Call shall be in order when the Sergeant at Arms has reported that unexcused members cannot be returned within a reasonable time. Termination of the Call under this subsection terminates the requirement that the Sergeant at Arms search for unexcused members. In the absence of a quorum after the report of the Sergeant at Arms is received, the House may terminate the Call by the unanimous consent of the members present.

(6) Upon a Call and until the proceedings are terminated, the presiding officer may direct the Sergeant at Arms to authorize members of the Senate, representatives of the news media and staff to leave or enter the chamber.

(7) Subsection (2) of this rule does not apply to the third-floor gallery.

ORDER OF BUSINESS

4.01 Order of Business. (1) The general order of business shall be:

(3) Messages from the Governor, the Senate or any state official may be read at any time.

(4) A quorum is not required under the orders of business Opening Ceremony, Courtesies or Remonstrances, nor will a Call of the House be in order.

(5) Under the order of business Courtesies, all honorary pages and/or groups shall be greeted by the presiding officer on behalf of the House. A request to return to the order of business Courtesies shall be out of order until all other orders of the day have been completed.

(6) Under the order of business Remonstrances, no member may speak for longer than three minutes, or for a second time, or yield time to another member. The motives or integrity of any member of the House or the Senate shall not be impugned.

(7) Questions relating to the priority of business shall be decided without debate.

(8) The general order of business shall not be varied except upon suspension of the rules. However, any subject before the House may be made a Special Order of Business upon the vote of a majority of the members present and, when the time fixed for consideration of the subject arrives, the presiding officer shall take up the subject.

(9) Appropriation bills shall take precedence over all other measures on the Third Reading Calendar.

4.05 Consent Calendar. (1) Each session day, a consent calendar of measures may be presented for consideration and vote of the House. The consent calendar shall be made available to members prior to consideration.

(2) (a) Any measure reported out of committee unanimously, with or without amendments, may be placed on the consent calendar if the committee reporting the bill so recommends.

(b) Any measure reported out of committee with the recommendation that it be placed on the consent calendar shall be placed on the second reading calendar under House Rule 9.32 (1) and (2).

(3) Any measure recommended for the consent calendar shall be placed on the calendar but held at the Desk for two days after the day on which the measure was listed on the committee report file or read under the order of business of Standing Committee Reports. During that period, members may submit written objection to the placing of the measure on the consent calendar. If four objections signed by members of the House are received at the Desk within the two-day period, the measure shall be removed from the consent calendar and placed in its proper order on the third reading calendar for the next session day. A measure may also be removed from the consent calendar by order of the Speaker.

(4) If no objections or an insufficient number are filed within the two-day period, the measure shall be placed in numerical order on the next consent calendar. When the order of business Consent Calendar is reached, the presiding officer shall announce the calendar. The clerk shall read each measure by number, title, and short summary. Immediately following the reading, the presiding officer shall place the question of third reading and final passage and call for the vote. Only a Call of the House shall be in order prior to a roll call being taken.

(5) No measure which has been made the subject of a motion to

reconsider shall be placed on the consent calendar.

MOTIONS

5.01 Making a Motion. (1) When a motion is made, it shall be restated by the presiding officer.

(2) A motion shall be reduced to writing upon request of the presiding officer or of any member.

(3) No second to a motion is required.

5.05 Motion in Possession of the House. After a motion is restated by the presiding officer, it is in the possession of the House. The motion may be withdrawn only with the affirmative vote of a majority of the members present and at a time before decision is made on the motion or the motion is amended.

However, a debatable motion to refer shall be allowed if the vote on the main question is reconsidered.

(4) The motion to reconsider shall be voted on the first session day after that on which the vote to be reconsidered was taken. The motion for reconsideration has precedence over any other motion, subject to the provisions of Rule 5.10. All conferees shall sign the report. A dissenting conferee shall indicate that fact when signing the report.

(2)(a) No motion is required to adopt the conference committee report if repassage of the measure is not required. "This letter serves as notice that I am declaring an active conflict of interest on HB 4136. An actual conflict may or may not exist due to attorneys being a large class. I am erring on the side of caution in making this declaration. In my law practice, I represent families with wrongful death cases. This bill will likely impact these families and their cases. As a result, the fees I collect on these cases will likely be impacted."

Barton declared a potential conflict of interest and submitted the following statement:

"Following up on my remarks earlier today, I am writing to declare a potential conflict of interest regarding HB 4136. This legislation would increase Oregon's cap on noneconomic damages. Given that my father and I represent injured people at The Barton Law Firm, P.C., this legislation may affect claims that we assert on behalf of current and/or future clients."

Lininger requested the following explanation of her vote be entered in the Journal:

"Today I voted against HB 4136, a measure to raise the cap on noneconomic damages recoverable in the event of wrongful death. I voted no out of concern this bill will increase costs in our healthcare system at a time when we need to manage and reduce those costs. I fear expenses could rise due to increased insurance premiums and extra tests and procedures conducted in the defensive practice of medicine. I worry this could hurt access to care, including access for rural Oregonians.

"I respect advocates on both sides of this bill, and I think it presents issues on which reasonable people can disagree. Based on my understanding of the issues at this time, however, I felt the need to vote no."

HB 4036 (A-Engrossed) – McKeown submitted the following vote explanation:

"I voted 'yes' on HB 4036 because I agree with the underlying tenants of the bill. I think that the transition to renewable energy is a necessary and exciting venture and I support an increase in the renewable portfolio standard for Oregon's energy providers.

"However, I feel compelled to share the following concerns:

"A number of stakeholders were not invited to the table as the negotiations moved forward. Examples are:

- a. Industrial Customers
- b. Consumer owned utilities
- c. Independent power producers
- d. Private electric vehicle charger representatives
- e. Energy service suppliers
- f. Public Utilities Commission

"Furthermore, I question the validity of the calculation that national carbon emissions levels will be impacted by the Coal to Clean portion of the bill. Limiting the purchasing ability of a utility does not limit the production ability of an energy producer.

"I feel strongly that it is in our best interest to raise the renewable portfolio standard and I am happy to support efforts to move Oregon toward 21st century energy standards. It is to this end that I support HB 4036."

HB 4046 (A-Engrossed) – McLane moved that in compliance with Article IV, Section 19 of the Oregon Constitution, and notwithstanding any provision of the Rules of the House of Representatives of the Seventy-eighth Legislative Assembly, the requirement that on its final passage each bill shall be read section by section, be suspended for the bill and that it be read by title only. HB 4122 (A-Engrossed) – McKeown requested the following explanation of her vote be entered in the journal:

"I concur that our constituents have the right to know what is in their food; whether Genetically Engineered plant materials, or Genetically Engineered animal products.

"What I am concerned about is the manner in which the labeling is legislated and regulated. Labeling should be required at the federal level, not the state level. A patchwork approach to how agricultural products are labeled can be very difficult for our agricultural producers whose products cross state and national boundaries. Interstate commerce issues make this approach to labeling incredibly challenging.

"I have fully supported, and will continue to support labeling of these products, as long as it is federally mandated and regulated, and consistent across all regions of this country. Our constituents do have a right to know, but let's get it right."

McLane declared a potential conflict of interest and submitted the following statement:

"I would like to declare a potential conflict of interest as a legislator that may be affected by pay increase as a result of SB 1532 A."

Wilson declared a potential conflict of interest and submitted the following statement:

"I write to declare a potential conflict of interest concerning SB 1532A as a member of legislature and potentially voting a pay increase for legislators."

Weidner declared a potential conflict of interest and submitted the following statement:

"I hereby submit my potential conflict of interest for SB 1532. Due to several conflicting legal opinions from Legislative Counsel increasing the minimum wage may potentially result in a pay increase for Legislators. Out of caution, I would like to inform you for the record."

Davis declared a potential conflict of interest and submitted the following statement:

"I would like to declare a potential conflict of interest as a legislator that may be affected by a pay increase as a result of SB 1532 A."

Hack declared a potential conflict of interest and submitted the following statement:

"I would like to declare a potential conflict of interest as a legislator that may be affected by a pay increase as a result of SB 1532 A."

Whitsett declared a potential conflict of interest and submitted the following statement:

Bentz declared a potential conflict of interest and submitted the following statement:

"Whereas Senate Bill 1532A has the potential effect of increasing the compensation paid to members of the Oregon House of Representatives, I hereby give notice of a possible conflict of interest in voting on this bill due to a possible personal financial benefit depending on the outcome."

Nearman declared a potential conflict of interest and submitted the following statement:

"This letter serves as notice of conflict of interest on SB1532A. This conflict is due to the possible pay raise for myself, as a legislator, and my wife, who works for the Department of Fish and Wildlife."

Stark declared a potential conflict of interest and submitted the following statement:

"I would like to declare a potential conflict of interest as a legislator that may be affected by a pay increase as a result of SB 1532 A."

Parrish declared a potential conflict of interest and submitted the following statement:

"Please accept this Conflict of Interest Statement for my vote on SB 1532 as it passed off the House Floor on 2/18/16.

"While I was personally a NO vote on the bill, I think the ambiguity on the legal opinions presented during the testimony creates a potential conflict of interest for any legislator who voted on the bill as the measure could have the net effect of giving legislators a pay raise.

"As a member of a class of only 90 legislators, and arguably, the only class of workers who can vote for a state-wide pay increase for workers across Oregon, I believe it to be entirely inappropriate that legislators would vote themselves a pay raise. Any ambiguous language should have been stripped out of the measure before it came to the House Floor for a vote."

Whisnant declared a potential conflict of interest and submitted the following statement:

"I would like to declare a potential conflict of interest as a legislator that may be affected by a pay increase as a result of SB 1532 A."

SB 1532 (A-Engrossed) – On passage of the bill the vote was: Yeas, 32; Nays, 26 – Barreto, Bentz, Buehler, Davis, Esquivel, Hack, Hayden, Heard, Huffman, Johnson, Kennemer, Krieger, Lively, McKeown, McLane, Nearman, Olson, Parrish, Post, Smith, Sprenger, Stark, Weidner, Whisnant, Whitsett, Wilson; Excused, 2 – Barton, Gilliam. Bill passed.

SB 1532 (A-Engrossed) – Evans requested the following explanation of his vote be entered in the Journal:

“Senate Bill 1532-A was a compromise bill. It was undertaken because of the extreme likelihood of an alternative proposal that would have implemented a new Minimum Wage rate for Oregon on a uniform basis, in less time. The most popular ballot measure would have established a \$13.50 rate for Oregon within the next three years.

“After consultation with small business owners, workers, and community advocates I decided to try and influence the process through engaging on a legislative measure that would wage rates more closely associated with the realities of regional economies, provide for a longer period of time for implementation, and maintain the ability of the Oregon Legislature to adjust – through statute – as necessary.

“Senate Bill 1532-A was not a perfect bill. Rather, as an imperfect instrument, it provided a flexible framework for us to build upon. It is our fervent hope the advocates for wage increases through the ballot will cease their efforts; it is our intention to work with all sides throughout the implementation phases of this strategy.

“There are several pieces of legislation ‘on the table’ for consideration in 2017 that will hopefully relieve some of the stresses small businesses face while struggling to compete in our emergent global economy. Our small business agenda will cover several different areas of concern including but not limited to: rebates, simplification, and tax credits.

“During the recent committee and floor debates on Senate Bill 1532-A there was a spurious assertion made about the connection between the measure and a raise in Legislative Salaries. Throughout the floor debate advocates offered what appeared to be conflicting legislative opinions from our Legislative Counsel about the legislative intent of the measure. I am filing this vote explanation to clarify the issue.

“To begin with, Legislative Counsel confirmed that there was no direct relationship between Oregon’s Minimum Wage and the salaries of legislators. The process of pay determination for legislators actually requires affirmative votes by members of the Oregon Legislature in 2017 – members elected in the General Election in 2016 (at least for the House). During the 2017 Legislature, the Public Officials Compensation Commission (POCC) is required to make recommendations for the Legislature on July 1, 2017.

“Once recommendations are made by the POCC, the Legislature is required to take an affirmative vote to accept or deny these recommendations. It is the opinion of Legislative Counsel that absent that affirmative vote, legislative pay would be eliminated. In an email dated: February 18, 2016 (3:00pm) Legislative Counsel concluded the following:

“ ‘Voting in favor of SB 1532-A will not lead to an inevitable legislator pay increase. In fact, the opposite will happen if no further legislative action is taken, namely either elimination of legislative salary all together or a reduction to July 1, 2017, minimum wage levels. The existing statutory framework and past practice all suggest, however, that it is highly unlikely the legislature will take other steps to affix legislator pay at a level that reflects a legislative policy choice.’

“It was the opinion of Legislative Counsel at the time of the vote on Senate Bill 1532-A that legislative salary and the measure before the House of Representatives were not directly related. Further, it is clear that any raise in legislative salaries – regardless of Senate Bill 1532-A requires affirmative votes by a House of Representatives that has not been selected by the electorate. The Oregon Constitution requires membership of the House of

Representatives to be elected every two years: all sixty (60) seats of the Oregon House of Representatives are up for election this coming November 2016.

“I believe Oregonians should value work more than wealth. Senate Bill 1532- A will raise the wages and improve the quality of life for thousands of Oregonians. It was crafted in such a way that will provide employers with increased time for planning and retains the ability of the Oregon Legislature to adjust the timelines involved when and if necessary. As I said in committee: the legislative intent of this bill – of Senate Bill 1532-A – is simple. The intent of the bill is to raise the Minimum Wage in Oregon; it is not intended to anything else.”

SB 1532 (A-Engrossed) – Gallegos requested the following explanation of his vote be entered in the Journal:

“There have been suggestions that voting to raise the minimum wage for hard-working Oregon families could amount to an automatic raise to legislators’ salaries. I am filing this vote explanation to state for the record that the legislative intent behind SB 1532-A is in no way to raise legislators’ salaries, and further, according to a legal opinion by Legislative Counsel, SB 1532-A would not raise the salaries of legislators.

“In an opinion from Legislative Counsel on whether there was a direct relationship between Oregon’s minimum wage and the salaries of legislators, and whether Senate Bill 1532 necessarily increases member salaries, Legislative Counsel responded that ‘the short answer to both of those questions is no.’

“The Public Officials Compensation Commission will make salary recommendations to the Legislative Assembly on July 1, 2017. Quoting again directly from the LC opinion: ‘It is not possible to predict with accuracy what the Public Officials Compensation Commission will decide in the future with respect to member salary increases. However, it is highly unlikely that the commission will recommend a salary freeze or cost of living adjustments (COLA) that are disproportionate to current economic conditions. Thus, the statutory minimum salary under SB 1532-A may never affect member salaries at all.

“I believe that Oregonians who work hard and play by the rules should be able to feed their families and pay their bills. Raising the minimum wage for hundreds of thousands of low-wage workers was a critical step in the right direction. But I want to be clear that I came to Salem to help hard-working Oregon families. The legislative intent here is very clear: Nothing in this bill should be read as increasing legislator salaries. My ‘yes’ vote on SB 1532-A is with the understanding, per an opinion by Legislative Counsel, that this bill raises wages for working Oregonians, not legislators.”

SB 1503 (B-Engrossed) – Keny-Guyer requested the following explanation of her vote be entered in the journal:

“While I voted Yes on SB 1503, I want to express my concerns and expectations for the continued data gathering on this issue.

“I have been concerned about ‘nurse parity’ since it was introduced in my first session in 2012. I was sympathetic to why ONA introduced the bill: starting in 2009, commercial insurers had slashed reimbursement rates for nurse practitioners (NPs) dramatically, by as much as 55% by one major insurer! I agreed this was not fair to NPs and was counter productive to our efforts to increase the primary care workforce.

“The legislature needed to remedy the situation and mandate a floor to protect a big portion of our primary care workforce. My hope was that (to the degree we do ‘fee for service’ reimbursement) we’d set a floor of 85% as in Medicare, and allow insurers to then pay more for service in under-represented areas and for years of service.

“Thus, I voted against nurse parity in 2012. In 2013, I voted for an amendment to limit HB 2902 and then gave a courtesy vote to pass it out of committee, but voted against it on the floor. This year, I remain concerned with pay parity for the reasons below; however, I voted Yes on SB 1503 to lift the sunset. It is hard to remove parity once people have had it, and there are other ways to get at my concerns going forward.

Reasons for my concern:

Fairness and equal pay for equal work

“Primary care physicians (e.g. pediatricians, internists, family physicians) and psychiatric physicians (e.g. psychiatrists) spend many more years in the classroom and in a variety of practicum settings. While it was unfair to slash NP’s reimbursement rates, is it ‘fair’ to compensate them the same as physicians, who have higher student debt and malpractice insurance, since they bear more responsibility? These physicians also delay their ‘earning years’ more than NPs while they are in training, thereby significantly increasing opportunity costs.

“More importantly, this is ‘equal work for equal pay’ due to the dramatic difference in years of training.

“While there is some research showing higher patient satisfaction with nurses, there is research about higher rates of misdiagnosis by NPs, of pharmaceutical prescriptions by PMHNPs, and of NPs referring to specialists. Since NPs do not have the three-month rotations in the specialty areas of medicine, I suspect this is truer of NPs who have been practicing for a short time as opposed to those with many years of practice.

“While the research is woefully skimpy on these comparisons (and I hope will be explored more fully in the future), there has been a strong trend in health care delivery towards Patient Centered Primary Care Homes. The team-based care allows each profession to contribute what it has been trained to deliver. NPs can consult with primary care physicians on complicated diagnoses that may or may not require referral to a sub-specialist, saving time and money to the patient and health care system. Thus, the work of the physicians is not ‘the same’ and should be compensated at a higher level.

Workforce

“With NPs and PAs receiving the same reimbursement rate as physicians, I am concerned that fewer and fewer people will want to become a pediatrician, internist, family physician, or psychiatrist. Given the evidence showing higher quality in team-based approaches, the lack of physician providers (which we already experience in rural areas) could potentially lower quality and raise costs.

Access for Medicaid patients

“Fewer doctors take Medicaid patients than commercially insured patients since the reimbursement rate is so much lower than in the commercial market. Traditionally, NPs have served that role (admirably!), since they were paid relatively similar amounts under Oregon Health Plan as in the commercial market. I am concerned that with parity and increased pay on the commercial side, NPs will do as doctors have always done: reduce the number of Medicaid patients they see.

Payment Delivery Systems

“The HB 2902 task force was charged with developing alternative payment systems to provide fair compensation for primary care providers while preserving parity for the same unit of work. They wrestled with the concept of paying physicians more by assigning them the more complicated cases (practicing at the top of their licenses), which would be reimbursed at higher levels.

“However they recognized that even with the efforts to draw more distinctions in the codes for level of service (LOS), “the LOS

does not reflect the level of training, content knowledge, quality outcomes, or cumulative experience of a provider, even within the same licensed specialty.” In other words, should an NP who has worked for 30 years be compensated the same as an NP who has just graduated, for performing the same diagnosis?

“Ultimately, we still need to move towards a risk adjusted global payment for primary care and behavioral health. Then, Primary Care Homes can hire the providers and pay a salary commensurate with training, certification, and years of service, which can be adjusted based on outcomes.

Cost

“I used to be concerned that cost to the overall health care system would increase when we reimbursed NPs and PAs at the physician level. I worry less about that now. The HB 2902 task force found that incentivizing people to become NPs and PAs should increase access to primary care, which will lessen advanced illnesses and visits to emergency rooms.

Where do we go from here?

“As I stated when voting for SB 1503 in the House Health Care committee, I had hoped we’d pass the -5 amendment, which would direct OHA to track the changes in physician, psychiatrist, NP, and PA workforce over time. Because that amendment would send the bill to Ways and Means and the chair did not want to slow the bill during the short session, I got a *commitment from OHA that it would continue to monitor the workforce, quality, access, and cost issues mentioned above.*

“I hope the Oregon Health Policy Board, its Health Care Workforce Committee, its Sustainable Health Care Expenditures Workgroup (SHEW), and the Center for Evidence-Based Policy (all referenced in the HB 2902 Joint Interim Task Force report of 2015) will help OHA assess these issues over time. None of us has a crystal ball and can predict whether the hopes for increasing access through nurse parity or the concerns mentioned above will be realized. Oregon, as often is the case, is pioneering something no other state has done to date; and it is imperative that we track the results.

“If indeed we lose physicians, decrease quality, and/or lessen access in our Medicaid market, I believe there is a strong commitment to deal with those issues through other measures, such as loan forgiveness and tax breaks for any provider type that faces a shortage. With the commitment to track the data and mitigate any concerns in the future, I changed my position from opposition to support for SB 1503.”

“Infrastructure costs outside of the UGB mean more costly investments for all services. We should look inside the boundaries for a more complete communities concept.

“The table 5-OAR 660-038-0190 (5) shows opportunity to build better complete community types with this list of tools. It provides a more streamlined process for developers. All of that is in place without HB 4079.

The following measures were referred from the desk of the Speaker and recorded on Committee Referral List No. 22:

SB 5702 Ways and Means
SB 1515 Ways and Means

SB 5701, 1501, 1573, 1595, 1599, 1601 – Read second time and passed to third reading.

SB 1507 (A-Engrossed) – Sprenger moved that in compliance with Article IV, Section 19 of the Oregon Constitution, and notwithstanding any provision of the Rules of the House of Representatives of the Seventy-eighth Legislative Assembly, the requirement that on its final passage each bill shall be read section by section, be suspended for the bill and the bill be read by title only. Motion carried on viva voce vote.

SB 1507 (A-Engrossed) – Read third time. Carried by Barnhart. On passage of the bill the vote was: Yeas, 53; Nays, 6 – Nearman, Post, Smith Warner, Stark, Weidner, Whitsett; Excused, 1 – Hayden. Bill passed.

SB 1507 (A-Engrossed) – Smith Warner requested that the following explanation of her vote be entered in the Journal:

“I voted no on Senate Bill 1507 because I believe that the goal of tax credits—to provide short term incentives that promote policies of benefit to Oregonians—has instead morphed into a system of corporate tax giveaways that often result in little public benefit, especially in terms of job creation. And the price tag paid by Oregonians is real: many millions of dollars each year are sacrificed to the tax break cause, at the expense of funding for our kids’ schools, the safety of our streets, and quality care for Oregon’s seniors.

“Without question, there are certain tax credits that do pay off with significant local job creation, such as Oregon’s film tax credit. And I agree that biomass digesters provide significant public benefit by reducing greenhouse gas emissions. However, a great number of tax breaks, credits and exemptions fail to meet their promises, yet are allowed to continue. Instead of utilizing tax credits as a short-term support on the road to long-term self-sustainability, some industries take advantage of these incentives as a means to simply increase their own profits.

“Tax credits were developed for good reason. Aiding a low- or middle-income family with credits toward child care or personal energy costs, or supporting a technology with immeasurable public benefit and minimal profitability, are great applications for a tax

credit. There is also an argument for augmenting a struggling industry as a bridge to getting an entity or market off the ground. But tax credits should not be employed for the chief purpose of rewarding successful private companies in healthy markets.”

SB 1512 – Sprenger moved that in compliance with Article IV, Section 19 of the Oregon Constitution, and notwithstanding any provision of the Rules of the House of Representatives of the Seventy-eighth Legislative Assembly, the requirement that on its final passage each bill shall be read section by section, be suspended for the bill and that it be read by title only. Motion carried on viva voce vote.

SB 1512 – Read third time. Carried by Gomberg. On passage of the bill the vote was: Yeas, 45; Nays, 13 – Barreto, Buehler, Hack, Heard, Johnson, Krieger, Nearman, Post, Sprenger, Stark, Weidner, Whitsett, Wilson; Excused, 1 – Hayden; Excused for Business of the House, 1 – Holvey. Bill passed.

Motion carried on viva voce vote.

"I am a member of a limited liability company that contracts with communities and counties to do economic and business development work in Eastern Oregon. As part of these contracts I am asked to manage several enterprise zones. Although SB 1565-B establishes a program that is different than enterprise zones, I could see how these communities or counties might ask me to assist them should they choose to participate in the program this bill establishes."

SB 1565 (B-Engrossed) – On passage of the bill the vote was: Yeas, 56; Nays, 2 – Barton, Smith Warner; Excused, 2 – Davis, Olson. Bill passed.

SB 1565 (B-Engrossed) – Smith Warner requested the following explanation of her vote be entered in the journal:

"I voted against Senate Bill 1565 because I believe it is too broad, goes too far, and does not require enough protection for local services. I do not believe that property tax exemptions should be used to reward successful private companies in healthy markets at the expense of our kids' schools, the safety of our streets, or quality care of Oregon's seniors.

"The industrial production facilities that would benefit from Senate Bill 1565 are located in small towns and rural areas across Oregon. This bill would allow city and county governments to let certain industries off the hook for paying their fair share in taxes, which leaves Oregon families in these rural areas to take on more and more of the burden. Worse yet, there is no guarantee that these tax exemptions will result in the creation of family-wage jobs.

"This bill is described as support for commercial brewers, vintners, and distillers, who are part of a popular and growing economic sector in Oregon. While I strongly support Oregon's

value-added agricultural industries, I do not believe that property tax exemptions should be used to reward successful private companies in healthy markets such as this.

"Oregonians can no longer afford a piecemeal approach where tax breaks are handed out one at a time to those who ask the loudest. Instead, we need comprehensive reform that ensures fairness, accountability, and adequate funding for the services that support the strength and health of Oregon families and our economy."

ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

- (1) The section, series of sections or chapter of Oregon Revised Statutes.
- (2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a measure are “added to and made a part of” the ORS chapter or series.
- (3) The following information about the section and measure by which ORS is amended, repealed or “added to”:
 - (a) The section number and Senate or House measure number;
 - (b) The section number and current session measure number or previous session measure number if a measure was repassed over the Governor’s veto, followed by “OV” for a current session overturned veto or “OVP” for a previous session overturned veto; or
 - (c) The section number and boldfaced ballot measure number if an initiative petition was approved at the most recent general election (such as “§5 BM 55”).

The engrossing level is printed next to the measure number if the measure has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The measure number and engrossing level appear in boldfaced type if the measure has become law, or has been referred, and has been assigned an Oregon Laws chapter number.

- (4) An “E” if an emergency clause applies to the amendment, repeal or addition.

**OREGON RULES OF CIVIL PROCEDURE (ORCP) AMENDED,
REPEALED OR ADDED**

There were no amendments, repeals or additions affecting the Oregon Rules of Civil Procedure during the 2016 Regular Session.

**SECTIONS IN UNCODIFIED LAW AMENDED,
REPEALED OR “ADDED TO”**

From left to right in the columns of the table below are found:

- (1) The year, chapter and section or sections of the uncodified law.
- (2) An “A” or an “R” indicating respectively the amendment or repeal of the uncodified section, or the word “Add” indicating that a section or sections of a measure are “added to and made a part of” the series of uncodified sections.
- (3) The following information about the section and measure by which the uncodified section or sections are amended, repealed or “added to”:
 - (a) The section number and Senate or House measure number;
 - (b) The section number and current session measure number or previous session measure number if a measure was repassed over the Governor’s veto, followed by “OV” for a current session overturned veto or “OVP” for a previous session overturned veto; or
 - (c) The section number and boldfaced ballot measure number if an initiative petition was approved at the most recent general election (such as “§5 BM 55”).

The engrossing level is printed next to the measure number if the measure has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The measure number and engrossing level appear in boldfaced type if the measure has become law, or has been referred, and has been assigned an Oregon Laws chapter number.

- (4) An “E” if an emergency clause applies to the amendment, repeal or addition.
