ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

- (1) The section, series of sections or chapter of Oregon Revised Statutes.
- (2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a measure are “added to and made a part of” the ORS chapter or series.
- (3) The following information about the section and measure by which ORS is amended, repealed or “added to”:
 - (a) The section number and Senate or House measure number;
 - (b) The section number and current session measure number or previous session measure number if a measure was repassed over the Governor’s veto, followed by “OV” for a current session overturned veto or “OVP” for a previous session overturned veto; or
 - (c) The section number and boldfaced ballot measure number if an initiative petition was approved at the most recent general election (such as “§5 BM 55”).

The engrossing level is printed next to the measure number if the measure has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The measure number and engrossing level appear in boldfaced type if the measure has become law, or has been referred, and has been assigned an Oregon Laws chapter number.

- (4) An “E” if an emergency clause applies to the amendment, repeal or addition.

VOTING

3.12 Electronic Roll Call System. The electronic voting system shall be under the control of the presiding officer and shall be operated by the Chief Clerk. The names of the members shall be listed on the electronic roll call board in alphabetical order, except that the name of the Speaker shall be last.

3.15 Roll Call. (1) The electronic voting system shall be used as the roll call to determine the presence of a quorum and/or the

presence of members under a Call of the House. Members shall press the "yea" button to record their attendance.

(2) A roll call vote of "yeas" and "nays" shall be taken and recorded on the final passage or adoption of all measures. Except as otherwise provided in these rules, the vote shall be recorded by the electronic voting system.

(3) Upon demand of two members, an oral roll call shall be taken and recorded on any measure that requires more than 31 affirmative votes. The Clerk shall call the roll of the membership, alternating between alphabetical order and reverse alphabetical order. The Speaker's name shall be called last.

(4) If the presiding officer is in doubt on any motion or a division is called for on a motion, a roll call shall be taken and recorded by the electronic voting system on the motion. On all other questions to be voted upon, unless otherwise provided in these rules, the presiding officer may order the "yeas" and "nays" taken by the electronic voting system.

(5) The electronic voting system shall not be used for election of officers.

(6) Individual votes shall not be displayed until the time for voting has expired and the electronic voting system has been closed.

(7) In the event the electronic voting system is not in operating order when voting on any question, the presiding officer shall order all "yea" and "nay" votes be taken by oral roll call. The Clerk shall call the roll of the membership in alphabetical order. The Speaker's name shall be called last.

(8) The vote of any member that has not been recorded because of malfunction of the electronic voting system shall be entered into the record if that member was within the bar of the House chamber at the time of the vote and attempted to cast their vote at the appropriate time, and the fact of such malfunction is reported to the presiding officer prior to the announcement of the result of the vote.

3.20 Requirements for Voting. (1) Each member within the bar when the question is stated and the member's name is called shall vote. No member shall be allowed to abstain from voting.

(2) If a member refuses to vote when the member's name is called, the presiding officer shall immediately call for the member's vote a second time. If the member again refuses to vote, the presiding officer shall read subsection (3) of this rule. The presiding officer shall then call for the member to announce the member's vote immediately. If the member fails to vote immediately after this third request, the presiding officer shall state for the record: "The member's failure to vote constitutes an intentional violation of House Rule 3.20, subsection (1) and a high breach of decorum. The Journal shall show that the Representative is censured for the violation; the clerk shall record the Representative's vote on the measure or motion on which the member refused to vote as a 'yea,' and the member may also be subject to other penalties as the House may order."

(3) Any member's refusal to vote, as required by House rules, shall be recorded in the Journal as an intentional violation of Rule 3.20 (1) and a high breach of decorum. The Representative shall be censured; the Clerk shall record the Representative's vote on the measure or motion on which the member refused to vote as a "yea;" and the member may also be subject to other penalties as the House may order.

(4) No member, except by unanimous consent, shall be permitted to vote upon any question unless he or she is within the bar before the last name on an oral roll call was called or is within the bar before

the electronic voting system is closed. No member shall vote or be allowed to change their vote after the presiding officer announces the result of the roll call by declaring the question has passed or failed to pass.

3.21 Announcement of Conflict of Interest. (1) When involved in an actual or potential conflict of interest, as defined by ORS 244.020, a member shall announce, on the floor or in the committee meeting, the nature of the actual or potential conflict prior to voting on the issue giving rise to the conflict.

(2) The member shall file in writing a statement of the nature of the actual or potential conflict with the Chief Clerk or the committee assistant by 5:00 p.m. the next business day following the vote on the measure. The statement shall be limited to the substance of the oral explanation given on the floor or in committee. The member's announcement of an actual or potential conflict of interest shall be recorded in the Journal or in the committee minutes.

3.26 Electronic Roll Call; Time, Changes. When a vote is taken using the electronic voting system, the members shall be allowed at least thirty seconds to vote, at the end of which time, the Clerk will display the vote. After the individual votes have been displayed, and before the result is declared, any member desiring to change his or her vote may request that of the presiding officer. The presiding officer shall direct the Chief Clerk to make the proper entry into the electronic voting system.

3.28 Electronic Roll Call; Misuse, Penalties. No member shall vote for another member using the electronic voting system. No member shall tamper with, alter or attempt to alter the electronic voting system, or cause the electronic voting system to register a vote without the member personally depressing a voting button during each roll call vote. Any member who violates this rule may be punished as determined by the vote of 31 members. If a person not a member votes or attempts to vote for any member or violates a provision of this rule, he or she shall be barred from the floor of the House for the remainder of the session, and he or she may be punished further as determined by the vote of 31 members.

3.30 Voting by Presiding Officer. The Speaker shall vote whenever a roll call is required. The Speaker's name shall be called last on an oral roll call vote.

3.35 Explanation of Vote. (1) Any member who wishes to explain his or her vote shall file the written explanation with the Chief Clerk by 5:00 p.m. the next business day following the vote on the measure. The vote explanation filed under this subsection must comply with subsection (2) of this rule. If the explanation does not meet those requirements in the determination of the Chief Clerk, the Speaker may refuse to cause the explanation to be printed in the Journal. An appeal of the presiding officer's ruling may be taken to the full body at the next floor session pursuant to House Rule 6.35.

(2) The vote explanation shall be germane to the subject and shall not reflect on the honor or integrity of any other member.

3.45 Printed Measures Required for Voting. No measure or amendment to a measure shall be finally voted on until it has been made available electronically or printed and placed on the desks of the members.

3.50 Third Reading Requirement. (1) No bill shall pass the House until after third reading and no measure shall be read more than once in any one day.

(2) A bill may be referred or re-referred to committee on third reading.

3.55 Call of the House. (1) Six members may demand a Call of the House at any time before a roll call has begun.

(2) Upon a Call of the House, the doors shall be closed until proceedings under the Call have been terminated. No other business shall be transacted until the proceedings are so terminated.

(3) Upon a Call of the House, the Sergeant at Arms shall cause all members who are not excused to come to the floor. If the Sergeant at Arms cannot locate any unexcused member, the Sergeant at Arms shall so report to the presiding officer, who shall announce the fact to the members.

(4) All members must remain within the bar of the House until the vote is taken for which the Call was made. However, when the House is waiting for an unexcused member and the presiding officer has announced that the House is "at ease," the members may have access to the area behind the rostrum until the presiding officer calls the House to order. Members must then return to within the bar.

(5) A Call of the House shall be considered terminated when the question for which the Call was invoked has been voted upon or when a motion to terminate the Call is approved by forty members. The motion to terminate the Call shall be in order when the Sergeant at Arms has reported that unexcused members cannot be returned within a reasonable time. Termination of the Call under this subsection terminates the requirement that the Sergeant at Arms search for unexcused members. In the absence of a quorum after the report of the Sergeant at Arms is received, the House may terminate the Call by the unanimous consent of the members present.

(6) Upon a Call and until the proceedings are terminated, the presiding officer shall direct the Sergeant at Arms to authorize members of the Senate, representatives of the news media and staff identified under House Rule 17.01(1) to leave or enter the chamber.

(7) Subsection (2) of this rule does not apply to the third-floor gallery.

(F) An appeal of the decision of the Chief Clerk to not distribute a floor letter may be taken to the Speaker if the sponsoring member disagrees with the Clerk's determination. However, a debatable motion to refer shall be allowed if the vote on the main question is reconsidered.

The motion for reconsideration has precedence over any other motion, subject to the provisions of Rule 5.10. House recessed until 12:00 p.m. Monday, February 5, 2018 on motion of Barnhart.

Monday, February 5, 2018 – Joint Assembly

The Senate and House met in Joint Session at 9:30 a.m. for the purpose of receiving the State of the State Address from Oregon's Thirty-eighth Governor, the Honorable Kate Brown.

President Courtney presiding.

The Secretary of the Senate called the roll of the Senate. All present.

The Chief Clerk of the House of Representatives called the roll of the House. All present except: Excused for Business of the House, 2 – Gorsek, Holvey.

Without objection, a committee to escort Governor Kate Brown was named by the Chair without the formality of a motion.

By unanimous consent, President Courtney appointed Representatives McLane and Williamson and Senators Winters and Burdick to escort the Honorable Kathe Brown, Governor of Oregon, within bar of the House.

Speaker Kotek presiding.

The Colors were posted by the Special Olympics Oregon Athletes assisted by the Oregon National Guard Joint Color Guard.

Governor Brown addressed the joint assembly.

“Thank you, Madam Speaker and Mr. President.

“My colleagues and fellow Oregonians, good morning. I appreciate the opportunity to address this joint session of the Oregon Legislature.

“This morning, I’d like to share a story about an American family – my family.

“My grandmother Lois, my dad’s mom, was a nurse; my grandfather was a doctor. He was brilliant, but he struggled with drug addiction most of his life.

“They separated, living apart for many years, leaving my grandmother to raise their four young sons alone.

“Living on nurses’ wages, it was terribly difficult for her; a constant and exhausting struggle to make ends meet.

“But, she never stopped thinking about her sons’ future. Those four little boys kept her going. Mostly by her own example, she instilled in them the importance of self-reliance and hard work.

“She taught them that the key to a better life was education, education, education.

“All four boys finished high school, went on to college, and served in the military. Three became doctors; one became an engineer.

“One of those doctors was my dad. And because my dad worked very hard, my childhood was very different than his. I grew up in a solid, safe, middle-class neighborhood. I never worried about whether I had enough to eat, or if the heat would be turned off during the sub-zero Minnesota winters. I knew from an early age that I was going to college, and that my parents would support me.

“I was raised to believe that I could accomplish anything I set my mind to.

“All because 85 years ago, my Grams put her family on a path out of poverty.

“American families across the country have their own versions of my family story, most with the same takeaway: if you worked hard and played by the rules, you earned a chance at a better life for yourself and your children.

“These family stories are the realization of the American Dream.

“But too many in Oregon, the American Dream has become the Impossible Dream. It seems no matter how much you work, it’s very hard to get ahead... Much less, set aside money for retirement or a down payment on a home.

“Oregon is a leader in economic recovery, and unemployment is hitting record lows.

“Yet, too many people need to work more than one job just to get by.

“Oregon’s rising economic tide should be lifting all boat. Yet, many hardworking families are still under water.

“I spend a lot of time with working people across our state. I’ve taken a hard look at their work experiences – from their first job to their last before retirement. I hear from them that one job isn’t enough to make ends meet.

“Others may have a job, but they are stuck – they don’t have the skills they need to get a better one.

“I also spend a lot of time with business owners across the state – urban and rural – large and small. They tell me that they are hiring and they want to hire more. But, they have trouble finding workers in their communities with the right skills to fill these jobs.

“In Oregon, there are five types of occupations driving the growth of our economy. And they all require highly technical skills”

Advanced manufacturing

Bioscience

Energy, solar, and wind

Healthcare, and

Information technology

“Now when I first saw that list, I assumed you had to have a college degree to get one of these jobs.

“That’s a myth.

“We should be preparing our high school graduates for these jobs. For some, even right out of high school.

“As you all know, Oregon’s high school graduation rate underscores that we are not doing enough to ensure that every student graduates from high school with a plan for what they’ll do next. For some, the next step is college, and for others, the next step is their first job.

“But currently, one out of every four job openings in Oregon’s tech industry is filled from out of state.

“One out of every five jobs for advanced manufacturing are filled from out of state.

“Just this past summer, private businesses in Oregon reported 66,000 job vacancies.

“Looking ahead, state economists are projecting 27,000 high-wage, high-demand job openings each year through 2024.

“It is clear. There is a gap between the skills Oregon’s workers have and the skills that our growing businesses need.

“This is unacceptable.

“And it’s also an incredible opportunity.

“It’s an opportunity for our students, for our businesses, and for the well-being of our communities.

“As policymakers, we talk about increasing prosperity and stopping the cycle of poverty.

“My vision is of an Oregon where we increase economic prosperity and do it in a way that ensures prosperity is inclusive. An Oregon where everyone is given the same fair shot at building a better life for themselves and for their children.

“As my friend Tom Chamberlain says, the single best way to get a family out of poverty is through a good paying job.

“So, we have these good paying jobs sitting vacant.

“At the same time we have Oregonians who want to provide better lives for themselves and their families.

“It’s time to close this skills gap.

“And to realize this vision, I am launching Future Ready Oregon.

“Future Ready Oregon starts with my grandmother’s mantra: education, education, education.

“And the goal is to close the skills gap between the workforce we have and the workforce we need to fuel Oregon’s economy.

“To accomplish this goal, we need to make sure every student graduates with a plan for their future and the tools that they need to compete in a global economy.

“We know that students who can envision their future are more likely to finish high school. And today, every student’s future begins with a high school diploma and a plan for their next step.

“Hands-on learning connects classrooms to career, inspiring students with a sense of purpose, giving them the drive they need to walk across that graduation stage and into their first job.

“In the three years I have been Governor, our graduation rate has improved by nearly five percent.

“One of the reasons for this success is the expansion of the hands-on learning experiences to more of our students –especially students from historically underserved communities.

“Last school year, 86 percent of students in Oregon who experienced hands-on learning, like Career and Technical Education programs, graduated from high school on time.

“86 percent.

“That’s why we quadrupled funding for CTE programs last session.

“And it’s why I will ensure every single school district offers hands-on learning opportunities for every single student. And in my proposed budget for the next biennium, that’s why I will dedicate 300 million dollars to hands-on learning programs in our schools.

“But, this investment is only effective if educators, employers, and community-based partners actively collaborate so graduates have skills that align with jobs in their communities.

“Just down the road from here, the Salem-Keizer School District has partnered with local business leaders to build the Career and Technical Education Center. Together, they have tailored programs for high schoolers to learn skills for the local high-growth industries.

“Their graduation rate?

“98 percent.

“We must replicate this success in every community across the state.

“It’s a key to meeting our goal of a 90 percent graduation rate by 2025.

“Money alone won’t help us meet our goals. We must understand that not every student is headed towards a four-year college degree. But if we arm students with marketable, in-demand skills, and a plan to use them, we light the path toward graduation and a good job.

“High-wage, high-demand jobs with advanced potential.

“Jobs that help our families get ahead.

“Jobs that open the door to a better life.

“These are the kids of plans that turn learners into earners.

“Not just through high school, but into the next stage of a worker’s career.

“Most of our grandparents – or even our parents – took a job as a young person and stayed in that job or with that company until retirement.

“My mom had it a bit easier than my dad. Her parents, my granny and grandpa, married young. She was nineteen; he was twenty. They eloped and got married at the county courthouse in Tulsa, Oklahoma. They were married for over 75 years, until my granny passed away at 96.

“My grandpa didn’t go to college, but shortly after high school, he started working at a food distributor called the Nash Finch company. He started in the warehouse. Over the years he worked hard. He eventually earned a really good salary. They were able to raise my mom and my uncle Jon and send them both to college. He was extremely dedicated to that company. When he retired at 65, they threw him a party and gave him a plaque.

“He lived to be 100 on the pension he accrued over a lifetime of work.

“The days of getting a job and keeping it for a lifetime are over.

“Today’s graduates are likely to change jobs about every three years. This current generation of workers will change careers – not just jobs, but careers – seven times over the course of their adult lives.

“We must build new pathways from the first job someone takes to their last. Pathways that ensure hardworking Oregonians can develop cutting-edge skills that give our state an economic advantage.

“Pathways that include skill training and registered apprenticeships to make Oregonians the first choice for high-wage, high-demand jobs.

“Jobs that buy groceries.

“Jobs that pay the rent.

“Jobs that help save for retirement.

“Over the course of the next year, through a series of executive actions, policy positions, and legislation, Future Ready Oregon will build these pathways for adults to get the right skills for the right jobs of Oregon’s future.

“I want each and every one of you to join me in taking five steps toward strengthening Oregon’s workforce.

“First, we have to change the way the state makes investments so that they are equitable across Oregon. To build pathways for lifelong learners as they advance throughout their careers. That’s why I have realigned Business Oregon’s priorities to focus on work that impacts communities of color and Rural Oregon, including Oregon’s nine tribes.

“As an example, we are now investing in broadband and prioritizing infrastructure investments to increase competitiveness of Oregon’s rural industries. We are also providing incentives to businesses to expand apprenticeships and job training opportunities for limited-English speakers and underserved communities.

“We are working with the Higher Education Coordinating Commission and Business Oregon to improve coordination between high-growth industries and our job training programs. Our community colleges are a key component of this work as well.

“As we work together with industries across the state, we can take the second step and fuel growth with what I am calling “Next-Gen Apprenticeships.” These are training programs in technical fields like IT, healthcare, advanced wood manufacturing, and high-tech manufacturing.

“Next-Gen Apprenticeships will expand registered apprenticeship opportunities to give hardworking Oregonians a competitive edge, ensuring they have the skills for today’s technologies and tomorrow’s advancements.

“This is happening right now in Bend and Eugene. The program is called Apprenti. It’s just getting started, but already job seekers are flocking to the program. Businesses are excited too.

“Third, we must also work to turn wage earners into job creators.

“I have proposed a bill this session that directs Business Oregon to develop a loan program to help those who are skilled in the construction industry start their own businesses. They are only eligible for these loans if they work on affordable housing in our rural communities. And that means these businesses will open where jobs are needed the most: rural Oregon.

“In all of our communities, even if someone is qualified for a job, they may not be able to live near it. It can be just as difficult to find housing in Pendleton as it is in Portland.

“This is a major threat to our continued growth and economic prosperity.

“That’s why I’m taking the fourth step toward making Future Ready Oregon a reality. I have directed my Regional Solutions team to partner with local communities, the business sector, and private developers to address the housing shortage for working families in Oregon.

“Several pilot projects, selected from dozens of proposals, will be announced in the coming weeks. From these, we’ll learn what can be scaled up and replicated.

“We also need to build on the success of the industries that have the highest rate of return. One of our largest growing industries is healthcare. Those training to enter the field should have fewer hoops to jump through and a wider range of opportunities to earn a good wage to support their families.

“In the fifth step, I will work to better align training and requirements for entry-level jobs in health care, in-home care, and community-based health to ensure that there is a ladder to a career for people gaining skills in caregiving.

“Strategic investments in these key sectors and in specific regions of the state will spark job growth and fuel our economy.

“Giving our students hands-on learning opportunities – and once they graduate, supporting them as lifelong learners – is the beginning of Future Ready Oregon.

“It is a new way of thinking about our economy and the Oregonians who work in it.

“By working together, we can ensure that economic prosperity reaches every single corner of the state.

“Everyone deserves the chance my family had – to get a good education. To work hard.

“to have the opportunity to build a better life.

“I stand before you today on the shoulders of my grandparents and parents who worked hard to create a path for me to get here.

“Each of us stands on the shoulders of those who came before us.

“We are the next generation who stepped forward to say, ‘Oregon is my home. This is my community; these are my neighbors – our

children are the future of this state. And I have a responsibility to try to make things better.’

“It is fitting that we sit in this chamber to consider the future of Oregon that we will help shape, together.

“We know how to rise above our differences. To put Oregon before party. To put Oregonians first.

“Just last session, Senator Boquist, Senator Beyer, Representative McKeown and now Senator Bentz played critical roles in passage of the transportation package that will create jobs and make our roads and bridges safer.

“Senator Knopp and Senator Taylor helped pass pay equity and fair scheduling, the first of its kind in the country.

“Representative Rayfield and Senator Jackie Winters worked hard to fund health care.

“And, after we experienced devastating wildfires this summer, I am very grateful to Rep. David Brock Smith – and to all of you who represent districts impacted by fire and smoke, who continue to be strong advocates for recovery.

“This Legislature is more diverse than ever – and a more accurate representation of our state. This diversity is major asset; it means more Oregon voices and experiences and communities are represented at the decision-making table. And this is a very good thing.

“We are at our best when we are diverse in our world views and experiences, but united in our resolve to make the well-being of the people of Oregon our highest priority.

“A divided and chaotic Washington, D.C. is unworkable, but a united Oregon is unstoppable.

“That’s why, under my leadership, we preserve the beauty and bounty of Oregon and continue to fight to keep our public lands in public hands.

“That’s why we won’t let Washington, D.C. take healthcare away from thousands of Oregonians.

“And that’s why I’ll fight to keep Oregon a welcoming place to all who call our state home – including our immigrant families and Dreamers. They embody the ideals of the American Dream and are an integral part of our communities, our culture, and our economy.

“As we come together this session, let us commit to keeping our promise to Oregonians. To take responsibility for moving Oregon forward.

“We must fuel our economy by closing the skills gap and ensuring our children are school ready and our schools are strong.

“We must make the PERS system more sustainable and keep the debt we owe from hobbling public education.

“We must operate state government as efficiently as possible. Being careful with every single taxpayer dollar.

“We must tackle the opioid crisis that threatens the ability of so many Oregonians to lead healthy and productive lives.

“And we must always keep our eyes on the horizon, making sure that the next generation has opportunities to make better lives for themselves.

“To give anything less than our very best effort is to waste this opportunity given to us by the people of Oregon.

“They are counting on us; we cannot let them down.

“Thank you.”

HB 5006 (2017 Regular Session) – Message from the Governor announcing she approved with line item veto, section 4, subsections 1 and 3, and signed, without affecting remaining provisions on August 15, 2017.

August 15, 2017

The Honorable Dennis Richardson
Secretary of State
136 State Capitol
900 Court St NE
Salem, OR 97301

Dear Secretary Richardson,

My approach to leadership and the example I want to set as Governor of Oregon is to establish key principles and goals that benefit our state, and then work with legislators, other elected officials, citizens and businesses to achieve these goals collaboratively using the democratic process and without being dictatorial.

I have carefully considered the use of my veto power since becoming governor and until this month, have avoided this last resort by encouraging close collaboration between the Legislature and the Executive branch. However, the most recent legislative session proved the veto pen must be used, at times, to ensure fair dealing on behalf of Oregonians.

In the following examples, trust matters. Process matters. Hearing from all sides matters. And making a decision in the interest of all Oregonians matters.

House Bill 5006 Section 83

A shining example of the right way to create policy that benefits all Oregonians was the transportation package, House Bill 2017. This was a chance to help bridge the economic divide between rural and urban Oregon.

Taking on this charge meant that as elected officials, we must recognize that we are collectively accountable to the entire state. Being fair to the public means making hard choices in a transparent manner.

After my Transportation Vision Panel completed its report in May 2016 that called for robust investments in all modes of transportation across Oregon, I worked with legislators to establish a process for them to travel the state, hear diverse opinions from Oregonians, listen to affected parties, and negotiate a package to responsibly fund our transportation needs while at the same time increasing accountability and cost-effectiveness. Bipartisan negotiations were not always easy, but in the end they were fruitful. Hours and hours of negotiations and work group meetings among dozens of legislators occurred to develop a final package, including a wide range of specific transportation projects across the state.

The legislature considered the unique circumstances of each local economy across the state and weighed them against each other in order to responsibly allocate taxpayer dollars to the greatest benefit of all Oregonians. For the city of Portland, this included, among other things, \$110 million for safety and other improvements to SE Powell Boulevard that was prioritized by Portland-area legislators.

For reasons that are unclear, the SW Capitol Highway project – Section 83 of House Bill 5006 – was not included in the final Transportation Package. Instead this project ended up being included in an unrelated budget bill, House Bill 5006. In Oregon, the type of funds used to pay for projects matter. General and lottery funds traditionally have been spent on schools, healthcare and services for veterans and seniors. Road-related taxes cannot be spent on these items. Because of this, funding road projects with lottery dollars should be a last resort. For this reason, I noticed this line item as a potential veto.

In the past week, I've received significant input from a wide range of constituencies since providing the veto notice. It's clear that the City of Portland SW Capitol Highway Safety Improvements project is a good project and should be funded. In the interest of all who have worked so hard on this project, I will not veto this item.

However, I continue to believe that lottery dollars should be used only as a last resort on road projects, so in the interest of clearly stating my position for the future, I hereby serve notice of potential veto on all future road projects funded with general or lottery funds.

House Bill 5006 Section 4

The Representative from Medford committed to supporting House Bill 2391, which funded the Oregon Health Plan, in exchange for funding the projects listed in section 4. House Bill 2391 funds health care for Oregon's most vulnerable populations and supports valuable health services that several hundred thousand Oregonians rely on. This funding is vital in a time of federal threats to the stability and even the existence of the United States' health care system.

I am not a fan of this type of explicit horse-trading on unrelated legislation. But, having served in the legislature I understand that political compromise is often necessary. The Representative broke this straightforward agreement, and in the interest of being able to negotiate support for future legislation that all sides honor, I must hold him accountable.

Since my veto notification on these projects, I have received extensive input from the Southern Oregon community on the importance of the Holly Theatre project. Because of this, I am not vetoing this project. I ask the Legislature to reevaluate the Bradshaw Drop Irrigation and the Harry and David Baseball Park projects based on their merits in the next legislative session.

Article V, Sec. 15a of the Oregon Constitution grants the Governor of Oregon the "power to veto single items in appropriations bills... without thereby affecting any other provision of such bill."

In accordance with Article V, Sec. 15a, I hereby disapprove, disallow, and veto the following items of Enrolled House Bill 5006 without affecting the remaining provisions of the bill:

House Bill 5006 Section 4

- (1) Bradshaw Drop Irrigation Canal project....\$1,895,000
- (2) Harry and David Baseball Park.....\$ 750,000

I have signed House Bill 5006 as to the remaining provisions of the bill and return the signed bill to you with this letter. On this bill, I have lined through the items I disallow, disapprove, and veto.

House Bill 5006 is an appropriation bill that triggers my line item veto authority. Each of the provisions that I have vetoed is a "single item" within the bill that is distinct and severable.

Sincerely,

Governor Kate Brown

HB 3355 (2017 Regular Session) – Message from the Governor announcing she vetoed on August 15, 2017.

August 15, 2017

The Honorable Dennis Richardson
Secretary of State
136 State Capitol
900 Court St NE
Salem, OR 97301

Dear Secretary Richardson,

I am returning Enrolled House Bill 3355 unsigned and disapproved.

Access to appropriate and timely mental health services is a serious issue in Oregon, particularly for children, vulnerable populations, and rural communities. HB 3355 would allow the State Board of Psychologist Examiners to authorize certain psychologists to prescribe mental health drugs. Proponents argue that the bill could improve access and improve care by allowing the diagnosing mental health provider to prescribe mental health drug treatments. While I laud efforts to improve access, I have several concerns with the bill as currently drafted, particularly related to patient safety and ensuring appropriate prescribing, which prevent me from approving it.

First, the bill does not provide sufficient safeguards for vulnerable populations. The bill would allow a prescribing psychologist to prescribe to any patient. The bill does not limit or require specialized education or training in order to prescribe to children, older Oregonians and other vulnerable populations; nor does it include patient safety, outcome data reporting, or monitoring to ensure appropriate prescribing. Additionally, prescribing psychologists would be regulated by a board that does not have experience regulating prescribers and which has different legal authority than other licensing boards to suspend or revoke a license for improper prescribing.

Second, there is insufficient evidence that the bill will improve access or quality of care. Of the two states that presently license prescribing psychologists, there is incomplete evidence and review of patient outcomes to demonstrate that access was improved from the policy. While the bill encourages collaboration between psychologists and medical providers in integrated settings, including patient-centered medical homes, the bill remains vague about how that

consultation should occur to ensure safety and evidence-based care for patients.

Finally, the bill creates unclear lines of legal responsibility. While this bill wisely encourages prescribing psychologists to collaborate with primary care physicians or nurse practitioners, it also immunizes collaborators from responsibility for giving bad advice. As a result, the bill leaves unclear who would be legally responsible for a psychologist's decision to prescribe a drug that injures or kills a patient when that decision was made in reliance on advice from a collaborating physician or nurse practitioner.

To be clear, psychologists are a critical part of the care team and behavioral health system. We must continue efforts to provide team-based, patient-centered care, and better integrate physical and behavioral health care. However, mental health drug therapies can have serious physical health impacts and over or inappropriate prescribing continues to be a concern. It is critical that patient safety safeguards be adequate for new prescribers.

Sincerely,

Governor Kate Brown

HB 4036 (A-Engrossed) – Sollman requested the following explanation of her vote be entered in the Journal:

“The role that a school and its faculty play in building a community and sense of belonging for students is just as important as the subjects they teach. Relationships are being nurtured and formed outside of a classroom environment and this is critical. I believe in the concept of the bill, of allowing students access to after-school programs. The issue I face is when there are programs with limited spots available and require a waiting list of students wanting to participate. If a program like chess club has limited space I want to ensure that the students who attend the school where the program is being offered are not displaced. In situations where space is unlimited or there are spaces available, I would be open to allowing students that live within the school boundary, but attend a charter or homeschool, an opportunity to participate.

“Again, I believe this bill is a solid concept, it’s about kids and I support the general idea, but I can’t support the potential displacement of students who attend the school where the program is hosted, and for that reason I voted no on HB 4036.”

Publicly funded State Agencies should have to comply with the same transparency requirements and this bill not only fails to do so, the Majority Party purposely made sure they didn't.”

Bill passed.

HB 4113 – Marsh requested the following explanation of her vote be entered in the Journal:

“Mandatory inclusions of class size as a bargaining item is a distraction from the issue at hand: We need more money in our cradle to career education system. I have been a strong advocate for school funding, and I will continue to do everything I can to support revenue reform. But HB 4113 does nothing to incentivize or enable school districts to address class size. To the extent that this bill suggests otherwise, it reinforces a narrative that I don’t believe: that our districts have enough money, if only teachers weren’t so greedy or school administrators so inept.

“When we finally allocate more money to schools, I will be the first to support incentives for class size reduction. Until then, I believe this bill undermines our work.”

HB 4113 – Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on HB 4113 for the following reasons and more. As a longtime school board member in a rural school district, I have serious concerns with the bill and the impact on funding for our schools. School Districts can already elect to negotiate class sizes, if they choose. Making it mandatory could cause serious problems for students and take dollars away from the very classrooms we’re trying to help.”

HB 4113 – Sollman requested the following explanation of her vote be entered in the Journal:

“As a mother to two sons and a former school board member, I’ve seen firsthand the real impact budget cuts have on our local schools. When we had to make tough choices on the Hillsboro School Board because our district wasn’t getting the funding it needed from the state, it broke my heart knowing what those cuts would mean for our students – increased class sizes, cuts to critical programs, fewer days in the classroom and more.

“Our teachers are right – smaller class sizes should be a priority for every school district. Unfortunately, with funding shortages, tough decisions must be made. It is because of my experience having to make those tough decisions on the school board, I can’t vote yes for this bill. Some districts, will need to choose between smaller class sizes or shorter school years. On the school board, we often had to make the decision that it was better to have students in the classroom learning, albeit in a bigger class than we would prefer, than starting summer vacation as much as two weeks early. Neither was a good choice, but until we can fully fund our public schools, those choices must be left to the local districts as they scramble to balance their shrinking budgets.

“We can do better for our students, our teachers, our state. And we will. Let’s roll up the sleeves and look at every corner of the state and listen to our students, our staff and community members about the issues we face and come up with real solutions that will provide stable funding, stronger opportunities and resources to support the work that needs to be done.”

Many of our residents offer AirBNB services, throughout our area and they are reporting and paying. This bill does not belong in the short session and many have argued that continued discussion is needed for the mechanics of the collection and reporting methods to be properly vetted. These small business persons that offer rooms in their homes and other accommodations need a simple understanding of these laws and taxes. Industry needs to work together to be ready next session. As a former local government elected official, I completely understand the need to bring all together for fairness, across the industry."

Bill passed.

HB 4155 (A-Engrossed) – Smith DB requested the following explanation of his vote be entered in the Journal:

"I voted NO on HB 4155 for the following reasons and more. The politics around this bill are troubling. In fact, there was a Floor Letter from Senator Wyden that states, 'I am a strong supporter of the Obama-era rules recently gutted at the federal level by Donald Trump's Federal Communication Commission.' This occurred after he held a rally on the front steps of the Capitol. I have concerns as this is a government procurement bill, will not directly affect resident households, and would create more government control over the internet. The Bill gives Oregon Public Utility Commission unprecedented regulatory authority over the internet, rather than the market that the people have control over. There has been a lawsuit filed by the Oregon Attorney General on this issue as well. I support Oregonians rights to an open internet, and to that end, the Republicans offered a Minority Report that would create a Task Force to have the needed minds in the room to address this important issue and come out with good policies to enact for our residents. HB 4155 does not accomplish this and does not help solve these problems for our residents."

HB 4154 (B-Engrossed) – Read third time. Carried by Fahey. Bill passed.

HB 4154 (B-Engrossed) – Bynum requested the following explanation of her vote be entered in the Journal:

"I voted 'No' on HB 4154-B and wish to explain my vote.

"I abhor wage theft and will support any measure designed to combat this scurrilous practice. I do not believe, however, that HB 4154-B is the best answer. My issues with the Bill are not what it would do BUT the three things it fails to do.

"First, it will not attenuate the inefficacies of the Bureau of Labor and Industries' (BOLI) wage theft enforcement scheme. Second, it does not recognize the potentiality for quicker recoveries under a Wage Security Fund option. Third, it does not address the abuse of undocumented workers, the exclusion of workers whose first language is not English or the presence of labor trafficking.

"We have accepted as a society that 'the wheels of justice grind slow.' Representatives debating the Bill acknowledged the delays in BOLI's enforcement procedures. That one would have to file a complaint, wait for BOLI to investigate, then conduct a hearing or a trial. All of which could take up to a year to transpire, only to have a victim prevail, and still *not* get paid. Rather than invest in a new unproven option – that may have far reaching and unintended consequences – we need to streamline the process already in place.

"Many have batted around the idea of using the Wage Security Fund differently to address wage theft. With a few adjustments to the capital generating aspect of the Fund, this may prove a viable option. If construction sub-contractors are the primary culprits, as much of the testimony I heard leads me to believe, there needs to be an actuarial overhaul of the Fund. Construction sub-contractors may need to be paying into the Fund commensurate with the drain they create, sufficient to alleviate the financial burden on other industries. Other industries may then be allowed to contribute less.

"The Bill does not tackle the abuse of undocumented workers and workers whose first language is not English. Nor does it speak to labor trafficking. Protecting the rights of ALL workers falls to BOLI by statute. Yet, a large portion of Oregon's workforce do not seek BOLI intervention because they are afraid of governmental contact or because they are unfamiliar with their options. It falls on BOLI to bridge that gap. Not the legislature.

"The Legislature considered HB 2856 during the 2017 Regular Session. This Bill would have '[c]reate[d] [a] Community Outreach and Labor Education Program within Bureau of Labor and Industries to promote awareness of employee rights.' The Bill also proposed to pull funds from the Wage Security Fund to finance the endeavor. An amalgam of both approaches may be necessary to adequately tackle what I feel HB 4154 does not.

"It is for these reasons that I voted 'No' on HB 4154."

HB 4154 (B-Engrossed) – Meek requested the following explanation of his vote be entered in the Journal:

"I voted 'No' on House Bill 4154-B and wish to explain my vote.

"I am strongly opposed to wage theft, and I support strict penalties against those who commit it. I appreciate the motivation with which HB 4154-B was introduced, but I could not support the bill in its current form.

"Fairness is a fundamental value of our legal system. For our laws to be just, they must be applied equitably. I believe we must strengthen the existing method for employees to file wage theft claims, but it should be on the backs of those that commit wage theft – not the small businesses who are simply trying to do the right thing.

"In order to stop wage theft, we need to know who is committing it. HB 4154-B does little to identify the perpetrators of wage theft. Indeed, shifting responsibility for a subcontractor's unpaid wages away from the 'bad actors,' and onto another independent business instead, makes the true culprits of wage theft even more difficult for workers to identify.

“There are already significant, non-trivial costs incurred by general contractors that conduct insufficient vetting of subcontractors. Indeed, some subcontractors may be less incentivized to follow wage theft laws in good faith, knowing that responsibility for any wage theft activities would no longer rest with them, but with the general contractor.

“It is for these reasons that I voted ‘No’ on HB 4154-B.”

HB 4154 (B-Engrossed) – Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on HB 4154 for the following reasons and more. This bill and the associated performance bonds will hurt subcontractors, especially those that are attempting to start up. In our economic environment where general contractors are facing increased challenges to keep up with current demands for new housing construction due to a lack of subcontractors, it is counterproductive to adopt this policy that would further discourage builders from meeting the housing needs of their communities. The bill will also allow dollars that are in the Wage Security Fund; that are fully funded by employers for the purpose of paying valid wage claims when the employer is unable to do so, could now be used by the Bureau of Labor and Industries to investigate and enforce claims. We need to continue the work on improving Oregon’s wage claim laws, but HB 4154 is not the right approach.”

Bill passed.

SB 1528 (B-Engrossed) – Evans requested the following explanation of his vote be entered in the Journal:

“While I have concerns about how the changes in federal tax changes impact Oregon and there are elements of the bill I support, I ultimately voted no because of its impact on a set of small businesses and sole proprietorships that are the backbone of House District 20’s economy. The average income of sole proprietors in Oregon is \$23,300.00 per year, yet we ask them to pay .1% higher taxes than the largest corporations in the state. Currently these businesses do not get to take advantage of Oregon’s state pass-through tax break. Connecting these businesses to the new federal pass through would have provided a tax break for many hard-working Oregonians who need and deserve it.

“I’m committed to continuing to fight to level the playing field for working families and small businesses, which is why I voted against this particular proposal to disconnect from the federal tax code.”

SB 1528 (B-Engrossed) – Meek requested the following explanation of his vote be entered in the Journal:

“As a small business owner – as well as a father and someone who has benefited from a quality public education – this was a difficult choice. Ultimately, I decided to support SB 1528-B for three major reasons.

“First and foremost, this vote is about preventing a \$258 million cut to vital services that have already been allocated for. That’s equivalent to nearly 1,500 teachers. At a time when our state is already struggling to invest in education, making significant cuts to our kids’ classrooms is untenable.

“Secondly, small businesses in Oregon will not see a higher tax bill this year as a result of SB 1528-B. In my first term, I have worked hard to reform Oregon’s revenue system. I believe – now more than ever – that we must stabilize funding for our schools and ensure that our local small businesses aren’t paying beyond their fair share. Tax filers with pass-through income pay a lower tax rate than wage earners, and with other portions of the federal tax changes going into effect, these filers can still plan to see a tax cut this year.

“Finally, the pass-through tax break overwhelmingly benefits the wealthiest Oregonians while doing little for middle-class families. According to Oregon’s nonpartisan Legislative Revenue Office, 80 percent of the benefit of this tax break would have gone to households earning over \$1 million. Oregon simply cannot afford another tax break for the wealthiest Oregonians at a time when

working families are struggling to make ends meet and our classrooms are overcrowded.

“SB 1528-B levels the playing field for working families by ensuring that we prioritize investments in education and other vital services over tax breaks for the wealthy. It is for these reasons that I voted ‘Yes’ on SB 1528-B.”

SB 1528 (B-Engrossed) – Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on SB 1528 for the following reasons and more. This bill will directly impact the small businesses within the State and would disconnect from the federal tax code, as well as the tax breaks the federal administration just passed. It would take those small business tax savings away and put them in the state coffers. This bill is wrong on many levels and hurts the smallest businesses in our state, that are the backbones of our economies.”

Bill passed.

HB 4059 (A-Engrossed) – Meek requested the following explanation of his vote be entered in the Journal:

“Traffic congestion on Interstate 205 has reached record levels. Time spent in traffic is more than just an annoyance – it means lost productivity and fewer hours spent with our families. As Clackamas County and the entire metro region continue to grow, the traffic on I-205 will only get worse in the absence of new infrastructure investment from the state.

“HB 4059 directs the Oregon Department of Transportation to conduct a cost analysis of the I-205 bottleneck project, but it does not directly allocate any new funding towards moving the project forward with construction. Our statewide transportation planning must make congestion relief on I-205 a top priority, given the benefits that it will provide for the metro region and our state’s entire economy. The absence of these investment dollars for I-205 congestion relief in HB 4059 is a missed opportunity for the State of Oregon.

“Furthermore, I am concerned that the combination of the Rose Quarter expansion and lack of I-205 congestion relief will push more traffic congestion from Portland down to Clackamas County, causing further congestion for my constituents.

“It is for these reasons that I voted ‘No’ on HB 4059.”

I also support the first-time home buyers, but none of these dollars go to County Clerks. I have an affordable workforce housing bill, HB 4108, that will generate jobs and supply, that did not move. "I voted yes on HB 4139 because, despite its implementation of a 'tax' on the heavy equipment rental industry, it un-ties them from a much more complicated taxing system. The bill is revenue neutral which means our equipment rental business owners will not see a rise in their taxes because of it."

HB 4152 (B-Engrossed) – Read third time. Carried by Helfrich. On passage of the bill the vote was: Yeas, 59; Excused, 1 – Hayden. Bill passed.

HB 4163 (A-Engrossed) – Parrish requested the following explanation of her vote be entered in the Journal:

“HB 4163-A has provisions that have significant merit, such as Section 11, which directs Oregon’s Secretary of State to do an actuarial review of the Public Employees Retirement System, or PERS, which I support.

“However, being an omnibus bill, there are several provisions of HB 4163-A to which I am opposed. One specific example is as follows:

“Section 17 changes the process of how legislators are paid. Currently in statute, if the legislature wants to increase salaries of certain elected officials, including judges, statewide elected officers, and this body, it must do so in a manner that is transparent to the public and taxpayers. Historically, this involves determining a specific dollar amount which is voted upon by both legislative chambers.

“Section 17 changes this determination in a manner that creates difficulty for a taxpayer to understand when the legislature increases its own salaries.

“In the new language, HB 4163 amends ORS 171.072 and deletes the provision that the legislature transparently adjusts its own compensation. The amended language now ties salary to the greater of a salary point negotiated via the Executive Branch, or as a percentage (17%) of the salary of a circuit court judge.

“Not only does HB 4163 include a pay increase for this year for circuit court judges, which creates an immediate pay increase for the legislature, in subsequent years, a vote for circuit court judicial salary will mean an immediate pay increase for the legislature.

“Since I believe legislative pay should be negotiated in full transparency of the legislative process, this bill as written violates my personal belief about preserving an open process by which the public has a clear understanding of any future legislation under consideration.

“Moreover, the wage and step process of the Executive Branch is driven by the public employee unions’ collective bargaining process to which I am opposed.”

HB 4163 (A-Engrossed) – Smith DB requested the following explanation of his vote be entered in the Journal:

SB 1541 (B-Engrossed) – Kotek requested the following explanation of her vote be entered in the Journal:

“I decided to support Senate Bill 1541-B because it is a crucial next step towards improving air quality in Oregon. This was a difficult decision for me because legislative intervention on this issue undermined an 18-month public process that brought together stakeholders from all sides of the issue. This bill is a compromise and also an important step forward.

“Senate Bill 1541-B will make Oregon a leader in air quality programs nationwide. Since the program addresses both new and existing facilities, it provides stronger protections than many air toxics programs across the country. The program’s requirements for new facilities are as strong as anywhere in the country. The fees in the bill are a major investment in cleaner air paid for by the facilities covered by the program. I will monitor the implementation of this program over the coming years to ensure it is adequately reducing health risks in North and Northeast Portland.”

SB 1541 (B-Engrossed) – McLain requested the following explanation of her vote be entered in the Journal:

“Senate Bill 1541 is an important piece to our clean air initiatives as a state. This bill makes Oregon a leader in addressing air toxics, and it ensures that the program is funded by payments from those who are creating the pollution. While this bill does not go as far as I would like, I believe it is a step in the right direction.

“I heard from people in the public health world who were concerned about the level of air pollutants that would trigger action. I agree with them. This was a consensus bill and, like many bills of its type, there is more to be done on this issue than this bill accomplishes.

“However, I voted in favor of SB 1541 because it reverses two decades of declining investment in air emissions programs and creates a funding model in which the polluters, themselves, pay for the program.

“No bill is perfect – they’re all the result of compromise and negotiations. SB 1541 is no exception. I voted yes because this is an important step forward that will create a path towards better air for all Oregonians.”

SB 1541 (B-Engrossed) – Smith DB requested the following vote explanation be entered in the Journal:

“I voted NO on SB 1541 for the following reasons and more. This legislation will negatively impact businesses, industries and citizens in my district and around the state. It also gives DEQ too much authority and more work, when they cannot complete their current workload, as outlined in the recent Secretary of State Audit.”

SB 5702 (A-Engrossed) – Sollman requested the following explanation of her vote be entered in the Journal:

“While I voted yes on SB 5702, I wanted to note my concern about some of the aspects of the bill about our ability to maintain effective and efficient support to all seven of our public universities. As we are looking to serve the students best across our state, we need to make sure we are taking careful consideration of the potential issue of university sprawl. There is a need for large universities and there is also a need for the smaller, more rural universities and I want to make sure we are cognizant that it is important that we balance the needs of both types of higher education institutions in our state. There are a lot of great projects in this bill, and that’s why I supported it, but I also had some very serious concerns that I wanted to note and will be tracking this closely in the future.”

ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

(1) The section, series of sections or chapter of Oregon Revised Statutes.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a measure are “added to and made a part of” the ORS chapter or series.

(3) The following information about the section and measure by which ORS is amended, repealed or “added to”:

(a) The section number and Senate or House measure number;

(b) The section number and current session measure number or previous session measure number if a measure was repassed over the Governor’s veto, followed by “OV” for a current session overturned veto or “OVP” for a previous session overturned veto; or

(c) The section number and boldfaced ballot measure number if an initiative petition was approved at the most recent general election (such as “§5 BM 55”).

The engrossing level is printed next to the measure number if the measure has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The measure number and engrossing level appear in boldfaced type if the measure has become law, or has been referred, and has been assigned an Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.

**HOUSE
JOURNAL**

Monday, May 21, 2018 -- Morning Session

House convened in Special Session at 8:00 a.m., pursuant to the proclamation issued by the Honorable Kate Brown, Governor of the State of Oregon, in compliance with Article V, section 12, of the Oregon Constitution.

PROCLAMATION**OFFICE OF THE GOVERNOR**

WHEREAS: Small businesses are the backbone of Oregon's economy, yet the state's smallest businesses – sole proprietorships – are prohibited from participating in Oregon's preferential tax structure for pass-through entities; and

WHEREAS: Oregon's smallest businesses should have the chance to grow by allowing them the same reduced tax rates that other qualified businesses already receive; and

WHEREAS: Many types of businesses may operate as sole proprietorships across a number of industries – agriculture, construction, manufacturing, health care, technology and food services – and simply because of their legal structure, they cannot claim this benefit; and

WHEREAS: The success of small businesses is key to continuing Oregon's economic growth and contributing to strong local economies in every community in the stat. And

WHEREAS: With the large number of federal tax law changes beginning in 2018, some businesses may actually see tax increases; and

WHEREAS: It is important to do this now for small businesses this year as waiting until 2019 to make this change will only cost the businesses themselves.

NOW THEREFORE: I, Kate Brown, Governor of the State of Oregon, pursuant to Article V, section 12, of the Oregon Constitution, find an extraordinary occasion exists. And do by this proclamation call the Seventy-Ninth Oregon Legislative Assembly to convene in special session on May 21, 2018, at 8:00 a.m.

Although the Constitution does not allow me to limit the length of the special session or the issues considered, I ask that the members of the Assembly act expeditiously in enacting legislation relating to the matter referenced above.

IN WITNESS WHEREOF, I hereunto set my hand and cause the Great Seal of the State of Oregon to be affixed. Done at the Capitol in the City of Salem in the State of Oregon on this day, May 9, 2018.

No member shall vote or be allowed to change their vote after the presiding officer announces the result of the roll call by declaring the question has passed or failed to pass.

3.21 Announcement of Conflict of Interest. (1) When involved in an actual or potential conflict of interest, as defined by ORS 244.020, a member shall announce, on the floor or in the committee meeting, the nature of the actual or potential conflict prior to voting on the issue giving rise to the conflict.

The vote explanation filed under this subsection must comply with subsection (2) of this rule. If the explanation does not meet those requirements in the determination of the Chief Clerk, the Speaker may refuse to cause the explanation to be printed in the Journal. An appeal of the presiding officer's ruling may be taken to the full body at the next floor session pursuant to House Rule 6.35.

(2) The vote explanation shall be germane to the subject and shall not reflect on the honor or integrity of any other member.

(2) Upon a Call of the House, the doors shall be closed until proceedings under the Call have been terminated. No other business shall be transacted until the proceedings are so terminated.

(3) Upon a Call of the House, the Sergeant at Arms shall cause all members who are not excused to come to the floor. If the Sergeant at Arms cannot locate any unexcused member, the Sergeant at Arms shall so report to the presiding officer, who shall announce the fact to the members.

(4) All members must remain within the bar of the House until the vote is taken for which the Call was made. However, when the House is waiting for an unexcused member to return to the floor, or in order to access the facilities, or the presiding officer has announced that the House is "at ease," the members may have access to the area behind the rostrum. Members must then return to within the bar.

(5) A Call of the House shall be considered terminated when the question for which the Call was invoked has been voted upon or when a motion to terminate the Call is approved by forty members. The motion to terminate the Call shall be in order when the Sergeant at Arms has reported that unexcused members cannot be returned within a reasonable time. Termination of the Call under this subsection terminates the requirement that the Sergeant at Arms search for unexcused members. In the absence of a quorum after the report of the Sergeant at Arms is received, the House may terminate the Call by the unanimous consent of the members present.

(6) Upon a Call and until the proceedings are terminated, the presiding officer shall direct the Sergeant at Arms to authorize members of the Senate, representatives of the news media and staff

(d) Ephemeral communications, including, but not limited to, voicemail, text messages and instant messages, are not required to be retained.

(3) A member or legislative assistant may, at any time, deliver records required to be retained under this rule to the Legislative Administrator. A person who ceases to be a member of the Legislative Assembly shall deliver records under subsection (2) of this rule to the Legislative Administrator within 60 days after the member ceases to be a member. Records delivered to the Legislative Administrator under this rule must identify the person delivering the records and specify the date on which the records may be destroyed.

(4) In order to ensure consistent and timely compliance with the disclosure provisions of the Public Records Law, the Legislative Counsel shall presumptively be designated to receive public records requests on behalf of members. The Legislative Counsel will assist each member in preparing responses to requests and will consult with each member prior to the disclosure of any of the member's records to a requester. A member may respond to a public records request directly, but should notify the Legislative Counsel of the request. Regardless of whether or not a member has designated the Legislative Counsel to receive their public records requests, the member may request assistance from the Legislative Administrator or Legislative Counsel in responding to public records requests at any time.

(5) This rule applies to all records of members and legislative assistants, whether created before, on or after the effective date of this rule.

(6) (a) Before each regular long session, each member and each legislative assistant must receive training provided or approved by the Legislative Counsel's office on compliance with this rule and applicable portions of the public records law. Members not elected to the Legislative Assembly and legislative assistants not employed by the Assembly at the time of this training must be provided information about compliance with this rule within 30 days following their swearing in or hire.

(b) Training must include but is not limited to the requirements for retaining public records and responding to a public records request.

(7) If the response to a records request has not been completed within 10 business days following acknowledgement of the request, the member must provide the requestor an estimate of the number of days required to respond to the records request. If the estimated records production date passes without records being produced or exemptions claimed, the member shall provide a new estimate and explanation of the status of the request. The member may designate the Legislative Counsel to provide the estimate.

(8) As used in this rule, "legislative assistant" means a person employed to assist a member, to assist the Speaker of the House or to assist either caucus leader.

The committee may as an incident of the investigation require such additional information about the alleged violation, improper conduct or wrongdoing as the majority of the committee considers pertinent and necessary.

HB 4301 – Alonso Leon requested the following explanation of her vote be entered in the Journal:

“Small businesses are the backbone of Oregon’s economy. Through hard work, vision, and talent, small business owners are growing and creating opportunities in every corner of our state, urban and rural.

“This legislation was fundamentally about creating equity within the tax system we currently have. It is important that the smallest of Oregon’s small businesses have all of the same benefits available to them.

“Our Legislative Revenue Office estimates that 12,000 sole proprietors will be eligible to take advantage of this policy change. These are individuals who contribute to their communities, strengthen our local economies, and help move our state forward to a more prosperous future.

“For those reasons, I have chosen to support this legislation. I will keep a close eye on this tax break and ensure it fulfills its intended goals.

“Looking ahead to 2019, I believe the legislature needs to begin the work of reforming Oregon’s broken revenue system. What is badly needed is a comprehensive strategy on growth, competitiveness, and workforce preparation. I look forward to pushing this agenda so we can support both urban and rural Oregon while continuing to make Oregon an attractive place to do business.”

HB 4301 – Boone requested the following explanation of her vote be entered in the Journal:

I look forward to pushing this agenda so we can support both urban and rural Oregon while continuing to make Oregon an attractive place to do business.”

HB 4301 – Bynum requested the following explanation of her vote be entered in the Journal:

“This legislation is just the beginning of long-overdue reforms in the way small businesses are regarded in Oregon. What is badly needed is a comprehensive strategy on growth, competitiveness, and workforce preparation. I look forward to pushing this agenda so we can support urban and rural Oregon, while ensuring our state continues to be an attractive place to do business.

“For those reasons, I have chosen to support this legislation. I will keep a close eye on this tax break and ensure it fulfills its intended goals.”

HB 4301 – Evans requested the following explanation of her vote be entered in the Journal:

“While I continue to have concerns about the efficacy of the pass-through deduction in meeting its stated goals, I have always contended that if this tax break is going to exist, it must include the smallest of Oregon’s small businesses.

“During the 2018 legislative session, I voted against Senate Bill 1528, in part, because of its impact on the small businesses and sole proprietorships that are the backbone of House District 20’s economy. The average income of sole proprietors in Oregon is \$23,300 per year, yet we ask them to pay higher taxes than some of the largest corporations in the state.

“It is important for the sake of equity and fairness in our tax code that we level the playing field for working families and small businesses. I will keep a close eye on this tax break and ensure it fulfills its intended goals, and I will continue to fight for policies that support both urban and rural Oregon while continuing to make Oregon an attractive place to do business.”

HB 4301 – Fahey requested the following explanation of her vote be entered in the Journal:

“During my time in the legislature I have consistently advocated for the reform of the pass-through tax break that was passed by the legislature in 2013. The debate around House Bill 2060 in 2017, which I voted for, pointed out many of the flaws in this tax policy. Because of the broad nature of the tax break, it is now primarily used by the wealthiest Oregonians in business sectors that include doctors, lawyers, and hedge fund managers. It is estimated that the cost of the program will soon balloon to over \$300 million in the coming years, with 72 percent of the benefit going to those making more than \$500,000 per year. In other words, the benefit of this program is going to the wealthiest Oregonians, and it is taking much-needed resources from critical programs in our state.

“As someone who helped to start up a small business myself and has worked in the private sector for over 17 years, I sympathize with those small business owners who have been left out of the pass-through tax break. But, as Oregon struggles to adequately fund its public schools, health care and public safety, I could not support a proposal that was not at least revenue neutral.

“In addition, the pass-through tax break has not been fully evaluated to assess whether it is meeting its goals and providing its intended benefits. Oregon has implemented a policy whereby most tax credits expire every six years, unless the legislature assesses the effectiveness of the tax credit, considers any potential changes, and then votes to renew it. In my opinion, these sunsets are a critical component of responsible governing. The pass-through tax break lacks such a sunset, which means that its effectiveness and economic impact has not and will not be systematically evaluated. As a strong proponent of evidence-based public policymaking, I believe that our tax policy decisions should be informed by data and that the pass-through tax break should be subjected to the same scrutiny as tax credits in this state.

“Oregon desperately needs to reform our outdated and inadequate revenue system so that we can finally make the kind of investments that will move our state forward. I am in favor of a comprehensive strategy on growth, competitiveness, and workforce preparation. However, this bill is not that.”

HB 4301 – Keny-Guyer requested the following explanation of her vote be entered in the Journal:

“Governor Brown inherited a bad tax policy passed during the 2013 Grand Bargain. While there were many good aspects of the 2013 revenue bill (which is why I ultimately voted for it), I strongly objected to the poorly designed pass-through tax break that was included in the bill negotiations.

“The pass-through tax break was touted as ‘targeted relief for small businesses,’ but it is neither targeted, nor limited to small businesses:

- Contrary to the many floor speeches today about ‘small businesses,’ the tax break does not focus on the size of the business. It is instead based on the pass-through income to business owners, not the gross revenue or net profit of the business. Owners of a \$100 million business (hardly a small business!) could qualify for the tax break if they have ‘material participation’ in an S Corp, LLC or partnership business.
- Over two-thirds of the benefit goes to tax filers who receive over \$500,000 in pass-through income. 75% of the proposed tax break would go to sole proprietors with pass-through income of over \$200,000.
- The ‘marginal’ tax break up to \$5 million per business owner means that business owners who receive \$10 million in pass-through income get a benefit off of their first \$5 million in income.
- The tax break also goes to business pass-through income from businesses based outside of Oregon due to the Commerce clause, despite the bill’s intent to help grow ‘Oregon businesses.
- The original bill had no sunset, despite the law passed in the 2013 regular session (with an implementation date of Jan. 1, 2014) to put an automatic six year sunset on every tax credit or tax break to ensure that the tax break was serving as intended.

“Read my 2013 Grand Bargain summary on my legislative website to understand the details:
<https://www.oregonlegislature.gov/keny-guyer/Pages/news.aspx>.

“I appreciate that this Special Session forced us to focus on this one policy since various attempts to amend it have failed over the past five years; and I appreciate that the Governor proposed to fix one aspect of fairness, and the omission of sole proprietors. I had hoped that the Legislature would take her initiative and address other aspects of the bill to ensure we are truly helping small business owners rather than the wealthiest business owners.

“I testified on HB 4103 on 5/16/2018 and submitted amendments for consideration by the committee. I posted the -10 amendment, a variation of the amendment proposed by Rep. Gomberg, in hopes it would be adopted by the Committee: (<https://olis.leg.state.or.us/liz/2018S1/Downloads/ProposedAmendment/13522>).

“Elements of my -10 amendments included:

- Capping the tax break to business owners with income up to \$250,000/yr as a qualifying income, meaning that owner with income over that level would not qualify for the lower rates.
- Setting the tax rate at 5% for filers with incomes below \$50k, 6% for incomes below \$100k, and 7% for incomes up to \$250,000.
- Lowering the employee hour requirement from 1200 to 1000 hours and removing the requirement for a minimum 30-hour work week to count towards those total hours, allowing approximately 6000 more small business owners to qualify for the tax break.

“These reforms would provide a greater level of support to a larger number of truly small business owners, while also recapturing millions of dollars in revenue currently lost to large business owners, which could be redirected to foster kids, schools, health care, human services, and housing, as well as to the truly small business owners.

“Even if we didn’t adopt the hard cap of \$250k, I argued that we should at the very least add a sunset and make the bill revenue neutral. Given that we did not take these minor steps to improve the bill, I voted NO. I will continue to fight vigorously for a better policy in the 2019 session.”

HB 4301 – Lively requested the following explanation of his vote be entered in the Journal:

“I considered several factors in my decision to vote no.

- An estimated 305,700 sole proprietors are projected to file a full-year Oregon return in 2018. HB 4301 impacts approximately 12,000 of those businesses. 40% of the benefit of this measure will go to those businesses with total income equal to or exceeding \$500,000 and a little over 30% to those with income between \$200,000 and \$500,000. Filers with income under \$100,000 are projected to receive under 8% of the tax reduction. For me this does not actually address the issue of a ‘small’ business tax credit, or represent the sole proprietors who can best benefit from the tax reduction. Most sole proprietors in my district are in the category of less than \$100,000 in income. I believe this measure further disadvantages those businesses.
- This measure reduces funds available to spend on critical state programs including education (0 – 20), child welfare, health insurance and others that working-class Oregonians most benefit from. When most agree more investment is needed in many of these areas, it makes no sense to me to further diminish the funds available through a tax reduction.
- The majority of working families in my district do not make \$100,000 per year, nor can they write off any of their expenses as business owners can. These working families will continue to pay the same rate as many who make much more than they

do and in some cases more than those who employ them. A more progressive tax system for working families should be as high a priority as addressing the business tax structure.

- Nothing in this measure provides any guidance on what return the Oregon taxpayers can expect by providing this additional tax reduction. I believe those who receive the benefits of tax reductions have an obligation to show proof of the return to the taxpayers. Just like we are continually evaluating state programs we invest public funds in, we should do the same for funds invested as tax reductions. Many talk about new jobs, new equipment investment and other similar outcomes from tax reductions on businesses, but we have a very poor track record in demonstrating this takes place.”

HB 4301 – McKeown requested the following explanation of her vote be entered in the Journal:

“Small businesses are the heart and soul of many communities across the state – including the part of the state I am honored to represent, which includes the coastal portions of Coos, Douglas, Lane and Lincoln counties. Thanks to their tireless work and dedication, small business owners are growing and creating opportunities for Oregonians every day.

“This legislation was fundamentally about creating equity within the tax system we currently have, which is why I voted to support it. Still, there are more businesses left out of this proposal that I would like to see. It’s important to ensure that is true equity within the tax code. Which is why I will continue to work so that more businesses like the ones all along the South Coast that employ timber, agricultural and other seasonal and part-time employees, are able to utilize this benefit.

“I look forward to working on a comprehensive strategy focused on growth, competitiveness, and workforce preparation, so we can ensure Oregon remains an attractive place to do business.”

HB 4301 – McLain requested the following explanation of her vote be entered in the Journal:

“Small businesses are the backbone of Oregon’s economy. Through hard work, vision, and talent, small business owners are growing and creating opportunities in every corner of our state, urban and rural.

“This legislation was fundamentally about creating equity within the tax system we currently have. It is important that the smallest of Oregon’s small businesses have all of the same benefits available to them.

“Our Legislative Revenue Office estimates that 12,000 sole proprietors will be eligible to take advantage of this policy change. These are individuals who contribute to their communities, strengthen our local economies, and help move our state forward to a more prosperous future.

“For those reasons, I have chosen to support this legislation. I will keep a close eye on this tax break and ensure it fulfills its intended goals.

“Looking ahead to 2019, I believe the legislature needs to begin the work of reforming Oregon’s broken revenue system. What is badly needed is a comprehensive strategy on growth, competitiveness, and workforce preparation. I look forward to pushing this agenda so we can support both urban and rural Oregon while continuing to make Oregon an attractive place to do business.”

HB 4301 – Meek requested the following explanation of his vote be entered in the Journal:

“Small businesses are the backbone of Oregon’s economy. Through hard work, vision, and talent, small business owners are

growing and creating opportunities in every corner of our state, urban and rural.

“This legislation was fundamentally about creating equity within the tax system we currently have. It is important that the smallest of Oregon’s small businesses have all of the same benefits available to them

“Our Legislative Revenue Office estimates that 12,000 sole proprietors will be eligible to take advantage of this policy change. These are individuals who contribute to their communities, strengthen our local economies, and help move our state forward to a more prosperous future.

“As a small business owner myself, I know the challenges faced by those who strike out on their own. For the sole proprietors, their average income is \$23,300.00 per year, yet we ask them to pay higher taxes than the largest corporations in the state. That is unfair and untenable.

“For these reasons, I have chosen to support this legislation. I will keep a close eye on this tax break and ensure it fulfills its intended goals.

“Looking ahead to 2019, I believe the legislature needs to begin the work of reforming Oregon’s broken revenue system. What is badly needed is a comprehensive strategy on growth, competitiveness, and workforce preparation. I look forward to pushing this agenda so we can support both urban and rural Oregon while continuing to make Oregon an attractive place to do business.”

HB 4301 – Reardon requested the following explanation of his vote be entered in the Journal:

“Although I am very committed to finding ways to expand Oregon’s economy in an equitable way, I decided to be a NO vote on House Bill 4301.

“My reasoning for a NO vote is as follows:

“The current tax structure has existed for several years and there is no agreement as to its effectiveness or structure. I question the urgency of passing a bill that adds more businesses to an already flawed tax policy.

“I would have preferred to tackle this specific issue in context of a more comprehensive revenue discussion. Passing this now will make it more difficult to address comprehensive revenue and cost-reduction policies that we must have in 2019.

- 60 percent of the tax benefit will go to sole proprietorships with over \$500,000 in taxable income.
- Truly small businesses, those bringing in \$50K or less in taxable income, receive only about \$150 in tax savings.
- This arrangement totally misses the target of helping Oregon’s struggling start-ups achieve their potential.

“The bill cost is also of concern. \$11 Million per year is tossed around like it’s nothing, but there are worthwhile programs that could benefit our communities with that kind of money. For example, I have been unable to get \$5 million for targeted job training that would train people in communities of concentrated poverty for jobs that already exist near where they live. Also, our community colleges suffered a drop in funding in 2017 that needs to be replaced. There are many other examples.

“Going forward, I would like to see a more comprehensive approach to reform this policy and our outdated revenue system. For example, I would be interested in participating in a robust discussion based on Representative Gomberg’s proposals which includes: minimizing current restrictions by adjusting qualifying employee hours from 1,200 to 1,000 and elimination of the 30 hour per week

requirement. I want a revenue neutral solution, which will require a reduction of the cap. That, no doubt, will require much debate.”

HB 4301 – Sollman requested the following explanation of her vote be entered in the Journal:

“Small businesses are the backbone of Oregon’s economy. I have been meeting with small business owners in my district at a series of round-table events and have heard directly about their struggles and their successes. Through hard work, vision, and talent, our small business owners are working to grow and create opportunities and we need to support small business efforts with a fair and sustainable tax system.

“This legislation was fundamentally about creating equity within the tax system we currently have. Our Legislative Revenue Office estimates that 12,000 sole proprietors will be eligible to take advantage of this policy change. These are individuals who contribute to their communities, strengthen our local economies, and help move our state forward to a more prosperous future.

“For those reasons, I have chosen to support this legislation for now, but looking ahead to 2019, I believe the legislature needs to do the work of reforming Oregon’s broken revenue system. What is badly needed is a comprehensive strategy on growth, competitiveness, and workforce preparation. I look forward to pushing this agenda so we can support both urban and rural Oregon while continuing to make Oregon an attractive place to do business.”

HB 4301 – Williamson requested the following explanation of her vote be entered in the Journal:

“I believe it is important for us to ensure there is equity and progressivity within our tax code. That is why, during the 2017 session, I supported shrinking the pass-through deduction to ensure that the benefit was meeting its original goals. I have also strongly advocated for structural reforms to our outdated and unfair tax code so that we can finally make the needed investments in our schools, health care, public safety system, and other vital state services.

“I believe Gov. Brown’s goals with this special session are correct. While the pass-through deduction is in place, we should ensure there is equity within the system, and those small businesses not currently being captured should be included.

“Heading into the 2019 legislative session, I am committed to fighting for structural revenue reform, which includes a serious review of the pass-through structure. It is vitally important that we ensure the services and programs that Oregonians value, like quality public schools, health care and public safety, are properly funded and everyone is paying their fair share.”
