No member shall vote or be allowed to change their vote after the presiding officer announces the result of the roll call by declaring the question has passed or failed to pass.

3.21 Announcement of Conflict of Interest. (1) When involved in an actual or potential conflict of interest, as defined by ORS 244.020, a member shall announce, on the floor or in the committee meeting, the nature of the actual or potential conflict prior to voting on the issue giving rise to the conflict.

3.26 Electronic Roll Call; Time, Changes. When a vote is taken using the electronic voting system, the members shall be allowed at least thirty seconds to vote, at the end of which time, the Clerk will display the vote. 9.05 Committee Reports. After it is submitted to the Desk, every committee report recommending amendments to a measure shall be sent by the Chief Clerk to the Publication Services unit of the Legislative Counsel for examination in the same manner as bills are examined by the unit.

9.10 Consideration of Committee Reports. (1) Reports from standing committees shall be listed on the committee report file, which shall be made available to the members or be read under the order of business of Standing Committee Reports in the numerical order of the measure, except that reports on appropriation measures shall precede reports of other measures. Committee recommendations shall be posted in the House Measure History Report and upon convening of the House, the Journal shall include a cumulative listing of all committee recommendations in order by date.

(2) No motion is required to adopt a committee report, unless the bill has a minority report also.

9.15 Minority Reports; Dissents. (1) If a minority report, subscribed to by at least two members who are present and vote in opposition to the committee report, accompanies the committee report, both shall be filed and placed on the calendar under the order of business Propositions and Motions. No member may sign on to more than one report for a particular measure at the same time. For the 2017 regular session, the minority report shall be filed and placed on the calendar no later than the second session day after distribution of amendments. For the 2018 Regular Session, the minority report shall be filed and placed on the calendar no later than the session day following second reading.

(2) As all committee reports are properly before the House without debate or requirement of adoption prior to third reading and final passage, when the committee report is accompanied by a minority report the following process shall be in order. The carrier of the committee report shall explain the committee report and without debate the carrier of the minority report may move immediately that the minority report be substituted for the committee report. After the motion to substitute has been decided, the measure, if a bill, shall be immediately considered as provided by Rule 9.37 (2) or, if other than a bill, as provided by Rule 9.35 (3).

(3) The notice of intent to file a minority report may only be applied to a measure reported out of a policy committee. They shall notify the Chair and committee staff no later than two hours after adjournment of the committee meeting during which such final action was taken.

Minority reports shall be filed at the Desk on the same day the committee report is filed.

(5) Any member of a committee who dissents from the committee report shall be listed in the committee report as not concurring therein. The names of members dissenting shall be recorded in the Journal and House Measure History Report.

(6) A minority report must be filed with the committee staff not later than the next business day following the day on which notice is given to the committee of intent to file the report, if the presiding officer has ruled that adjournment sine die is imminent.

(7) The minority report is subject to the requirements of Rule 5.35.

(8) Issues contained within a minority report must have been submitted as proposed Legislative Counsel amendments and distributed to the committee for possible consideration.

(9) If a work session occurs within 24 hours of the first public hearing, subsection (8) will not apply. However, the issues contained within the minority report must have come under discussion of the measure, in the committee filing the committee report.

9.30 Withdrawing Measure from Committee. (1) A measure, including one referred by the House to a joint committee, may be withdrawn from a committee by the affirmative vote of 31 members.

(2) The motion to withdraw a measure from committee shall be in order only under the order of business Propositions and Motions.

(3) Immediately following a motion to withdraw a measure from committee, the presiding officer shall direct the Clerk to read the measure's number, title and summary and without debate place the question and call for the vote. The measure shall be scheduled in compliance with Rules 9.32, 9.35 and 9.37. The version withdrawn from committee shall be the version that exists at the time the motion is made as provided under subsection (2) of this rule.

9.32 When a Bill Goes to Second Reading. (1) Prior to third reading and final consideration, a bill must be read a second time. No motion affecting the status of the bill on second reading will be in order.

(2) When a bill is reported favorably without amendments, the bill shall be placed on the next available calendar for second reading. When a bill is reported favorably with amendments, the bill shall be placed on the next available calendar for second reading after the amendments or the engrossed bill is made available electronically or printed and distributed to the desks of the members.

(3) When a bill is reported with a minority report, the bill shall be placed on the next available calendar for second reading after the amendments or engrossed bills are made available electronically or printed and distributed to the desks of the members.

RECONSIDERATION

10.01 Reconsideration. (1) When a measure has passed or failed to pass or a motion has been adopted or defeated, any member voting on the prevailing side may move for reconsideration of the measure or motion. The motion for reconsideration is not in order on a vote whereby a measure is indefinitely postponed.

(2) The member who intends to move for reconsideration must state his or her intent orally prior to adjournment on the same day on which the vote to be reconsidered was taken.

(3) A motion to reconsider may be debated together with the main question if the subject of the main question is debatable and the vote on the main question was not ordered by a motion for the previous question. If the vote on the main question was ordered by the previous question, neither the motion to reconsider nor the main question is debatable. However, a debatable motion to refer shall be allowed if the vote on the main question is reconsidered.

(4) The motion to reconsider shall be voted on the first session day after that on which the vote to be reconsidered was taken. The motion for reconsideration has precedence over any other motion, subject to the provisions of Rule 5.10. However, if the measure subject to reconsideration was passed so late in the session that the Speaker has reasonable cause to believe that its retention will unnecessarily delay the orderly process of legislative business, the Speaker shall immediately lay the motion for reconsideration before the House.

(5) Thirty-one affirmative votes are required to reconsider the final vote on a measure.

(6) There shall be only one motion for reconsideration of any final vote even though the action of the House reverses its previous action.

10.05 Transmitting Measures on Which Notice of Reconsideration Has Been Moved. When a member has given notice of intention to move for reconsideration of the final vote passing a measure, the Chief Clerk shall not thereafter transmit that measure to the Senate until the motion for reconsideration has been disposed of or time for making the motion has expired. However, if the measure subject to reconsideration was passed so late in the session that the Speaker has reasonable cause to believe that its retention will unnecessarily delay the orderly process of legislative business, the Speaker shall immediately lay the motion for reconsideration before the House.

10.10 Recall of Measure. (1) If a measure has been transmitted to the Senate before the motion to reconsider is made, the motion to reconsider must be preceded by a motion to recall the measure. The motion to recall a measure is subject to the same time limit as the motion to reconsider.

(2) A motion to recall a measure shall be acted upon immediately, with debate on the motion but not on the merits of the measure.

(3) If a bill has been transmitted to the Governor before the motion to reconsider is made, the bill may be recalled from the Governor without regard to which house originated the bill and at any time prior to the signing and filing of the bill by the Governor.

Notice of the meeting shall be announced on the floor if the House is in session.

11.15 Adoption of Conference Committee Report. (1) If a majority of the members of the House conference committee and a majority of the members of the Senate conference committee agree to an amendment, or otherwise resolve the issue between the houses, each shall file its report in triplicate with both houses. All conferees shall sign the report. A dissenting conferee shall indicate that fact when signing the report.

(2) (a) No motion is required to adopt the conference committee report if re-passage of the measure is not required. A motion is required to adopt the conference committee report if re-passage of the measure is required. If the motion to adopt the report prevails, it shall be in order to repass the measure.

(b) For the 2017 regular session, a motion to adopt a conference committee report shall not be made sooner than the first session day after the conference committee report has been printed and distributed to the members.

Inaugural Address
Governor Kate Brown
January 9, 2017

Thank you, Madam Speaker, and thank you for your extraordinary service to Oregon.

I am inspired by the leadership that's earned you the Speaker's office for a third consecutive assembly.

Exactly 50 years ago today – January 9, 1967 – Tom McCall stood where I stand and took the oath of office as Oregon's Governor. Oregon has changed in countless ways in the past half-century, but one principle that has endured can be found in the words Governor McCall spoke at the beginning of his inaugural address.

They are words about the importance of a strong relationship between the Governor and the Legislature. "To the extent it is humanly possible to do so," said Governor McCall, "let us put aside the temptation to be guided by regionalism, factionalism, or anything which fragments the public interest. May we pledge to one another to work not in partisanship but in partnership."

It is in that spirit that I address you, the members of the 79th Oregon Legislative Assembly; and it is that spirit that I address all Oregonians.

Let me start by congratulating my fellow statewides: Secretary of State Dennis Richardson, State Treasurer Tobias Read, and Attorney General Ellen Rosenblum.

And congratulations and welcome to all our legislators. This freshman class includes Representative Teresa Alonso Leon, who personally knocked on more than 4,000 doors during her campaign, and Senator Alan DeBoer, who won his election by just over 500 votes. Given the fact that I won my first legislative race by 7 votes, I consider a 500 vote victory to be a landslide!

I know this is a very exciting and special day for you and your families, and I am so grateful for your commitment to public service.

Speaking of public service, I believe it is worth noting that the legislative assembly that begins today is the eighth assembly in which Peter Courtney will preside as President of the Senate – a number that is unmatched in Oregon's 158-year history. Nobody loves this building and the Legislature more than Peter Courtney. Please join me in saluting him on his historic service.

Two final notes of personal privilege: I'd like to thank my family and friends for all their love and support, which encourages and motivates me daily.

And, secondly, courage is defined as "mental or moral strength to venture, persevere, and withstand danger, fear, or difficulty."

Personally, I define courage – and I suspect that many of you do as well in just three words: Representative Vic Gilliam. Representative Gilliam, your presence here today inspires all of us.

Members of the Legislature and my fellow Oregonians, I am honored to stand before you as your duly elected Governor. I take the oath today in far happier circumstances than I did nearly two years ago in February 2015.

Despite those circumstances and the fact that the 2015 session was already underway, we worked together in the months that followed and achieved some important accomplishments.

We adopted meaningful ethics reforms needed to regain the trust of all Oregonians.

We invested in a seamless system of public education from cradle to career, including early childhood education, all-day kindergarten, and our community college access program, the Oregon Promise.

We expanded the Oregon Opportunity Grants to help more Oregon students pay for college. We passed paid sick leave so that more workers would no longer have to choose between keeping their job or paying their rent.

We also got stuff done during the 2016 short session. We raised the minimum wage, thereby supporting Oregon families struggling to make ends meet, and making the statement that no one working full time should be living in poverty.

We responded to the tragedy at Umpqua Community College by providing \$6 million to address campus and community needs.

We upheld the tradition of leading on environmental stewardship by making Oregon, once again, a national and global model with the passage of the nation's first coal-to-clean law, eliminating coal-fired electricity for good.

As I've often said, future generations will judge us not on the fact of climate change, but how we responded to it. Under my leadership, we will continue to move Oregon forward.

But for me, and I suspect for Senator Chuck Thomsen and Representative Mark Johnson, one of the most memorable days of that session was the day when we passed legislation forever proclaiming March 28 as Minoru Yasui Day in Oregon.

Born in Hood River a little over 100 years ago, Minoru Yasui was the first Japanese American to graduate from the University of Oregon School of Law and the first Japanese American member of the Oregon Bar. He made national history by challenging the constitutionality of Executive Order 9066, signed by President Franklin Roosevelt on February 19, 1942, which required persons of Japanese ancestry to remain in their homes between the hours of 8 p.m. and 6 a.m.

On March 28, 1942, at the age of 25, Mr. Yasui put his personal liberty on the line for justice, as he intentionally violated the curfew by walking the streets of Portland. He was arrested and imprisoned for nine months in solitary confinement at the Multnomah County Jail before being ordered to the Minidoka Relocation Center in Idaho, where he would remain until near the end of the war.

Mr. Yasui eventually established a law practice in Denver and, until his death in 1986, continued to fight for civil rights for all and for the court to rule that Executive Order 9066 was unconstitutional. Mr. Yasui's ashes are buried beneath a pair of giant cedars in a Hood River cemetery.

In November 2015, President Obama awarded Mr. Yasui with the Presidential Medal of Freedom – the highest award that can be bestowed upon an American citizen. He is the only Oregonian ever to receive this award.

I share this story today because America has just come through the most bitter and divisive national election in memory; an election featuring rhetoric questioning the very citizenship and civil rights of Americans.

And I want to make it very clear that here in Oregon, where thousands have fought for and demanded equality, we can not and will not retreat.

We must guard against prejudice based on race, ethnicity, religion or belief.

We must not allow the rights of any one person or class of people to be degraded in any way.

We must preserve and strengthen the Oregon tradition of working with our nine sovereign Tribal nations and all native peoples who join us in calling this great State Home.

We must champion women's rights and fight for our struggling families.

We must stand up for our veterans.

We must defend the rights of LGBTQ Oregonians.

In short, we must always remember the words of Mr. Yasui, who said, "If we believe in America, if we believe in equality and democracy, if we believe in law and justice, then each of us, when we see or believe errors are being made, has an obligation to make every effort to correct them."

The guiding principle of my public service is to fight to bring opportunity to all Oregonians. Especially those who haven't had a fair shot or who have been left behind.

This has been and remains the guiding principle of my public service career. This principle can be seen in the priorities and programs I have outlined in my proposed budget.

It is a budget that prioritizes what I believe are the three requirements central to building a successful life: the opportunity for a good job; the opportunity for good health; and the opportunity for a good education.

Let me briefly touch upon each of these:

For those living in urban Oregon, it seems like the economy is growing like a gangly teenage boy: overnight and out of control. For the first time in almost two decades, the statewide unemployment rate dropped below the national average. News outlets from Forbes to Fortune to Bloomberg are writing glowing profiles of Oregon's job-producing economy.

But for rural communities such as John Day or Powell Butte, as Republican Leaders Ted Ferrioli and Mike McLane know so well, there is a disturbing gap between the unemployment rate in urban Oregon and rural Oregon.

For families living in Columbia, Coos, Crook, or any of our rural counties, we must bust open the doors of opportunity so that individuals can find good paying jobs right where they live.

To accomplish this, and to ensure the economy is humming in every single corner of Oregon, we need to take a multifaceted approach, leveraging investments in workforce development, infrastructure, collaboration, and innovation.

As I have traveled across Oregon, countless employers and business owners have told me that they've struggled to find the employees to meet their needs. One way we can help them is to make Columbia County – with an unemployment rate of 6.3 percent – the national role model for 21st Century workforce training.

Based on a model created in England – and bolstered by the determination and drive of the indomitable Senator Betsy Johnson – we have reallocated resources at Business Oregon and partnered with the private sector to build the Oregon Manufacturing Innovation Center. It's a place where high school graduates will learn the technical – and sought after – skills that successful businesses need; skills that will enable them to find good-paying jobs as welders, electricians, and builders.

These are jobs that provide financial security that goes beyond the next paycheck.

The center is not even finished, and it is already a model of success. Twelve large manufacturers have made commitments to the center and some are expressing interest in opening their own facilities in Scappoose.

Like Columbia County, Coos County also knows the struggles of rural Oregon all too well. This is despite creative efforts to expand access to good jobs, an internationally renowned golf resort, and extensive state investments in the port. In spite of all this, the region is still struggling with an unemployment rate of 6.4 percent.

I believe, however, there is an opportunity to create jobs right now. That opportunity is in the 135 bridges we have on our coast.

Experts tell us that 100 or so of those bridges will either be totally destroyed or severely damaged in the event of the major earthquake that many geologists believe is inevitable.

Let's create more good-paying, family-wage jobs in Coos and Curry counties and all along Highway 101 by investing in seismic retrofitting of our coastal roads and bridges.

Just like seismic retrofitting creates jobs on the coast, it can also create economic opportunity in Central and Eastern Oregon. I have heard from truck drivers who are starting to use U.S. 97 as an alternative route to avoid the traffic congestion we are facing in the Portland metro region – congestion that has led to metro commuters spending 52 more hours a year in their cars.

U.S. 97 is also the alternative route through our state in the event of that major earthquake. It is a crucial artery for safety that can also create jobs.

Let's make the investment to make U.S. 97 functional right now.

Improvements to coastal bridges and Highway 97 are just parts of a transportation package that I have been working on with legislators and community and business leaders. And I am confident that before this session adjourns, this Legislature will have passed, and I will have signed into law, a bi-partisan transportation bill that will move Oregon forward in the 21st Century.

But it will take more than a transportation package to bring the economic opportunities that will help rural Oregon thrive.

It will also take investments in our water. In the Umatilla Basin, we've shown that getting water out of the Columbia River and onto the ground helps grow crops, which, in turn, helps grow jobs. That's why my budget includes \$32 million in bond funding in grants for local water projects, which will help meet the needs of rural communities, agriculture, and the environment.

We have found another path in places such as Grant County, through the "Good Neighbor Agreement" we have signed with the U.S. Forest Service. Thanks to this partnership, we have seen a 14 percent increase in timber harvests, and a 16 percent increase in timber-related jobs. We must continue to search for similar innovative programs that are good for both the economy and the environment.

That's why I've invested in the Rural Entrepreneurship Development Initiative – or REDI. This is a program to help rural entrepreneurs get the capital and expertise they need to build their small businesses into thriving economic engines.

I've also invested in the technologies that inspire these entrepreneurs. Unmanned Aerial Vehicles and cross-laminated timber aren't just the hot tech trends of the moment. They are brilliant innovations that can't grow without space and trees – two items that rural Oregon has in abundance.

I believe that by investing in workforce development, roads and bridges, and innovative partnerships; by leveraging the human, material, and natural resources that once made our rural communities the most prosperous in the state, we have a real chance to take the economic fault line that has split our state in two.

It takes a constellation of approaches and the work of all of us to build a bridge to one another and ensure our entire economy continues to thrive.

In every county.

Rural and urban.

Let me turn now from economic health to the physical health of Oregonians. We all know that good health is fundamental to the well-being and self-sufficiency of every Oregonian.

I am so proud to report that we have made great progress in the equitable delivery of health care. Over the past several years, Oregon has expanded health care to 95 percent of adults and 98 percent of children.

These are numbers worth repeating! Here in Oregon, 95 percent of adults and 98 percent of children now have access to healthcare.

We should not and cannot stop until every Oregonian is covered. Health care is about more than just seeing a doctor. Every child in this state deserves the opportunity to be healthy and successful.

One of the families who now has health care is the Camacho family in Medford. Kelleni Camacho grew up in a family that struggled with abuse and addiction, which influenced her to make lifestyle choices she knew were detrimental. She was referred to Jackson Care Connect, a Coordinated Care Organization. In their 12 week "Healthier New You" program, she was able to transform not just her life, but the lives of her husband and son.

Before starting the program, Kelleni was overweight and facing a host of related health problems. Her entire family, including her husband and her son, also struggled with obesity.

Once she had access to care, Kelleni took what she learned and taught her family to read nutrition labels, choose foods that were good for them, and begin to exercise more. They each lost a significant amount of weight.

Carlos, her son, was the self-described "chubby kid" who would think nothing of eating a bag of chips in one sitting. He began to exercise with his mom, and they even grew fresh vegetables in their apartment. Carlos gained strength, and eventually became a successful athlete, which, in turn, made him want to be a successful student. He says his wrestling coach is strict about grades, and won't let them practice if they have behavior issues or miss class.

Carlos sums it up by saying that the program makes him want to "do good."

As impressive as Carlos' story is, we still have more work to do.

We still have children and families in our state who do not have health insurance. And they don't have access to the services that transformed Carlos and his family's lives.

As their story demonstrates, health care coverage is foundational to health and well-being.

This is why I have proposed investing additional funds to expand health insurance coverage to all children in Oregon. With this, we can provide the opportunity for good health to every single Oregon child, and ensure every child is able to reach their full potential.

It was once said that "A school is a building with four walls on the outside and tomorrow on the inside." And there can be no doubt that the opportunities for a successful life for our children and our grandchildren depend upon our ability to provide an education of the highest possible quality.

And there is no doubt, the investments we have made in the past two years in our early learning K-through-12, and post-secondary education systems have made a difference. Yet, there are still some statistics that should disturb us.

Our schools continue to be among the nation's leaders in all the wrong categories – the largest class size, the shortest school year, and the highest drop-out rate. And in some rural counties such as Crook, Deschutes, and Jefferson, despite heroic efforts by local educators, fewer than half of young children are meeting early milestones indicating that a child is "school ready."

To be sure, there are bright spots. One can be found in the fact that The Oregon Promise program has opened doors of opportunity by making higher education more accessible and affordable for more Oregon students.

Take Nia Sanders, for example. Nia is a first year, full-time student at Portland Community College. Nia says the financial help she receives from Oregon Promise covers most of her tuition, leaving her to pay about \$300 to cover books and fees per term.

Nia says the Oregon Promise has given her the space to plan for her future. In addition to school, she now works about 32 hours a week to save money, so she can eventually transfer to a four-year school. She says the Oregon Promise is helping her achieve her goal of majoring in psychology and becoming a therapist.

Let's ensure that Nia's story isn't unique. Let's make sure that every student in Oregon – especially historically underserved students – has the chance to achieve their own dreams.

And let me be clear: My top priority is improving Oregon's high school graduation rates. That is why my proposed budget creates a graduation equity fund. It will be used to address school attendance, help students who are experiencing trauma, and make investments in underserved communities.

An education system that opens the doors of opportunity to all those who represent the Oregon of tomorrow.

A healthcare system that makes sure 100 percent of Oregon's children have access to care.

An economy that creates the opportunity for good paying jobs in Portland and Port Orford and every community in between.

These are goals that unite all Oregonians. These are goals that we can only achieve by working together.

I am and always have been an optimist. But I am not naïve. I know there are obstacles that stand in our way of creating a better future.

Chief among them, of course, is a \$1.7 billion budget deficit. Three-fifths of this deficit is the cost of expanding health care to all Oregonians. One-fifth is the unfunded cost of three new ballot measures approved in November. And another fifth is the unfunded PERS liability.

The budget I have proposed is balanced. It does account for the entire shortfall. But it is only a short-term solution.

The time for short-term solutions and kicking the can down the road has passed.

For longer than I have served in government, Oregon has faced a revenue shortfall – a little less painful in good times, catastrophic in bad time. We have cut and we have squeezed. Our roads, our public safety, and our schools have paid the price.

And we now have two modern-day Oregon trails to choose from.

One trail is to continue the endless process of slicing and squeezing, of diminishing our hopes and expectations, and shrinking our dreams of what it means to be an Oregonian.

The other trail is to follow the advice of Governor McCall. To not be guided by regionalism and factionalism.

To work in partnership, rather than partisanship.

It is a trail that will involve hard work and painful choices. But it is, my fellow Oregonians, the only path to follow.

We have to come together and know that we are all on the same side. Fighting to make Oregon a better place for all of us to live.

And if we are to win that fight then there are three actions we must take:

First, we must do everything possible this year and every year to ensure that each and every tax dollar is spent wisely and efficiently.

Second, we must change our state's tax structure so that we have a fair and balanced tax system that provides the stable and adequate funding that allows us to properly fund our schools and to meet our

critical needs.

And third, we must address the ongoing PERS liability in a way that keeps our promises to retirees and does not put us back on an endless hamster wheel of litigation.

As Secretary of State I made great progress in cutting the red tape businesses had to navigate to access services they needed to grow. As your governor, I've been able to improve services at several agencies and in my own office.

I've called on state managers to take specific actions to save money, such as delaying the filling of vacant positions, and eliminating non-essential travel. I have also directed agencies to work to improve business practices and operate more efficiently and at less cost.

- Staff at the Department of Administrative Services renegotiated lease agreements, saving nearly \$64 million dollars in rent over the course of the leases.
- And Oregon State Police revamped its training programs, reducing injuries and related costs by as much as 35 percent.

But more must be done.

To identify best practices and make recommendations in time for the 2018 legislative session, I am appointing a panel to engage with stakeholders in both the public and private sectors. The panel will make recommendations on how state government can operate more efficiently, streamline the services that support our economy, and bolster the services that our vulnerable families depend on.

They will seek out solutions to the institutional obstacles that, at times, hinder our ability to serve Oregonians. We deserve *smarter* government.

This same goal should be kept in mind when addressing the weight the PERS liability puts on our resources.

I'm proposing we manage our investments more effectively, creating greater returns while innovating practices. My office is working to identify what we can do now, such as bringing investment services in-house, to responsibly carry out our duty to retirees.

I look forward to the other solutions to be proposed in the months ahead. As we consider our next steps, let's agree to keep our promises to retirees. Let's ensure that no one can take advantage of the system. And let's seek solutions that are legally viable, so that dead ends aren't left to languish in court while the challenge of PERS only continues to grow.

We must also rethink the fairness of our tax system and address the burden our families carry to fund state government.

Under my direction, my office will work with stakeholders on potential options to generate the revenue we need so badly.

We will work with all of you to restore fairness and balance to our tax system.

We need solutions that don't unfairly burden working families struggling to make ends meet.

We need solutions that support economic growth in our rural and urban communities.

We've learned, painfully, that there is no painless solution. But we must do this together.

Make no mistake, the Oregonians who elected us put their trust in us to lead.

They expect us to roll up our sleeves and get to work.

They expect us to work together.

I began my remarks today with a great Oregonian, Tom McCall. I end my remarks with the words used by another great Oregonian – Mark Hatfield – to conclude his inaugural address as Governor in

January 1959. May these words guide each of us in this chamber in the months ahead.

Governor Hatfield said, "For those of us who make government policy, our good and bad alike live after us. The seeds we sow, our children reap. Let us prepare for them a good harvest, so that Oregon may have a bountiful future."

It is my hope that future generations will look back at this legislative session and say, "Here is where bright successes were achieved. Here is where the seeds were sown for a good harvest. Here is where a bountiful future for Oregon was planted."

Thank you.

Alonso Leon requested the following explanation of her vote be entered in the Journal:

"I voted against the minority report to HB 2005 because I believe it would weaken the protections all Oregonians, including those who are veterans, currently have against unfair and illegal pay discrimination. I believe all Oregonians deserve equal pay for equal work, and that we should be increasing the protections working Oregonians have against this type of discrimination, not decreasing them.

"I believe that certain sections of the minority report to HB 2005 would allow unscrupulous employers to pretend to address illegal pay inequities within their company, while in fact shielding them from legal consequences if one of their employees took them to court for the wages they are rightfully owed. I think this is wrong, and that we should be standing up for Oregonians who face discrimination, not for those who have broken the law.

"I strongly believe that we should protect veterans against all forms of discrimination, both in and out of the workplace. Veterans face a variety of employment-related challenges, not to mention challenges in accessing housing and critical services. I am eager to work on and support legislation that increases protections against discrimination for Oregon's veterans, but this minority report would have weakened overall workplace discrimination protections. I opposed the minority report to HB 2005 because it left our veterans more vulnerable to discrimination, and I think that is wrong."

Evans requested the following explanation of his vote be entered in the Journal:

"As a retired military officer with years spent overseas defending our freedoms at home as well as abroad, as the former senior policy advisor to Governor Kulongoski for veterans' issues and the chair of his task force on veterans' services, and as the current chairman of the Committee on Veterans and Emergency Preparedness, there isn't a day that goes by that I am not advocating for veterans and military families. Because of that background, I want to assure you that most of us that serve in the Oregon Legislature – Democrats as well as Republicans – want to secure the earned benefits, care and services veterans and military families should receive.

"Just about a year ago, I served as the primary chief sponsor of House Joint Resolution 202 that became Ballot Measure 96. My co-chief sponsor was Representative Julie Parrish (a Republican). Together, in a bipartisan manner, we navigated a permanent set-aside of funding mechanism. This measure was sent to the ballot by a Democratic-led Legislative Assembly – with unanimous support from both parties. Simply put, we have put our actions on record and the significant increases in veterans' benefits, care, and services reflected in our budget does (and will) be an historic increase.

"Here are the facts related to HB 2005A:

1. The vote to substitute a minority report for a committee passed measure is a procedural vote. Despite the arguments provided yesterday, the issue at hand on such a vote is whether substituting whole-sale (a 'gut and stuff' approach) one bill for another means just that: a whole-sale replacement of one text with another;

2. The 'veteran status' piece was indeed a part of the minority report for HB 2005A. However, there were two other pieces as well. The replacement measure would (not could) have weakened existing protections for protected classes (including women, and in some cases, women veterans), through something lawyers call an 'affirmative defense.'

3. Whether you favor or do not favor the 'affirmative defense' approach, there is significant confusion over whether it will help, hurt, or have no impact. In such cases, my military training reverts to the following: do not seize hard-won ground more than once. Adding the veteran status piece to the bill is something I am going to work on; adding it alone was not an option yesterday.

4. Given the seriousness of the issues involved, I voted for the 'known' language that had been analyzed, evaluated, and found concurrence among professionals in the field that the measure would enhance existing remedies (as opposed to weaken them). I believe too many women, too often, find themselves victim to direct as well as indirect wage disparity/discrimination. It is vital we make sure we make progress. That said, I also said yesterday (privately as well as publicly) that I would pursue adding a stand-alone veteran status piece into the measure as it navigates the Senate process;

5. To that end, I have already reached out to colleagues in the Oregon Senate asking for a single-purpose amendment adding veteran status to the list of protected classes the bill seeks to assist. If that is not successful, I have been assured that the House will draft a bill.

"Next steps:

"I am facilitating a small working group to ensure this issue is not 'lost' in the process that is our modern political structures/systems. While I cannot promise inclusion in the final version of the bill, I can say – and with confidence – that the Senate

will be provided an opportunity to include veteran status as a single-issue option (something we weren't provided in the House process).

"Summary:

"While I understand the need to form conclusions based upon available information, sometimes the information provided to the public at-large is not comprehensive. There are more moving parts on legislation (especially a measure like this one) and no one vote – for, or against – demonstrates a legislator's relative commitment to an issue, topic or group.

"Complex problems often require complex answers. HB 2005A was not a perfect measure but it represents a stark improvement over existing remedies. I hope we can continue the work in the Senate and look back upon this process as a moment when Oregon came together and did it right."

Fahey requested the following explanation of her vote be entered in the Journal:

"I voted against the minority report to HB 2005 because I believe it would weaken the protections all Oregonians, including those who are veterans, currently have against unfair and illegal pay discrimination. I believe all Oregonians deserve equal pay for equal work, and that we should be increasing the protections working Oregonians have against this type of discrimination, not decreasing them.

"I believe that certain sections of the minority report to HB 2005 would allow unscrupulous employers to pretend to address illegal pay inequities within their company, while in fact shielding them from legal consequences if one of their employees took them to court for the wages they are rightfully owed. I think this is wrong, and that we should be standing up for Oregonians who face discrimination, not for those who have broken the law.

"I strongly believe that we should protect veterans against all forms of discrimination, both in and out of the workplace. Veterans face a variety of employment-related challenges, not to mention challenges in accessing housing and critical services. I am eager to work on and support legislation that increases protections against discrimination for Oregon's veterans, but this minority report would have weakened overall workplace discrimination protections. I opposed the minority report to HB 2005 because it left our veterans more vulnerable to discrimination, and I think that is wrong.

"Furthermore, I'm concerned that this minority report could have unfairly advantaged large businesses over small businesses. Most large companies will either have the resources to conduct a self-evaluation in house, or hire an outside consultant to do so. But small businesses often don't have human resources departments that could do a self-evaluation, and they can't afford to hire expensive consultants. So, it is more likely that large businesses would be able to utilize the affirmative defense than small businesses.

"For these reasons, I opposed the minority report and voted in favor of HB 2005-A."

Gomberg requested the following explanation of his vote be entered in the Journal:

"I voted against the minority report to HB 2005 because I believe it would weaken the protections all Oregonians, including those who are veterans, currently have against unfair and illegal pay discrimination. I opposed the minority report to HB 2005 because it left our veterans more vulnerable to discrimination, and I think that is wrong.

"I further believe that the assessments and evaluations which provide an affirmative defense detailed in the minority report are more difficult to complete for smaller businesses. No Oregon firm, large or small, should discriminate with inequitable wages. But larger businesses should not have access to protections small businesses cannot afford."

Gorsek requested the following explanation of his vote be entered in the Journal:

"I voted against the minority report to HB 2005 because I believe it would weaken the protections all Oregonians, including those who are veterans, currently have against unfair and illegal pay discrimination. Keny-Guyer requested the following explanation of her vote be entered in the Journal:

"I believe all Oregonians deserve equal pay for equal work. I voted against the minority report to HB 2005 because I believe the "affirmative defense" provision would weaken current protections some Oregonians (like women) currently have against unfair and illegal pay discrimination. We should increase the protections working Oregonians have against this discrimination, not decrease them.

"I believe that the "affirmative defense" provision of the minority report to HB 2005 would shield employers from legal consequences if one of their employees took them to the court for the wages that are rightfully owed.

"I strongly believe that we should protect veterans against all forms of discrimination, both in and out of the workplace. Veterans face a variety of employment-related challenges, not to mention challenges in accessing housing and critical services.

"While I am eager to work on and support legislation that increases protections against discrimination for Oregon's veterans and encourage the Senate Committee to devote time to consider adding veterans, I could not support a minority report that would weaken overall workplace discrimination protections."

Malstrom requested the following explanation of her vote be entered in the Journal:

"Yesterday on March 28, 2017, I voted against the minority report to HB 2005 because I believe it would weaken the protections all Oregonians, including those who are veterans, currently have against unfair and illegal pay discrimination. McKeown requested the following explanation of her vote be entered in the Journal:

"I voted against the minority report to HB 2005 because, even though I support adding veterans as a class to the bill to provide them additional protections against unfair and illegal pay discrimination, it should be done in a Legislative Committee with public input and careful consideration to ensure that it is done properly."

McLain requested the following explanation of her vote be entered in the Journal:

I think this is wrong, and that we should be standing up for Oregonians who face discrimination, not for those who have broken the law.

"I strongly believe that we should protect veterans against all forms of discrimination, both in and out of the workplace. Veterans face a variety of employment-related challenges, not to mention challenges in accessing housing and critical services. I am eager to work on and support legislation that increases protections against discrimination for Oregon's veterans, but this minority report would have weakened overall workplace discrimination protections. I opposed the minority report to HB 2005 because it left our veterans more vulnerable to discrimination, and I think that is wrong."

Rayfield requested the following explanation of his vote be entered in the Journal:

"I voted against the minority report to HB 2005 because I believe it would weaken the protections all Oregonians, including those who are veterans, currently have against unfair and illegal pay discrimination. I believe all Oregonians deserve equal pay for equal work, and that we should be increasing the protections working Oregonians have against this type of discrimination, not decreasing them.

"I believe that certain sections of the minority report to HB 2005 would allow unscrupulous employers to pretend to address illegal pay inequities within their company, while in fact shielding them from legal consequences if one of their employees took them to court for the wages they are rightfully owed. I think this is wrong, and that we should be standing up for Oregonians who face discrimination, not for those who have broken the law.

SB 302 (A-Engrossed) – Fahey requested the following explanation of her vote be entered in the Journal:

"I voted for SB 302-A on the House floor on April 6, 2017. SB 302-A removes inconsistencies within Oregon law by moving criminal penalties and related provisions from Oregon's Uniform Controlled Substance Act to the Control and Regulation of Marijuana Act. The bill also adjusts criminal penalties related to marijuana, such as by decreasing penalties for possession of less than four times the legal limit of marijuana and increasing the penalties for possession of greater than 16 times the legal limit. To be clear, with the passage of this bill, it will still be illegal to consume marijuana in public, such as on the street, in a park, or near a school.

"This bill was the result of months of work by a work group tasked with reviewing the Controlled Substance Act. Participants include the Oregon Criminal Defense Lawyers Association, the ACLU, the Association of Oregon Counties, and district attorneys. There were compromises reached in many areas of the bill, but I was satisfied with the overall outcome.

"Oregon voters approved Measure 91 to create a legal market for responsible adult use of cannabis. The changes proposed in this bill are consistent with the direction the voters have chosen to take our state. The bill passed out of the Joint Committee on Marijuana Regulation unanimously, and it received bipartisan support on the Senate floor.

"For these reasons, I supported SB 302-A."

Motion carried on viva voce vote.

The following measure was referred from the desk of the Speaker and recorded on Committee Referral List No. 47 dated April 11, 2017.

HB 3450 Judiciary

HB 2566, 2586, 2956, 3340 – Read second time and passed to third reading.

HB 2090 (A-Engrossed) – Read third time. Carried by Williamson. On passage of the bill the vote was: Yeas, 55; Nays, 3 – Nearman, Post, Reschke; Excused, 2 – Lewis, Noble. Bill passed.

HB 2339 (A-Engrossed) – Read third time. Carried by Nosse. On passage of the bill the vote was: Yeas, 36; Nays, 22 – Barreto, Bentz, Buehler, Esquivel, Hack, Hayden, Heard, Huffman, Johnson, Kennemer, McLane, Nearman, Olson, Post, Reschke, Smith DB, Smith G, Sprenger, Stark, Vial, Whisnant, Wilson; Excused, 2 – Lewis, Noble. Bill passed.

Alonso Leon requested the following explanation of her vote be entered in the Journal:

"I voted for HB 2339 because I believe we must protect all Oregonians, including low income families, seniors and rural residents, from huge, surprise out-of-network medical bills that can force them to choose between paying for rent or groceries and their medical bills. Patients who play by the rules and use their medical insurance shouldn't be bankrupted by getting the care they need, and I believe the Legislature should take action to shield these Oregonians from being ambushed by large medical bills when they did nothing wrong.

"Too many Oregonians have gone to a hospital or other medical facility where their surgeon was in-network for their medical insurance, only to discover weeks later that the radiologist, anesthesiologist or other provider in that facility was out-of-network. This means that, after what are often stressful procedures for a patient and their family, they receive a surprise out-of-network medical bill weeks later for necessary care they received at a facility their insurance company is supposed to cover. I believe this is wrong and unfair to Oregon patients, and that is why I voted for HB 2339.

"I strongly support efforts to bring more medical providers to rural Oregon, and I will continue to look for policies that can increase access for these and all Oregonians, including low income working families. I voted for HB 2339 because I believe it increases consumer protections for all Oregonians, and gives them peace of mind that if they play by the rules when using their medical insurance, they will be treated fairly."

Barnhart requested the following explanation of his vote be entered in the Journal:

Fahey requested the following explanation of her vote be entered in the Journal:

"I voted for HB 2339-A on the House floor on April 11, 2017, because I believe we must protect all Oregonians – including low income families, seniors and rural residents – from large, unexpected, out-of-network medical bills that can force them to choose between paying for their medical bills or paying for their rent or groceries. Patients who play by the rules and use their medical insurance shouldn't be bankrupted by getting the care they need. I believe the Legislature should take action to shield people from being ambushed by large medical bills when they have done nothing wrong.

"Too many Oregonians have gone to a hospital or other medical facility where their surgeon was in-network for their medical insurance, only to discover weeks later that the radiologist, anesthesiologist, or other provider in that facility was out-of-network. This means that, after what are often stressful procedures for a patient and their family, they receive a surprise out-of-network medical bill weeks later for necessary care they received at a facility their insurance company is supposed to cover in network. House Bill 2339 is an important consumer protection measure that will help prevent patients from large, unexpected medical bills. Patients deserve to know how much they will be billed for hospital visits, without surprises later down the line.

"I strongly support efforts to bring more medical providers to rural Oregon, and I will continue to look for policies that can increase access to health care for Oregonians. I voted for HB 2339 because I believe it increases consumer protections for all Oregonians and gives them peace of mind that they will be treated fairly when using their medical insurance."

Gorsek requested the following explanation of his vote be entered in the Journal:

McKeown requested the following explanation of her vote be entered in the Journal:

"I voted for HB 2339 because having a reasonable expectation of medical costs is fair for patients. Unexpected medical costs can devastate low income families, fixed income seniors, and rural residents who sometimes must factor in travel and overnight stays for already overwhelming medical procedures.

"Oregonians who use their medical insurance shouldn't be blindsided by unexpected costs and I believe that the directive in HB 2339 is a reasonable service for medical providers to provide to their patients, without creating a restriction on medical care in rural Oregon.

"Too many Oregonians have gone to a hospital or other medical facility where their surgeon was in-network for their medical insurance, only to discover weeks later that the radiologist, anesthesiologist or other provider in that facility was out-of-network. This means that, after what are often stressful procedures for a patient and their family, they receive a surprise out-of-network medical bill weeks later for necessary care they received at a facility their insurance company is supposed to cover. I think we can do better and that is why I voted for HB 2339."

McLain requested the following explanation of her vote be entered in the Journal:

"This is a bad bill. A task force worked for a year and it was touted in committee. Yet, there was no consensus on the direction this bill takes ODoE. It is VERY frustrating that so much time was wasted on a task force, only to have a bill with language that did not get consensus to move forward. This bill expands the role of ODoE, which was almost a defunct agency a year ago. President Courtney even asked at one point, do we even need ODoE? This was a partisan vote in committee and the majority party refused to work with the minority party on the language in the bill."

"I support most of HB 2584 actions to address campaign finances.

"However, I oppose the increased penalties from 10 percent to 20 percent or 40 percent. I had a friend who served as the treasurer of a county political party. He got in over his head with the obligations of reporting and did not report for a significant period of time. He was fined a penalty of \$10,000.00.

"I would hope that some way we could consider intent and not penalize an unpaid good person who was trying to perform a public service; he did not file false information or cover some illegal actions.

"Also, the law should be changed so that the responsibility of the reporting must be shared with all entities the elected officials. This would require more oversight of the work of the treasurer."

Motion carried on viva voce vote.

HB 2005 (B-Engrossed) – Barreto requested the following explanation of his vote be entered in the Journal:

“I voted to support HB 2005-B with the following clarifications. I echo the intent expressed on the Senate floor regarding HB 2005-B, specifically the definition of adjudication in Section 9 and the scope of the equal pay analysis in Section 12.

“Section 9(4) allows a court to award punitive damages in certain circumstances, including if an employer was previously adjudicated in a proceeding under this section or under ORS 659A.850 for a violation of ORS 652.220.

“My understanding is that an adjudicated case refers to a finding of liability and not just an employer being part of a proceeding.

“Additionally, I think it is important that we clarify what we mean by a pay equity analysis that is ‘reasonable in detail and scope’ in Section 12 (1)(a)(A).

“Family farms and ranches have limited resources and are often their own Human Resources departments. It should be considered ‘reasonable’ for these family businesses to do their own internal evaluation of practices, rather than requiring them to hire outside legal experts to conduct these evaluations every three years.”

HB 2005 (B-Engrossed) – Hack requested the following explanation of her vote be entered in the Journal:

“Of the many provisions contained in HB 2005-B, I understand the following to be the correct interpretations of the bill.

“When HB 2005-B passed on the Senate floor, Senator Betsy Johnson provided clarification regarding retention pay. There are times where employers will occasionally encounter a situation where an employee has a higher-paying job offer elsewhere and will leave if they do not receive a raise in pay. In a situation, such as this, the employer will increase the employee's pay to ensure that the employee does not leave. My understanding is that this practice is allowable under the bill as a bona fide business reason for different pay; even if it causes a disparity between an employee who is a member of a protected class and one who is not.

“Additionally, Section 12 (1)(a)(A) provides a mechanism for employers to conduct an equal pay analysis that is ‘reasonable in detail and in scope in light of the size of the employer.’ Senator Chuck Thomsen explained that every industry sector has a unique set of needs, including agriculture. Many Oregon farms are family run businesses with limited HR resources to invest in legal expertise to conduct an equal pay analysis. My understanding is that a ‘reasonable’ equal pay analysis would allow a farmer with piece-rate workers to conduct one study every three years to ensure that all piece-rate workers are paid based on the crop and the picking of that crop; for those reasons, that rate will vary.”

"Occasionally a bill comes to my desk that I struggle with; at times for weeks or months. This is such a bill. Deliberated on SB 3 before coming to my decision to vote in support. In stream placer mining is small scale mining, and in many cases a practice that has been enjoyed by individuals and families for generations. Friends and neighbors in my district practice this as a part of their coastal way of life.

"For well over a year now, Oregon has had a moratorium on in-stream placer mining; this bill ends that moratorium, allowing small scale mining to resume in specific locations, while keeping protections in place for our fish and lamprey populations and for our rivers and streams. I believe it's important we support our natural resources and the industries and practices that spring up around them, which is why I joined both Republicans and Democrats in supporting Senate Bill 3."

While I support the Senate version of the bill because it makes progress on this important issue, I hope in the future this policy can be broadened to all situations where people experience violence or harassment.

"I voted against SB 327-A because I believe it should have been amended to conform to other immunity statutes that already include reckless behavior.

"A reasonable compromise was proposed to add accountability for people who are injured while recreating in playgrounds, parks, or other public areas because the public entity was reckless.

"For instance, if a swing set on city property is falling apart, and a city employee knows that the swing set poses a danger to the children using it, the city should be liable if that swing set collapses and injures a child. Under SB 327-A, the city would not be liable and the family of the injured child would have to pay all the medical bills with no opportunity to make their case for damages in court.

Bill passed.

McKeown requested the following explanation of her vote be entered in the Journal:

“Let this serve as the explanation of my ‘no’ vote on Senate Bill 5515 which allocated money from the state’s general fund for district attorneys.

“This bill totaled \$12,502,083, a 5.3 percent increase over the DA budget in the previous biennium. The stated purpose for the increase was cost of living adjustments and other benefits provided to the district attorneys.

“This session, the Oregon Legislative Assembly has been tasked with closing a \$1.4 billion budget deficit caused by a variety of factors. As we consider ways to close the deficit we must also ensure that those most vulnerable within our society do not suffer the consequences. Our children and our seniors should not have to bear the burden. Where cuts are made, the burden should be shared among stakeholders.

“As a legislative body, we are constitutionally required to balance our budget. This means our finite resources only go so far. Under

this environment, barring new revenue, we will have to make cuts in some areas.

“Within the area of criminal justice, the state funds both the judicial department and the public defenders service. In our judicial department, the current budget calls for a 3.5 percent cut. This is money that supports our judges and the operation of our courts. Our public defenders, the individuals called in to defend those who are otherwise unable to obtain counsel, are facing the same 3.5 percent cut to their budget.

“It is fundamentally unfair for us to ask some within our criminal justice system but not all to bear the burden of our challenging budget situation. I have great respect for the work that our district attorneys do in Oregon, but I am unable to justify giving them a raise under the current circumstances. That is why I voted no on this bill.”

Meek requested the following explanation of his vote be entered in the Journal:

“I voted against SB 5515-A because I believe in a time when the state is facing budget shortfall of over \$1 billion and the legislature is asking state agencies to contain costs, I cannot vote to increase salaries for elected officials across the state. Until we can fully fund our kids’ education and the support services that Oregonians rely on every day I cannot vote to increase one budget at the cost of another.

“I support our public safety officials and first responders and the work they do to keep our communities safe. Oregon’s district attorneys preserve the safety of the public, protect the rights of crime victims, and uphold the United States Constitution and the Constitution and laws of Oregon. We are asking many agencies to do more with less and I believe our district attorneys can continue to serve Oregonians and at the same time support cost-containment.

“It is my hope that the legislature can increase revenue this session so that we have the resources to support public safety, social services, and fully fund education to give our kids the best chance at the bright future they deserve.”

Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on SB 5515 for the following reasons and more: Counties are not fully compensated for the DA’s Office functions and only pay for the DA’s base salary. Counties do not have the resources to subsidize the needs of the office.”

Sollman requested the following explanation of his vote be entered in the Journal:

“Let this serve as the explanation of my ‘no’ vote on Senate Bill 5515 which allocated money from the state’s general fund for district attorneys.

“This bill totaled \$12,502,083, a 5.3 percent increase over the DA budget in the previous biennium. The stated purpose for the increase was cost of living adjustments and other benefits provided to the district attorneys.

department, the current budget calls for a 3.5 percent cut. This is money that supports our judges and the operation of our courts. Our public defenders, the individuals called in to defend those who are otherwise unable to obtain counsel, are facing the same 3.5 percent cut to their budget.

"It is unfair that while we make cuts to critical services and fall short of fully funding our schools, a select group of individuals receives raises. I have great respect for the work that our district attorneys do in Oregon, but I am unable to justify this budget under the current circumstances. That is why I voted no on this bill."

Vial requested the following explanation of his vote be entered in the Journal:

"House Bill 3464 creates more problems than it solves. Prohibiting public bodies from disclosing information regarding individuals' immigration statuses, unless required by State or Federal law, does not help citizens or law enforcement officials to

exercise mercy while at the same time upholding their duties to the Constitution. Instead, it confuses the two issues even further and encourages schisms between local, state, and federal governments that already affect our communities.

“Immigration reform is a critical issue for our country. Although we are a nation of immigrants, blatant refusal by our State to work with its partners at the Federal level to address the “bad apples” that have arrived here illegally will only make matters worse. It is the Rule of Law that sets our country apart, and working within the system to change laws that we disagree with is the only rational – and responsible – approach for us to take.

“For this reason, I have submitted a ‘No’ vote on HB 3464.”

Keny-Guyer requested the following explanation of her vote be entered in the Journal:

"I voted in support of HB 3355 in the House Health Care Committee and on the House floor yesterday. I support the overall direction that this bill represents: expanding access to mental and behavioral health care providers with different specialties.

"However, I have urged caution from the time this bill came to our Health Care Committee this year. Given that only five states allow psychologists to prescribe, I believe we should proceed with an abundance of caution around patient safety.

"After studying the bill passed in Illinois as an example of a cautious approach (<http://www.ilga.gov/legislation/98/SB/PDF/09800SB2187enr.pdf>), I offered several suggestions for an amendment when the bill was in our Committee: Limiting the scope of practice by the patient population (not including children, adolescents, pregnant women, and seniors); Limiting the type of drugs eligible to be prescribed; Changing board oversight to the Board of Medical [https://olis.leg.state.or.us/liz/2017R1Downloads/Proposed A recommendations by the Oregon Solutions Work Group, which originated from HB 2702 in 2009](https://olis.leg.state.or.us/liz/2017R1Downloads/ProposedA_recommendations_by_the_Oregon_Solutions_Work_Group,_which_originated_from_HB_2702_in_2009)); Changing composition of the board to include four physicians, a pharmacist with expertise in psychotropic medications, three psychologists, and a consumer advocate.

"After consulting with the bill chief sponsor, committee chair, and advocates for psychologists and psychiatrists, I offered that last bullet as a -3 amendment:

"<https://olis.leg.state.or.us/liz/2017R1/Downloads/ProposedAmendment/10560>

"I appreciated that the -3 amendment was adopted on April 14. I am concerned that removing the pharmacist from the board (in the -17 amendment adopted by Ways and Means on June 16) weakens patient safety. I would have preferred that two positions be added: a Nurse Practitioner and a consumer or policy advocate from a rural area.

"While the -17 amendment did not remove my support for HB 3355, I reiterate my call for an abundance of caution for patient safety as the legislation proceeds. If a pharmacist is not on the board, the rule making should include one. In addition, we should: Start with more restrictions and expand scope as we affirm the safety and quality of care; Pay special attention to the clinical training and competency required by licensed psychologists and by their supervisors, and to the requirements of the collaborative relationships.

"Having worked on many mental and behavioral health bills with Dr. Ajit Jetmalani, the Head of the OHSU Division of Child and Adolescent Psychiatry, I appreciate the suggestions included in his June 14th testimony on behalf of the Oregon Council of Child and Adolescent Psychiatry:

"<https://olis.leg.state.or.us/liz/2017R1/Downloads/CommitteeMeetingDocument/133834>

"In conclusion, I support the passage of HB 3355, but urge patient safety considerations as we roll out consecutive steps over the next few years to meet the mental and behavioral health needs of Oregonians."

On parliamentary inquiry, Stark questioned whether bill would require the affirmative vote of 31 members of the House or 36 members of the House in order to be declared passed.

Speaker ruled passage of the bill would require the affirmative vote of 31 members of the House, citing a memorandum received from Legislative Counsel dated June 23, 2017 which stated:

“House Bill 2060-A is not a bill for raising revenue as that term is used in Article, IV, Section 18 or 25 (2), of the Oregon Constitution. It may pass with a simple majority and does not require a three-fifths vote. The Oregon Supreme Court strictly construes the term “bills for raising revenue.” Not all bills that bring in money to the public coffers are “bills for raising revenue.” The court has adopted a two-step test for whether a bill is a “bill for raising revenue.”

“First, a court determines whether the bill collects or brings money into the treasury? If it does, the court then asks whether it has the “essential features of a bill levying a tax?”

“Thus, not all bills that bring money into the state coffers are bills for raising revenue. In a 2015 decision, the Oregon Supreme Court provided more guidance about the second part of this test. In *City of Seattle*, the court held that a bill that repealed a tax exemption did not have the features of a tax, despite bringing in money to the treasury.”

“House Bill 2060-A is a bill that modifies the tax base, rather than imposing a tax. Rather, as in *City of Seattle*, it modifies a tax expenditure. Under the bill, taxpayer may still choose the existing elective rates for pass-through income, but HB 2060-A would place additional conditions on them. House Bill 2060-A does not require a three-fifths majority for passage.”

Based on the above memorandum, Speaker ruled HB 2060-A would require the constitutional majority of 31 affirmative votes to be declared passed.

Stark, joined by Lewis, appealed the ruling of the Chair.

Alonso Leon requested the following explanation of her vote be entered in the Journal:

“I support helping local small business owners grow their operations so they can put more Oregonians to work. I voted against HB 2060 because I strongly believe Oregon should support small businesses, which are the backbone of our economy.

“While I believe that we should first support small businesses that hire 10 or more people so we can create good-paying jobs, I want to be sure we are also supporting entrepreneurs and new business owners with targeted tax reductions that boost growth.

“Second, I believe strongly in creating a tax system that levels the playing field, which includes reducing tax breaks for the wealthiest few, and I look forward to supporting policies which accomplish this.

“I voted against HB 2060 because I want to encourage small business growth in my district and across Oregon.”

Barnhart requested the following explanation of his vote be entered in the Journal:

“I voted for HB 2060 because I strongly believe that all government spending should be efficient, accountable, and tied to measurable outcomes of success. This applies whether it’s spending on programs and services or whether it’s on incentives through the tax code.

“The pass-through tax break that was voted on in the 2013 special session was overly broad and wasn’t designed to ensure that it was meeting its goal: small business job creation in traded sectors. As a result, this special tax break is now primarily used by the wealthiest Oregonians in business sectors that include doctors, lawyers, and hedge fund managers. This was not the original intent of the bill.

“Without needed reforms, this tax break is expected to balloon to as much as \$300 million, with no evidence that it’s creating any jobs. Research by the nonpartisan Legislative Revenue Office, based on actual 2015 returns, revealed that the tax break is going almost entirely to the very rich: 72% of the money from the tax break is going to individuals who make more than \$500,000 a year; 94% of the benefit is going to individuals who make more than \$200,000 per year.

“HB 2060 reins in this tax break by focusing on the industry sectors that could use the help and by requiring that the firms who use the incentive has at least 10 employees – encouraging job creation. I supported HB 2060 because it narrowed this tax incentive so that it truly helps the small business owners it was meant to support.

“Oregonians expect efficiency and prudence in how we spend taxpayer dollars through the budgeting process. They deserve the same level of efficiency in how we spend taxpayer dollars through tax breaks. HB 2060 will rein in this tax break and focus it on where it needs to go.”

Bynum requested the following explanation of her vote be entered in the Journal:

“I voted for HB 2060 because as a small business owner I strongly believe that all government spending should be efficient, accountable, and tied to measurable outcomes of success. This applies whether it’s spending on programs and services or whether it’s on incentives through the tax code.

“How we manage our state’s profit and loss statement and balance sheet matters to Oregonians. Oregonians expect efficiency and prudence in how we spend taxpayer dollars through the budgeting process as well as tax breaks. HB 2060 will rein in this tax break and focus it on where it needs to go to grow our economy and help small businesses.”

By unanimous consent, on request of Nearman, use of visual aid permitted during debate on bill.

Sanchez declared a potential conflict of interest and submitted the following statement:

"I serve as the Director of Family Services at a non-profit organization that receives and administers Crime Victims Services from the Oregon Department of Justice."

HB 5015 (A-Engrossed) – On passage of the bill the vote was: Yeas, 38; Nays, 19 – Barreto, Buehler, Esquivel, Hack, Hayden, Heard, Johnson, Kennemer, Lewis, Nearman, Noble, Olson, Parrish, Post, Reschke, Smith DB, Smith G, Whisnant, Wilson; Excused, 2 – Bentz, Boone; Excused for Business of the House, 1 – Speaker Kotek. Bill passed.

Smith DB requested the following explanation of his vote be entered in the Journal:

"I voted NO on HB 5015 for the following reasons and more: The Department of Justice generates over \$170 million dollars by

charging other state agencies for legal services. Moreover, the state agencies are forced to use the DOJ as their legal authority, or face personal liability. We currently fund these state agencies with GF dollars, and then they turn around and fund DOJ. This system is broken and needs to be changed."

HB 5039 (A-Engrossed) – Read third time. Carried by Gomberg. On passage of the bill the vote was: Yeas, 37; Nays, 18 – Barreto, Buehler, Esquivel, Hack, Hayden, Heard, Johnson, Kennemer, Lewis, McLane, Olson, Parrish, Post, Reschke, Smith G, Sprenger, Stark, Wilson; Excused, 4 – Bentz, Boone, Lininger, Nearman; Excused for Business of the House, 1 – Speaker Kotek. Bill passed.

Barreto requested the following explanation of his vote be entered in the Journal:

"I voted NO on HB 5039, the budget for the Department of Veterans' Affairs because I don't believe they should be partially funded, but fully funded. Also, I do not agree with the way the budget for the department is being mixed and matched together. My No vote is because I disagree with how the department is being funded. It will be difficult in two years to trace back and get a good track record of funding and adjust CSL accordingly.

"The Department of Veterans' Affairs should get priority funding and needs to be fully funded without money being pulled from different areas to make their budget."

Kennemer requested the following explanation of his vote be entered in the Journal:

"Today I voted against HB 5039 because it fails to keep faith with voters who voted to add additional lottery funding for new programs and not use the new funds to augment the Department of Oregon Veterans' Affairs budget."

Smith DB requested the following explanation of his vote be entered in the Journal:

"I voted NO on HB 5039 for the following reasons and more: The Majority Party's budget does NOT fulfill the will of the voters who overwhelmingly support Measure 96 was clear and the dollars were "in addition to the" current dollars. This budget falls short and Co-Chair Nathanson spoke on the floor about how there are "cuts to the budget." I have been a firm supporter of our Veterans, Measure 96 and fully funding the will of the people. The link is to testimony getting the Measure 96 through the legislature for a vote of the people."

Whisnant requested the following explanation of his vote be entered in the Journal:

"Today, on the House floor, I voted YES on HB 5039 based upon the fact that the 2017-2019 ODVA budget provided over \$10 million from the General Fund, including \$2.54 million supported by general obligation bonds, for capital projects of Oregon Veterans' Homes in The Dalles and Lebanon. I also received acknowledgement that approximately \$18.7 million from the 2017-2019 Lottery Funds will be allocated to ODVA for budgeted expenditures. Furthermore, I received confirmation that the unspent balance for the coming biennium will remain in future ODVA budgets.

"In my floor speech, I requested assurances from the House and Senate Veterans committees and the Joint Ways and Means Committee that the 2019-2020 ODVA budget will use \$10.04 million from the General Fund – not \$7.5 million, as is the base line budget for the 2019-2020 budget."

Wilson requested the following explanation of his vote be entered in the Journal:

“Although it was difficult to vote no on a bill to support veterans’ services, I’m disappointed that the voters’ decision on Measure 96 (2016) to augment support for veterans with lottery dollars was used as an excuse to gut general fund support for this budget. We mustn’t make up budget shortfalls by short-changing our veterans.”

Bill passed.

Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on SB 5517 for the following reasons and more: The taxpayers of this state have given more dollars to fund services than ever in history, over a billion more dollars, and the Majority Party still chooses to prioritize those dollars away from education. There has also been NO cost containment discussions, and what the Majority Party considers “cost containment,” is by increasing taxes on small business (HB 2060) and taking away a rural health provider credit, to name a few. And when they raised the tax on small business, there was NO discussion of any dollars going to education. There have been bills introduced that would have curved the costs and allowed more dollars to students in the classroom rather than to benefits and the Majority Party refuses to have a meaningful discussion. As an 8 year school board member, I refuse to support such mismanagement.”

Sollman requested the following explanation of her vote be entered in the Journal:

“My vote for SB 5517 was not an easy one. I do know how hard that everyone worked to get every dime for the K-12 school budget, but I also know it is not enough. There are very few school districts in this state that will not be making cuts with an \$8.2 billion budget. The cuts are painful at this point; reduction of staff, reducing the school year and lack of educational investments in the classrooms.

“As a school board member, I’ve seen what these cuts can do to our kids In Hillsboro School district we are going to have to cut nearly \$7.5 million this biennium, and since 2008 we’ve already cut \$65 million. This is unacceptable and I will continue working hard to find meaningful tax reform & cost containment that will make real investments in our education system & social services.

“We had our chance this session, a chance for real revenue reform partnered with cost containment and strong investments, 100% investment in education from cradle to career. We could not come to a consensus, and we must continue the talks in the following

sessions. I am committed, and excited to get to work so that we can provide our kids with the knowledge & skills necessary to succeed.”

Wilson requested the following explanation of his vote be entered in the Journal:

“I voted no on SB 5517 because this bill does nothing to address health care costs within the education system, nor does it address the escalating cost of the Public Employee Retirement System. The bill does not provide for new teacher positions or cut class size. The bill does not consider cost containment measures. We mustn’t make up budget shortfalls by short-changing our students.”

Bill passed.

Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on HB 3458 for the following reasons and more: The House Democrats completed scrapped SB 984, that dealt with this issue and passed the Senate unanimously, with broad support. This bill, the House Democrat version, did not garner broad support and consensus, would hurt our industries, such as our fishers and seafood processors, as well as manufactures, and our agriculture producers, farmers, ranchers and winemakers.”

Smith Warner requested the following explanation of her vote be entered in the Journal:

“As a lifelong labor educator and activist, protecting and promoting workers and their rights and safety is of the highest priority for me. That’s why I have voted in support of bills to create paid sick leave, increase the minimum wage, enforce pay equity and establish fair work week scheduling.

“In the 2017 session, I voted for the A-Engrossed version of HB 3458, because it clarified longtime conflicts between state requirements for daily and weekly overtime, while establishing some important worker protections by capping required overtime in manufacturing at 60 hours. It also allowed undue hardship period exemptions for up to 2120 days for perishable products, defined as “any product that may spoil, deteriorate or undergo other material changes that render it unsuitable for the use it was produced” and included crops, meat, and fish.

“The changes to HB 3458 in the Senate that resulted in B-Engrossed version went too far toward business demands, and endangered workers in canneries by eliminating any caps on overtime in this physically demanding, dangerous profession. Therefore, I voted against the B-Engrossed version.”

“I voted against HB 5033 because I do not think Oregon's budgets for District Attorneys and Public Defenders are competitive. We need to do more to attract and retain the best and brightest in our state's public safety divisions. HB 5033 perpetuates Oregon's underfunding of Public Defenders, leading to inequities in a justice system. While the bill increased funding, I don't believe it is enough. We need to do more to properly support these state employees that are on the frontlines every day trying to deliver justice and fairness in our judicial system.”

Lininger requested the following explanation of her vote be entered in the Journal:

"I wish to note a potential conflict of interest on HB 5033. I work at Metropolitan Public Defender in Portland, which receives funding from a variety of sources. One of these sources is the state, through the Public Defense Services Commission."

Bill re-referred.

Evans requested the following explanation of his vote be entered in the Journal:

"I want to explain my vote against the motion to refer HB 2131 B-Engrossed to the Joint Committee on Ways & Means. The measure, as crafted, represents a rational, reasonable, and responsible balance of the corporate privacy, emergency preparedness, respect for federal law, as well as the public interest.

"Hazardous materials transfer is a dangerous business. This expansion (from petroleum transportation) reflects a vast spectrum of existing as well as emergent threats. While transparency is a public interest; it is not the only public interest. Safety, security, and thoughtful protection of known dangers – is also a public interest.

"The bill, as passed through Ways & Means, is a strong measure. It reflects a sincere and hard-won compromise between all stakeholders. And despite the intense, special interest of the media on this subject: unfettered access to information about the transportation of materials throughout the State of Oregon equals unfettered access to critical infrastructure assets – and is a matter that at the least, requires caution and discretion.

"The United States of America, the State of Oregon, and all our communities depend upon the ability of our government to protect us from clear and present dangers. I took an oath, as a legislator – as well as a military officer – to defend our country against all enemies, foreign and domestic. The opening of all information associated with hazardous materials transfers to the public without adequate safeguards and security measures represents a failure to maintain that oath: it is a dereliction of duty.

"As such, I ask my colleagues in the Ways & Means Committee to approach all/any revisions to the measure with extreme caution. Confidentiality of information for use by authorized non-profit, private, and public organizations with a distinct necessity for a need to know, including a responsibility for the security of hazardous materials, should be assured. HB 2131 B-Engrossed reflects a major, not minor, policy shift. We are duty-bound to act appropriately and we shall all be judged by history on our fidelity to that duty."

McLain requested the following explanation of her vote be entered in the Journal:

"I voted in favor of HB 3078 because it advances the justice reinvestment work that I have been excited to support. This legislative body has taken extensive efforts to invest in uplifting and supporting underserved communities; we've decided to invest in people, not prisons. Although I have reservations about some aspects of the bill, the whole of HB 3078 matches our work with justice reinvestment.

"There are many components of HB 3078 that I support. The bill extends the Family Sentencing Alternative Pilot Program by expanding who can participate, and allowing pregnant women to join the program. I support prison diversion programs because they help build and strengthen communities by providing those who have committed crimes an opportunity to transition smoothly back to society. These programs address the root causes of addition-driven crime through local investments in accountability, treatment, and victims' services. Additionally, there is evidence that alternative sentencing programs decrease recidivism rates. A study conducted by the Criminal Justice Commission found that participants in a Multnomah County program had a recidivism rate of 16%, compared to a recidivism rate of 28% in the control group. These are promising results that must be explored.

"House Bill 3078 also changes the sentencing guidelines for Theft 1 and I.D. Theft; it would carry a 13-month sentence instead of 18 months. I spoke with members of our public safety community about lessening the charges to these crimes, and it was their concern that prompted my review. When I spoke with the Chief Sponsors and stakeholders on both sides, I gained a better understanding of why this sentence makes sense for these crimes. They will still be felonies and the 13-month sentence is a floor, not a ceiling. I trust the judgement of our judges to provide adequate sentencing for these crimes. Additionally, we can't ignore that we have been overcapacity at the women's prison and are using 122 temporary and emergency beds.

"I choose to vote in favor of HB 3078 despite my hesitation on the sentencing guidelines because I strongly support the other aspects of the bill. I believe HB 3078 helps the State of Oregon strategically invest public safety dollars."

HB 2661 (B-Engrossed) – By unanimous consent, on request of Williamson, rules suspended to permit Nearman to change his vote from "yea" to "nay" on passage of bill.

HB 2017 (A-Engrossed) – On passage of the bill the vote was: Yeas, 39; Nays, 20 – Alonso Leon, Barreto, Buehler, Bynum, Evans, Fahey, Hack, Hayden, Heard, Kennemer,

Meek, Nearman, Parrish, Post, Power, Reschke, Smith DB, Sprenger, Stark, Wilson; Excused, 1 – Boone. Bill passed, having received the required three-fifths majority.

HB 2017 (A-Engrossed) – Alonso Leon requested the following explanation of her vote be entered in the Journal:

“I voted against House Bill 2017 because, despite my strong support for job creation and efforts to modernize and maintain critical infrastructure, I believe it places too much of the burden on low- and middle-income families. My district is full of hard-working families who will be hit hard by the increased gas and payroll taxes included in this package.

“Throughout session, I shared my priorities for the bill; including building safe routes to school, investing in critical infrastructure to ensure that Oregonians can get to work safely, and creating reliable routes for shipping goods throughout our state. The final version of the bill contains critical accountability measures, environmental protections, and funds crucial projects in communities throughout the state which will create family wage jobs.

“Ultimately, I was still uncomfortable voting for a bill that primarily impacts everyday Oregonians – primarily in light of the fact that the legislature was unable to pass a meaningful overhaul of the state's outdated, broken business tax system. I believe that hard-working families in my district should not be asked to pay more and more to keep our state running, while corporate lobbyists block any attempt to level the playing field.

“I look forward to continuing to work towards meaningful tax reform that will ensure that low and middle-income Oregonians do not bear the full weight of investing in the infrastructure, education system, and critical services that we all rely on.

“In summary, although I support the goals of House Bill 2017, I voted against it because I believe it places the burden primarily on working families in my district.”

HB 2017 (A-Engrossed) – Bynum requested the following explanation of her vote be entered in the Journal:

“Over the past 6 months, I have been vocal about my strong support for efforts to modernize and maintain critical Oregon infrastructure, including Hwy 26 (Powell Blvd.) and I-206 Stafford Rd/Abernethy Bridge. I have advocated for improvements to the bill, both in the priorities it funds as well as how the money is raised, and I believe it is a much better piece of legislation because of that advocacy. I support that the bill contains critical accountability measures, environmental protections, creates jobs, and funds critical projects in communities around the state.

“When reaching out to residents, business owners, and elected leaders throughout my district, it was very clear that these two projects were priorities. I heard the sentiment that the conditions on Powell had not changed for the better in the last 17 years and it had become an unsafe transportation corridor for motorists, bicyclists, and pedestrians. On I-205, the priorities were different, yet still highly impactful with respect to the quality of life and impact on commerce in Clackamas County. I-205 at the Abernethy Bridge remains a clogged thoroughfare during peak periods, causing long commutes as well increases in gas, labor, and transportation costs for employers. Time spend idling on the highway also has a significant impact on our air quality. For some time, it has been a priority for Clackamas County.

“I consider it a major victory to have been successful in gaining \$110M in funding for the completion of Powell and paving the way for the jurisdictional transfer from the State of Oregon to the City of Portland, and I am extremely proud that outer Powell Blvd. is the largest project in this package. However, in the case of I-205, the bill calls for tolling and other revenue-collection mechanisms that will

impact the wallets of everyday Oregonians. It is hard to swallow the idea of residents being forced to disproportionately carry the burden of paying for the road improvements, with no clear date for when work would begin.

“In conclusion, while I am happy that Powell will finally get the justice it deserves, residents of the southern side of House District 51 will continue to wait for the roads they so desperately need. This is only the beginning, and I will continue to fight every day for my constituents to improve the safety and livability of our communities.”

HB 2017 (A-Engrossed) – Evans requested the following explanation of his vote be entered in the Journal:

“I want to explain my vote against House Bill 2017 A-Engrossed. Despite my strong and vocal support for efforts to modernize and maintain critical infrastructure, I reluctantly voted against House Bill 2017 A-Engrossed (the Transportation Funding Bill) because I believe it placed too much of the burden on low and middle-income families. For months, I advocated for improvements to the bill, both in priorities as well as how the money would be raised.

“I am grateful these efforts had a direct impact: the inclusion of the Center Street Bridge seismic upgrade, increased transit funding for the Salem-Keizer Transit District, and greater flexibility in regional grants for bicycle and pedestrian pathways were included in the final version of the measure. I believe the measure is better, stronger because of this advocacy. The measure includes critical accountability measures, environmental protections, and funds critical projects in communities (including ours) throughout the State of Oregon.

“With that said, I was – and remain – uncomfortable supporting a bill primarily paid for by everyday Oregonians – especially in light of the fact the 2017 Legislature was unable to pass a meaningful overhaul of the state’s aging, broken business tax system. The bill as offered, puts a disproportionate weight upon working families. In the end, I could not vote in favor of a plan – regardless of its value – that would ask average Oregonians to pay more while large corporations continue to enjoy the lowest business tax burden (share) in the nation.

“At the end of the day, HB 2017 A-Engrossed outlined an incredibly forward-thinking strategy for infrastructure investment; it just needed a more balanced methodology for funding. It is my hope that we can find a rational, reasonable, and responsible answer to our obsolete taxing structures and systems in the coming years.”

HB 2017 (A-Engrossed) – Fahey requested the following explanation of her vote be entered in the Journal:

“I voted against HB 2017-A because, despite my strong support for job creation and efforts to modernize and maintain critical infrastructure, I believe it places too much of the burden on low- and middle-income families. For months, I advocated for improvements to the bill, both in the priorities it funds as well as how the money is raised, and I believe it’s a much better piece of legislation because of that advocacy. It contains critical accountability measures, environmental protections, and funds crucial projects in communities throughout the state which will create family wage jobs.

“Ultimately, I was still uncomfortable voting for a bill that primarily impacts everyday Oregonians – especially in light of the legislature’s failure to pass a meaningful overhaul of the state’s outdated, broken business tax system. I don’t believe we should ask Oregonians to pay more while large corporations continue to enjoy the lowest business tax burden in the nation.

“In summary, although I support the goals of HB 2017, I voted against it because I believe it misplaces the burden primarily on working families in my district.”

HB 2017 (A-Engrossed) – Meek requested the following explanation of his vote be entered in the Journal:

“I voted against HB 2017 because, despite my strong support for job creation and efforts to modernize and maintain critical infrastructure, I believe it places too much of the burden on low- and middle-income families. For months, I advocated for improvements to the bill, both in the priorities it funds as well as how the money is raised, and I believe it’s a much better piece of legislation because of that advocacy. It contains critical accountability measures, environmental protections, and funds crucial projects in communities throughout the state which will create family wage jobs.

“Ultimately I was still uncomfortable voting for a bill that impacts everyday Oregonians – (especially in light of the fact that the legislature was unable to pass a meaningful overhaul of the state’s outdated, broken business tax system). I don’t believe we should ask average Oregonians to pay more while large corporations continue to enjoy one of the lowest business tax burdens in the nation.

“I also want to note that, while I do support maintenance and modernization of I-205 and other key parts of Metro area transportation infrastructure, I do not support tolls that impact working Oregonians trying to get to their jobs so they can support their families. I believe this is inequitable when other key highways and roads would not be tolled.

“In summary, although I support the goals of HB 2017, I voted against it because I believe it places the burden primarily on working families in my district.”

HB 2017 (A-Engrossed) – Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on HB 2017 for the following reasons and more: Although I appreciate the good work done by our colleagues on a comprehensive transportation package, there are many parts of the bill that favor the Portland/Metro area and not rural Oregon. HD 1 residents would be financially impacted by the increased taxes and fees in the bill, with the majority of these financial increases going to urban Oregon projects. There are also increases in taxes and fees on gasoline vehicles that will offer subsidies for people who purchase electric vehicles. This will also hurt the residents of my district, as citizens must drive farther for supplies and services within HD 1, but there is not the charging infrastructure to support them throughout the District. For these and other reasons, I could not support the transportation package.”

Hayden declared a potential conflict of interest and submitted the following statement:

“For the record I register a potential conflict of interest on HB 2270 A-Engrossed in that privilege taxes raised by this legislation in the amount of 62.5 cents/mbf are allocated to fire suppression activities. I am the owner and operator of a heavy equipment company that contracts with various governmental agencies for fire suppression, and could potentially benefit economically from this legislation.”

Bill passed, having received the required three-fifths constitutional majority.

“I voted NO on HB 2270 for the following reasons and more: This is a tax on timber. We need the environmental for profit nonprofits to stop suing and allow sustainable forest management to mitigate fire.”

HB 2300 (B-Engrossed) – Rules suspended. Read third time. Carried by Hayden.

Bill passed.

Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on HB 2355 for the following reasons and more: Would hurt rural Oregon and our District. Reduces crime classification of unlawful possession of controlled substances, such as meth and heroin. There are already programs DA’s can use and they oppose this bill.”

“I support the affordable housing & rural medical incentives included in HB 2066, but I am disappointed that we did not include renewable energy as a top priority in our economic development.

“The exclusion of renewable energy is a loss for the environment and a loss for our economy. Oregon has all the opportunities to be a worldwide leader in renewable energy and by setting this example we are setting ourselves up to be behind the curve. There are companies in this state, even in my district that are trying to establish themselves in this state, and by losing this tax credit, we are directly hurting companies that are ready to partner with the state to be leaders in solar.

“I think it was a mistake to remove the residential energy credit, and that is why I voted no. I recognize the need for affordable housing and how crucial it is for us to improve access to health care in rural Oregon, but until we can come together and acknowledge that renewable energy is the future, I have got to vote against these tax credits. We cannot afford to take away any more funding from our schools or seniors when the tax credits we are providing are not making the strategic investments needed for long term prosperity.”

Evans requested the following explanation of his vote be entered in the Journal:

“I want to explain my vote against Senate Bill 754 B-Engrossed. This bill, while well intentioned, is bad policy. At a time when many of us are concerned about the apparent lack of clarity for young people seeking to understand how to navigate an increasingly dynamic 21st Century Economy – further clouding the lines between childhood and adulthood is counterproductive. I believe this measure is sending the exactly wrong signal at a critical moment in our history.

“As the child of a woman who died of cancer – likely caused at least in part by a lifetime of smoking – I am keenly aware of the agony, loss, and suffering linked to tobacco use. Many of my family have been lifelong smokers; many of my family have struggled with cancer – too few have survived. And, as a person who has served in public life for most of my adult lifetime, I can say with earnestness: I am no friend of the tobacco industry – I have not, will not, and could not accept a penny from the addiction-causing enterprises. There is no doubt they are “death-dealers” and warrant our censure.

“I believe the issue at hand is less about cancer – or even tobacco – than it is about control. Cancer is a clear and present danger. The need to prevent cancer-causing additions is both rational as well as reasonable. It is the method that I have a profound and immovable objection to: making purchase of tobacco products illegal for citizens who have done nothing illegal is – nothing short of “liberty-theft.” Studies have demonstrated the positive impact of using market forces (price-points for addictive substances) to incentivize healthier choices; the advocates for SB 754 B-Engrossed opted for a more draconian alternative. This is a tragic case of overreach and I truly wish all involved had chosen a more comprehensive strategy instead of what I believe to be an opening of “Pandora’s Box.”

“To the bill: this bill seeks to tear apart the concept of a right to privacy for adults under age twenty-one (21). If passed, it reopens conversations that many, including primary advocates for this measure, will wish it had not opened. Here in Oregon, eighteen-year-old citizens have been deemed “mature” enough to enter marriage, sign binding contracts, and if male – are required to enter the US Selective Service – for a potential involuntary conscription into military service. This very Legislative Session we passed measures protecting the rights to privacy involving access and availability to reproductive services for people that are in some cases, younger than eighteen years of age.

“With passage, we invite a conversation upon the appropriate age for all rights as well as legitimate an embedded ironic contradiction that perpetuates a misalignment between the rights (and inherent capacity to thoughtfully exercise these rights) of health access, marriage, binding contracts, and the ability to both surrender individual freedom in military service and the associated capacities to that service: to thoughtfully fight, kill, and perhaps die for your country. With passage, we ordain a blatant hypocrisy within our laws that demonstrates our distrust in the ability of an eighteen-year old to “know how to think about what is best for them” – even as we pass laws securing their right to vote – and make choices about our government, the very day they turn eighteen-years old.

“Increasing the legal age for purchase of tobacco products from eighteen years to twenty-one years invites social confusion, difficulty in enforcement, and quite frankly – limits the liberties of citizens who have done nothing wrong. This measure will be looked upon by the public as a solution in search of a problem – at best, an example of the “Nanny-State” at worst. Sadly, even though we have shared agreement on the need for preventative action regarding tobacco addictions, this law could well end up in a court case before the US

Supreme Court because of its undeniable abridgement of Amendment XIV of our US Constitution – as it seizes rights from citizens without due process, and establishes a separate “class” of citizens who pay taxes, fulfill civic duties, and exercise many (but not all) rights as citizens. This measure is not needed and I regret the message it sends to all Oregonians about our willingness to forfeit the right to privacy for citizens without due consideration of the enduring impacts. I ask us to consider the precious nature of both individual and collective rights.

“We must guard against making unpopular liberties, illegal activities. As the men and women responsible for finding balance, we must prevent unwarranted overreach – even for the most well-intentioned reasons. I believe this bill takes us too far past the edge, I hope it will not be enacted in its current form.”

Smith DB requested the following explanation of his vote be entered in the Journal:

“I voted NO on SB 754 for the following reasons and more: In a political move to keep the bill alive and from ways and means, the proponents took money away from seniors and disabled Oregonians, while not using the millions from the tobacco settlement appropriately.”

Evans requested the following explanation of his vote be entered in the Journal:

“I want to explain my vote in favor of SB 719 A-Engrossed. This measure establishes a new tool in our efforts to reduce violence that in too many cases involves a firearm. It provides a mechanism for family members to access a formal court process to remove a firearm from well-defined, certain and specific “extreme circumstances.” It has clear “sideboards” protecting the legal rights of the owner of a firearm as well as all those associated with the firearm owner and the community at large. This measure empowers a judge with wide discretion on the application of this extreme risk protective order – thereby assuring a structural and systemic balance on matters that could lead to preventable violence.

“As a veteran of Afghanistan and Iraq – I believe this measure will make a profound difference in the lives of fellow veterans and their families. I have been to many military funerals since the 9/11 Attacks upon our country; far too many of these have been the result of a suicide. We have been at war for over sixteen years with an ‘All Volunteer’ military that is exhausted, overly stressed, and struggling to perform the missions assigned. As a policy-maker, I believe SB 719 A-Engrossed will make a real difference in the lives of military families as well as many non-military families in times of extreme crisis. I say this as a proud defender of our right to bear

arms (an owner of many firearms myself). This measure satisfies my test: a judicial process with formal guidelines in all cases. Like it or not, many tragedies involving a firearm have been – and remain – preventable.

“Too often, certain and specific patterns of behavior were identified before a tragedy but not acted upon because of uncertainty about available, possible remedies. I know from my own experiences several instances when military families where the “what-if” blame-game has played out casting an enduring shadow over the tragedy. We must not ignore these tragic missed opportunities. It is time for a tool providing a “time out” for assessment and, in rare – extreme risk cases – a firearms-free environment for a family in distress. We know the factors and/or triggers associated with likely violence; we know from statistics the availability of a firearm makes violence (with potentially lethal outcomes) far more likely. SB 719 A-Engrossed provides a rational, reasonable, and responsible pathway for getting help and reducing risk in extreme environments.

“In a perfect world, this measure would not be used often. It is my fervent hope that we find ways to prevent all forms of violence – violence involving firearms, violence that does not involve firearms. Our challenges relate to economic opportunities, healthcare availability (and affordability), obstacles and/or stigmas associated with mental health care, and the pressures of modern life in a dynamic global economy. That said, I believe firearms are a part of life in the US. We must continue to find solutions to our social challenges that honor a balance of rights and responsibilities; we must always ensure the rights of a person are protected through the participation of a judge – a judge empowered with alternatives based upon the circumstances at hand – not a mandate for taking the rights of a firearm owner away because of hidden assumptions.

“In conclusion, I support Senate Bill 719 A-Engrossed because it respects the spirit as well as the letter of the law. It provides a judge with power to review information that may prevent violence within a process with clearly identified standards. This measure is a well-thought, well-written piece of legislation. It is not the end of the conversation about firearms and violence, but it is a small and necessary step forward.”

Sollman requested the following explanation of her vote be entered in the Journal:

“As a post-secondary and education advocate, I know the consequences that can occur due to an unequal system in higher education. Reducing funding for one area while the other is increased is an inequality I had a difficult time supporting. SB 5524, reduces funding for our colleges and universities by 6%, while our

community colleges face a 10% cut, and the disparity in these cuts are unacceptable to me.

“To me, our community colleges are places where young adults can begin their post-secondary path. Some students are faced with financial hardships; some are working part-time while working toward a degree. There are some students that are still discovering their interests and finding their path and community college is a fiscally responsible way to be exposed to various career paths. It is very important that we have a community college system that is on par with our university system so that students have the best opportunities available.

“The reduction of \$5 million to our Oregon Promise program may have dire consequences. It could mean a reduced number of participants, increased co-pay, or capped enrollment. Any combinations of these options are unacceptable to me and I will do everything in my power to ensure that traditionally disenfranchised students are not pushed further away.

“I was excited to work and vote on this budget because it effects so many hardworking people in our state, and I look forward to continuing my advocacy for education.”

Alonso Leon requested the following explanation of her vote be entered in the Journal:

"I voted against SB 1067 because I don't believe it is fair to balance our state budget by asking our firefighters, nurses, police officers and other public employees to sacrifice their hard-earned benefits without also asking some of the wealthiest corporations in the world to also pay their fair share to support our schools, roads, seniors and other essential services.

"We had not only an opportunity, but a moral obligation to rebuild the broken pieces of our budget and revenue systems this year, which have been crumbling for more than two decades. The piecemeal, band-aid fix approach to our budgets has shortchanged our students and teachers for too long.

"I'm proud to have worked with my colleagues in both parties as well as leaders in the business community to bring forth proposals that put all of the pieces together – reducing the cost of government, making targeted budget cuts, and reforming business taxes in a way that lightens the tax burden on working households. Unfortunately, some politicians and corporate lobbyists have chosen to stand in the way rather than work collaboratively in order to solve the biggest problems facing our state.

"I voted against SB 1067 because I think it's wrong to balance our budget on the back of working Oregonians without also passing real revenue reform."

Barnhart requested the following explanation of his vote be entered in the Journal:

"Senate Bill 1067 is part of the Oregon Legislature's efforts this session to control the costs of government services over the long-term. The goal is to lower costs so that more of every taxpayer dollar is going directly to classrooms or senior care services, for instance.

"I heard from people in my district who were concerned about some of the aspects of the bill, like the end of double health care coverage for certain state employees who have spouses or dependents who are also fully covered by another state plan. I, too, am always concerned about proposals to limit the well-earned benefits of hard-working employees. I do not believe that we can balance the budget solely on the backs of teachers, police officers, firefighters and other public employees.

"However, I voted in favor of SB 1067 because of the main cost-saver in the bill: strict price controls on what hospitals can charge for care. While it's not perfect, SB 1067 shifts more of the responsibility for cost-containment on large hospitals than on public employees.

"No bill is perfect – they're all the result of compromise and negotiations. SB 1067 is no exception. I voted yes because it will save significant money that can be used for critical services while recognizing that public employees can't shoulder all of the burden."

Doherty requested the following explanation of her vote be entered in the Journal:

Evans requested the following explanation of his vote be entered in the Journal:

"I want to explain my vote in opposition of Senate Bill 1067 (SB 1067). To begin with, this vote is about finding rational, reasonable, and responsible solutions for controlling the costs of government services as we adjust to the new realities of a dynamic 21st Century Economy. All who were involved in the process of bringing the measure forward, did so with the best of intentions: finding a fair balance as we navigate a path towards a sustainable budget. Please note: I do not believe this measure was about unfairly targeting public workers, punishing hospitals, or any covert strategy to "cost-shift" the price we pay for effective and efficient government services.

"SB 1067 is a small piece of a much larger puzzle: how the Oregon Legislature lowers structural costs -- in an appropriate manner -- to optimize each, every taxpayer dollar for classrooms, healthcare access, highways, public safety, small business development, and caring for our seniors. Unless/until we implement a comprehensive reform of our taxation system these "cost control" policies will have relatively minor impact upon establishing a sustainable governance environment: but these minor impacts could pay a critical dividend over time -- as we assemble the pieces.

"SB 1067 will likely yield close to \$100,000,000.00 in savings with over 80% of the savings found in strict price controls on what hospitals can charge for care. This may prove to be a significant pivot in cost-management: I will keep an eye on the actual (versus hypothetical) savings realized through this policy. However, there is concern from many places that these caps could be a problem because of the current instability in national health care policy (because of changing federal policies). This uncertainty, when added to the elimination of double health care coverage for certain state employees who have spouses or dependents who are also fully covered by another state plan will have a very real impact upon real people. Though few in number, this loss -- at this moment -- could well have catastrophic impact on care.

"As I have emphasized from the beginning of my service in the Oregon Legislature, I am always concerned about proposals seeking to constrain and/or limit the well-earned benefits of hard-working employees. And while the potential impact upon the Public Employees Retirement System (PERS) is minimal, there is widespread concern related to the "next steps" phase that could follow passage of this measure. In the end, I voted against SB 1067 because I could not, will not -- ever -- support a measure that seeks to balance our budget solely upon the backs of firefighters, police officers, public works professionals, teachers, and the other folks who dedicate their lives in service to our nation, state, and communities.

"It is said that modern politics is the process of making sausage: that the outcomes are worth the mess. It is my fervent hope that this measure will demonstrate this axiom. No bill -- no negotiation -- is perfect; compromise results from differing positions giving ground in search of finding common ground. SB 1067 is a part of a large puzzle that we will continue to work for. I could not get to "yes" today. But I voted no because of the specific details of this measure, not its intent -- or the larger conversation about sustainability that we clearly must have.

"In conclusion, I explain this vote in the following way: in a very dire budgetary environment, the Legislature made the best choices

possible to stretch a finite amount of resources as far – for as long – as we could. While I voted against this measure, I respect the process and will work hard to do my part to contribute to the larger discussion. It is my personal and professional pledge to secure budget sustainability that is not, will not, be based upon a perpetual erosion of the earned benefits and pensions of the men and women who work hard every day – for us.”

Fahey requested the following explanation of her vote be entered in the Journal:

“Senate Bill 1067 is part of the Oregon Legislature’s efforts this session to control the long-term costs of government services. The goal is to lower costs so that more of every taxpayer dollar goes directly to classrooms or senior care services, for example.

“However, I voted in favor of SB 1067 because of the main source of cost savings in the bill: strict price controls on what hospitals can charge for care. While it’s not perfect, SB 1067 shifts more of the responsibility for cost-containment on large hospitals than on public employees.

“No bill is perfect – they’re all the result of compromise and negotiations. SB 1067-A is no exception. I voted yes because it will save significant money that can be used for critical services, while recognizing that public employees can’t shoulder all the burden.”

Gomberg requested the following explanation of his vote be entered in the Journal:

“I also supported 1067 because of strong provisions to collect the \$3.3 billion in uncollected fines, fees, restitution and taxes currently owed Oregon by Oregonians. I believe increased attention to delinquent debt is a fundamental question of equity and a commitment that everyone pay their own share.

“No bill is perfect – they’re all the result of compromise and negotiations. SB 1067 is no exception. I voted yes because it will save significant money that can be used for critical services while recognizing that public employees can’t shoulder all of the burden.”

Gorsek requested the following explanation of his vote be entered in the Journal:

“I’m proud to have worked with my colleagues in both parties as well as leaders in the business community to bring forth proposals that put all of the pieces together – reducing the cost of government, making targeted budget cuts, and reforming business taxes in a way that lightens the tax burden on working households. Unfortunately, some politicians and corporate lobbyists have chosen to stand in the way rather than work collaboratively in order to solve the biggest problems facing our state.

“I voted against SB 1067 because I think it’s wrong to balance our budget on the back of working Oregonians without also passing real revenue reform.”

Helm requested the following explanation of his vote be entered in the Journal:

“Senate Bill 1067 is part of the Oregon Legislature’s efforts this session to control the costs of government services over the long-term. The goal is to lower costs so that more of every taxpayer dollar goes directly to classrooms, senior care, and other critical services.

“I heard from people in my district who were concerned about some of the aspects of the bill, such as the end of double healthcare coverage for certain state employees who have spouses or dependents who are also fully covered by another state plan. I, too, am always concerned about proposals to limit the well-earned benefits of hard-working employees. I firmly believe it is neither possible nor desirable to balance the budget solely on the backs of teachers, police officers, firefighters and other public employees.

“However, after much consideration, I voted in favor of SB 1067 because of the primary cost-saver in the bill: strict price controls on what hospitals can charge for care. Ultimately, SB 1067 shifts more of the responsibility for cost-containment onto large hospitals than it does onto public employees.

“No bill is perfect – they’re all the result of compromise and negotiations – and SB 1067 is no exception. In this case, I voted yes because it will save significant money that can be used for critical services, while also recognizing that public employees cannot shoulder all of the burden.”

Malstrom requested the following explanation of her vote be entered in the Journal:

“Senate Bill 1067 is part of the Oregon Legislature’s efforts this session to control the costs of government services over the long-term. The goal is to lower costs so that more of every taxpayer dollar is going directly to classrooms or senior care services, for instance.

“I heard from constituents who were concerned about some of the aspects of the bill, like the end of double health care coverage for certain state employees who have spouses, or dependents who are also fully covered by another state plan. I, too, am always concerned about proposals to limit the well-earned benefits of hard-working employees. I do not believe that we can balance the budget on the backs of teachers, police officers, firefighters and other public employees.

“I voted in favor of SB 1067, because of the main cost-saver in the bill: strict price controls on what hospitals can charge for care. While

it's not perfect, SB 1067 shifts more of the responsibility for cost-containment on large hospitals than on public employees.

"No bill is perfect – they're all the result of compromise and negotiations. SB 1067 is no exception. I voted yes because it will save significant money that can be used for critical services while recognizing that public employees can't shoulder all of the burden."

McLain requested the following explanation of her vote be entered in the Journal:

"Senate Bill 1067 is part of the Oregon Legislature's efforts this session to control the costs of government services over the long-term. The goal is to lower costs so that more of every taxpayer dollar is going directly to classrooms or senior care services, for instance.

"I heard from people in my district who were concerned about some of the aspects of the bill, like the end of double health care coverage for certain state employees who have spouses or dependents who are also fully covered by another state plan. "I also see this as an important step forward that will create a path towards revenue reform. When we discussed revenue reform, many constituents and stakeholders made it clear that any revenue reform must come with cost containment. We need to meet these workers in good faith with a stable, fair tax system that provides a new revenue source to support vital services that Oregonians rely on.

"No bill is perfect – they're all the result of compromise and negotiations. SB 1067 is no exception. I voted yes because it will save significant money that can be used for critical services while recognizing that public employees can't shoulder all of the burden."

Smith DB requested the following explanation of his vote be entered in the Journal:

"I voted NO on SB 1067 for the following reasons and more: Republicans were never allowed to assist with cost containment. The cost containment outlined in this bill is not enough and shifts costs onto the private sector rather than to public employees. Does not do anything near enough to begin to address PERS."

Sollman requested the following explanation of her vote be entered in the Journal:

"Senate Bill 1067 is part of the Oregon Legislature's efforts this session to control the costs of government services over the long-term. The goal is to lower costs so that more of every taxpayer dollar is going directly to classrooms or senior care services, for instance.

"I heard from people in my district who were concerned about some of the aspects of the bill, like the end of double health care coverage for certain state employees who have spouses or dependents who are also fully covered by another state plan. responsibility for cost-containment on large hospitals than on public employees.

"I came into this session committed to working on revenue reform & cost containment. While I am disappointed that both weren't able to pass this session, I am committed to being a voice for revenue reform in the next session and ensuring that any reform done will make meaningful investments in our education system and social services that we all care about.

"No bill is perfect – they're all the result of compromise and negotiations. SB 1067 is no exception. I voted yes because it will save significant money that can be used for critical services while recognizing that public employees can't shoulder all of the burden."

Motion carried on viva voce vote.

The following measures were referred from the desk of the Speaker and recorded on Committee Referral List No. 92 dated July 7, 2017.

HB 3473 Business and Labor

By unanimous consent, on request of Speaker, rules suspended to temporarily advance to the order of business Third Reading of Senate Bills.

SB 5505, 5506, 5516, 5522, 5529, 5530, 644, 693, 803, 1032 – By unanimous consent, on request of Speaker, rules suspended to permit third reading and final consideration immediately.

SB 5505 (A-Engrossed) – Rules suspended. Read third time. Carried by Holvey. On passage of the bill the vote was: Yeas, 49; Nays, 9 – Buehler, Johnson, McLane, Nearman, Noble, Parrish, Post, Smith DB, Whisnant; Excused, 2 – Clem, Hayden. Bill passed.

Bynum requested the following explanation of her vote be entered in the Journal:

"Although I voted in favor of SB 5505, I believe we are short changing community colleges by not funding them adequately. While I am happy that we are able to continue the Oregon Promise program, even in a budget environment that requires us to make tradeoffs, I believe this is another example of the legislature's failure to make the right, targeted investments in the educations of Oregonians."

Williamson requested the following explanation of her vote be entered in the Journal:

"I voted yes for House Bill 5505 because it funds crucial projects in communities throughout the state. State bonds for state support to replace unsafe courthouses in five counties has received bipartisan support since 2013. The first courthouse replaced with this State bond program was the Jefferson County. Jefferson County now has a modern courthouse that provides safe and secure access to justice in one of his counties. This appropriation does the same for Multnomah County.

"Multnomah County Circuit Court was built in 1914 from hollow, unreinforced masonry blocks and has functioned as the center of the legal system in Multnomah County for nearly 100 years. More than 600,000 people enter the century-old courthouse annually. That number includes 400-plus judges, staff and state employees who must work in the courthouse, and the thousands of people who must enter the building for such as jury duty. The current facility does not meet required seismic standards and thus presents a significant safety risk to judges and judicial employees, building staff, and the citizens who use the court on a daily basis. Multnomah County's courthouse is the busiest county house in Oregon and is in urgent need of replacement. As the largest population center in our state, it is critical that Multnomah County has a safe and functional courthouse.

"In spite of the rhetoric around spending furnishings, the 2017 appropriation is for technology and equipment that need to be installed during construction and are the State's responsibility by statute. Specific examples of these furnishings include work station panels that need to be wired in, and audio recording equipment in courtrooms to maintain accurate records of court proceedings."
