ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

(1) The section, series of sections or chapter of Oregon Revised Statutes.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a bill or measure are “added to and made a part of” the ORS chapter or series.

(3) The following information about the section and bill or measure by which ORS is amended, repealed or “added to”:

(a) The section number and Senate or House bill number for the 2009 bill;

(b) The section number and current session bill number or previous session bill number for the bill repassed over the Governor’s veto during the 2009 session (such as “§3 OV 3333” for a current session overturned veto or “§4 OVP 4444” for a previous session overturned veto); or

(c) The section number and boldfaced ballot measure number for the initiative petition approved at the November 2008 election (such as “§5 BM 55”).

The engrossing level is printed next to the bill number if the bill has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The bill or measure number and engrossing level appear in boldfaced type if the bill or measure has become law, or has been referred, and has been assigned a 2009 Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.

(2) If a member refuses to vote when the member's name is called, the Speaker shall immediately call for the member's vote a second time. (4) All members must remain within the bar of the House until the vote is taken for which the call was made. However, when the House is waiting for an unexcused member and the presiding officer has announced the House is "at ease," the members may have access to the area behind the rostrum included in the Speaker's office until the presiding officer calls the House to order. Members must then return to within the bar.

(5) A call of the House shall be considered terminated when the question for which the call was invoked has been voted upon or when a motion to terminate the call is approved by forty members. The motion to terminate the call shall be in order when the Sergeant at Arms has reported that unexcused members cannot be returned within a reasonable time. Termination of the call under this subsection terminates the requirement that the Sergeant at Arms search for unexcused members. In the absence of a quorum after the report of the Sergeant at Arms is received, the House may terminate the call by the unanimous consent of the members present.

(6) Upon a call and until the proceedings are terminated, the presiding officer may direct the Sergeant at Arms to authorize members of the Senate, representatives of the news media and staff to leave or enter the chambers.

HB 5054 – Message from the Governor announcing he vetoed single line items and signed the remaining items on August 6, 2009.

August 6, 2009

The Honorable Kate Brown
Secretary of State
136 State Capitol
900 Court Street NE
Salem, OR 97301

Dear Secretary Brown:

“Under Article V, section 15a, of the Oregon Constitution, the Governor of Oregon has “power to veto single items in appropriation bills, ***without thereby affecting any other provision of such bill.” In accordance with Article V, section 15a, I hereby disapprove and veto the following items of Enrolled House Bill 5054, disappropriation \$13,411, 618 General Funds and \$21, 915, 876 Other Funds from the Department of Higher Education, and \$6,259,420 General Funds from Judicial Department Operations, without affecting the remaining provisions of the bill:

Section 61 (4)

Department of Higher Education:

Education and general

Services of higher education

General Fund HB 5017 1(1)-11,561,556

Other funds HB 5017 2(1)-20,752,132

Agriculture Experiment

Station and the branch

Experiment stations of Oregon State University

General Fund HB 5017 1(2)-966,779

Other funds HB 5017 2(2)-511,549

Extension Service of Oregon State University

General Fund HB 5017 1(3)-767,696

Other funds HB 5017 2(3)-334,607

Forest Research Laboratory of Oregon State University

General fund HB 5017 1(4)-115,587

Other funds HB 5017 2(4)-317,588

Section 61(6)

Judicial Department

Operations

General Fund HB 5020 1(1)-6,259,420

“I have signed HB 5054 as to the remaining provisions of the bill and return the bill to you with this letter.

“The disappropriations contained in Section 61 (4) of HB 5054 would have decreased the General Fund appropriations to the Department of Higher Education by \$13.4 million. I am deeply concerned that this provision would force the University System to raise tuition, which when combined with the underfunding of the Oregon Opportunity Grant program in the legislatively adopted budget, will operate to make higher education less accessible for many low-income and middle-income Oregonians. My veto also eliminates the \$21.9 million Other Funds disappropriation to the university system and Oregon State University statewide public service programs, simply restoring their authority to spend funds that will be collected from tuition and grants.

“The disappropriation contained in Section 61(6) of HB 5054 would have decreased the General Fund appropriation to the Oregon Judicial branch of government. It jeopardizes the branch’s ability to maintain an open and accessible court system for Oregonians and may endanger other critical services such as drug courts. My line item veto restores \$6.3 million in the Judicial General Fund operating budget. My understanding is that with this restoration of funds, the net reduction to the judicial branch is more consistent with the reduction amount to which the Chief Justice and Legislative leadership agreed in order to keep Oregon’s courts open and accessible through the biennium.

“Finally, I note that the Budget Report and Measure Summary accompanying HB 5054 directs the Judicial Department to prioritize funding for certain programs deemed important by the Legislature. While this report does not have the forces of law, if it were binding, I would veto it. The Legislature does not have authority to exercise control over the functions of the Judicial branch except as specifically provided in the Oregon Constitution. For our democracy to remain strong, the Executive, Judicial and Legislative branches of government must remain independent and equal.”

Sincerely,
Theodore R. Kulongoski
Governor

HB 2472, 2940 - Message from the Governor
announcing he vetoed on August 7, 2009.

August 7, 2009

The Honorable Kate Brown
Secretary of State
136 State Capitol
900 Court Street NE
Salem, OR 97301

Dear Secretary Brown:

“I am returning Enrolled House Bill 2472 unsigned and disapproved.

“House Bill 2472 rolls back the Business Energy Tax Credit (BETC) by reducing the cap from \$10 million to \$3.5 million. The roll-backs in Enrolled HB 2472 go too far and would adversely impact Oregon’s growing renewable energy sector, resulting in fewer jobs and less clean, renewable energy sources.

“There is little if any dispute that since expanding the program in 2007, the BETC has proven to be one of the most effective tools for Oregon’s efforts to accelerate the growth of our green economy. The BETC had aided the renewable energy industry, which in turn has provided much needed jobs while transitioning the state towards cleaner, renewable energy sources. Oregon now leads the nation in the percentage of jobs related to green energy, according to a recent Pew Charitable Trust report. I cannot support a bill that would scale back our support for one of the few growing sectors of our economy at a time when encouraging new economic opportunity is so critically important.

“I understand that the underlying intent of Enrolled House Bill 2472 is to create additional revenues for the General Fund. At the same time, it would expand the BETC to include electric vehicle manufacturing which I support. I supported the A-Engrossed version of HB 2472, which would have established a \$7.5 million BETC for large projects and continued the current BETC level for smaller projects up to 20 megawatts. Unfortunately, the final version of the bill went too far and I cannot support the current version of the bill.

“I agree with those who state that, while the BETC has been a very successful tool for growing our green economy, the time has come to examine the incentive levels. I am convinced, however, that we must first gather the facts concerning the BETC program and then apply those facts to the underlying economics of renewable energy projects *before* we make adjustments that may risk endangering a successful program. I have signed House Bill 2180, which directs the Oregon Department of Energy, to conduct an economic analysis on renewable energy projects that qualify for the BETC. Once we obtain the facts, we will be able to apply those facts to a better understanding of the state’s return on the investment in the BETC program.

“In addition, I am directing the Oregon Department of Energy to tighten the administrative rules that govern the BETC. I’ve asked them to clarify issues related to multiple projects and multiple BETC applications, and to establish further conditions for the approval of BETC application as they relate to Oregon

permitting and licensing laws, cost overruns, taxes owed to the state, length of operation of facilities, and enhanced accountability for jobs created and sustained.

“I have also signed HB 2067, which schedules the BETC program for sunset review by the legislature in 2012. When the legislature convenes in January of 2011, we will have the facts and the analysis by the Department of Energy to give the legislature a better understanding of the role of the BETCs in Oregon’s economy and the state’s return on its investment. This factual analysis will assure that Oregon spends BETC dollars as effectively as possible, saves revenue and keeps Oregon on the forefront of renewable energy development.

“I am also committed to supporting the development of the electric vehicle industry, the next generation of clean vehicles in Oregon. I will continue to work with state agencies and the legislature to develop policies to encourage the manufacture of electric vehicles and battery technology, so that we can grow this emerging technology.

Sincerely,
Theodore R. Kulongoski
Governor

The Honorable Kate Brown
Secretary of State
136 State Capitol
900 Court Street NE
Salem, OR 97301

Dear Secretary Brown:

“I am returning Enrolled House Bill 2940 unsigned and disapproved.

“Enrolled House Bill 2940 would decrease the value of Oregon’s Renewable Portfolio Standard (RPS) by including additional sources of generation not accounted for in the original standard at the expense of *new* renewable generation projects. The RPS is a great economic generator, and already has produced great environmental benefits. I cannot support reducing the standard and thereby, the economic and environmental benefits.

“I am sympathetic to the original goal of HB 2940 - to create additional economic opportunity for biomass facilities in Oregon that were built prior to 1995. I also acknowledge the efforts of the proponents of HB 2940 to attempt to mitigate some of the bill’s adverse impacts to the RPS. Unfortunately, those efforts were inadequate to prevent diminishing the RPS. The correct approach to prevent a depreciation of the RPS is to make a targeted expansion (increase) to the RPS to account for the additional renewable resources generated by biomass facilities built prior to 1995. Such targeted expansion would benefit both the goals of the RPS and Oregon’s biomass industry.

“The bill was amended several times, adding various generation sources into the RPS. This ad-hoc approach even resulted in the inclusion of municipal solid waste, which many experts do not consider to be a renewable resource. In fact, the legislature expressly excluded municipal solid waste from the RPS just two years ago. Adding municipal solid waste to the RPS is a step backward and one I cannot support.

“The RPS is a tremendous success story for Oregon. It has helped to stimulate billions of dollars of investment in this state, during one of the worst economic times in a century. The RPS has helped to make Oregon the leading state in the nation in green jobs and renewable energy. Oregon’s utilities are ahead of schedule in integrating the renewable resources required under the RPS at no appreciable added cost to Oregon ratepayers.

“We must maintain the growth and momentum in our renewable energy sector at this critical juncture not slow it. In that context, I hope to work with legislature and stakeholders to develop consensus on how to expand the number of megawatts

required to be generated from renewable energy resources under the RPS, while also addressing in a more comprehensive way, concerns from individual renewable resources sectors that seek to become eligible for the RPS.

Sincerely,
Theodore R. Kulongoski

Harker requested the following explanation of his vote be entered in the Journal:

“Religious liberty is one piece of the foundation upon which the U.S. Constitution is built. Separation of church and state is another piece of that foundation. I value both of these principles greatly and I understand the difficulty in trying to uphold one without harming the other.

“House Bill 3686 is, at its core, attempting to promote religious freedom and liberty, and for that I understand and applaud it. My concern is how, in promoting religious freedom, we potentially violate the principle of secularism in public classrooms.

“In addition, I believe enough ambiguity exists in the wording of this bill that there is a significant likelihood of differences in interpretation and enforcement between school districts. Where one district might decide the wearing of a particular item satisfies the “religiously neutral” clause, another school district might decide differently. Without specific language in the statute to clarify these ambiguities, I am concerned about the burden we are placing on school administrators.

“It is for these reasons that I voted ‘No’ today on HB 3686.”

Gilliam requested the following explanation of his vote be entered in the Journal:

"I wish to explain my vote in favor of HB 3700 on the House Floor.

Regarding the merits of the bill:

-This bill addresses the long-standing request by many Oregon municipalities for additional options regarding financial transactions and related business.

-Additional options could lead naturally to improved rates of return on deposits, no matter what municipalities finally choose for their public accounts.

-As was noted in debate, public funds to credit unions is normal procedure in 22 other states.

"My position on this bill does not concern my support for the banking industry, especially local Oregon banks- but rather reflects my respect for the valuable role of member-owned credit unions all over Oregon and especially in rural areas.

"I deeply resent the suspicious nature surrounding the timing of this measure, however, I tried to focus my attention on the merits of the bill, even when others played politics with this important issue."

"It is with real regret that I voted NO on HB 3704. I understand the difficulties that currently exist with the inclusion of plastic water bottles in Oregon's bottle bill, and I strongly support expanding opportunities for bottle recycling. My concern is with unintended consequences of the bill. Currently, most citizens return bottles and cans to the local retailer where the product was purchased. It is unclear the effect that HB 3704 would have on local retail redemption. If consumers are forced to go to a separate location to redeem their bottles and cans, I'm concerned about the inconvenience for consumers and that redemption rates might drop."

Barton requested the following explanation of his vote be entered in the Journal:

“Today I voted against Senate Bill 1045. I agree with the policy objective of this bill, but cannot support this legislation as written.

“Oregon needs to protect its most vulnerable during this economic recession. Returning Oregonians to work empowers families and should be the primary purpose of this legislative session. I support the objective of SB 1045 in that it reduces unnecessary barriers to employment. However, I must vote based on the actual language of the bill, its aspirations. SB 1045 will work against Oregon’s unemployed because it creates a new and ambiguous legal standard: “substantially job-related.” This standard has no current meaning in Oregon law, and I fear the resulting uncertainty will yield litigation and deter new employment.

“I proposed constructive amendments to ameliorate these concerns. Unfortunately, the bill before the legislature today does not reflect my proposed improvements. I remain committed to working with my colleagues to improve the Oregon economy and getting people back to work.”

SB 1055 – By unanimous consent, on request of Speaker, rules suspended and bill taken from today’s Third Reading Calendar and placed in its proper order on Tuesday, February 23, 2010 Calendar.

Speaker Hunt requested the following explanation of his vote be entered in the Journal:

“During the House of Representatives floor session on February 23, 2010, I voted “yes” on Senate Bill 1055-B, which clarifies existing statutes regulating what activities and services Oregon’s wineries can engage in when located in exclusive farm use zones.

“SB 1055-B is deserving of merit in its intent, but the Legislature’s work on this issue is not finished. To be sure, there was a need to clarify this statute. However, a workgroup must be convened to continue efforts for reform throughout the interim. This workgroup will have ample time to find a broader solution around agri-tourism, events, and commercial activity in exclusive farm use zones relating to wineries for the 2011 Legislative Session. I look forward to monitoring the progress of this workgroup and addressing this issue once more next year.

“SB 1055-B sunsets on January 1, 2013, which is a useful step in the right direction toward fostering a more attractive climate for the wine industry in Oregon, and worthy of support during the Special Session.”

Bailey requested the following explanation of his vote be entered in the Journal:

“I strongly support veterans and want to ensure all Americans who serve are able to get the help they need to reintegrate into civilian society. I voted no on SB 999 to make the statement that under no circumstances is there an excuse for domestic violence.”

Gelser requested the following explanation of her vote be entered in the Journal:

“SB 999 creates new provisions to provide diversion opportunities for veterans charged with certain crimes. I strongly agree with the motivation of the bill– to ensure that veterans have access to the services they need to recover from military related trauma. Our services today are inadequate, and we have betrayed our promise to our soldiers by failing to meet their mental health and other needs. I also agree that it is important that district attorneys consider the unique circumstances that might impact a criminal action committed by a veteran– particularly the role that post traumatic stress disorder and traumatic brain injury may play in impairing the judgment of a service member.

“However, I am concerned that SB 999 fails to narrow eligibility for diversion to those who have experienced trauma (physical or mental) due to their military experience. Under SB 999, an individual who served on a US military base in the United States forty years ago is treated in the same way as a young soldier returning from two tours of duty in Afghanistan. I am also concerned that SB 999 increases the crimes for which a service member may seek diversion. Under SB 999, most defendants would not be eligible for diversion if their crime involved physical injury to another person. However, service members would be eligible for diversion if they caused physical injury to another individual, so long as it wasn’t serious physical injury. Serious physical injury is defined as “creates a substantial risk of death or which causes serious and protracted disfigurement, protracted impairment of health or protracted loss or impairment of the function of any bodily organ.”

“Under SB 999, individuals could be eligible for diversion for causing physical injury in a domestic violence situation (so long as the victim did not already have a restraining order), for strangulation, for child molestation, or for robbery so long as no injury was involved. While I trust that it would be the rare district attorney who would choose diversion in such cases, the matter of making it law is concerning. My discussions with two local prosecutors confirmed these concerns, as they indicated they already have the authority to offer diversion to veterans under current law.

“I appreciate that a broad coalition of stakeholders worked on this bill. I also wholly support efforts to help get service members access to

much needed treatment. I simply wish this bill had been narrowed both in terms of who is defined as an eligible service member, and in the types of crimes eligible for diversion. It is my hope that my “no” vote will ensure that careful attention is paid to the implementation of this law so that any adjustments which may be needed–particularly in the areas of domestic violence and child physical and sexual abuse– can be made by future legislatures.

“Finally, I want to reiterate my support for increasing access to services for those who serve our country. Many of our veterans come home with lifelong physical, mental and emotional injuries. It is our moral obligation to ensure they have access to the treatment services they need in an expeditious way– hopefully long before any crime occurs.”

Beyer requested the following explanation of her vote be entered in the Journal:

“I have mixed feelings about SB 1059. As you know, this bill was originally discussed during the 2009 legislative session and lacking agreement, was referred to an Interim Task Force. I attended each meeting of that body and worked closely with local governments.

“I strongly support the goal of reducing vehicle-based greenhouse gas emissions. So do most of the cities that are within the boundaries of Metropolitan Planning Organizations or MPO’s. Most of these cities – without any direct encouragement of the legislature – are already taking steps that will result in reducing GHG emissions.

“I am not convinced that this bill will result in any improvement over what is already happening. The one thing that could make a difference would be additional funding to help local governments take additional steps to reduce GHG.

“Cities are already buried in costly land-use planning activities that they can ill afford. There is very limited state money available to help cities in these planning efforts and - I am afraid - the limited money available will be shifted from successful efforts already underway to fund these new planning activities.

“SB 1059 directs LCDC to set hard GHG reduction targets for each MPO.

“Then LCDC in concert with ODOT will develop the modeling tools and tactics that local governments will use, or be forced to use, in developing plans to meet these goals.

“My caution with this bill is that, anyone who has been involved in land-use in Oregon should apply a skeptical eye to this. Nothing about land-use planning in Oregon is voluntary, timely or inexpensive and I expect that SB 1059 will not be an exception.”

**OREGON RULES OF CIVIL PROCEDURE (ORCP) AMENDED,
REPEALED OR ADDED**

There were no amendments, repeals or additions affecting the Oregon Rules of Civil Procedure during the 2010 special session.

**SECTIONS IN UNCODIFIED LAW AMENDED,
REPEALED OR “ADDED TO”**

From left to right in the columns of the table below are found:

(1) The year, chapter and section or sections of the uncodified law.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the uncodified section, or the word “Add” indicating that a section or sections of a bill or measure are “added to and made a part of” the series of uncodified sections.

(3) The following information about the section and bill or measure by which the uncodified section or sections are amended, repealed or “added to”:

(a) The section number and Senate or House bill number for the 2010 bill;

(b) The section number and current session bill number or previous session bill number for the bill repassed over the Governor’s veto during the 2010 session (such as “§3 OV 3333” for a current session overturned veto or “§4 OVP 4444” for a previous session overturned veto); or

The engrossing level is printed next to the bill number if the bill has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The bill or measure number and engrossing level appear in boldfaced type if the bill or measure has become law, or has been referred, and has been assigned a 2010 Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.
