RE: 182.166 Training of state agency managers and employees who communicate with tribes; annual meetings of representatives of agencies and tribes; annual reports by state agencies.

The Oregon Board of Naturopathic Medicine is reporting on its activities in compliance with ORS 182.166(3) related to its interaction and collaboration with the Tribes and tribal communities in Oregon.

OBNM is a small agency with 3 full-time employees, and 7 volunteer Board Members. The mission of the Oregon Board of Naturopathic Medicine (OBNM) is to regulate, through the Oregon Revised Statutes and Administrative Rules, the practices of naturopathic medicine to ensure protection of the public. The Board promotes excellence in the practice of naturopathic medicine by assuring quality education, regulating naturopathic practices, and fostering ongoing public outreach. In this manner, the Board cultivates public trust and safety by ensuring the State of Oregon is served by naturopathic professionals providing the highest standards of care.

The Board of Naturopathic Medicine held a strategic planning retreat in April 2024. The OBNM Strategic Plan adopted and published by the Board identifies action items —tasks the Board and the Executive Director agreed to undertake in the near term relative to each area of the Board's primary responsibilities. The Board is committed to advancing and improving the Board's performance of its duties through the identified concrete actions.

Part of the OBNM Strategic plan includes a commitment to repairing the impact of past or present discrimination, intended or unintended, increasing diversity of licensure applicants and current licensees. With an equity lens, the Board will conduct a broad assessment of the way the Board communicates to and with potential applicants for licensure and current licensees; with an emphasis on persons that hail from or practice in communities encompassing a wide geographic range and range of identities, e.g. race, ethnicity, tribal affiliation, gender, sexual orientation, disability, age, religion; and residence - rural areas, tribal lands, economically distressed and disadvantaged communities; through collection of demographic licensure data, surveys, and focus groups across the State of Oregon.

OBNM will promote communication between the state agency and tribes and government-to-government relations between the state and tribes, by developing an outreach strategy to create an inclusive and equitable recruitment and application process that leads to a more diverse pool of applicants for licensure, as well as support and retain licensees that serve and practice in communities encompassing the afore stated geographic range and range of identities.

Through in-person and virtual engagement activities; the Board members and Executive Director will listen and learn about experiences, perspectives, real and perceived barriers impacting potential and

actual applicants for licensure, as well as affect retention rates of current licensees, from the identified communities and individuals.

All staff and Board members have a copy of the strategic plan, and the plan is published on the Board website. The Board will review, and track progress made on the strategic plan initiatives at the bi-monthly Board meetings. Board Executive Director Mary-Beth Baptista, JD and Board Chair Dr. Ryan Minarik, ND are responsible for developing and implementing programs of the state agency that affect tribes.

As part of the October 2023, Attorney General's Public Law Conference, ED Baptista attended the session "Tribal Relations: Respecting Sovereignty in the Government-to-Government Relationship." Unfortunately, due to budget restrictions, neither the Executive Director nor the Board Chair were able to attend the 2024 Tribal-State Government-to-Government Summit, co-hosted by the Cow Creek Band of Umpqua Tribe of Indians in July. I hope the Board will have the funds to send a representative to the next summit. In the interim, I look forward to working with the Governor's Tribal Affairs Director, Shana McConville Radford.

Please let me know if you have any further questions about the work or mission of Board of Naturopathic Medicine. We are eager to collaborate with the Commission and we look forward to a productive working relationship.
