- Name of the county (provided that there are five or more certified foster homes in the county) where DHS conducted an investigation pursuant to section 37, chapter 106, Oregon Laws 2016;
- The approximate date the abuse occurred;
- The nature of the abuse and a brief narrative description of the abuse that occurred;
- Whether physical injury, sexual abuse or death resulted from the abuse; and

Time Period: Child Welfare certified foster home abuse reports substantiated from April 1, 2020 to June 30, 2020. Reports may have been received prior to the reporting period.

Summary: Twenty-three (23) current Child Welfare certified family foster and relative caregiver providers had a founded allegation against them during this reporting period.

Note: There were approximately 4,000 Child Welfare certified family foster and relative care providers throughout April to June 2020.

Explanation of terms: Child Welfare is responsible for investigating allegations of abuse or neglect in certified foster homes. All applicants who apply to become a foster or relative caregiver family for Child Welfare must be assessed and certified under the same set of rules and procedures.

There are 2 types of certificates:

- *General Certificate of Approval:* Issued to individuals who do not have a previous relationship with a child in care and are applying to become foster parents for the general foster child/young adult population.
- *Child Specific Certificate of Approval:* Issued to individuals to provide care for a specific child/young adult, including relatives of the child/young adult or others who know the child or family of the child needing placement.

ICPC (Inter State Compact for the Placement of Children): A case where a state requests Child Welfare assess and certify a home for placement of a specific child from their state.

Inactive referral status: A designation given to a foster home or relative caregiver home where no additional children may be placed in the home.

Review process when there is an allegation of abuse in a child welfare certified foster or relative caregiver home:

Field offices are required to submit a “Sensitive Issue Memo” each time there is an allegation of abuse in a Child Welfare certified home. The memo is sent electronically to management/leadership of the Department.

Field offices are required by Oregon Administrative Rule and Child Welfare Procedure to staff all concerns (allegations of abuse, closed at screenings, or other concerns). This staffing involves

certification staff, CPS staff, and casework staff for each child placed in the home. Concerns/allegations are discussed, and a plan is developed.

When there is an assessment of abuse in a foster home, the home is placed on “inactive referral status” and no additional children may be placed in the home.
