Four (4) temporary Oregon Administrative Rules were filed by the State Marine Board:

Amended 250-030-0110 March 26, 2020

This rule was needed to protect boaters from entering a river system with uncertainty around access points and to establish consistency between boating regulations and other local restrictions necessitated by the Novel Coronavirus pandemic. This temporary rule was also needed to ensure social distancing measures, as required by the Governor, were followed in this heavily used waterway.

Amended 250-030-0130 March 26, 2020

This rule was needed to protect boaters from entering a river system with uncertainty around access points and to establish consistency between boating regulations and other local restrictions necessitated by the Novel Coronavirus pandemic. This temporary rule was also needed to ensure social distancing measures, as required by the Governor, were followed in this heavily used waterway.

Amended 250-020-0221 August 31, 2020

This rule was needed so that the fire suppression crews were able to work effectively and so that boaters were not endangered by the suppression activities.

Amended 250-020-0221 September 9, 2020

This rule was needed to end the temporary restriction put in place in August as the fires were 100% contained and it was no longer needed.
