

## POTENTIAL METRICS FOR DIESEL PROGRAM

### Population Affected

- Density
- Vulnerability (age, health-compromised, resilience)
- Known health status

### Geography

- Physical characteristics
- Attainment Status

### Industry or Portion of Industry

- % of emissions produced
- Special characteristics of industry – e.g., school buses
- Ability or inability to regulate (e.g., rail)

### Company Type

- Volume of Emissions
- Size of company (# of employees, financial resources)
- MWESB

### Equipment Type

- On Road/Off Road
- Year Produced
- Years of Service for Owner
- Miles/HP/Hours of Service

### Cost/Benefit

- Available technologies
- Leveraging effect of certain programs

### OTHER

- Fleets – public vs private
- Seasonality of use
