Rep. Evans Applauds Passage of House Bill 2611 to Keep University Costs Down

Today, the Oregon House of Representatives voted to pass House Bill 2611, an important bill that will help in the effort to keep tuition affordable for Oregon families and students at all campuses by ensuring that the universities are sharing costs and can gain savings from the combining of all seven campuses.

“This bill is a force-multiplier for Western Oregon University and House District 20,” said Representative Paul Evans (D-Monmouth).

“I believe HB 2611 is a critical bridge for the Technical and Regional Universities (TRUs). The TRUs do not have the administrative overhead the big three do,” Rep. Evans adds. “This bill secures the continuity of baseline policies, protocols, and services that will assist the universities and the students attending these universities during the upcoming transitional period.”
