Representative Hack To Participate In Prestigious Leadership Development Program

Salem Representative Among 48 State Officials Selected For Council Of State Governments Toll Fellowship

Salem, OR – Representative Jodi Hack has been chosen by the nationally recognized Council of State Governments to participate in the organizations [Henry Toll Fellowship Program](#). The fellowship, which includes a diverse group of state officials from across the United States, seeks to provide participants with high-level policy and leadership training and offers an opportunity for networking and relationship building.

“I’m incredibly honored to have been chosen to participate in this program,” said Rep. Hack, who was one of 48 of officials selected by a panel of Toll Fellowship Program alumni. “Opportunities like this provide me with the chance to continue developing my leadership skills, advance my knowledge of public administration and policy, and build lasting relationships with leaders and policymakers from around the country. I’m looking forward to bringing this new knowledge home with me and putting it to work to the benefit of my constituents.”

As a member of the fellowship, Rep. Hack will travel to Lexington, Kentucky this August for intensive training and workshops. The bipartisan program includes training on topics including adaptive leadership, media training, crisis management, appreciative inquiry and many others.

The [Council of State Governments](#) is one of America’s top leadership organizations for government officials. According to CSG’s website, “CSG is a region-based forum that fosters the exchange of insights and ideas to help state officials shape public policy. This offers unparalleled regional, national and international opportunities to network, develop leaders, collaborate and create problem-solving partnerships.”
