

Dear Isabel Hernandez:

As a grandmother I am very concerned about the quality of the air we are all breathing. I want my government to work toward protecting the quality of the air which has been deteriorating over the years.

This senate bill is a first step toward that. In addition I am dismayed by the changing weather and the damage it brings to people and homes. Not to mention the horrific year we have had with wild fires which consumed such a large portion of our State.

Please do all you can to pass Senate Bill 1070. It is one of my highest priorities.

Thank you,
Dorothy Stern-kucha
