

Dear Ms Hernandez,

I have recently been informed that it is being proposed that carbon emissions from logging and commercial tree plantations, on public and private land, be included as part of the Clean Energy Jobs bill - SB 1070. I strongly support this proposal, since it has been established that timber industry emissions constitute a large percentage of Oregon's total carbon emissions profile. I hope that this proposal will be incorporated into the bill, and into the final legislation.

Thank you,
