Leader Bowman Slams Trump Policies After Revenue Forecast

House Majority Leader reacts to the morning's revenue forecast showing high prices as a result of Trump's unpopular policies are impacting Oregon's economy

SALEM, Ore. – Today, **House Majority Leader Ben Bowman (D-Tigard, Metzger, & S. Beaverton)** issued the following statement on the Revenue Forecast released this morning by the Oregon Office of Economic Analysis:

"The Trump Administration's policies – entering a deeply unpopular war and recklessly jacking up tariffs – are harming Oregon's economy and making life more expensive for working families. This forecast makes that clear.

These choices are driving up gas prices. That makes groceries more expensive. It makes summer vacations more expensive. It even makes interest rates higher for people trying to buy a home. Every time Trump makes an impulsive decision, it hits working people hardest.

We have to focus on lowering costs and creating jobs. That's what Oregon Democrats are doing."
