Majority Leader Julie Fahey on Revenue Forecast: Investments in Working Oregonians and Small Businesses Are Working

SALEM, Ore. - Today, [Majority Leader Julie Fahey](#) (D-West Eugene/Junction City) issued the following statement after the release of the latest quarterly state economic and revenue forecast:

“Today’s forecast shows strong economic growth for the state, a testament to the investments we’ve made in working Oregonians and small businesses. But our job isn’t done. We must make sure this recovery reaches every corner of the state—not just massive corporations or the wealthiest of individuals.

“With continuing economic growth, Democrats are committed to protecting critical programs and services needed to combat inflation and drive down the cost of living for working families—including the costs of housing, health care, and child care—so that we’re building a future where everyone has a chance to thrive.”
