Statement from House Majority Leader Jennifer Williamson on March Revenue Forecast

Oregon's economy continues to grow; need for prudent budgeting practices continues

This morning, state economists released the latest quarterly Revenue and Economic Forecast. House Majority Leader Jennifer Williamson released this statement:

“This morning’s forecast shows continued good news for Oregon’s economy, as we continue on a track of solid growth. As ever, the need for prudent budgeting practices is clear in order to weather any economic changes in the future, protect the critical services that Oregonians depend on, and make the best use of taxpayer dollars.”
