Statement from House Majority Leader Barbara Smith Warner on December Revenue Forecast

SALEM – Oregon House Majority Leader Barbara Smith Warner (D-Portland) issued the following statement on the release of the December revenue forecast:

“Today’s economic forecast is great news for Oregon. We have record reserves, and for the first time since 1979 the median household income of Oregonians is above the national average. From significant investments in education to providing our citizens with the health care they deserve, it is clear that the work we are doing is moving our state forward. We must ensure that we are making prudent decisions that keep us on the right track. As we face the growing costs of climate crisis to our state, both economically and to public health, we must ensure that during these good times we are investing in a better future for every Oregonian. The time for action is now.”
