Statement from House Majority Leader Barbara Smith Warner on the March Revenue Forecast

SALEM, Ore. – Oregon House Majority Leader Barbara Smith Warner (D-Portland) issued the following statement on the release of the March revenue forecast:

“Over the years, Oregon House Democrats have passed legislation to increase the minimum wage, ensure strong protections for working people, increase access to health care and make historic investments in our public schools. We have proven that you can invest in people and the services that they count on while also fostering a historically strong economy and prudently managing state finances to save for a rainy day.

“While we are proud of the work that we have done, we recognize that there is more work to do. We must continue to ensure that prosperity reaches far and wide across Oregon, to both the rural and urban parts of our state. We must also take action while times are good to address the most pressing issue of our time: climate disruption. Working together, we will continue to fight for a better future for every Oregonian.”
