Statement from House Republican Leader Christine Drazan on Revenue Forecast

SALEM, Ore. – House Republican Leader Christine Drazan (R-Canby) issued the following statement following the release of the quarterly economic and revenue forecast:

“Thanks to hardworking and enterprising Oregonians, our economy is strong and continues to perform well. We are seeing a steady job market, good wages, and promising signs of growth. It is our responsibility as the Legislature to ensure that Oregon’s economy can continue to thrive. We must not further burden the individuals, job creators and entrepreneurs in our state who are creating this economy with more regulations that only hinder progress but instead foster an environment that allows Oregon businesses and families to prosper.”
