Budget framework fails to address fundamental issues

House Republicans urge adoption of Secretary of State audit findings to shore-up budget holes

SALEM, Ore. – House Republican Leader Rep. Carl Wilson (R-Grants Pass) issued the following statement regarding the Joint Committee on Ways and Means Co-Chair budget framework:

“This budget proposal makes clear the futility of attempting to fund our education system without addressing the PERS crisis. The late Secretary of State Dennis Richardson provided a roadmap to balancing the budget without raising taxes. I urge the supermajority to incorporate the Secretary’s recommendations into the budget process.”
