Record Revenue and Kicker thanks to Trump Tax Cut

After passing \$2.8 billion hidden sales tax, Democrat Supermajority scheming to deprive Oregonians of historic kicker

SALEM, Oregon – Today the State of Oregon announced it has a record amount of tax revenue and the kicker has reached a historic level of \$1.4 billion, thanks to the Tax Cuts and Jobs Act signed into law by President Trump in December of 2017.

“Today’s revenue forecast sends a crystal-clear message to the Democrat supermajority: when Oregon’s workers are allowed to keep more of their hard-earned money, wages rise, small businesses hire, people are lifted out of poverty, and families have an easier time making ends meet,” said House Republican Leader Carl Wilson (R-Grants Pass). “Let me make something else clear to the supermajority: every penny of the kicker belongs to the people, not to you. This constitutionally mandated check on excessive taxation must be honored and not raided for pet projects or to grow the bureaucracy in Salem. Every Oregonian deserves their fair share of the economic growth they helped create through their own hard work, and the kicker is part of that. Any attempt by Democrats to take their hard-earned kicker away from working Oregonians and squander it all on growing government or rewarding their campaign donors will be met with strong opposition by House Republicans.”
