House Republican Redistricting Committee members joint statement on release of 2020 Census Redistricting Data

SALEM, Ore. – Today the US Census released the 2020 Census Redistricting Data. House Redistricting Committee co-chair Shelly Boshart Davis released the following joint statement in response with fellow committee members Christine Drazan and Daniel Bonham:

“Today marks another important step in the process of redrawing Oregon’s political boundaries. We join our colleagues in committing to an open, transparent and collaborative process. At the same time, we recognize that Oregon’s current political maps have not produced equitable representation for minority communities and differing political views.

It is our shared responsibility to fix this. Over the next month and a half, we urge every member of the Legislature to reject partisan influences that are too often an inherent part of this process and to commit to producing fair maps that accurately reflect the diversity of the people of Oregon.”
