**Statement from House Republican Leader Christine Drazan on
Cap-and-Trade Legislation**

SALEM, Ore. – House Republican Leader Christine Drazan (R-Canby) has released the following statement:

“From the first day of this short session it has been clear that Governor Brown and the majority party have not had an interest in respecting the legislative process and have repeatedly refused to compromise. Each and every amendment we offered on Cap and Trade in committee has been rejected. I had remained optimistic up until yesterday that a compromise could be reached. Unfortunately, our attempts to achieve a bipartisan consensus that would take into account the views of all Oregonians were denied. Oregon House Republicans are taking a stand, with working families, in opposing Cap and Trade and this rigged process. We will continue to keep all lines of communication open. I call on Governor Brown and the majority party to refer Cap and Trade to the people.”
