### **Statement from House GOP Leader Carl Wilson on Revenue Forecast** *Tax revenue continues to pour in at higher than anticipated rates*

SALEM, Ore. – House Republican Leader Carl Wilson (R-Grants Pass) issued the following statement following the release of the quarterly economic and revenue forecast:

Today's revenue forecast reaffirms Democrats have an excess of revenue at their disposal. Tax dollars continue flowing into our state coffers at unprecedented rates, yet the Governor and Democrats in the Legislature seem determined to keep the constitutionally designated kicker dollars from returning to Oregon taxpayers.

We believe Oregon taxpayers deserve to see their hard-earned dollars returned to them. The \$748 million due to taxpayers under the kicker formula is real money in their pockets. That's nearly three quarters of a billion dollars, but you can expect Democrat shenanigans to peel off as much of the kicker as they can.
