Statement by House Speaker Tina Kotek on September Economic and Revenue Forecast

"Today's forecast shows that Oregon's economy remains stable.

"The forecast also highlights the importance of the Legislature's prudent budget planning. Because we ended the 2015 session with a strong ending balance, the state now has much-needed resources to fight the worst fire season in a generation – all while protecting the historic investments we've made in our K-12 schools, higher education, and other essential services."
