Exec., Legislative, Judicial Branch IT Expenditure Data by Fund Type

Published by Legislative Fiscal Office – July 2014

#### Preface

The state of Oregon relies heavily on its Information Technology (IT) Workforce, and the IT related hardware, software, and services in which the state invests to automate business processes, innovate, and provide better access to information and more efficient and effective services to employees, business partners, and the public.

Each biennium, agencies within Oregon's Executive, Judicial, and Legislative branches expend between \$900 million and \$1.2 billion on Information Technology-related staff, hardware, software, professional services, and ongoing hosting, maintenance, and support services. On average, this level of investment amounts to between ~1.4% and 1.9% of the state's total funds budget (~\$62.651billion for the 2013-15 biennium following actions taken during the 2014 legislative session). Further, it is estimated that between 75% and 85% of these expenditures are directed toward maintaining and supporting the state's legacy information systems and existing computing environments, which leaves only a small percentage of investment available for innovation and system modernization.

To plan for the future, the state of Oregon should endeavor to understand its current rate of IT investment at a detailed level and on an ongoing basis thereafter. To that end, this 2013-15 Oregon IT Expenditure Report is one of the first in a series of periodic reports the Oregon Legislative Fiscal Office (LFO) plans to publish on the state's IT operating environment. Future reports will focus on state IT expenditures, projects, workforce, and contracts and will be published within the IT Information section on the LFO Publications web page:

https://www.oregonlegislature.gov/lfo/Pages/Publications.aspx

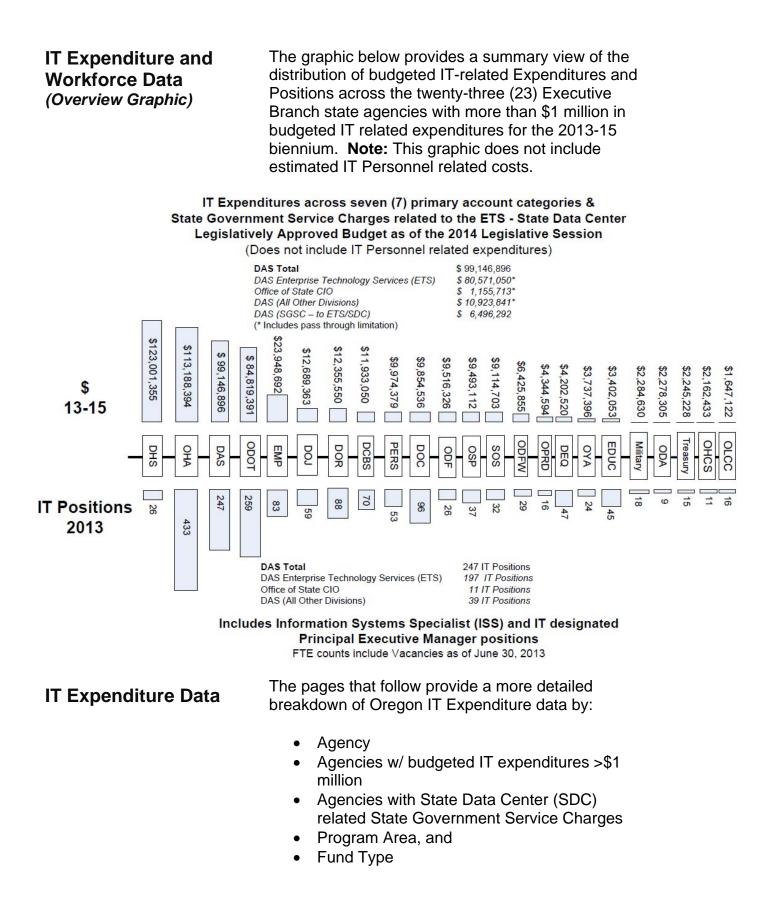

#### The following report provides a high level summary of Summary Oregon's Information Technology (IT) Expenditures authorized within the 2013-15 Legislatively Approved Budget as of the close of the 2014 Legislative session. This report includes Executive Branch, Judicial Branch, and Legislative Branch information, but does not contain Oregon University System, Oregon Health and Science University, Oregon State Lottery, or IT Personnel related cost information. Excluding items like general administrative costs and bond-related debt service, seven of the Oregon Budget Information Tracking System's (ORBITS) accounts and a set of IT-related State Government Service Charges comprise the best available budgetary record of Oregon state agencies' biennial investment in Information Technology and Information Resources.

Information Technology – related Expenditures	Statewide
Services and Supplies	13-15 (LAB) <sup>1</sup>
4200 – Telecommunications	\$ 80,784,459
4250 – Data Processing	\$ 81,743,493
4315 – IT Professional Services	\$208,430,962
4715 – IT Expendable Property	\$ 90,904,677
Services and Supplies Subtotal	\$ 461,863,591
Consider Outloar	Statewide
Capital Outlay	13-15 (LAB) <sup>1</sup>
5150 – Telecommunications Equipment	\$ 11,498,200
5550 – Data Processing – Software	\$ 11,821,050
5600 – Data Processing – Hardware	\$ 20,769,388
Capital Outlay Subtotal	\$ 44,088,638
	Statewide
State Government Service Charges	13-15 (LAB) <sup>2</sup>
Budgeted Expenditures for State Data Center Services	\$ 98,976,258
Total IT-related budgeted expenditures	\$604,928,487

#### 2013-15 Budgeted IT-related Expenditures – as of 2014 Legislative Session

**Note:** The seven ORBITS accounts reflect Executive Branch, Legislative Branch, and Judicial Branch information but do not contain Oregon University System, Oregon Health & Science University, or State Lottery information. IT Personnel related cost information is also <u>not</u> included, although a conservative estimate places these budgeted expenditures in the \$300 - \$350 million range based on historical averages. 1 - Legislatively Approved Budget (LAB) including Emergency Board actions through the 2014 Legislative Session

2 – State Government Service Charges – 2013-15 budgeted expenditures related to services to be provided to the State Data Center's eleven (11) primary customers as of the July 1, 2013 Legislatively <u>Adopted</u> Budget.

# Table 1: 2013-15 Exec. Branch IT Expenditures by Agency – Highest to Lowest Budgeted Expenditures (as of 2014 Legislative Session) \$573,922,677 in budgeted IT Expenditures across 68 Executive Branch Agencies

Analysis As the summaries on page 4 and 5 indicate, Oregon has budgeted ~\$605 million for IT-related expenditures in seven primary budget categories and IT-related state government service charges for the 2013-15 biennium. When an estimated \$300-\$350 million in IT-related personnel costs are added, 2013-15 budgeted IT expenditures climb to between ~\$900 - \$950 million, or ~1.6%-1.7% of the total funds budget (~\$54.829 billion, not including the Oregon University System, Oregon Health and Science University, the State School Fund and Other K-12 Grants, and the Oregon State Lottery).

Table 1 and the summaries on pages 4 and 5 that precede it provide information on the distribution of \$573,922,677 in budgeted IT Expenditures across 68 Executive Branch Agencies (as of the close of the 2014 legislative session). This amounts to ~1% of the Executive Branch portion of the total funds budget of ~\$53.962 billion. As the summaries indicate, only 23 of the 68 Executive Branch state agencies listed have budgeted IT-expenditures that exceed \$1 million. Further, the vast majority (just over 73%) of all budgeted IT-expenditures within the Executive Branch are associated with four state agencies – the Oregon Departments of Administrative Services\*, Human Services, Transportation, and the Oregon Health Authority.

Although there is a significant level of aggregation of Executive Branch IT-related expenditures within just a few agencies, at the Enterprise or macro-level that aggregation as a percentage of total budgeted expenditures for the agencies is not proportional to agency size or, seemingly, any other factor (e.g., program area, primary funding type, use of the State Data Center, etc.). There also appears to be a distinct lack of uniformity or consistency in the size of ITrelated expenditures in pure dollar terms and as a percentage of total budgeted expenditures within each of these 68 agencies. The current IT operating environment can be characterized as one driven by individual agency circumstances, choices, and priorities.

#### \* Notes

- Table 1 includes Executive Branch data but does not include any IT personnel related cost information. A conservative estimate places these budgeted expenditures in the \$300 - \$350 million range based on historical averages. The IT related percentage of total budgeted expenditures would rise from 1.06% to between 1.6% and 1.7% if an IT personnel-related cost estimate in that range were included.
- The IT-related expenditures for the Oregon Department of Administrative Services (DAS) are skewed. DAS is an Enterprise/Statewide IT Service provider to all state agencies and provides direct IT services to the Governor's Office and Teachers Standards and Practices Commission (TSPC).

## Table 2: 2013-15 Exec. Branch IT Expenditures by Agency – as of 2014 Legislative Session 23 Executive Branch agencies with budgeted IT expenditures > \$1 Million (~98% of total)

Analysis Table 2 provides information on the distribution of Executive Branch IT-related expenditures by agency for the 23 Executive Branch agencies with budgeted IT expenditures greater than \$1 million (as of the close of the 2014 legislative session). Table 3 provides information on the distribution of IT-related State Government Service Charges across the eleven primary State Data Center customer agencies.

> As Table 2 shows, these 23 agencies account for 98% of all ITrelated expenditures within the Executive Branch.\* That means that 45 of 68 Executive Branch agencies highlighted within Table 1 on page 6 account for ~ 2% or \$12,156,794 of the \$573,922,677 in total budgeted IT Expenditures.

- \* Notes
   Tables 2 and 3 include Executive Branch data but do not include any IT personnel related cost information. A conservative estimate places these budgeted expenditures in the \$300 - \$350 million range based on historical averages. Assuming the same percentage breakdown (98%), these 23 agencies would account for between ~\$294 - \$343 million of those IT-personnel related costs.
  - The IT-related expenditures for the Oregon Department of Administrative Services (DAS) are skewed. DAS is an Enterprise/Statewide IT Service provider to all state agencies and provides direct IT services to the Governor's Office and Teachers Standards and Practices (TSPC).

# Table 4: Summary - 2013-15 Exec. Branch IT Expenditures by Program Area(as of 2014 Legislative Session)

## Table 5: Detail - 2013-15 Oregon IT Expenditure Data by Program Area(as of 2014 Legislative Session)

Page 11 of 13

Analysis Tables 4 provides summary-level information on the distribution of 2013-15 Oregon IT Expenditure Data across the Executive Branch within eight program areas (as of the close of the 2014 legislative session): Administration; Consumer and Business Services; Economic and Community Development; Education; Human Services; Natural Resources; Public Safety; and Transportation.

Table 5 provides detailed information on the distribution of IT-related expenditures for the Executive Branch (across the eight program areas) and includes information on distribution of IT-related expenditures for agencies within the Legislative and Judicial branches as well.

As Table 4 shows, approximately sixty-five percent (~65%) of budgeted IT-related expenditures across the Executive Branch reside within two program areas: Human Services and Administration. Forty-one (41%) of all IT-related expenditures within the Executive Branch are budgeted within the Human Services program area alone.

Tables 4 and 5 show a significant level of aggregation of budgeted IT expenditures in just a few program areas. However, at the Enterprise or macro-level that aggregation is, generally speaking, not proportional to program area size. Further, Table 5 data depicts a complete lack of uniformity or consistency in the amount of budgeted IT-related expenditures both in terms of dollars and in the IT-related percentage of total budgeted expenditures within each of the eight program areas by individual agencies or in composite. As program level IT expenditure/investment plans do not exist, the current program area IT operating environments can be characterized as being driven by individual agency circumstances, choices, and priorities.

#### \* Notes

• Tables 4 and 5 do not include IT personnel related cost information.

 The IT – related percentage of total budgeted expenditures for the Department of Administrative Services (DAS) and within the Administration Program Area are skewed as DAS is an Enterprise/Statewide IT Service provider to all state agencies and provides local area network, desktop, and email support services to the Office of the Governor and to other agencies outside the Administration program area.

#### 2013-15 Oregon IT Expenditure Data by Fund Type – as of 2014 Legislative Session

Expenditure Category	2013-15 LAB
Telecommunications (S&S) - Account #4200

 IT-related Expenditure Summary by Fund Type

 General Fund
 \$ 69,908,598

 Lottery Funds
 \$ 2,388,518

 Other Funds
 \$ 281,071,441

 Federal Funds
 \$ 152,583,672

 Totals
 \$ 505,952,229

**Analysis:** Approximately 41%, or \$208,420,962,\* of budgeted IT related expenditures are being utilized for IT Professional Services (i.e., contracting). Typically, agency activities funded by General Fund (GF) and Lottery Fund (LF) dollars receive a closer level of scrutiny and attention than activities funded by other funding types. Within the Information Technology domain, this practice should change as the vast majority (~ 86% - \$433,655,113\*) of all budgeted IT-related expenditures are funded through Other Funds (OF) and Federal Funds (FF). \* Note: *Totals do not include IT-related State Government Service Charges or IT-related personnel costs.*
