Background Brief on ...

Public Health Facts

*Prepared by: Rick Berkobien &
Erin Seiler*

The following are a series of “at-a-glance” *Background Briefs* on selected public health conditions and issues. These fact sheets were developed by Dr. Mel Kohn, State Epidemiologist, and Public Health Division staff at the Department of Human Services.

For more information on the data or information in following pages, please see the contact telephone number on each individual fact sheet, or contact:
