**REP. MIKE MCLANE
STATEMENT ON MAY REVENUE FORECAST**

House Republican Leader Rep. Mike McLane (R – Powell Butte) issued the following statement about the May Revenue Forecast:

“The May Revenue Forecast shows the beginning of recovery for some parts of the state. Some improvement, however, does not discount the need to continue to talk about reforming cost drivers to the budget like the PERS unfunded liability, and helping Oregon businesses continue to create jobs and put people back to work. Private sector job growth is the key to economic recovery and funding critical government services.”
