

Mr. Secretary:

Please enter this Executive Appointment vote explanation in the Senate Journal for today. Recall my reference on the floor of this submission.

“Executive Appointments today contained numerous volunteers who would serve Oregon well. However, some of the re-appointments from medical and regulatory boards that took legally questionable actions in 2020 to 2022 should not have been re-appointed today. Complaints and investigations in regard to crimes against humanity and genocide continue, violations of the Nuremburg Code, Genocide Convention, Helsinki Agreement, Geneva, Hague and Vienna Conventions will as history displays catch up with the administrative, medical and judicial violations of the past four years. The actions of individuals will in the future before public prosecutors but should not taint the other good volunteers today despite this Senators no vote.”

Please place in the Senate Journal per the Senate Rules and Oregon Constitution for future reference.

Formally requested,

Brian J. Boquist

Oregon State Senator
