

Secretary: Vote explanation please. Senator Boquist

“HB 3000, HB 2927 and HB 2740 came to the floor with minutes notice. All such bills with no notice after 5 supplemental lists got no votes today. HB 3000 was a “D” version meaning amended at least four times by committees changing the original bill dramatically. We must help rural SW Oregon but the changes after four iterations including new property seizure clauses and giving Oregon Health Authority not law enforcement authority the bill simply does not help in the end. The bill passed but will need serious changes in the next Session.”
