

Secretary: Vote explanation please. Sen Boquist

“HB 2113 changes to the Oregon Medical Board should not be implemented until the entire board is replaced. The OMB was directly involved in crimes against humanity and genocide regarding locking seniors and others in homes to perish and their involvement in the lockdowns regarding symptomatic Covid 19 (CDC definition). Further, allegations include systematic child abuse statewide and manslaughter of seniors. The entire board like their predecessors in Germany tribunals should be charged by the ICC.”
