

Secretary: Vote explanation please. Sen Boquist

“HB 2119 moves the 211 oversight from the Military Department to DHS which is completely incompetent. While 211 may need moved it should not be to this agency. The poor performance over the past four years of DHS has been a huge issue in the Legislative Assembly. Its cost overruns along with the death of individuals in my District as a direct result of failures or intentional actions cannot be overlooked.”
