

OREGON STATE SENATE

Aside from my concerns with this Session all together and its constitutionality, I was very disappointed that the Majority Party was not willing to adopt the Minority Report presented. While it is well known that I could not have voted yes on the measure because of the current situation at the Capitol, I very much supported the Minority Report. It was a better bill, yet the Democrats decided to go with Party instead of policy. I voted no, because there was a better option, but the ruling party did not want to take it.
