

Secretary: Vote explanation please. Sen Boquist

“HB 2526 replaces Columbus Day with Indigenous Day instead of giving true Native Americans their own holiday. Strange the virtue signally proponents inside the Legislative Assembly did not want to give indigenous people their own day. Instead they want to revise history. It is inappropriate to only give the first people a ‘hand me down’ day. They deserve better. If the legislature wanted to revise history then it should have removed the name of Lane County named after Joseph Lane the Vice President candidate for the Southern States in the 1860 Presidential election as example. Oregon’s most famous Democrat.”
