

OREGON STATE SENATE

I believe that this bill creates a dangerous precedent for our government. In the measure it stipulates that “‘Resident’ does not include a person: Who merely owns real property or pays property taxes in this state.” I would argue that if an individual pays taxes to this state, especially a tax like property taxes which are consistent, they should be able to benefit from the programs that those taxes help subsidize. To discriminate and to deny an individual who pays taxes to this state access to a program whose cost is offset by those same taxes is flat out wrong.

Furthermore, Constitution of the State of Oregon clearly states that “The deliberations of each house, of committees of each house or joint committees and of committees of the whole, shall be open...” This provision was put in place to ensure accountability and transparency to the people of the state that their Legislature was working in their best interest. The virtual format that is being used does not provide for an honest, open, and transparent discussion on the matters of this state.

We are seeing just how discriminatory these virtual sessions can be! The Majority Party has created a system that if you cannot afford internet you cannot be a part of the discussions. This “Pay to Play” approach is NOT the Oregon way. Between this and the heartbreaking examples of the elder and economically depressed members in our society struggling and getting frustrated over their challenges navigating this virtual environment, it cannot honestly be said that we are doing the peoples work.

The “People’s Work” should be considered an essential service and there for accessible in person. Because the people are still being denied their constitutional right to participate and lobby their legislature in an open manner, and because this bill would treat tax paying individuals as foreign, I voted no!
