

Secretary Brocker:

Please enter the below vote explanation.

Sen Boquist

“SB 1511 is an eleven page repeat of a bill that failed last session. Today was the first time it was heard of by this member. It is politically designed to help one property in Silvies Valley that was subject to state sanctions. The sunset is testimony to this fact. The news story and reports are pretty explicit on the issue being political in nature. The bill is not appropriate for the short session as the issue needs wider vetting if nothing else notification. The beaver pond or beaver dam techniques may be appropriate but again the vetting needs a long session if this is scientifically true for Oregon.”
