

Sec Brocker: Vote explanation. Sen Boquist

“SB 1567 is a ten-page bill. Carrier outlined some confusion that apparently exists. Claims the minor changes will help improve accountability. The two examples provided regarding racial issues were powerful plus other cases were outlined in private. Should this bill not resolve the issue raised by the Carrier it should be reviewed in the future. Supposedly a work group product. While some information presented on the Floor did not appear to be accurate, none-the-less, proceeding was important regardless of the confusion between accountability and collective bargaining.”
