

Secretary: Vote explanation please. Sen Boquist

SB 128A addresses the procedure of having two medical personnel present at the time of a fluoroscopy. This issue should have been resolved at the medical board level not the legislature. Mandating two individuals simply increases the cost to the patient. OHA and OSBN should have resolved this issue. Health care costs need to be reduced, not increased, especially since the majority of health care in Oregon is now subsidized by the taxpayers; state and federal.
